

Lucas Avers Failure To Help Britain May Lead Nation to War

Illinois Senator Calls Supporters of Legislation 'Realistic, Hard-Boiled Avoiders of War'; Sees Naval Supremacy Centering in Washington After Conflict If Aid Is Given.

Washington, March 1.—(AP)—Describing supporters of the British aid legislation as "realistic, hard-boiled avoiders of war," Senator Lucas (D., Ill.), said today that failure to aid Great Britain might involve the United States in war with both Germany and Japan. In a speech prepared for Senate delivery, Lucas declared that if the United States would support the British "with the tools they need" naval supremacy would center in Washington after the war "just as sure as the sun rises." But he added: "If we abandon Great Britain to its fate, what chance have we to escape being dragged into a war with both Hitler and Japan—fighting on two fronts, vastly outnumbered, laboring under aerial handicaps."

Only Powers Peace-Minded

"The only two great powers on earth today that are peace-minded are the United States and Great Britain."

"By supporting Britain—with tools, not men—we can eventually compel the war mongers to keep the peace."

If Britain falls, Lucas declared, "Japan will carve up the Orient while Hitler envisions Europe and Africa." Then, he said, "the victors will partition South America and build a canal on the verge of the Panama Canal. To deny this prospect is to live in a fool's paradise."

"Real Guardians of Peace"

"We, who support this bill," he continued, "are the real guardians of the peace. We are the realistic, hard-boiled avoiders of war."

Lucas arranged to speak upon conclusion of a major address by Senator Wheeler (D., Mont.)

Federal Trouble Shooter Also Sent to Ford Scene; One Strike Is Settled, Another Starts

Washington, March 1.—(AP)—Ernest Bevin, England's minister of labor, told American workers today that Britain is organizing industry and labor not only to withstand a Nazi invasion attempt but also to make the great offensive to defeat Hitler.

In a cabled article to the American Federation of Labor, Bevin said that "we are adopting in this country far-reaching measures of strike legislation and action in order for ourselves not merely to withstand but to win."

45th Finishes 235 Mile Ride

10,500 Men Moved From Fort Sill to Abilene by Truck in a Day

Abilene, Tex., March 1.—(AP)—Heavy conveyer trucks pounded through this Texas city until nearly midnight transferring 10,500 men of the 45th Division from Fort Sill, Okla., to Camp Berkeley, and only a few fell by the way.

Major Gen. W. S. Key, division commander, had to come to the rescue of one driver stranded in Olney when his big mess truck ran out of fuel. The driver could not decide whether it would be wiser to refuel or to buy some gas, but General Key thought the latter didn't have enough money.

He sent his orderly to the driver with a dollar. The driver sent it back with thanks and bought his own gas.

"I claim that a good truck driver," General Key said, "is made on a number of trucks, but for the most part the twin columns whirled southward on schedule."

Hot Meals Ready

Staff and sore from their 235-mile ride in cramped quarters in trucks that look every bit without much give, the National Cadets from Oklahoma, Arizona, Colorado and New Mexico found hot meals awaiting them when they reached Camp Berkeley. They had cold lunches at noon, but a day of national mourning and training camp in the final stages of construction.

Flash Move Next Week

The reservists in the 45th are 7,000 strong. The rough adjacent country will be used as a maneuver area.

Officers of the 45th said they were already well along in their training program, and they hoped to be settled and back at work within a few days.

Movement of the division will be completed next week.

Franco Declares Permission for Burial in Escorial Royal Tomb

Madrid, March 1.—(AP)—Former King Alfonso XIII is expected to return in death to the realm he ruled a decade ago, a voluntary exile.

Under a decree to be issued by Generalissimo Francisco Franco today, permission will be granted to bury the ex-monarch in the Royal Pantheon at Escorial, Spain.

The king's remains were kept in a coffin in the Spanish capital since the king's death in 1941.

Orders Flung At Staff Staff

Alfonso also sent orders to his staff to be ready at half-staff until March 3, when services will be held in Madrid and provinces.

Alfonso died yesterday morning in a hospital in the town of San Juan de los Rios, where he had been in exile since 1941.

Former Queen Keeps Vigil

Rome, March 1.—(AP)—Former Queen Victoria of Spain, estranged in life from Alfonso XIII, kept vigil for the late king in the white-clothed body of the ex-king of Spain.

Hint Agreement Near To End Frontier Row

Final Peace Between Thailand, Indo-China May Be Announced Tonight or Tomorrow

Bulletin

Tokyo, March 1.—(AP)—A hitch in last-minute negotiations of a Japanese-initiated peace agreement between French Indo-China and Thailand was authoritatively declared to have developed tonight, Japanese Foreign Minister, Yosuke Matsuoka said, at his private residence from 4 p. m. until 10 p. m. (9 a. m., e.s.t.) for French Ambassador Charles Areeste-Henry, head of the French peace delegation, conferred with the Japanese.

