4 TUBES... \$400.00

and what a buy we thought it was!

Today Radios, like Cars, Cameras and Clothing Are Better—and Cheaper—Because of Advertising

Remember your four-tube squawk box of 1921, with its forty-seven dials and batteries and tiny speaker? \$400 it cost, probably, and what a buy you thought it was! Yet today you can get a radio many times better for one-fourth the price. Advertising made that possible!

Advertising built up a tremendous demand for radios within the space of a few short years—just as it did for automobiles, electric refrigerators, cameras and streamlined kitchen stoves. Since 1921 the sales of radios alone have increased five, ten, twenty-fold all because of the demand created by advertising. This increasing demand made mass production possible—and mass production steadily lowered overhead costs, while competition for public favor just as steadily bettered quality. That is why today, with larger production, a manufacturer is able to sell you a much better product for a lot less money.

And here we have the reason why the U. S. A. is the envy of the world! America is an advertising country. And advertising has helped lower the cost of nearly everything you buy. Particularly is this true of newspaper advertising: for almost everybody who can read reads some newspaper every day. Reads it eagerly, avidly, hungry-for-news. Good merchandise advertised to newspaper readers finds buyers so quickly that the cost of advertising, per article sold, is amazingly low—which means that the things you buy get better year by year—and cost less!

IT PAYS TO SHOP THE ADS IN THIS NEWSPAPER!

ADVERTISING Lowers the cost of things you buy! If you're looking for values, the ads in this newspaper are the place to find them! Unusual offerings that bring you real quality at lower cost are found regularly in the advertisements of Manchester merchants. Whether you are buying a dress, a pair of shoes, a set of living room furniture, some curtains for the bedroom or just shopping for tomorrow's dinner, you'll find invariably that you can get a larger selection of finer things AT LOWER COST by checking the ads in this newspaper FIRST!

Manchester Evening Herald

July a few of these two-cylinder marvels were sold back in 1922—that is why they cost \$2500 apiece. The automobile was a rich man's toy. Advertising created a national-wide demand for motor cars. Mass demand brought mass production and lower prices and today a fine car costs less than \$1000.

Only well-to-do women could afford beautiful clothes in 1921. They had them made by dress-makers and paid dearly for the privilege. The "working girl" wore shabby garments made by starved sweat-shop labor. Today every woman can wear smart clothes. The advertising of department stores and specialty shops has built a tremendous demand for style, and large, modern factories, with well-paid labor now give you Paris-inspired models at low cost.

How many oranges could you buy for a dollar in 1909? Few enough! There is little demand for this tropical fruit except at Christmas time, little production and the price was way out of sight. Advertising popularized oranges! Everybody learned to want them the year around. Now thousands of orchards raise them and they are marketed at a price within the reach of everyone.

Advertising built up a tremendous demand for radios within the space of a few short years—just as it did for automobiles, electric refrigerators, cameras and streamlined kitchen stoves. Since 1921 the sales of radios alone have increased five, ten, twenty-fold all because of the demand created by advertising. This increasing demand made mass production possible—and mass production steadily lowered overhead costs, while competition for public favor just as steadily bettered quality. Townsend Doesn't Want To Risk Another Beating

Washington, July 7.—(AP)—Dr. Francis E. Townsend has made it known that he does not want to risk another congressional beating for his old age pension program at this session.

Senator Pepper (D-Fla.), a Townsend plan advocate, made public today a letter from the pension leader which asked that it be withheld from consideration during Senate debate on proposed changes in the Social Security Act.

Townsend wrote that an adverse vote on his plan undoubtedly would "intend my so-called defeat" in the House. The House recently voted overwhelmingly against the plan for pensions up to \$200 a month.

The letter suggested that it would be better to let the program "go by default" and concentrate on approval of an amendment to the constitution which would let Congress levy taxes for the specific purpose of paying old age pensions.

See Amendment Details Although many advocates contend such taxation already is constitutional, Townsend said its amendment is desirable in order to avoid the question.

The Senate Finance Committee late yesterday recommended acceptance of House-approved amendments branding the Social Security Act. Senate debate will start Monday.

The committee suggested only minor changes in the House bill. It recommended exemption of Federal employees and continuation of insurance agents from the security act and increased from \$8,000,000 to \$12,000,000 the amount of the grant which would be made to states.

A House provision that state unemployment insurance taxes should not be less than 2.7 per cent of payroll was stricken out. The committee retained House proposals to freeze age insurance taxes on employers and employees at 1 per cent each for the next three years and to increase from \$15 to \$20 the

J. B. Nickerson. The strikers were represented by Albert G. Clifton of Hartford, Miss. Elizabeth Nora Frank Reilly, all of the local's official staff, as well as eight other workers forming a committee from the velvet department.

This morning a meeting of the strikers was held at Tinker Hall at which time the results of yesterday's Hartford meeting were explained.

In Other Mills Union officers report that a mill in West Haven, in which two looms per worker are being operated under contract, does not report the adverse competitive conditions which Cheney Brothers claim have impaired them to come out for a four loom job. In other parts of the state, however, mills are now closed because workers have refused four loom assignments.

