Why LESS FURNACE WORK Noppers Cole's so efficient that it requires less furnace fueling. Many women report they no longer need to feed the furnace at noon since switching to this brand fuel. It's a clever fuel, too, leaving no soot, dirt, or dust on the walls of the house. Best of all, there is much less ash (only 1 1/2%) and a lot of heat. Koppers Cole cuts furnace work and costs to a minimum. CASH PRICE—\$13.00 PER TON. L. T. WOOD CO. Telephone 4195

Hull Says Plan On Money Aid Must Be Laid

(Continued from Page One)
Not taken up at the current session of Congress was in reply to several questions at his press conference on statements of Lord Lothian, the British ambassador, who has just returned from London, that financing of the war would become a serious question for Great Britain next year.

Hull, who returned today from a brief vacation in Georgia, said he had not yet had an opportunity to discuss the matter with other officials or with Lothian. He indicated that while the question had not yet reached the stage of active consideration within the government, he expected that it would in the near future. The White House announced that Lothian would visit the president this afternoon.

What It Means: German Sea Raids

Washington—The German sea blockade may soon force the British Government to alter a fundamental policy of the Royal Navy and throw battlements of the line into the risky business of convoying merchant ships.

The British almost came to that pass in the World War, when, as Admiral Sims put it, "submarine warfare had started the British to within six weeks of surrender."

But the convoy system averted the "E-Boat" at first destroyers were assigned to escort vital supplies. Battleships stood by for the destroyers did not, the battleships never were.

And so the battleships remained the backbone of the grand fleet, but in time-honored British policy to remain intact, until the supreme moment of a general death for the empire.

This time it is different.
