

GENERAL PERSHING RALLIES; CONDITION STILL VERY SERIOUS

Latest Bulletin Says He Is Better Than He Has Been Since Yesterday Afternoon; His Heart Stronger.

Tucson, Ariz., Feb. 25.—(AP)—General John J. Pershing, whose condition became so critical last night, physicians predicted the end was near, continued to rally today and an official bulletin said his heart and blood pressure were improved.

"General Pershing's rally continues," said the 9:15 a. m. (11:15 a. m. e. l.) bulletin issued by Dr. Roland Davison. "He is now better than he has been since early yesterday afternoon."

"No prediction can be made at this time," Dr. Davison stated.

The World War chief, who inhaled into unconsciousness at 9 o'clock last night causing his physicians to surmise he could not last long, rallied under the administration of heart stimulants and "quietly regained consciousness."

Normal Temperature

His temperature was normal and he had been sleeping for one hour and ten minutes, he rallied enough at one time to show signs of recognizing those at his bedside.

Sergeant C. C. Shaeffer, the general's orderly, said when one of the nurses removed a hypodermic needle from the patient's arm he turned to Shaeffer and said:

"She is just as mean as ever, isn't she?"

Shaeffer was smiling again and there was a general air of relaxation among attendants and relatives.

The staff physicians despatched of his life early last evening. Dr. Verne Mason, who was called from Los Angeles to consult with Dr. Davison and Lt. Col. S. U. Marista of San Antonio, Tex., made plans to return home.

The physicians announced last night that the general had lapsed into unconsciousness. Relatives were hastily summoned to the bedside.

Miss May Pershing, his only sister and devoted companion of recent years, spent much of the night sitting by the bed holding the general's hand.

One of her old friends, Mrs. W. E. Hardy, Lincoln, Neb., and Mrs. William H. Mathews, wife of a Tucson publisher, spent the night at the hospital to comfort Miss Pershing.

Warren Pershing, an only son, paced the corridors and occasionally stepped into the room for a glimpse at his father.

Indoors since Feb. 5 and confined to his bed for 10 days, the commander of America's Expeditionary Forces in the World War held his own until Monday, when he suffered a sudden relapse.

First reports were that he suffered from pneumonia, but physicians admitted after his removal to a hospital that a heart condition was the cause of ailment. Even then they insisted he would recover.

Wednesday the doctors decided he

PLANS TO HOLD ONTO ISLANDS NOW DISCUSSED

Administration Is Entertaining Idea of Postponing Freedom of Philippines Due To Far East Perils.

Washington, Feb. 25.—(AP)—Administration officials have been discussing the possibility, informed persons said today, of postponing Philippine independence because of disturbed conditions in the Far East. A decision has not been reached. It was emphasized, Under present law the islands would receive complete political freedom in 1946. Some members of Congress, it was indicated, are now discussing that the United States should not set the Philippines free until such time as the islands are completely free from Japanese rule.

Problems of the islands will be discussed at luncheon tomorrow by President Roosevelt and Paul V. McNutt, American High Commissioner. McNutt, who is in Manila, is expected to be in Washington tomorrow. The meeting was "only a preliminary one touching upon general high lights."

"Commercial Relations"

In support of their belief that a change of policy might be forthcoming, some observers cited President Roosevelt's recent announcement of a plan for continuing commercial relationships with the Philippines until 1946. Under this arrangement the United States, even after political independence becomes effective, would by no means pull up stakes today.

Members of Representative Brewster (R., Mo.), said the danger of the United States becoming embroiled in an Asiatic war has been intensified by Great Britain's overtures toward Germany and Italy.

SPECIAL PENSIONS FOR U. S. RAILROADS

Federal Official Believes This Will Take Care Of Employees During Mergers

Washington, Feb. 25.—(AP)—A high administration official suggested today that special pension legislation be added to the railroad retirement system, to take care of other workers who lose their jobs when railroads merge.

"These pensions, he said informally, might allow organized labor to facilitate consolidations designed to save money."

The present Railroad Retirement Act provides pensions for employees of 65, or over 60 in the case of workers with 30 years service.

The direct means of accomplishing mergers to end what President Roosevelt has called "wasteful competition" may be discussed at a White House conference within the next week or two.

Compulsory Mergers

Some officials are urging compulsory unification, but it was learned the administration also is studying the possibility of letting the roads carry out voluntary consolidations by hastening pending reorganization of 60 railroads.

Proponents of the voluntary plan argue that as long as the weaker roads escape payment of bond interest, they will be able to survive through liquidation or reorganization.

They have little faith in the effectiveness of the air craft that greatly limited the usefulness of the great warplanes.

He said that in the whole history of warfare new weapons had usually been of aid and defense but that no single weapon had long remained supreme.

