**ON THE POLITICAL FRONT**  
It is hardly possible, of course, that the Legislature might not grant to the town of Manchester such a charter provision as this, which would make the school Board, subject to the determination of a single taxing authority. In that event, and in order to avoid the possibility of such conflicts as have arisen in other communities between taxing authorities and boards of education, it may be suggested that if the Board of Education is not to be held to the same accountability and limitation as other town departments, it be cut out from the general taxing authority and be empowered and required to lay its own tax.

**REMEMBERING Aunt Clemmie**  
Aunt Clemmie is a fine reminder of her time. Nowadays one needn't rise with the birds to be sure of a full market basket. There, in the advertisements, are facts—sound, solid facts—about prices and quality. Advertised, trade-marked merchandise MUST be honest merchandise. Or it wouldn't be advertised.
