OPEN FORUM
 THE TOWNSEND PLAN IN BRIEF
 Editor, The Herald:
 It proposes to abolish poverty in the United States. Since everybody in making a living has to sell something his time, his muscle or his goods—everybody should be compelled to do his share in maintaining the market in which he sells his wares or services. We propose that everybody shall pay a gross tax of 2 per cent on whatever he sells each and every thirty days. This in effect will be a national gross transactions tax, which is a gross tax on all incomes, collectible from business firms and all individuals making a living.

WELFARE MASS MEETING

The Herald:
 In the naming of the honorary committee assisting the arrangement of the welfare mass meeting to be held at the Nathan Hale auditorium next Sunday p. m., there were two names which were unintentionally omitted, James P. Wilson and John Spillane, who in a personal apology has been sent to the Herald.

NOT PERSONAL OPINION

The Herald:
 In Saturday's Herald was a report stating that the Independent Cloak Co. president, in company with New Britain's Mayor and Executive Vice-President of the Chamber of Commerce, had taken a plane to Washington to solicit F.V.A. Funds to put up a factory in New Britain.

STARTS WORK ON BUDGET

Hartford, June 21.—(AP)—Gov. Cross has himself today heading into the task of making up the state's fiscal budget for the next fiscal year which begins July 1. Starting yesterday with some of the most difficult items, the governor, finance commissioner Edward P. Hall and budget director Benjamin P. Whitaker ran through approximately 50 separate budgets which had been reduced in part by recurring expenses at his request. These included the motor vehicle department, state department, state prison, Connecticut School for Boys, Long Lane Farm and the state reformatory.

"I made up my mind to get a MODERN refrigerator regardless of cost. Imagine my delight when I found the price of Coolmaster, the air conditioned refrigerator, was nearly a hundred dollars under many less up-to-date kinds. My food is fresher, more delicious, and I'm saving money every day."

Coolmaster keeps foods fresher because air conditioning provides four essentials of ideal refrigeration: 1. Constant Cold. 2. Positive one-way circulation. 3. Balance Humidity. 4. Washed Air. Instead of costing more, these advanced features cost you LESS. If you want fresher foods at less cost, investigate Coolmaster!

GOING NATIVE!

This is open season on everything "Native." Youngsters everywhere from now on will be ignoring "No Swimming" signs and going native—because they know, fancy bathing suits notwithstanding, they enjoy a "Native" swim more than any other kind. Then too, everyone is marking time, so to speak, waiting for "Native" tomatoes, because they know any other tomato is a poor substitute for the rich, deliciousness of a native tomato. And that brings us to the point of paint! More and more home owners are realizing the importance of using "Native" paint. They know it's better—like any "Native" paint. McGill's is the only "Native" thing you'll find. The formula used in its making is not intended for paint to be used in Georgia or Alaska—it's a special formula for paint to be used in Manchester—and it has everything it needs, in good measure, to help it withstand our own "Native" weather conditions. McGill's is "Native" Paint—and that can't be said of any other paint on the market.