The storm swept up yesterday from the Virginia capes, whipped that piled drifts a dozen feet high in some highways and caused innumerable traffic accidents.

On Pennsylvania roads, seven persons were killed in automobile accidents. Three lives were lost in Virginia, three in New Jersey and two in Maryland.

New York city was spared the winter and southern New Jersey had its most severe storm in 20 years. The Wildwood, N. J., city hall was closed at noon to permit workers to reach home.

Delaware Town Isolated

The town of Fenwick Beach in Delaware was completely isolated by drifts, and somewhere off the coast near there 25 fishing boats from Wildwood, N. J., were attempting to ride out the storm.

New York city traffic was snarled, although the snowfall totaled but three inches up to 3 a. m. and not more than another inch was expected. Several plane flights from LaGuardia airport were canceled.

In New England, electric and communication lines were blown down, leaving several Rhode Island towns without light, while emergency crews prepared to work all day on roads expected to be frozen and buried by drifting, temperatures.

The continued bad weather hampered the peace talks.

U. S. Jury Indicts 80 For Breaches of Fishing Laws at Hawaii

Honolulu, March 1.—(AP)—Federal officials armed with grand jury indictments today put the alien ownership of fishing sampans in this important United States Naval center under the legal microscope.

The federal grand jury yesterday indicted 80 persons, most of them Japanese, and three fishing companies, accusing them of conspiracy to violate laws covering the registration of the sampans.

The jury acted after Naval and Army officers voiced suspicion concerning operators of some of the sampans which fish offshore in the waters of the United States west on maneuvers.

The officers have said that many of these operators were alien, and that many own owners of the fishing vessels were laborers, clerks and housewives who had no connection with the fishing industry.

40 Sampans Seized

Seizure of 40 sampans involved in the alleged conspiracy followed the issuance of the indictments, said J. Walter Doyle, Honolulu chief of police.

United States Attorney Angus Taylor said those named in the indictments included United States citizens who were registered as owners of the fishing boats. Others named, he said, were alien consorts of the real owners of the sampans.

The indictments specifically charged there had been "conspiracy to violate the laws of the United States with reference to the registration of vessels of foreign tonnage engaged in fishing, trade, and presentation of fraudulent documents."

Fish Bills at Stake

They charged that the seaman owners had taken steps to make relatives and friends who were citizens and had "knowingly" concealed the fact that it might appear that innocent regulations had been complied with. These false bills of sale, the indictments stated.

Prisoner Faces Additional 5 Years Unless He Talks

Philadelphia, March 1.—(AP)—A prisoner in Holsinger prison will serve another five years—unless he breaks a five-year silence.

Known as the "Silent" man, Harry McDevitt yesterday ordered the prisoner confined for five years unless he talks.

He was sentenced to five to 10 years on an automobile theft charge. He told police his name was Joseph Lauer but refused to give further details.

They were unable to find out anything about his except that he had worked for a time in the jacket of the work clothes he wore when arrested was made in Germany. Guards and doctors who have questioned him in an effort to get him to talk have been met with stony stares.

Five Years More for Silence

In North Africa, the war hero Harry McDevitt yesterday ordered the prisoner confined for five years unless he talks.

Balance of the sentence unless he talks.

Chief Probation Officer C. M. Hackett, who opposed parole for Lauer, said he had asked immigration authorities to determine whether the man is an alien.

Prison physicians reported that Lauer was in good health and that he was sane.

Biggest Nazi Navy Base Has 44th Bombing

Wilhelmshaven Is Main Objective of British Raiders; British Suffer Loss of Warship

London, March 1.—(AP)—British bombers attacked ports in Brittany, in northwest Netherlands and the Nazi-occupied Netherlands yesterday, the Air Ministry announced today.

The big submarine and Naval base at Wilhelmshaven was described as the "principal objective" of last night's raiding, being subjected to its 44th attack of the war.

Weather made exact observations very difficult," a communication said, "but some very large bombs dropped in the target area."

The port of Emden and several airbases in northwestern Germany and the Netherlands were also attacked. The Ministry said, and the invasion port of Boulogne on the West-Field French coast, was raided for the 77th time.

One Plane Lost

One British plane was reported to be missing.

Quibron, on the south coast of the Brittany peninsula not far from the Nazi submarine base at Lorient, was identified as one of the targets of the raiders.

Objectives on the Dutch coast also were said to have been bombed.

The communiqué declared "several direct hits were observed."

Italians Claim Isle Regained

Assert British Garrison Is Rapidly Destroyed

Rome, March 1.—(AP)—The Italian command said today that the Italian reinforcements landed from Corfu to the island of Corfu yesterday from British who seized it Tuesday.

(The British announced in London last night that their forces were withdrawn from the island—some of the Dodecanese in the eastern Mediterranean—after the troops "accomplished their objective.")