White House sources have indicated the connection he mentioned the Monitor, famous Civil War fighting ship, the development of torpedo boats late in the last century and the development of submarines. For each of these, he said, some adequate defensive weapon was evolved.

In the case of the airplane, he said, defensive weapons were the anti-aircraft gun and the defense airplane.

Asked whether he thought battleships had increased or decreased in efficiency, the President replied:

STATE CHAMBER ASKS FUNDS FOR AIRPORTS

State Assistance Vital Need, Report States After Survey; Cites Benefits; Ports Cannot Support Selves.

Hartford, Feb. 25.—(AP)—The Connecticut State Chamber of Commerce today urged state aid to airports. It said that airports are vital to the state's economic life and that the state should take steps to improve them.

The chamber's report, which was based on a survey of airports throughout the state, said that many airports are in poor condition and that they are unable to support themselves. It called for state assistance in the form of grants and loans.

The chamber also pointed out that airports are essential for the state's defense and for its economic development. It urged the state to take prompt action to improve its airports.

NATION'S BUSINESS SHOWS NO CHANGE

Bad Weather Halts Trade During The Past Week; Some Bright Spots Noted.

New York, Feb. 25.—(AP)—Retail buying at leading centers changed to a slow average during the week, but a bright spot was noted in the clothing trade.

The clothing trade was particularly bright, with a 10 percent increase in sales. This was due to the fact that the weather was still cold, and people were buying winter clothing.

Other industries, such as automobiles and appliances, showed a slight decline in sales. This was due to the fact that the weather was still bad, and people were not going out as much.

Seminole Chiefs Approve Slaying Under Tribal Law

Miami, Fla., Feb. 25.—(AP)—Abshin women, one of them Osceola's own daughter, Lily, tonight said she was being lured to this port of refuge after an explosion, believed to have killed her engineer, shook her from stern to stern in Long Island Sound with a cargo of 800,000 gallons of gasoline aboard.

The blast, confined to the pump room on the afterdeck, heavily ruptured the gasoline tanks, and caused a fire which spread to the main deck, where it was extinguished by firemen.

The engineer, George Leavrick, of Toledo, O., had entered the room moments before to start an auxiliary motor and was not seen since. Coast Guard headquarters at New London reported that the body of the engineer was found in the water.

The Seminole war cost thousands of white men's lives and millions of dollars. The Seminoles never surrendered and never formally acknowledged the sovereignty of the white man. They retreated to the Everglades and have lived there ever since. In the Creek Indian tribe, the name "Seminole" means "runaway" or "wanderer."

The first Creek carried out an execution somewhat similar to the killing yesterday of John Billy, who had been trapped within the Seminole reservation. Later Osceola declared war against the United States by thrusting his hunting knife through a treaty calling for the Indians' removal.

"This is the only treaty I will sign with the white man," he cried.

GERMANY IS AROUSED BY AUSTRIA'S STAND; SAYS HITLER SNUBBED

Chancellor's Talk Causes Rejoicing Among Austrians

Vienna, Feb. 25.—(AP)—Austria's patriots marched in joyous celebration today in the morning hours today to celebrate their Chancellor's pledge the nation would remain independent of Germany and free of Nazism.

Because of the crisis, Japan approached the anniversary of the army uprising of February 26, 1936, with grave apprehension. The Japanese island of Formosa, and the main islands of this thickly settled empire, were subjected to air raids.

Adding to the concern was the Chinese bombardment of the Japanese island of Formosa, and the main islands of this thickly settled empire, were subjected to air raids.

Called Very Grave

"The situation is very grave," said the Austrian minister of foreign affairs, speaking on the mobilization bill. The fact of the nation hangs on this occasion."

Before Parliament resumed today after the turbulent session which ended in recent weeks, Admiral Nobum, minister of foreign affairs, summoned high war and naval officials to discuss the situation.

He is reported to have declared: "The two parties (Hitler and Seydewitz), major political parties" failed to understand the seriousness of this bill, the government must be prepared to face them with extreme determination in order to obtain its passage."

"To those who had feared Hitler had won a first definite step toward unification of Austria and Germany by getting amnesty for Austrian political prisoners and placing Seydewitz's Cabinet as the result of the Berchtesgaden talks, Schuschnigg replied ringing: "We did not make the map. But we will not be divided."

The note, which was sent to the Japanese government, said that Americans have a right to carry on their duties in China. It said that the United States would not be influenced by Japanese propaganda.

New Haven, Feb. 25.—(AP)—The cargo barge Hygrade No. 16, convoyed by two Coast Guard patrol boats, was being lured to this port of refuge after an explosion, believed to have killed her engineer, shook her from stern to stern in Long Island Sound with a cargo of 800,000 gallons of gasoline aboard.

