

EDUCATION BOARD TALKS ON SCHOOL CONGESTION

Members Discuss Means To Eliminate Present Conditions At The High School; Suggest Three Methods.

A report on possible methods of eliminating the crowded conditions at the high school was presented at a meeting of the Education Board last night.

The report was prepared by a committee on school congestion which was organized last year.

The committee has suggested three methods of eliminating the crowded conditions at the high school.

The first method is to build a new high school building.

The second method is to increase the number of classes in the existing building.

The third method is to increase the number of classes in the existing building.

The Education Board will consider the report at its next meeting.
