

CHENEYS MAY SELL MOST OF HOLDINGS IN HOUSE PROPERTY

Survey Now Being Made of 271 Dwellings With View to Possible Disposal; Some Properties Would Be Reserved in Any Event Official of Company States.

The possibility that the very large housing holdings of Cheney Brothers, valued at more than a million and a third dollars, will be offered for sale in the not distant future was revealed today and caused more than a little excitement in those realty circles where the possibility was regarded as a probability.

Occupants of the many score of Cheney-owned dwellings recently received identical notes from the concern notifying them that a survey of all Cheney houses would be made in the near future by two government agents and requesting the tenants to admit the agents to their premises when they called.

Considerable curiosity was aroused among the tenants by this note who could find no explanation of the intended survey in the fact that the Reconstruction Finance Corporation, recently took a blanket mortgage on all of the Cheney concern's property.

It became known today, however, that wholesale disposal of its housing property was under contemplation by the company.

Some To Be Reserved A few of the 271 dwelling places owned by the firm will not be included in any disposition by sale, it was understood, but a large majority of them may be sold in line with a policy of Cheney Brothers during recent years in which the company has attempted to dispose of all its investments other than those directly related to the manufacture of silk.

"The company is considering the desirability or not of disposing of some of its housing properties," Clifford Cheney, plant manager of Cheney Brothers, stated to the Herald. The company is now conducting a survey of the individual properties and plots which make up the whole holding. No decision has been made at this time as to whether the property will be sold or not; or the method in which the sale will be made if a decision is made to sell.

Owms 271 Dwellings The company owns 271 dwellings located on Cedar, Pleasant, High, Walnut, Pine, Cooper Hill, Cooper, Fairfield, North Fairfield, Division.

ROOSEVELT SOUNDS "HANDS OFF" NOTE

His Secretary Announces He Is Taking No Part in Tammany Hall Dispute.

New York, Aug. 10.—(AP)—President Roosevelt was pledged today to a "hands off" policy in New York City's stalling mayoralty campaign as the rival Democratic candidates traded bitter recriminations.

Stirred by reports the Chief Executive had promised to support Jeremiah T. Mahoney, pro-New Deal Democrat, for mayor, Marvin McIntyre, White House secretary, issued this statement:

"The President repeated for the twentieth time that he has no part in it, is not taking part and will not take part in any local primary election except in his home town and home county."

The reports, printed in some New York newspapers, arose after Edward J. Flynn, Bronx Democratic leader backing Mahoney, visited the President Sunday at Hyde Park. The "official" denial came a few hours before the President left last night for the capital.

"Destroyed Harmony" Before it was issued, Senator Royal S. Copeland, Mahoney's rival for the nomination and a critic of many Roosevelt measures, said the chief executive had done more in five minutes to "destroy Democratic harmony than can be re-established in a generation of Jefferson Island picnics and peace dinners."

Senator Copeland asserted Flynn was receiving a \$12,000 a year salary as New York's secretary of state and \$10,000 annually as commissioner of the World's Fair.

"Mr. Flynn is not a leader—he is a political cowboy, lassoing all the

GOLF LOT DEAL KILLED, ZONING IS POSTPONED

Town Meeting Turns Down Fiscal Year Change, Puts Ban On Sales from Parked Vehicles; Heat a Factor.

Purchase of the Old Golf Lots was refused, sale of goods from parked vehicles was banned, adoption of a zoning ordinance, was postponed until the annual town meeting and a proposal to change the fiscal year was indefinitely postponed during a special town meeting last night in High School hall.

Plans for informal discussion of charter amendments on which a vote will be taken a week from Friday, August 20, fell flat when everyone left the hall as soon as the business session adjourned.

Approximately half of the 450 persons attending the meeting departed after action had been taken on the four major items up for action.

