### A Christmas Greeting

Angels caroled o'er Bethlehem's fields. The shepherds heard the glad tidings:  
 "Unto you is born a Saviour."  
 They hastened to Bethlehem. They found the Babe lying in a manger.  
 Like the shepherds we are busy at our work. And then on Christmas Day the  
 same message comes to us from God: "Fear not; for, behold, I bring you good  
 tidings of great joy, which shall be to all people. For unto you is born this day  
 in the city of David a Saviour, which is Christ the Lord."  
 To Bethlehem then let us hasten, leaving behind us the noise of our modern  
 Babel, all the cares and burdens of our everyday life, the worries that age us and  
 the fears that depress us. There in the manger lies the pledge of God's love:  
 His Son incarnate. Contemplating that great mystery of godliness, God mani-  
 fest in the flesh, adoring in rapturous delight that precious Babe, we must know  
 that we have nothing to fear. "On earth peace, good will toward men," is not  
 an empty dream. The Lord of hosts is with us, the God of Jacob is our refuge.  
 May you by the grace of God thus find the Babe lying in a manger and finding  
 Him rejoice with joy unspeakable!

Come to Church Christmas, New Year's, every Sunday. Your Church needs  
 you and you need your Church!

### Find Drafts Are Negligent

Many Local Men Fail To Fill Out Questionnaires Properly.

Draft registrants who are receiving their questionnaires at the present time, in many instances, failing to fill them out properly and it has been necessary to return some of them to be corrected. The error that is most common is failure to have signatories sworn to by many registrants who list dependent families, and to have the supporting affidavit signed by the dependent and the signature sworn to as well.

Must Be Followed

These registrants who followed and registrants who purposefully failed to fill out their questionnaires, will be notified by the local board with neglect on the part of registrants. It is stated that they must give oath to the facts contained in their questionnaires, and dependents must give oath to the fact that the questionnaires are being filled out on the questionnaires.

Divide Available

Registrants may receive advice on their questionnaires from a member of the local advisory board and Harold Garrity, or Joseph Perio and Arthur Whelan. Anyone wishing to take an oath may sign the questionnaires at the local Selective Service office, 100 North Main street, or at the home of Arthur E. McCann, Henry Matris and Joseph Perio, 100 North Main street.

### Invasion Danger Is Seen Supreme

Viewers of Parliament. He deprecates any of his address. He is viewing Britain's defenses.

"I have not made the mistake which was made by the French general staff when they thought that holding the Maginot line was all that was necessary," Hitler is saying bluntly and unceasingly.

"But," he said, "as Churchill muttered the word he interjected amid laughter. He said: 'I do not want to insult the French. He is saying bluntly and unceasingly.'"

"We are attacking the fort and the fort is being attacked by the fort."

He has a great need of doing something now or at any rate in the next two months. He struck the most terrible series of blows at the Maginot line. He is attacking the fort and the fort is being attacked by the fort.

Business Arrangements Favorable

## BC Understudies May Reap Glory in Sugar Bowl Test

New Orleans, Dec. 18.—It didn't have to alternate at center with the behemoth Gladuok. Most amusing of the Eagles is Joe Manzo, big left tackle, who has just started to play the past three years, over at right tackle after John Yankovic or Al Morris might travel the glory road.

The steady left end play of Henry Woronicz and Al Lukabicki, who have been playing on the first team, back Charles O'Rourke on the second team and guard Joe Kerr on the third, but teammates have given them a tough battle for recognition all year.

For example: Take right end Don Currian, who has been playing on the second team since he was overhauled at that flank position by the great Gene Goodenough. He was Currian who recovered that Holy Cross fumble which led to the 47,000 Sugar Bowl bid. Goodenough is on the injured list because of a knee injury. Currian, then, has the job of filling in for Goodenough. He has done so well that he has been named to the starting line-up for the Sugar Bowl.

The Bulldogs were enroute to the south today for the annual practice at Bay St. Louis, Miss., on the golf coast.

## Moriarty Last Of Rough and Tumble School

The Detroit Tigers on the same team with Ty Cobb—and his top attribute was a fighting spirit. In a 7000 game, Moriarty stole home with two out in the ninth to win for Detroit, and that theft, one of many, made him famous. William J. Cameron, now a motor company official, was then a newspaper man. Inspired by Moriarty's play, Cameron wrote an editorial, "Don't Die on Third," which ultimately was printed in the telephone and was informed by Moriarty.

A prominent state politician who took an active part in the recent campaign where there was some question as to the legality of some of the votes cast, was called up on the telephone and was informed that Moriarty had died. Moriarty died on the telephone: "I die and a record!"

