Local Selective Board Sorts Its Draft Cards

Of 3,035 Signed, 165 Belong Elsewhere; Registrants Come from As Far as Maryland.

Manchester's Selective Service board began work last night in the vault at the Municipal building by sorting out of the locally registered draft cards those belonging in other draft districts. Of the 3,035 cards which were signed here, 165 were listed for the records of the board in other draft districts.

From distant parts of the country some men as far away as Kentucky and Maryland. A few were coming from Maine and other New England states, but the bulk of the registrants were from the local registration district, which includes the town of Hartford and Vernon.

In many instances the traveling men who came to be in Manchester last Wednesday night, had their own cars, but some were taken care of by the board. The board is now in the process of sorting out the cards which were signed here but which belong to other draft districts.

Although the cards were withdrawn from the total number registered here, the board is now in the process of sorting out the cards which were signed here but which belong to other draft districts.

Because of the large amount of work which has to be done, practically all of which, due to the fact that the board is now in the process of sorting out the cards which were signed here but which belong to other draft districts.

Many Applications. Because of the large amount of work which has to be done, practically all of which, due to the fact that the board is now in the process of sorting out the cards which were signed here but which belong to other draft districts.

British Attack on Nazi Shipyard. The Agricultural Experiment Station is using a measuring stick to determine the extent of the damage done to the shipyard by the British attack.

Full Time Position. It was evident from some of the applications that the board is now in the process of sorting out the cards which were signed here but which belong to other draft districts.

Land Attack. Communications to the local board are being received from the Agricultural Experiment Station.

British Plan for Victory. The Agricultural Experiment Station is using a measuring stick to determine the extent of the damage done to the shipyard by the British attack.

Announcement. The Agricultural Experiment Station is using a measuring stick to determine the extent of the damage done to the shipyard by the British attack.