Routine Proposals Adopted Action on 19 routine proposals consumed but a short time, during which five streets in Stonehaven tract were accepted by the town. The Selectmen were authorized to condemn land in the rear of the West cemetery and to sell land owned by the town the value of which does not exceed \$1,000, and 12 deeds of property to the town were accepted.

The entire meeting consumed about an hour and a half. It was very warm in the hall on the third floor of the High School building, causing many of those attending to leave early and contributing to the lack of interest in charter revision.

Following the election of Judge Raymond A. Johnson as moderator, Judge William S. Hyde anticipated that most of the discussion would center on the proposals to purchase the Old Golf Lots and to change the fiscal year and influenced the meeting to consider them first.

Buckley Only Opponent William E. Buckley, member of the Board of Education, was the only opponent to the recommendation of the Selectmen that the offer for the Old Golf Lots be rejected.

Following the rejection of the offer for the Old Golf Lots, the Board of Selectmen said rejection was proposed.

N. E. COUNCIL HEAD RAPS FDR'S PLANS

James W. Hook Joins Two Governors in Opposing Federal Control of Power.

Boston, Aug. 10.—(AP)—James W. Hook, president of the New England Council, composed of business leaders of the six states, today joined Governors Francis P. Murphy (R., N. H.), and George D. Alken (R., Vt.), in opposing suggested federal control of power rights in flood control projects here.

"New England will sacrifice the prospective benefits of the flood control program if it is obliged to choose between such benefits and the surrender of any rights over its streams enjoyed by its states under existing law," he said in a letter to President Roosevelt.

A resolution introduced in the U. S. Senate by Senator Fred H. Brown (D., N. H.), who described it as an administration measure, would reserve to the Federal government power rights in flood projects on the Connecticut and Merrimack rivers.

Beyond their value for power purposes, Hook wrote in his letter, released here by the Council, "the rivers and streams of New England constitute our most important single natural resource, essen-

Bachelors in Congress Find Wide Choice for Brides

Washington, Aug. 10.—(AP)—The campus of a co-ed college doesn't have any edge on Congress when it comes to providing background for romance.

A check-up on members who married while in office showed today that bachelors left in the House and Senate are few and far between. Lawmakers marry Presidents' daughters, waitresses, models, debutantes, nurses—and daughters of other Congressmen.

At least half a dozen married their secretaries. A few have raised offices of other members. Rep. S. Otis Bland (D., Va.), threatened several years ago to employ only men after two of his secretaries in succession married Congressmen. Paul Kvale (R., Minn.), and Frank Murphy, former Ohio Representative, were the marrying groons.

Rambon T. Wood, Representative from Missouri, brought his ex-secretary-bride to Washington this year. Two Senators whose wives once were their secretaries are Charles L. McNary (R., Ore.), and Robert M. LaFollette (Prog., Wis.). Fifteen years of work as employer and secretary preceded the mar-

Anti-Nazi Flareup in Wisconsin

With "Hitler Shall Not Pass" as their marching cry, anti-Nazi pickets are shown above as they jeered members of the German-American Volkbund meeting in their clubrooms at Kenosha, Wis. Volkbund members, barred by the town council from holding their annual picnic in a park, held possession of the sidewalk, pickets heckling them from the street. Sam Brown belts, military caps, puttees, dark trousers and white shirts mark the Volkbund members who responded to the call expressed on the sign in German above the hall. Its literal translation is "German groups in America, awake. It is in recognition of your German heritage that you must take part in the gatherings in this hall."

CIO MOVES TO SETTLE PATERSON STRIKE FIRST

Union Leaders Claim 60,000 Silk Workers Idle in Various States; Few in New England Are Affected.

Paterson, N. J., Aug. 10.—(AP)—The C.I.O. went after a negotiated peace in Passaic valley textile mills today, claiming its day-old general strike already had won "the fullest workers' victory."

The union estimated 60,000 workers were away from their jobs in New Jersey, New York, Pennsylvania and New England. The preliminary peace move, an order to the settlement committee of the Textile Workers Organizing Committee, applied only to the Passaic valley area, however.

