

INSURGENTS CLAIM BOMBING HALTING LOYALIST ADVANCE

Curtain Of Fire Described

So Tense Militiamen Completely Disorganized And Are Unable To Reform.

Hendaye, France (At the Spanish Frontier), Aug. 3.—(AP)—Spanish insurgents reported today that incessant bombardment by hundreds of warplanes had halted abruptly the government's Ebro river offensive in Catalonia.

The air raiders' curtain of fire was described as so intense that the militiamen were completely disorganized and unable to reform their lines.

Minimum Effects of Bombers.

Although dispatches from government lines admitted a slight insurgent aerial supremacy, they insisted government planes had been able to minimize the effects of insurgent bombers.

Observers with the militiamen pointed out that the government continued pouring men, tanks and artillery across the Ebro into the Gaudes sector despite almost a week of insurgent efforts to cut pontoon bridges across the river and isolate government troops.

The government's new tactics of striking rapidly first in one sector and then in another forced insurgents to create a mobile reserve in the rear, thus weakening front line defenses.

Left Flank Menaced.

These shock troops were being moved to a position north of Gandesa, where they would be able to threaten a new menace against the insurgents' left flank which the government reported was still intact.

The landing of that sun-baked hamlet north of Gandesa after fierce fighting yesterday, was the government's way to a score of Matarranya river plateau villages.

Rebellion Critical.

Observers with insurgent forces described as critical the position of government units in a pocket southeast of the Ebro, where the Ebro campaign ten days ago, Matarranya passed across the river and have been destroyed, making it impossible to reform.

JAPS DEFEAT DIEHARD LINE NEAR AIR BASE

Severe Fighting Continues Along Railroad Between Nanchang And Kiukiang, Strategic River Point.

Shanghai, Aug. 3.—(AP)—Japanese and Chinese warplanes fought a major air battle near Hankow today in which large numbers of planes were reported brought down. A Japanese naval spokesman said an undetermined number of Japanese bombers and pursuit ships encountered Chinese planes during a raid on Hankow and shot down 32. He said seven other planes were destroyed on the Hankow airfield. Only two Japanese planes were missing, he said.

BULLETIN

Shanghai, Aug. 3.—(AP)—Japanese and Chinese warplanes fought a major air battle near Hankow today in which large numbers of planes were reported brought down. A Japanese naval spokesman said an undetermined number of Japanese bombers and pursuit ships encountered Chinese planes during a raid on Hankow and shot down 32. He said seven other planes were destroyed on the Hankow airfield. Only two Japanese planes were missing, he said.

Further hostilities feasible.

Under these conditions further continuation of hostilities, fraught with extremely heavy losses to the Japanese, is regarded inevitable.

Soviet workers, however, in strongly phrased resolutions demanded resistance to aggression. The Communist newspaper, "Pravda," said the state of war resistance within 50 miles of Nanchang, an important Chinese air base, was being organized.

Severe fighting continued, however, along the railroad between Nanchang and Kiukiang, strategic Yangtze river point 125 miles downstream from Hankow, provincial Chinese capital.

The Japanese were thwarted in attempts to crack the defenders' position at Shobochow, the first town south of Kiukiang, despite already air attacks on Chinese lines on the north bank of the Yangtze.

Aerial Battle Fought

At least one large-scale aerial battle was fought in that area. The Japanese were reported to have cut Hankow to stop the advance toward Hankow—thereby flooding the Yangtze district.

Severe fighting continued, however, they have occupied Hwangtung, the highway north of Kiukiang. That town gave the Japanese control of the highway north and placed advance guards on a modern road into the interior.

Another possible way of advancing toward Hankow was reported in Chinese newspapers which said a Japanese aircraft carrier, planes and troops transports had arrived at Hangchow bay, perhaps in preparation for a long-distance overland route to Alaska.

DEWEY MAY LIST MORE OFFICIALS

Magistrate Hulon Capshaw Immediately Relieved Of Duty After Charges Filed.