Chancellor Had Chance To Gain Fuehrer's Aid And Failed To See It, Is Nazi Reaction To Schuschnigg's Address—He Now Must Go Into Disarray

Berlin, Feb. 25.—(AP)—Austria's Chancellor Schuschnigg had the opportunity to rally to Hitler, he failed to seize it and therefore must go into the disarray—this is the reaction of a number of leading Nazis in Berlin.

Their concern is because Schuschnigg did not see Hitler's Hitler in his speech to the Austrian Parliament, broadcast in Germany.

Schuschnigg stressed Austria's determination to retain her sovereignty, as against the German idea of union of German-speaking nations.

In Nazi viewpoint

Premier Nasser in a series of midnight interviews prefaced his remarks by emphasizing they were not speaking for Hitler. He said that his viewpoint was that of Nasser generally.

"Why did you not see Hitler's Hitler in his speech to the Austrian Parliament?" the Nazis asked. "Why did he read the Nazi Act so aggressively to our Austrian Nazi comrades?"

"Why open up old wounds? Schuschnigg missed his big chance. For us he is finished. History will take its course without him."

We got the will and the military of the interior as well as large sections of the army. Austria is ours." (The Austrian interior minister, Seys-Inquart, is pro-German and friendly with the Nazis.)

"It is too bad that Schuschnigg must end thus. We already had a central office established in Berlin to cope with the problem of unemployment in Austria, to take over Austria's economic problems."

"All this will come—but without Schuschnigg. Tonight's address was his swan song. Hitler was willing to give him a real chance, but he missed it."

Schuschnigg, reporting on the Feb. 12 Berchtesgaden talks with Hitler, said that he had gained amnesty for past political offenses and won entry into the Austrian Cabinet, emphasizing the nation's determination to retain sovereignty.

Hitler, he said, had pledged respect for that sovereignty, although the two nations were agreed upon friendly cooperation. And, continued Schuschnigg, Nazis still were barred from Austrian political activity, except as individual members of the First Austrian Reich's parliament.

Praxis For II Duces

Omitting mention of Hitler by name, Schuschnigg gave warm praise to Italian Premier Mussolini as one who had "always tried to avoid any impression of interference in our internal affairs."

Hitler's Address

Speaking in the hall where he had announced creation of the Nazi party, Hitler proclaimed a new drive against "Jewish agitators in Germany." He said the nation would accept no substitute for her colonies, and summarized "past" achievements thus:

Consolidation of Nazi power, granting of Nazi rights externally, regaining of sovereignty over the whole Reich, and regaining of equality of rights for Germany among nations.

The Fuehrer attacked as malicious rumor-mongering stories he attributed to London that 50,000 Nazi Legionnaires in Germany were to be sent to the East to fight against the Czechoslovaks, where 200,000 were ready to march into Czechoslovakia, where 200,000 German.

Such stories, he charged, were the work of "Jewish international poison mixers," and announced a new drive against "Jewish agitators in Germany."

"We soon will proceed energetically against Jewish agitators in Germany," Hitler said. "We know they are representatives of an international organization and we will

Perishing

As this is written the close of the American Expeditionary Force in the World War, appears inevitably close at hand.

A soldier in every line of his being, but a soldier of the very highest type, he instilled equal and admirable faith in his determination, and his control over his emotions was absolute.

It was therefore, a man of such a combination of characteristics as to be a man of the highest type.

Of course, under our modern system, any such operation on a large scale is not a modern device.

Washington - This excitement over so-called administration "meddling" in local elections is mighty late getting started.

Some of the men are chattering about the "Meddling" in the name of the Federal Government.

It is a curious thing that the men who are chattering about the "Meddling" in the name of the Federal Government.

It is a dramatic new kind of drama for America; grandiose, personal, and completely practical.

But at this hour, when the great American captain is leading his troops to the front.

It is a dramatic new kind of drama for America; grandiose, personal, and completely practical.

Three days ago General Pershing's physician said that one of the very worst features of his illness was apathy.

"Magic Eye" Camera Catches Kayo of Mann

Longwood, Fla., Feb. 24.—(AP)—Greyhound, the fastest trotting horse in history, is feeling so well these days that his trainer, Sep Palm, believes he will cover his own mile record of 1:56 during 1938.

At 1,120 pounds, the "Silver Streak" is heavier now than ever before. When it got loose with its burning speed last summer, he scaled about 980 pounds. A month after his record setting performance at Lexington, Ky., he had added 100 pounds. Since then he has gained 100 more.

"No one could digest 20 or 27 clubs, anyway," said the farmer who had been training the horse for many years.

Leonard Dodson of Springfield, Mo., despatched a letter, more than the designated number in his own name, to the publisher of the "Herald."

"I don't think you're joking," he said, "but it improves the game. Now you make more shots with each club than you did with 20 or 27 clubs, anyway."