Cheney Brothers may close out its velvet weaving department entirely if the present deadlock cannot be broken. Today workers said that such a course is preferable, so far as they are concerned, to an assignment of four looms which they claim, at least, half the workers cannot maintain in any event, and would therefore be discharged.

Hospital Probe Will Be Secret

Hartford, July 7.—(AP)—Secret hearings will probably be started this month by Gov. Raymond E. Baldwin's special commission to investigate conditions at the Norwich State Hospital for the insane.

In the closing days of the 1938 General Assembly, Senator Joseph B. Downes of Norwich, Democratic Senate leader, charged that conditions at the institution "rank to high heaven." He will probably be called as one of the witnesses in the investigation.

No Publicity on Hearings Following the commission's meeting here yesterday to discuss procedure to be followed in its probe, no statement was issued except that a "no publicity" agreement had been adopted.

The hearings will be held in secret at the Norwich school building on the corner of the Ogdens' Corner school will be transferred to the Northampton school building, which is now being used by the Ogdens' Corner school.

Bridgeport Woman To Get Her Legacy Bridgeport, July 7.—(AP)—Miss Catherine M. French, 78, who kept her for the past 35 years in a rooming house in Bridgeport, died here yesterday as the initial payment of her share in the estate left by her husband, J. Wood of New York.

Miss French was one of 10 persons of about 1,200 who were to inherit the New York estate which was valued at \$100,000 and was distributed in March, 1932, leaving \$945,738 and no will.

Would Set Up 5 Connecticut Women In National Contest

Hartford, July 7.—Names of five Connecticut women whose "egg meal menus" have been judged the best in a state contest, were announced today by Mrs. Marion Evans Dakin, Extension nutritionist of the University of Connecticut and chairman of a committee of three Connecticut judges.

The menus submitted by the five women have been sent to the World's Poultry Congress at Cleveland and will be entered in a national competition for a \$1,000 prize. Each menu includes all the dishes for a dinner, in which eggs have a prominent place.

Local Control Management of the affairs of the sanitary district would be conducted by a board which each participating town, city or borough would be allowed to keep and to make its own local health ordinances as in the past but the costs of maintenance of the health organization would be met by each town proportionately in accordance with its grand list. Levies would be made

On the town treasurers by the district board as funds are needed and this board would set up the health organization. Minimum personnel of two to four would include a full-time health officer, a sanitary inspector, a public health nurse and a clerk. To help defray costs, funds are available up to \$6,000 through the State Department of Health to supply one-half of the proposed budget.

Wise-guy Pops a New York Guide Book That Really Guides

By George Ross

New York, July 7.—Most guide books are written by "others" and sound false and flashy to the native, but there's one by Leo Mortimer which is a tough and logical guide to the metropolis.

"Behind the Scenes" is the title of the book, and it is a book that you can't put down. It is a book that you can't put down.

So he said to himself: "All right, I'll travel and go to the top of the tree and see what's going on."

Is Exonerated In Fight Death

Coroner Finds Thomas Dupe of Schoobly Plot to Test Looch

Midtown, July 7.—(AP) Robert Thomas, 21-year-old slayer of a schoolboy, today was exonerated of criminal responsibility in the first death of Harold Tellow, 17, of Hartford.

After holding an inquest here yesterday, coroner Morris H. White found that Tellow was injured fatally in a fight with Thomas, but that the New York city youth fought in self defense and against his wishes.

Tellow, son of a Y.M.C.A. physical director, died of a fractured skull Sunday night after the fight.

Is Exonerated In Fight Death

Coroner Finds Thomas Dupe of Schoobly Plot to Test Looch

Midtown, July 7.—(AP) Robert Thomas, 21-year-old slayer of a schoolboy, today was exonerated of criminal responsibility in the first death of Harold Tellow, 17, of Hartford.

After holding an inquest here yesterday, coroner Morris H. White found that Tellow was injured fatally in a fight with Thomas, but that the New York city youth fought in self defense and against his wishes.

Tellow, son of a Y.M.C.A. physical director, died of a fractured skull Sunday night after the fight.

SERIAL STORY GHOST DETOUR BY OREN ARNOLD

CASE OF CHARACTERS
ROSELEE DALE and CHRISTINE PALMER—Partners in a summer tourist venture at Goldcrest.

Yesterday Christine and Roselee by the ghost town, Goldcrest. They rode down the main street, walk into the old bank, find the safe locked. A strange voice says, "I've been wondering if you came to open it."

CHAPTER II
A lot of women in history have failed—or fainted—for exact. They wanted to impress somebody with their beauty, which was a stylish home in the biggy-and-butte era.

But it is physically possible to thoroughly modern and girl-reliant Roselee Dale almost did so. Only last afternoon Christine Palmer and Roselee Dale almost did so. Only last afternoon Christine Palmer and Roselee Dale almost did so.

"Who—who in the world is she?" Roselee asked, startled. "I don't know," Christine answered, staring at the woman.

"I'm alive, and harmless," Christine said, smiling and coming around the doorway to join them. "I admit, I was a little nervous."

He was a big fellow, bareheaded and in shirt sleeves, with a pair of trousers that were a little too long.