New York, Aug. 3.—(AP)—The possibility that District Attorney Thomas E. Dewey would list more officials who, he charges, were "influenced" by a \$100,000,000 policy ring added today to the political importance of the pending trial of James J. Hines, powerful Tammany figure.

Magistrate Hulon Capshaw, one of the three officials Dewey said yesterday had been "influenced, influenced or bribed" by the accused policy racketeers, was immediately relieved of his duties by Chief Magistrate Jacob Gould Schurman, Jr.

Resigned From Judicial Bench

Although Magistrate Capshaw denied "categorically" he had been influenced by the defendant Hines or anyone else in this case, Chief Magistrate Schurman banned him from the judicial bench "until this charge is fully disposed of."

The other officials named by Dewey in a bill of particulars demanded by counsel for Hines were William Copeland Dodge, former state and district attorney, and the late Francis F. Erwin, a magistrate from 1931 until his death in 1935.

Dodge's secretary said he was out of the city and he made no comment on the case. Both Capshaw and Erwin, like Dodge, were Tammany men.

Trail Scheduled Aug. 15

In listing the three men Dewey named of whom are not presently known, would be brought out at the trial of Hines, who is accused of serving as the "puller" from the ring. The trial is scheduled August 15.

Heart of the safety of J. Richard "Dixie" Davis, a co-defendant of Hines who pleaded guilty yesterday and promised to turn state evidence, the district attorney's office took him to a secret hiding place.

The dapper little lawyer, a former attorney for Dutch Schultz, the gangster who headed the policy racket until he was slain, expressed

DEMAND FOR GOLD INCREASES PRICE

Persistent Reports Of Adjustment In Dollar Rate Jumps Value Of Metal.

London, Aug. 3.—(AP)—A widespread demand for gold for hoarding has increased today with 12,000,000 worth (about \$1,885,000) sold at 142 shillings and a halfpenny an ounce—four and a half pence (six cents) over yesterday's price.

The demand came from all parts of the European continent where the idea persisted, despite official denials, that an adjustment of the dollar rate might occur soon.

Converting Balances Into Gold

Continental houses also were converting their sterling balances into gold and dollars partly because of war scares and partly on the assumption that if the dollar appreciates against sterling the price of gold will increase.

Conservative estimates placed the quantity of gold hoarded in construction of the Seattle-Fairbanks road. Some 2,000 miles long, it would permit commercial and

The demand for dollars in the

BORDER CLASH JAPS' FAULT, RUSSIA AVERS

Soviet Warns Of Possible 'Serious Consequences' If Japanese 'Provocations' Continue Along Boundary.

Moscow, Aug. 3.—(AP)—Soviet Russia threw on Japan's shoulders today the responsibility for further conflict along the Siberian border.

Even as she warned of possible "serious consequences" if Japanese "provocations" continued there were indications of her wish to reach a peaceful settlement.

Willing To Redefine Boundary

A new treaty which reliably reflects official opinion recalled that the government had indicated a willingness to redefine the boundary separating Siberia from Japanese Korea and Japanese-protected Manchoukuo.

The communique declared that Red forces remained "exclusively within the limits of Soviet territory" and that reports of Russian air raids were "unfounded."

The communique accused Japanese militarists of circulating the air raid reports "in order to justify their repeated attacks on Soviet territory and the tremendous losses which they have to bear."

Further hostilities feasible.

Under these conditions further continuation of hostilities, fraught with extremely heavy losses to the Japanese, is regarded inevitable.

Soviet workers, however, in strongly phrased resolutions demanded resistance to aggression. The Communist newspaper, "Pravda," said the state of war resistance within 50 miles of Nanchang, an important Chinese air base, was being organized.

Severe fighting continued, however, they have occupied Hwangtung, the highway north of Kiukiang. That town gave the Japanese control of the highway north and placed advance guards on a modern road into the interior.

Another possible way of advancing toward Hankow was reported in Chinese newspapers which said a Japanese aircraft carrier, planes and troops transports had arrived at Hangchow bay, perhaps in preparation for a long-distance overland route to Alaska.

