### TEXTILE WORKERS RAP FEDERATION

**Accuse Labor Foes Of Joining Reactionary Employer Groups In South.**

Philadelphia, May 19.—The Textile Workers' Union of America, C. I. O., accused the American Federation of Labor today of "joining with reactionary employer groups" in an attempt to block the organization of southern textile workers.

The statement was embodied in a resolution approved by the union's constitutional convention.

"We not only have to combat the mill owners," Chambers said, "but we must also combat the 'company' union, company-inspired preachers, the reactionary press, and the Ku Klux Klan, Roy L. Lawrence, southern regional director of the union, in discussing the resolution from the floor last night. 'But we must not let the A. F. of L. range against us,' he said.

Lawrence said an A. F. of L. convention drive in the south is aimed at "uniting" the union and employers or where he was a strike in progress." He described the new union as formed by merger of the Textile Workers' Organizing Committee and the United Brotherhood of Carpenters and Joiners of America, a combined membership of 270,000.

In other resolution, the convention called for a "drive" to bring the government and industry for the application of technological changes in industry, and higher wages for workers remaining in that industry.

Called for amendment of the Social Security Act to provide payment of benefits beginning in 1940 instead of 1942.

Urged Congress to pass the Wagner-Cavanagh anti-injunction bill.

**WILL PROPOSE INCOME TAX PLAN FOR STATE**

New Haven, May 19.—The Connecticut House of Representatives today announced that it would send a delegation to the National Tax Conference in Washington to propose to Gov. Raymond E. Baldwin a state income tax as a means of balancing the state budget.

The council said it is opposed to economy by cutting down on social services and is also against state highway tolls, and increases in general taxes and amusement taxes.

The organization favors a graduated income tax on all incomes over \$2,500 a year.

**INVESTIGATING DEATH OF WATERBURY MAN**

**WARNS OF FIRE HAZARD IN NEW YORK FORESTS**

Albany, N. Y., May 19.—Extremely dry conditions are expected to bring a state conservation department warning today of serious fire hazards in New York's forests.

"Conditions are so ripe for fire right now that if one serious blaze should get started it would be difficult to control," said Kenneth C. Hanna, the department's forest fire control supervisor.

The Weather Bureau reported no heavy rains are in sight.

CHAPTER IX The dining room of the Plaza was deserted when Mary and Ladd walked in. The boys had not yet finished eating the tables.

"Good morning, Mr. Ladd," the headwaiter hurried forward. "It's quite all right. We have just opened the doors. He smiled and followed the Continental.

He led the way to a table overlooking Central Park. "That man is a diplomat," commented Ladd. "I've never seen him at any of your evening clubs."

"But they usually bring me a drive through the Bois," Ladd said. "I never take any."

### MISSIONARIES BURN BOOKS FOR WARMTH IN WAR TORN CHINA

Boston.—(AP)—Burning old books to keep warm and pasting paper over bullet holes in windows, American missionaries in North China write home that their work is greater than ever because of war.

Coal costs \$70 to \$80 a ton, one letter explained, "so we do as the Chinese do: wear clothes one layer at another. Fortunately our winter clothes are dry, not a damp coat, but even a dry coat is cold at 10 above zero."

Writing from Tschow, Shanghai province, Miss Alice J. Murphy of Labor, Iowa, said the only heat she and her associates had for months came from burning books in the dining room fireplace. Parts of the letter were made public here by the American Board of Commissioners for Foreign Missions.

The message was written the day before the Chinese New Year but Miss Murphy, a veteran of 14 years in China, said, "Most folks in no mood for celebration. Rather the mood is one of quiet despair. We take it on the chin and keep on keeping on."

(PAIN IN BREAST) Question: Carol writes: "For the past few months I have had severe stabbing pains through the left breast. The pain is usually worse in the morning and when I have a nervous headache. It usually when I do any heavy lifting. They are worse just before the menstrual period. Sometimes the pain is like a real mean stab, other times it is just a dull ache. We had a doctor and the nearest doctor is 15 miles away.

Answer: It is impossible to suggest a treatment to fit your case without the first making a examination. You might try applying hot towels to see if this will bring relief, when twice a day when the pain is noticeable. However the best is coming to a local doctor for a full examination and a prescription of 18 miles and see the doctor. Possibly you have developed inflammation of the breast, which is immediately preceding menstruation. This condition is usually temporary and are not likely to cause as much distress as you describe.

(BELL CANNOT PAID) Question: Greenville asks: "How long should a bill be paid?" Answer: It is hard to say. Generally there are a few days when the bill is not paid, but a few days of discomfit when the bill is coming to a head, and a few days of paid as soon as the bill breaks. A large bill may easily cause pain for a week and a half to two weeks.