Many employers here were either openly cooperating with the union or remaining passive toward the strike, expressing the hope that it would lead to establishment of a single standard of wages, hours and working conditions for the national textile industry. Spokesmen expressed a willingness to negotiate with the union, once the C.I.O.'s strength in the mills had been established.

Effective on Monday Union leaders said any agreement reached locally with employers, who were invited to negotiate, would not become effective before next Monday, in order to permit conferences for settlement in other areas before Passaic valley mills reopened.

The union demands 10 to 20 per cent wage increases, \$18 weekly minimum for weavers, \$15 minimum for auxiliary help, 40-hour, 6-day week, seniority rights among employees, and recognition of the C.I.O.'s textile workers organizing committee.

EXPECT NO SLUMP IN FARM INCOMES

Leaders in Congress Decide to Delay Price Stabilization Until Next Session.

Washington, Aug. 10.—(AP)—Chairmen of Senate and House agriculture committees predicted today that bumper crops now being harvested or in prospect will bring no abnormal slump in prices.

The views of the chairman, Senator Smith (D., S. C.) and Rep. Jones (D., Tex.), were echoed by other committee members who said recent price declines were "normal adjustments."

Both committees have decided to postpone action on price stabilization legislation until the start of the

DETACHMENT OF JAPS WIPED OUT IN BATTLE AT PASS IN NANKOW

IL DUCE VISITS SICILY FOR BIG GAMES OF WAR

Promises a 'Political Speech' at End of Maneuvers; Mock Warfare Will Be in Defense of the 'Football.'

Messina, Sicily, Aug. 10.—(AP)—Premier Benito Mussolini came to Sicily today to supervise large scale "war games" on this strategic island outpost, halting America's transplanted Sicilians, and made plans for an important political speech touching on international relations. The maneuvers are designed to test Italy's strength to resist possible invasion from the western Mediterranean and determine Sicily's qualifications for giving Italy command of the sea lanes to the Suez canal.

Turning from the mock warfare preparations, Il Duce paid the tribute to Sicilians who emigrated to the United States, with the declaration: "I wholeheartedly return your greetings and I include in you all Sicilians who live in other provinces of the kingdom and the empire, all Sicilians who keep the flame of Italian patriotism lighted on the shores of the Mediterranean and Sicilians on the other side of the Atlantic who, displaying the fundamental qualities of our race, have risen even to the highest offices of that great republic."

Orders Huts Replaced Mussolini added that he had come to Sicily to "see what has been done and above all to see what remains to be done."

He gave orders that the last of

'PEACE' DINNER FAILS TO STOP 3D TERM ANTIS

Copeland Offers An Amendment; Republican Women Gather for Parley on Revival of Women's Division.

Washington, Aug. 10.—(AP)—Democratic Senators and Republican women demonstrated today that even in August it is never too hot or too humid to talk politics. The Senators will forget their legislative differences at a stag dinner tonight—in an air conditioned banquet hall—for Senator Barkley of Kentucky, the new majority leader. They hoped President Roosevelt can attend. Participants have hailed it as a "harmony" affair to show that the party splits over the court bill and the Senate leadership have headed.

Republican national committee women were gathering for a conference tomorrow at which they will consider hiring a director to revive the "women's division" of the party. It is the first formal preparation for next year's elections by a nationwide group in either major party.

Opposes Third Term There was talk in the capital, too, of Presidential elections. Senator Copeland (D., N. Y.) proposed a Constitutional amendment restricting any President from serving more than two terms.

It contains a provision that a chief executive whose first term was less than four years because of the twentieth "lame duck" amendment would

FOUR DEAD, FIVE INJURED WHEN AIRPLANE CRASHES

Flying Machine Strikes Power Line at Airport Put Up During the Night and Manager Not Notified.