STRATFORD MAN ADMITS STABBING TWO FRIENDS

Sarrapillo Arrested After Confessing Killing Of De-Libra Brothers Following Drinking Bout At Club.

Stratford, Aug. 3.—(AP)—Joseph DeLibra, 32, and his brother, Sully, 22, were stabbed to death here early today. Police Chief William H. Richter said, and Angelo Sarrapillo, 41, at whose shack in the Avon Park house here tomorrow, the governor

DeLibra was arrested on a murder charge. Chief Nichols said the brothers were killed after returning from a drinking bout at a club in the neighborhood. Joseph DeLibra was stabbed once through the jugular vein in his neck, and his brother died of wounds to the chest and stomach.

Confesses Double Killing

Sarrapillo was brought to police headquarters by an acquaintance, Nicholas Spolow, to whom, the chief asserted, he confessed the double killing.

Spolow quoted the man as saying "I've just killed two men" when he walked into his house at 120 Sedgewick avenue, Chief Nichols said.

Chief Nichols said Spolow "didn't pay much attention" to what Sarrapillo said.

ARMY CONSIDERS ALASKA AIR BASE

Assistant Secretary Of War Also To Study All-Weather Road Through Canada.

Washington, Aug. 3.—(AP)—An aerial trip to Alaska by Louis Johnson, assistant secretary of war, provided a hint today the administration was considering development of a great army air base in the far north.

Johnson said he would leave about August 15 to inspect army posts and projects in Alaska, and at the same time would study the feasibility of both the base and of a projected all-weather road from the American northwest through Canada to Alaska.

Highway Might Prove Vital

Such a highway, in addition to drawing tourists, might prove vital in routing men and munitions to Alaska in time of war. The only regular link now is by water, although an air line is considering establishment of regular service.

Congress authorized the air base in the 1936 Wilcox act, providing for frontier aerial defenses such as the one already started at Tacona, Wash. The navy has projected a \$5,000,000 base at Kotzebue Sound, Alaska, and Dutch Harbor. In the Aleutians, but the army has taken no action.

Did Not Wish to Arouse Japan

One objection to construction of the base has been an administration desire to avoid arousing Japan's concern. Another was the prevalence of fog, making flying hazardous.

The first objection was removed to some degree by Japan's refusal to sign the 1936 London naval limitation treaty or to disclose any information on the warships she was building.

Advances in aviation, particularly the navy's perfection of an automatic landing device for airplanes, promise to remove the other objection.

Road 2,000 Miles Long

Secretary Hines, now en route to Alaska, said before leaving he hoped the way could be cleared for construction of the Seattle-Fairbanks road. Some 2,000 miles long, it would permit commercial and

COMPARE COMPANY UNIONS WITH CIO

Senate Civil Liberties Committee Calls Officials Of Youngstown Association.

Washington, Aug. 3.—(AP)—The Senate Civil Liberties Committee examined so-called "company unions" today to compare their makeup and organization with that of unions formed under the Steel Workers Organizing Committee (C. I. O.).

James Daley and Martin Walsh, officials of the Brier-Hill Employees Association in Youngstown, Ohio, plant of the Youngstown Sheet and Tube company, were called to testify about the organization of their union.

Helped Break Strike

The committee also recalled to the stand Edward W. Gray, secretary of the Independent Society of Workers of Sheet and Tube. Gray testified yesterday his group had been active in starting the "back-to-work" movement credited with helping break the 1937 "Little Steel" strike in Youngstown.

Gray told the committee that the independent group still is operating under an executive committee appointed when the employees representation plan was in effect in the

DWYER TELLS NEW VERSION BEFORE JURY

Husher Courtroom Hears 'Lier' Testify In Opening Of Trial Of Deputy Sheriff Francis Carroll.

