Wake Up Manchester Tax Payers

In answer to false rumors, I wish to state there is not enough money in the town of Manchester to buy my property.

Yes, when there is an adequate proportion, and equal distribution of our tax money, East, West, North and South, rich men's sections and poor men's sections alike, then I will quit.

There will be no approval of Golf Links, Globe Hollow and Indian parks as long as the poor man must travel out into the mud and snow to get out of his home.

LONDON PAPERS DECRY BELFAST VISIT BY KING

Criticize Official Plan Involving "Peril"; Land Bomb Blast Is Admitted After Royalty Had Left City.

London, July 28.—(AP)—Protest against the official arrangement that King George VI and Elizabeth to Northern Ireland for a coronation celebration that was marred by widespread political terrorism was voiced here today.

The Daily Mirror, referring to the peril involved in the visit yesterday, said: "May we ask why it was thought necessary for the King and Queen to go to Belfast?"

Belfast police carried on an exhaustive inquiry of a general land mine which exploded near the route of the royal procession and which was not arrested in that connection.

The Ulster authorities declared the explosion at a warehouse was deliberately planned and executed but there was no official intimation that it was an attempt on the life of the King. Rather, it was thought, the terrorist had tried to disrupt the King's main power and light plant, which was nearby.

Mum Till King Had Gone Belfast authorities announced last night that the King and Queen were safely aboard the royal yacht and enroute to Belfast, where they are expected to arrive tomorrow.

There was found in the hole caused by the explosion what looks like a bag of rags and which contains some explosive. Explosives in the bag had been set against a store and to the explosive was attached a considerable length of fuse—possibly a time fuse. The fuse was found in the possession of the police.

The mid-day explosion, within a half mile from where George and Elizabeth were riding to city hall, was not one of an array of sabotage and terrorism that was credited to Irish republicans who are opposed to the monarchy.

Northern Ireland's civil guards secured the desolate hills of the coast and Irish Free State frontier where most of the outrages of the past year took place.

The Daily Mirror's comment on the "Peril" was biting. It referred to Belfast's cauldron of religious and political hatred and said: "What chance has a trip to the borders for the King and Queen?"

ELDER ACQUITTED OF THREAT CHARGE

Jury Takes Four Hours to Free Elderly Educator; Happy Over the Verdict.

Greenfield, July 28.—(AP)—A free man, former Dean Thomas E. Elder of Mount Hermon school today returned to his home in Greenfield after a four-hour trial.

Elder was charged with threatening to kill Stephen Allen, a Franklin county farmer, and another man named John W. Keene, N. H. hotel instead of in front of North's home, pointing a gun at the retired school teacher on a moonlight spring night three months ago.

And the bushy-haired, elderly educator was admittedly happy at the verdict of innocence—verdict he said he "was always confident" of receiving from a jury in this community "I have come to regard as sacred."

His tanned face, worn and tired eyes, and the slight tremor in his hand as he signed a writ of acquittal with a witness.

C. Brown, former editor of the Greenfield Free Press, said the clerk of Court Hugh Adams asked for a witness.

Klaus His Wife His blue eyes sparkling, the nationally-known authority on cattle turned to his loyal wife and mother-in-law, Mrs. Gertrude, and kissed her.

Her face lit up with a smile as she followed her husband to the courtroom where he was acquitted.

Thomas J. Hammond, "There will be no more of this sort of thing," he declared sternly.

Chairs in the crowded courtroom scraped. A few of the men in the audience turned their heads to look at the judge. "See that order," snapped the judge.

Order was restored. The \$10,000 bail that Elder provided that he might go free since he was acquitted.

AMERICANS IN PERIL AS JAP PLANES RAIN DEATH ON TIENTSIN

Thousands of Non-Combatants Killed and Injured; Death Struggle on When Chinese Armies Make Surprise Attack That Threatens to Drive Foes from City; Peace at Peiping Where Chinese Withdraw Troops from City.

By Associated Press. Planes from Japanese aerial bombardments rained through sections of Tientsin tonight after planes bearing the red insignia of the China sun took a toll declared by Japanese to be thousands of non-combatants, women and children killed and injured.

The bombardment, carried out by the Japanese in an attempt to rout a Chinese attack that threatened to drive Japanese from the city, endangered the lives of many Americans and other foreigners.

Lieut. General Kiyoshi Katuki, Japanese commander in North China, told foreign correspondents the action was to "protect" the 10,000 Japanese who live in the Tientsin Japanese concession.

He declared his men planned to drive Japanese troops within two miles of Peiping.

Among the 1,376 Americans in Tientsin was Lieutenant Paul W. Caraway, son of Senator Hattie W. Caraway of Arkansas.

Peace came at Peiping and Chinese troops withdrew and General Sung Cheh-Yuan, commander of the 29th Chinese Army, went out and General Chang Tzu-Chang, Japanese commander of the 38th division became chief authority in the area.

Death Struggle On In Tientsin Tientsin, July 28.—(AP)—Japanese warplanes bombed the city of Tientsin today, endangering the lives of thousands of Americans and other foreigners, in a dramatic effort to rout a Chinese attack that threatened to drive the Japanese army from its North China stronghold.

The principal building of the gateway city to North China, including former Nankai University, the central railway station and the militia headquarters, were in flames.

The Chinese international bridge connecting the foreign concessions and the Chinese city was ablaze. Americans were building in cellars of the foreign concessions to escape the hail of bombs.

Chinese and Japanese troops were locked literally in a death struggle, fighting hand-to-hand in the streets with their entrenchments at places less than one hundred feet apart.

Three Chinese armies struck simultaneously during the early morning at Japanese troops entrenched along a 35-mile front in the major drive to force the Japanese army out of North China.

The battle which centered on Tientsin was being fought from Tangku, Tientsin's port 20 miles to the east, to Fengtai, Japanese field headquarters west of Peiping. The Chinese attacked suddenly and swiftly and by strength and surprise drove the Japanese from the three key railway stations and invaded the city.

At mid-afternoon Japanese warplanes began bombing the Chinese positions throughout the city with an official car, but frequently returned to the safety of the Japanese areas and the American and other foreigners resident there.

The seriousness of the situation, work as hard as a did for his name. His duties are confined largely to the Navy's shore stations, where ships are constructed and repaired. It is a sort of industrial headquarters for the Navy.

Edison's aides say he has inherited his famous father's enormous capacity for work. He arrives at the office early and remains until after 9 p. m. most days.

One of the best stories told of him is that he took the train to the company headquarters of the Washington Navy Yard. The government furnishes him an official car, but frequently when he visits the Navy Yard he takes a private car.

There are some differences, of course, but for one thing, Edison was a civil service man. He was not a member of the civil service.

Discord With the House Seen, However, as Senator's Committee Puts O. K. on Possible 35-Hour Week

Washington, July 28.—(AP)—Agreement to defer two controversial issues cleared a path today for a quick Senate vote on the 35-hour week bill.

The House Labor Committee today wrote drastic changes into the bill, but the Senate Labor Committee was curtailing by Senator Vandenberg's decision not to press for an anti-labor legislation.

Backyard Show Buds Into Fine Performance

Girls Build Up Program That's Highly Enjoyable—Present It In Auto Sales-room Last Evening.

The girls in blue and pink wore a white and pink white tulle ballet skirt. One showed a pink. She wore a flower tiara of matching color.

Norman Pratt and Edna Margaret McAllister gave a very good exhibition of acrobatic and gymnastic feats. They were Miss Gardner's pupils.