The high command bulletin said the British overpowered the Italian reinforcements landed by the regular possession, "rapidly destroying the British garrison."

The Italians said no seaplane base exists on the island, a few miles off the Turkish coast. (The British had indicated that destruction of a seaplane base was their objective in the landing.)

"Imposing enemy forces mobilized for the undertaking after bombing of the island" seized the island, the bulletin said.

"Several of our torpedo boats, with effective aid of the air force, disembarked a landing party," which rapidly destroyed the British garrison, re-established our possession of the island, capturing prisoners, arms, munitions and a British ship."

Hit Mechanized Units

Relatively large formations of British bombers mined the estuaries of rivers in northwestern Germany during the night, informed sources reported today. Some bombs were said to have been dropped on the land.

(The British said E.A.F. bombers attacked Wilhelmshaven and several of northwestern Germany ports, including the French coast port of Boulogne.)

German, Also Report Successful Attack on Grounded Aircraft

Berlin, March 1.—(AP)—German warplanes have "effectively raised" three ports on the Mediterranean coast of Libya, the German high command announced today.

Successful attacks on grounded British planes in North Africa also were reported.

DNV official news agency, quoting a military authority as saying that although British planes attacked Wilhelmshaven, Germany's largest port, early today only three high explosive and incendiary bombs were dropped. One apartment house was slightly damaged, the agency said.

A decision in favor of William J. Thornton and Charles H. Maguire, defendants in a \$10,000 damage suit, was handed down in Superior court yesterday by Judge Edwin C. Chickerson. Suit had been brought by Merrill E. Lathrop of Manchester, injured on the East Center street construction last year ago. The case had been set for trial on the 15th, but the defendants were negligent, while he also failed to show he did not contribute to the cause of the mishap. His foot was injured when a large truck carried by Thornton and driven by Maguire rolled backward onto it as he was blocking the truck wheels.

On Monday it will be in Rockville.

To Give Play On March 17

"Peg O' My Heart" to Be Presented by Parish Players; The Cast.

Rehearsals for "Peg O' My Heart," the St. Patrick's production of St. James Parish Players, are in full swing and give every indication of a presentation well up to past standards set by the group. The play, a perennial favorite written by Mrs. Hartley. Memorex, will be presented in St. James school hall on Sunday evening, March 16 and Monday evening, March 17, at 8:15 o'clock. Gertrude I. Campbell is directing the cast. Miss Campbell has had long experience in directing amateur casts and has received much praise for her competent handling of other plays given by the Players, including "The Farmer's Daughter" and "The Singapore Spider."

Founder's Day Service Here

Taking the lead, roles in "Peg O' My Heart" are Mayra E. McConville as Peg and T. Francis Peckham as Jerry. Both have had a varied theatrical background. Miss McConville, although a newcomer to the Parish Players group, has appeared in countless productions of the Two Hartford's Dramatic Club, while Mr. Peckham has appeared regularly in most of the St. James parish plays. Supporting players include Mary Kelly as Mrs. Chichester; Lucia Dwyer as Ethel Chichester; Edgar Martin as Montgomery Hawkes; Edward Breen as Christian Street; Edward Crotney as Jarvis; Thomas McVeigh as Alaric Chichester and Mary Jodel as Susan.

Another Surprise For Mrs. Cornell

The Players are to be congratulated in their choice of play. Having given commendable performances in a three-act mystery and several straight comedies and farces, "Peg O' My Heart" would seem to be just the right vehicle to display their talent for romance, comedy, and the right kind of wit and dialogue make it a fitting entertainment for St. Patrick's church.

Two more speakers are to address the members during this month and there will be a round table discussion held on April 7, when all four will be back again.

District Fire Warden John Jensen has remained all of his department. He has received notice from the State Fire Warden calling attention to the renewal of permits to start fires. Permits for starting grass fires outside of the limits of the fire department's territory, must be secured from him on.

Nearly 1,500 Present At Local Military Ball

Registration of automobiles in the Manchester area at the local office of the Motor Vehicle Department which closed last night, reached 3,579. This was nearly 800 more than a year ago. The largest number to secure inserts came on Thursday, but yesterday there was the usual late rush and 772 inserts were issued in order to accommodate late comers. Inspector Dunn and his assistants worked overtime and it was well after the closing time scheduled that the final insert was issued. Checking Up Work Because of the busy season yesterday tabulation was not completed last night and the workers were at the office this morning. Last year \$43,224 was collected at the local office but with the increased number of inserts issued this year the money intake will be much greater. Inspector Dunn, when he came to Manchester to open the office, estimated that there would be about 5,000 registrations in this area and his estimate proved accurate. That there were so many inserts issued with only a rush on the last two days, Inspector Dunn says that the weather during the press had much to do with successfully carrying on the work.

Louis L. Foster is general chairman of the dance association, a large number of the congregation. Proceeds from the ball will be applied to the mortgage on the Temple.