South Paris, Me., Aug. 3.—(AP)—Paul N. Dwyer, 18-year-old convicted slayer of a country doctor, today named former Deputy Sheriff Francis M. Carroll as the man who called the murder for which Dwyer now is serving a life sentence.

Asked by Prosecutor Ralph M. Angell if he had murdered Dr. Joseph M. Litterfield, Dwyer answered "No."

"Did you see him murdered?" "Yes sir, I did."

"Who did murder him?" "Francis Carroll," the state witness testified.

"The respondent at the bar?" "Yes sir."

Dwyer testified Carroll killed the elderly physician in the bathroom of the lawyer home after the doctor had informed Carroll he knew "all about" you and Barbara.

Witnesses

Dwyer previously had testified he possessed letters from Barbara Carroll, 18-year-old daughter of the defendant, in which she allegedly disclosed improper relations with her father.

Dwyer said the doctor told Carroll, "I think you belong in state prison, and if there is no one else in South Paris who is man enough to send you there, then I will."

Dwyer testified Carroll followed the doctor upstairs to the bathroom, shouting "What do you mean?"

"Just what I said," he said to the doctor replied.

"And then what happened, Paul?" "I don't know, but I was in the room."

Heard Sounds of Struggle

"I heard sounds of a struggle, I ran 'up the stairs, grabbed a wrench and a hammer as I went."

"At the top of the stairs the doctor was stooped over, leaning against the wall, and moaning."

"I tried to hit Carroll with the wrench but it came apart. Carroll grabbed the hammer from me and hit Dr. Litterfield with it."

"Q. Where did he hit the doctor?" "On the head."

"On the head or on the forehead?" "On the forehead."

"Q. And then?" "A. The doctor reeled and fell after two or three blows."

(Continued on Page Eight.)

C.I.O. HEADS DENY REDUCING RATES

Answer Repeated Reports Of Agreeing To Less Than Minimum Daily Scale.

Pittsburgh, Aug. 3.—(AP)—Repeated reports that C. I. O. steel unions were agreeing to contracts with one or more small manufacturers at less than the 15-day minimum wage scale brought denials today from two prominent union executives.

Philip Murray, chairman of the C. I. O., said:

"I have said before there is nothing to such reports. I don't care to comment on them because to do so might appear to give them some weight."

Only One Reduction

"The only reduction that I know of was agreed to in Chicago last month with a fabricating concern. It was a 10-day scale, but that was a closed shop after a strike at the Chicago Hardware company and five per cent each."

R. Frank Bennett, president of the Amalgamated Association of Iron, Steel and Tin Workers, said that every contract which his organization had renewed this year had been "on exactly the same terms as last year."

Based On Sliding Scale

Bennett said certain piece workers had taken reductions recently because their pay was based upon a sliding price scale. This agreement was with members of the Western Bar Iron Association reduced last May, and based the pay per ton of puddlers or boilers and finishers upon the quoted market price of pig iron.

Pig Iron prices were reduced approximately \$4 a ton between June and August, cutting the pay of the puddlers from \$14.05 a ton to \$12.05.

The sliding scale was based in effect 25 or 30 years, Bennett said.

MARKETS AT A GLANCE

Stocks—Mixed; gold shares advanced.

Bonds—Irrregular; Japanese loans favored.

ROOSEVELT BACKERS, FOES DIVIDE HONORS IN FOUR PRIMARES

LABOR BOARD ORDERS IOWA HEARING HELD

Governor Kraschel Carries Battle To Opponents By Saying All Authority Is Derived From The States.

Des Moines, Ia., Aug. 3.—(AP)—Governor Nelson G. Kraschel today carried his constitutional law battle to the National Labor Relations Board with the statement that the Federal government "possesses only that authority which was delegated to it by the states."

In defiance of the governor's order closing the board hearing into the Maytag Washing Machine company strike, the NLRB in Washington today announced it would proceed with the inquiry, the board declared.

Held Improper And Illegal

"Any other course would be a subordination of national to state authorities in matters affecting national sovereignty and of the civil to the military authorities in times of peace. x x x both have been held improper and illegal" by our highest courts.