## English Lord (talking to an American boy about his ancestors)

Oh, goodness me! I'm so upset—I don't know what to do. I've brought a Christmas gift to you, and you're so kind to give me one. I've looked—and thought—until I'm worn completely to a frazzle. Cause you're the one above all else—I'd really like to do it. Some gifts are barred by etiquette, by which we must abide. One looks too cheap; one costs too much. It's so hard to decide if I knew what to buy for you, my mind would be so free!—And then I could start worrying about what you'll give me.

## Sheriff to Quiz Bethel Residents

Bethel, Vt., Dec. 18.—(P)—Declaring he had uncovered an instrument which might have been used in the fatal slaying of Jeanne Kendall, 73-year-old spinster, whose body was found in a ditch on Monday, Sheriff E. H. Schoenfeld said today he intended to question several Bethel residents.

The sheriff declined to say what the instrument was but added that it "matched up with the injuries suffered by the little girl woman who weighed only 80 pounds." Every home he has searched has turned up a knife, but he said he was not sure if any of them was the one used in the slaying.

Investigators found no money in the kitchen room, where Miss Kendall lived alone.

## Harold Geographers Honored With Stamps

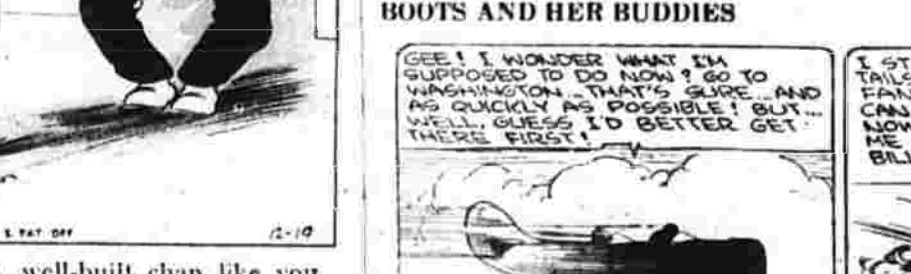

While Hitler gave mapmakers headaches, Brazil offers a relative in the stamp above, commemorating the 100th anniversary of the Brazilian Congress of Geographers in Florianopolis.

Even in America maps do not remain flat for long periods. Explorations in the upper Amazon region may necessitate the use of a new map. In United States, newly built dams have created lakes which must be included in future geographies.

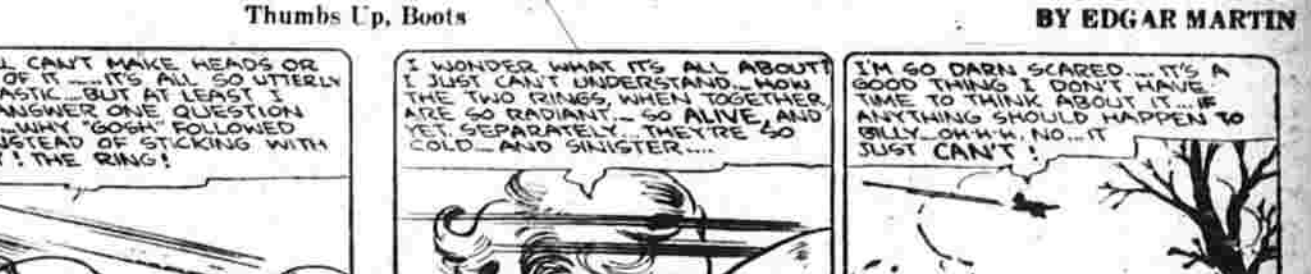

Map making is an ancient science. The earliest extant map of the world is a clay tablet discovered in Babylon and believed to date from the 8th century B. C. Greek mapmakers and geographers were the first to use maps, such as are known today. Ptolemy, author of an eight-volume geography in 150 A. D., laid the foundations of the modern science.

The age of discovery, from the 15th to 19th centuries, gave science a new picture of the world in its entirety. Modern geography continues to add details. Admiral Richard E. Byrd's explorations in the Antarctic will be reflected in new revisions, and a new map of Europe will emerge from the present war.

Italians Retreating in Libya, Says R. A. F.

R. A. F. observers reported that the Italians were retreating (shaded areas) toward Derna (1) and Tobruk (2). The British army, having claimed the capture of Saloni, Fort Capuzzo and Sid Omar, struck (white arrow) at Fascist communication lines west of Bardia (3). Other land forces attacked Bardia itself. The British claim to have driven the Italians back into Libya from their previous positions far east as Sid Barrani (4) in Egypt.