Daytona Beach, Fla., Aug. 10.—(AP)—A 14-passenger Eastern Airlines plane crashed into a newly constructed power line near the airport early today, killing four persons and injuring several more.

Pete Dyert, airport manager, said the power line was strung at 11 p. m. last night and that he had not been notified. It was not there last night when another EAL plane took off for Miami at 10 p. m. eastern standard time, Dyert said.

Killed in the crash were: Captain Stuart Dietz of Baltimore, chief pilot.

Robert Reed, co-pilot. J. F. Philpotts, Kingston, Jamaica, passenger.

(Continued on Page Six)

Big Dipper Is The Setting For Tonight's Comet Show

New York, Aug. 10.—(AP)—Tonight and tomorrow night the whole world has grandstand seats for seeing the new Finster comet. They are virtually the only nights when there is a good chance for the layman to spot this celestial object.

The comet, discovered by the Swiss astronomer Finster a month ago, is now at its brightest, but "seen so unlikely to be seen unless the watcher knows the exact spot.

On these two nights it is passing along the only constellation which every person in the world knows—The Big Dipper. It is just above the dipper, passing toward the handle. Above means over the side which would be the top if the Dipper were full of water.

Look at the star which joins the handle to the bowl of the Dipper. The comet tonight, according to the diagrams in Popular Astronomy, is right above this star. It is exactly the same distance above this star as the rays of sunlight forcing gas from the comet's head to stream out into space.

Major Engagement Being Fought at Great Wall 30 Miles Northeast of Peiping; Jap Reinforcements Moving Up; Tension Eased in Shanghai After Parley.

Peiping, Aug. 10.—(AP)—Chinese sources reported today a Japanese army detachment had been wiped out in a battle with Chinese defenders of the Great Wall pass at Nankow, 30 miles northeast of here.

The unconfirmed Chinese reports indicated a major engagement was being fought in the vicinity of Nankow with the reinforced Chinese divisions effectively defending their positions below the centuries-old wall from the advance of the Japanese army seeking to bring Chahar province under its domination.

The destruction of the Japanese unit was said to have taken place west of Nankow. Nankow is just north of the Hopei province border on the highly-important military railroad from Peiping through Chahar to the provincial capital at Kalgan.

Northeastern Hopei province has been brought under complete Japanese domination in the month-old undeclared war between China and Japan for control of the North China coast.

Chinese dispatches for the last two days have reported the Japanese army was preparing for a "northward" thrust from Peiping through the mountainous border to the broad tablelands of Chahar and Suiyuan provinces on the southern fringe of Mongolia.

Main Body Advancing The main body of the 5,000 Japanese troops said to be moving against Nankow Pass was thought to be from the Peiping area. At least 1,000 men, however, were marching toward Nankow through Kupeikow, a great Wall pass to the east, from Jelol in Manchoukuo.

An additional brigade of 2,000 men, commanded by Major General T. Kawabe, was stationed in Peiping.

Other Troops Delayed At that time the Japanese garrison in the area, with headquarters at Chahar, numbered about 40,000 men. Movement of reinforcements into the area has been slowed down since last week-end because of floods along the Tientsin to Mukden railroad and other broken communication lines.

The normal Chinese guards along the Great Wall have been reported being continually strengthened by reinforcements from Kalgan and Suiyuan province. Travelers have declared that the railroad south from Kalgan and northwest into Suiyuan province has been choked with troop movement.

Tension Relaxes in Shanghai Area Shanghai, Aug. 10.—(AP)—The bodies of a Japanese naval officer and seaman, killed in a clash with Chinese guards at the entrance to the Hungjiao military airfield, were turned over to Japanese authorities today. This action caused an appreciable relaxation of the tension in this metropolis of China.

Chinese and Japanese officials worked vigorously to curb the mounting tension and both announced they had agreed to settle the incident by diplomatic means in order not to aggravate the situation caused by a month of undeclared war between the two powers in North China.

The Japanese specifically stated