"I don't see what you're afraid of," Roselee said, looking at the man. "I'm not afraid of anything," Christine said, smiling.

"Well, yes," he admitted. "I was a little nervous. I was a little nervous. I was a little nervous."

"Trucks," Roselee asked, still wide-eyed. "Trucks," Christine answered, smiling.

"I don't see what you're afraid of," Roselee said, looking at the man. "I'm not afraid of anything," Christine said, smiling.

"HE'S GOT AWAY AGAIN WITH THAT GAS WE USE FOR CLEANING PURPOSES!"

LOOK DO YOU SEE THAT LIGHT?
UP THERE IN THE BROADWAY!
THERE IT IS AGAIN!

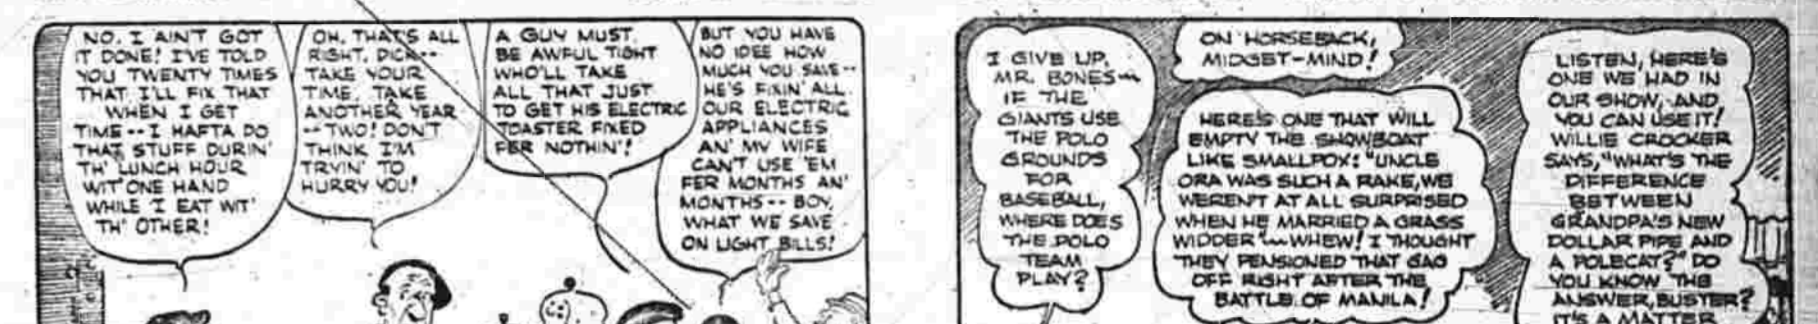

THAT'S STRANGE! I COULDN'T BE UNCLE HOUNG!
WAA-EE!

LOOK DO YOU SEE THAT LIGHT?
UP THERE IN THE BROADWAY!
THERE IT IS AGAIN!

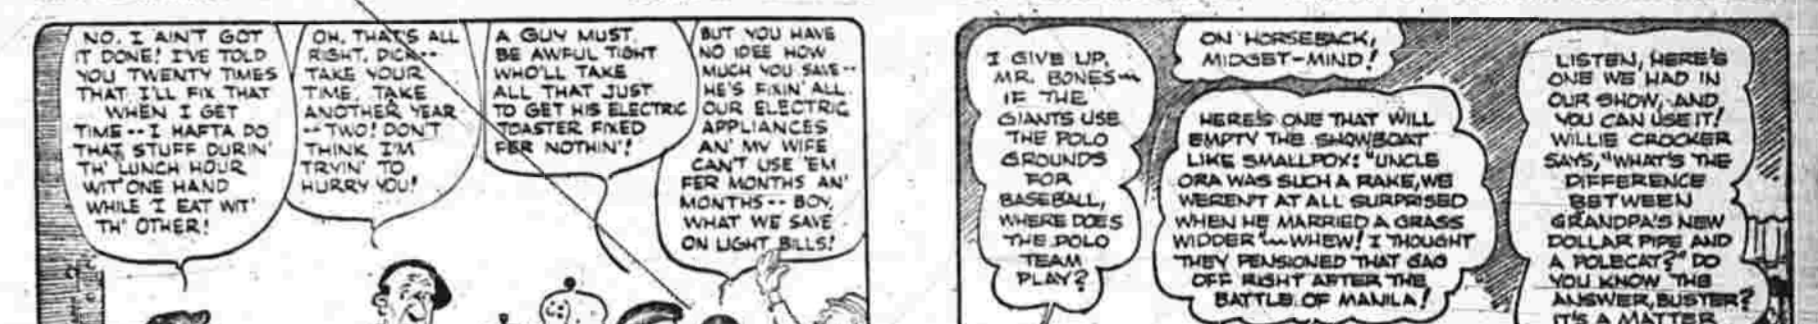

LOOK DO YOU SEE THAT LIGHT?
UP THERE IN THE BROADWAY!
THERE IT IS AGAIN!

LOOK DO YOU SEE THAT LIGHT?
UP THERE IN THE BROADWAY!
THERE IT IS AGAIN!
