A Needed Service

The Manufacturers Association of Connecticut has just completed a service of unquestionable value to one for which there should be necessary as a general principle. It is the preparation and issuance of a final report on the activities of the General Assembly during the past session. This report is not only a valuable record of the work done, but it is also a valuable guide to the activities of the Legislature and to the disposition of bills. It is a service which should be commended to every citizen who is interested in the activities of the Legislature and to every citizen who is interested in the activities of the State.

When we look at the record of the Legislature during the past session, we are struck by the number of bills which have been introduced. It is a record which shows that the Legislature is very active and that it is doing a great deal of work. It is a record which shows that the Legislature is very interested in the activities of the State and that it is doing a great deal of work to improve the State.

It is not however, and could not be expected to be, any such simple matter as to compile a list of bills introduced. It is a matter which requires a great deal of research and a great deal of care. It is a matter which requires a great deal of time and a great deal of effort. It is a matter which requires a great deal of skill and a great deal of knowledge. It is a matter which requires a great deal of patience and a great deal of perseverance. It is a matter which requires a great deal of courage and a great deal of faith.

that that it would be too much trouble to actively do them. But it does seem as though the statistics, whose principal reason for being is to show that there are too many Americans who feel more or less like Senator Borah, who a few days ago Senator Borah, who a few days ago Senator Borah, who a few days ago...

Health And Diet Advice
 BY DR. FRANK MCCOY

Health And Diet Advice
 BY DR. FRANK MCCOY

It is a common mistake to think that health and diet are two entirely separate matters. In fact, they are two sides of the same coin. A healthy diet is essential for good health, and good health is essential for a healthy diet. The two are inseparable and must be considered together.

The first step in maintaining good health is to eat a healthy diet. This means eating a variety of foods, including fruits, vegetables, grains, and proteins. It also means eating in moderation and avoiding excess. A healthy diet is not only good for the body, but it is also good for the mind. It helps to clear the mind and to improve the ability to concentrate and to think clearly.

The second step in maintaining good health is to exercise regularly. Exercise is essential for good health because it helps to keep the body in shape and to improve the circulation of the blood. It also helps to reduce stress and to improve the mood. Exercise is a great way to stay healthy and to live a longer life.

In New York

By George Ross

New York, July 10—The "New York Herald Tribune" is the only newspaper in the United States which has a daily "In New York" column. This column is a valuable source of information for anyone who is interested in the activities of New York City. It covers a wide range of topics, including politics, business, and the arts.

The "In New York" column is written by George Ross, a well-known journalist and author. Ross has written many books and articles, and he is one of the most respected journalists in the United States. His writing is clear, concise, and informative. He is a great asset to the "New York Herald Tribune" and to the readers of the "In New York" column.

The "In New York" column is a must-read for anyone who is interested in New York City. It provides a comprehensive overview of the city's activities and is a valuable source of information. It is a great way to stay up-to-date on the latest news and to learn more about the city that never sleeps.

Quotations--

I hope to establish a definite preparatory standard, because there are too many unqualified lion tamer. But they don't last very long. —Ralph Beatty, qualified lion tamer.

I tried to keep up appearances, because you've got to keep up appearances. —Marshall Neilan, Hollywood movie director, now broke.

We have so emphasized the importance of the dollar, that many believe it makes no difference how you get it, just so you have it. —Dr. W. Stanley Smith, Windsor, N. E. Church, Cleveland.

Morals and ethics have no value anywhere unless valid everywhere. —Frank M. Sheldon.

It is clear that though the captivity of an aving band may still the soul of a fitting with rap-ture, it "fills the air with barbarous dissonance" in the ears of a weary worker wearing tired nature's sweet restorer. —New York Supreme Court Justice Samuel Hotelander.

Real life never presents a simple choice between an absolute right and an absolute wrong. —Sherwood Boleny.

Donnie's Circus Pay and Hour Changes Is Coming Here

Is Coming Here

It's a big business—bringing the Donnie Bros. Circus to Manchester on Wednesday, July 19, after an afternoon and night performance. Many men work weeks in advance of the circus, making this engagement possible.

The circus advance representatives have carefully studied business conditions in and adjacent to their intended exhibition towns and upon these "conditions" reports come to the authority from the circus manager to place this or that town upon the itinerary of the big show.

Weeks before the coming of the circus the various advance contractors and advertising staff begin their work in and out of the town. The contractors are busy with the construction of the big show, and the advertising staff is busy with the preparation of the show's program. The circus is a big business and it requires a great deal of preparation and planning.

The circus is a big business and it requires a great deal of preparation and planning. The circus is a big business and it requires a great deal of preparation and planning. The circus is a big business and it requires a great deal of preparation and planning.

Bubbles to Be Success Signal

Will Denote Sunken Submarine Has Been Lifted From Ocean Floor

Portsmouth, N. H., July 10.—A surge of air bubbles breaking the surface of the Atlantic has been set as a signal of success this week of the 110-ton undersea craft into a Navy training school for the rescue of the 110-ton undersea craft.

The officers, technicians and crew members who today were in the 110-ton undersea craft are expected to be back in the States by the end of the week. The 110-ton undersea craft is a new development in the Navy's efforts to rescue downed submarines.

The 110-ton undersea craft is a new development in the Navy's efforts to rescue downed submarines. It is a small, self-contained submarine that can be used to search for and rescue downed submarines. It is a valuable asset to the Navy and to the rescue of downed submarines.

Washington Daybook

BY FRESTON GROVER

Washington—Even while the headlines play on Tintin and the diplomatic trip to the State Department, the real work of the day is being done in the corridors of the executive branch. The State Department is busy with the preparation of the annual report on the activities of the State. The Department is also busy with the preparation of the annual report on the activities of the State.

Democracy Union

Dr. Henry Lawrence, professor of history and government at Connecticut College for Women, in the first responsible person in this state, of whom we have heard to, openly urge the adoption of the "Union Now" proposal. Dr. Lawrence is a well-known scholar and a leading authority on the subject of democracy. He is a great asset to the "Democracy Union" and to the cause of democracy in the United States.

Smallpox Still A Menace

Before vaccination was discovered, the disease was one of the worst scourges of the world. Today vaccination is simple, practically painless, and effective. The vaccination should be done by a reputable physician and the same care exercised against infection as with any other skin abrasion.

Smallpox is still a menace. It is a highly contagious disease that can be prevented by vaccination. Vaccination is simple, practically painless, and effective. The vaccination should be done by a reputable physician and the same care exercised against infection as with any other skin abrasion.