Commenting on that portion of the statement, the governor asserted "it has never been held that way by any of our courts."

Of the board's refusal to accept his decision closing its Newton hearing, Kraschel said the state of Iowa "has not delegated additional authority to the Federal government simply to prohibit the same kind of approving repeal amendments."

The NLRB in Washington today announced it would proceed with the inquiry, the board declared.

He previously invited board officials to test out the principle of states' rights in connection with the hearing.

To Duly Govern The Order

The NLRB in Washington indicated it would deny the governor's order closing the hearing into CIO

LATE NEWS FLASHES!

TAX RECEIPTS JUMP

Hartford, Aug. 3.—(AP)—Cigarette tax collections in July were more than \$500 greater than July 1937 and corporation tax returns more than \$7,000 above those for the corresponding month last year, State Tax Commissioner William H. Hackett said today.

The state collected \$23,252,325 last month as compared to \$22,583 in July last year.

TO CONTINUE TRAVEL

Washington, Aug. 3.—(AP)—President Roosevelt, now on a 10-day cruise in the Pacific, plans to do quite a bit more traveling this month and next. While House aides said today Mr. Roosevelt had made out a tentative schedule that will take him into the middle west and into the south, a side trip will be made to Canada.

HEAT AIDS DEATH

New Britain, Aug. 3.—(AP)—Heat was a contributing cause in the death of Frederick Heacock, 58, who was found dead today in the Hotel Chelsea on Myrtle street, where he was a roomer. His body was found by a hotel employee, who notified the police. Medical Examiner John Pursey said Heacock had had heart trouble but heat was partly responsible for his death.

WPA WORKERS QUIT

Hartford, Aug. 3.—(AP)—More than 100 WPA workers looked at a "busted" thermometer, registering 120 degrees in the sun—and then walked off the job today. All over the city workers were quitting their projects, but a question impossible to answer is how much of the walk-out is due to an AFL strike and how much to heat.

Clark Landslide In Missouri

Offset By McGill Victory In Kansas; Same Division Extends To Nominations For House Seats In Other States; Crucial Vote In Kentucky Slated Saturday

(BY THE ASSOCIATED PRESS)

Roosevelt backers and anti-administration candidates divided the Democratic honors today in four primary elections.

Senator Bennett Clark of Missouri, foe of the court bill and other White House measures, won landslide re-nomination. So did Senator George McGill of Kansas, loyal follower of the President.

Victories Not Unexpected

The victories were not unexpected, however, for both had the active backing of their state party organizations. President Roosevelt had taken no part in either race.

The same division extended to nominations for house seats in two other states. Three West Virginia representatives who have supported the President defeated their opponents, but in Virginia two avowed New Dealers lost out.

Rep. Howard Smith of Virginia, whose district includes the "home town" of George Washington, defeated the former ambassador to Germany. The vote, with 10 precincts missing, was Smith, 19,033; Smith, 6,520.

Smith, a rules committee member who fought the wage-hour bill, claimed the right to vote as he thought best on administration measures, while the 32-year-old Dodd had said, "a vote for me is a vote for Roosevelt." Smith was on the backlist of labor's National Partisan League (C. I. O.) but he led 2-0 in Alexandria, home of the President.

The only other Virginia House race was called home. Rep. Norman Hamilton, calling himself pro-Roosevelt despite his vote against the government reorganization bill, lost by about 1,500 votes to former Rep. Colgate Darden, whom he had unseated in 1936. Hamilton said Darden was backed by Senator Harry Byrd's organization.

Widened House Third

In yesterday's Republican primaries, greatest interest was shown in the Kansas senatorial race because of campaign charges that one of the four candidates—the Rev. Gerald Winrod—was pro-Nazi. Winrod, who denied the accusation, ran for the nomination.

The nomination went to former Gov. Clyde Reed. The count in half the state gave him 22,000 more votes than Dallas Knapp, running second, and 28,000 more than Winrod. The Rev. J. C. Fisher trailed.

