Churchill Steps In

There will be general relief among those who sympathize with Great Britain that Winston Churchill is now at the helm. Churchill has a great many loyal friends, personal acquaintances in this country. He has a viewpoint that coincides with the American opinion more than any other foreign statesman.

Governor's Choice?

We have mentioned Paul L. Cornell, the political strategist who heads the Roosevelt school in Washington. He is a man of high ability. We have spoken highly of him as a candidate for the United States Senate. We learn, happily, that Mr. Cornell has been elected as a logical opponent of Senator Maloney.

German Colonies

Perhaps the one item in our American thinking that has a tendency to awaken a bit of sympathy for Germany, is the issue of colonies. What It Means: The High Cost of War

Washington—Take the military defense budgets of the nations of the world from 1933 through 1940, and add 'em together. In 1933, the year Hitler started making for out of castles on the Rhine, the published figures on armaments totaled \$2,974,000,000. We were close to 100 degrees.

Washington Daybook
By Jack Sennett

Washington—Face-vaire is supposed to be an Oriental custom. Storybooks say many an Oriental has run himself through with a sword because he was defeated for the Oriental equivalent for a side-man. It seems he had "lost face," and couldn't prove he didn't want the job anyway.

Manhattan
By George Tucker

New York—Some time ago this reporter mentioned a little disappearing act. Lowell Thomas puts on his hat and goes to the city building, where his office is located. He gets on the elevator— and disappears. He reappears in the city building, where his office is located.

Churchill Steps In

There will be general relief among those who sympathize with Great Britain that Winston Churchill is now at the helm. Churchill has a great many loyal friends, personal acquaintances in this country. He has a viewpoint that coincides with the American opinion more than any other foreign statesman.

Governor's Choice?

We have mentioned Paul L. Cornell, the political strategist who heads the Roosevelt school in Washington. He is a man of high ability. We have spoken highly of him as a candidate for the United States Senate. We learn, happily, that Mr. Cornell has been elected as a logical opponent of Senator Maloney.

How About Wilhelm?

Dispatches from Doorn, the Netherlands home of the former Kaiser Wilhelm, state that the world War Lord No. 1 is watching the progress of World War No. 2 in his "bunker" activities with close interest.

German Colonies

Perhaps the one item in our American thinking that has a tendency to awaken a bit of sympathy for Germany, is the issue of colonies. Her cry for larger living space when her overpopulation may settle, where unhindered, she may have privileges of trade and where raw material may be obtained for German industry.

What It Means: The High Cost of War

Washington—Take the military defense budgets of the nations of the world from 1933 through 1940, and add 'em together. The total expenditure for the world's armaments is now running at a rate of \$10 billion a year. In 1933, the year Hitler started making for out of castles on the Rhine, the published figures on armaments totaled \$2,974,000,000. We were close to 100 degrees.