JEWISH DOCTORS HITLER TARGET

Only Exceptions To Decree Forbidding Practice Are Where Licenses Granted.

Berlin, Aug. 3.—(AP)—Approximately 6,000 to 7,000 Jewish physicians in Germany have been forbidden to practice after September 30.

The only exceptions to the sweeping decree published last night in the Official Gazette were unmarried cases wherein the interior minister can grant licenses to practice until further notice and certain World War veterans who may be given maintenance grants.

Ends Systematic Drive

The ban will close one chapter of the systematic drive which began December 29, 1937, when 3,000 of 1,213 Jewish doctors in Germany (without subsequently "angeneous" Austria) were dropped from health insurance lists.

The state sickness insurance companies, however, had eliminated Jewish doctors from their rolls long before that. In recent years the practice of Jewish doctors has been limited virtually to Jews and foreigners.

The new order was said to be based on the Nuremberg racial laws, according to which Jews lack the status of citizens.

Slows De Nazis' accession to

Hitch-Hiking Gospelers Reach Their Destination

Judging from a post card received this morning by Superintendent Ernest R. Peterson of the Manchester Police Department, the Weaver family and their five children, who were hitch-hiking from Boston to the state over the weekend at the invitation of the Weavers, arrived at their destination in Manchester, Mass., about 10 o'clock last night. The Weavers, who are members of the American Rescue Workers, Inc., of Boston, were accompanied by a young man, who is believed to be a member of the same organization. The Weavers are expected to stay in Manchester for a few days before returning to Boston.

JAMES SPILLANE HEADS COMMITTEE OF LODGE

Master Workman of Local Fraternity To Arrange Details of Outing At Lake Compounce.

James Spillane, master workman of the Manchester Lodge, No. 1, of the American Rescue Workers, Inc., is chairman of the general committee for the annual picnic of the lodge to be held at Lake Compounce, Aug. 28. At that time Grand Master Workman C. M. Farnham, N. D., and Mrs. Bradley will be in Connecticut and will attend the gathering.

SOUTH COVENTRY

A group of WPA workers are making improvements at the New Haven cemetery grounds.

Service at the Congregational church has been suspended during the month of August. The address of the pastor, Henry H. Robinson, will be for the next two weeks at the home of Mrs. Robinson.

RADIUM THREADS TO TREAT CANCER

Insert Tiny Gold Or Silver 'Seeds' Into 'Sutures' To Sew Around Growth.

New York, Aug. 3.—(AP)—Invention of radium threads, a new method of treatment for cancer, was announced yesterday at the New York City Cancer Institute.

The threads are made by taking ordinary "sutures" used by surgeons for sewing up wounds, and inserting in them, spaced like beads, tiny gold or silver "seeds". The seeds, long used in cancer treatment, contain radium, the gas from radium, which gives off exactly the same rays as radium.

The threads are made by taking ordinary "sutures" used by surgeons for sewing up wounds, and inserting in them, spaced like beads, tiny gold or silver "seeds".

CLASH MAY END IN ARMED TRUCE

U. S. Advisors Ching To Convince Russo-Japanese Fight Will Not Bring War.

Washington, Aug. 3.—(AP)—Men to whom the administration looks for guidance along today to the conviction that the Russo-Japanese fighting was likely to conclude in an armed truce.

Neither Desires General War. Neither Japan, embroiled with China, nor Russia, concerned over European threats and internal problems, desires a general war at this time. The United States, however, is not so sure.

Both Russia and Japan are concerned over European threats and internal problems, desires a general war at this time.

PALESTINE GROUP FINISHES LABORS

British Commission's Task To Draw Up Boundaries For Arab, Jewish States.

Jerusalem, Aug. 3.—(AP)—A British technical commission on the partition of Palestine left for Haifa today to return to London after three months' work in the turbulent Holy Land.

The commission had the task of drawing up boundaries of proposed Arab and Jewish states as recommended in the Peel report, which was issued last week.
