## Senate Opposition Is Seen to Plans To Increase Taxes

### Finance Committee Proposes to Lower Income Exemptions to Require Seven Million More Persons to File Returns for Next Year.

Washington, Aug. 26.—(AP)—Senate opposition materialized quickly today to the finance committee's proposal for stiffening the new defense tax bill by lowering personal income exemptions and thus requiring an additional 7,000,000 persons to file returns.

These were opposition, too, for a provision that would end the community property system of Illinois, Texas, Louisiana, Arizona, New Mexico, Idaho, California, Nevada and Washington.

Under the finance committee's plan, the bill—which called for a record-breaking \$3,250,000,000, as passed by the House—would have its yield boosted to an estimated \$3,500,000,000.

Approximately \$200,000,000 of this potential increase was accounted for when the committee voted yesterday to lower present income exemptions from \$2,000 to \$1,500 and from \$500 to \$750 for single persons.

An additional \$51,000,000 revenue would be derived by eliminating the community property returns.

**Separate Returns**

In the past, husbands and wives in the eight community property states have been able to divide their income and make separate returns. Thus, a man with a \$10,000 salary could file a return on \$5,000 and his wife could file on \$5,000. In many cases the system brought the aggregate of the separate taxes below what the total would have been under a single return.

"The change does not affect any of the country except the community property states," said Chairman George D. Cohan of the finance committee. "It puts the whole country on the same basis."

**Not Retaliatory**

Asked whether the change was retaliatory Senator Connally (D., Tex.), replied in a drawl: "It ain't so. You'll hear a lot more about that when it comes to the Senate floor."

As for the proposed cuts in exemptions, a highly-placed Republican leader said substantial group in his party would vote against them and said Charles (D., Idaho) said they failed to solve the fiscal problem.

Discussing this part of the committee's plan, George said that

## Declares U. S. In Full Swing Of Production

### Beaverbrook Is Asked At Press Conference If There Was a Slowdown in Last Month.

London, Aug. 26.—(AP)—Lord Beaverbrook, British minister of supply who recently returned from a conference in Washington, declared today that the United States was in the full swing of production and that there had been no slowdown since Germany invaded Russia.

Asked at a press conference if the United States was near to entering the war, Beaverbrook replied that such a decision was the business of the people of the United States.

"What do you think?" he reported.

"I'd like to see them in," he said, lifting his voice.

"Then, repeating this statement, he said:

"It's nobody's business other than citizens of the United States, but I am not to be hypocritical. I'd like to see them in now."

**Have Modern Tanks**

He commented that there was no need for tank modernization in the United States.

"They have fine light tanks in considerable numbers," he said.

"I feel no pessimism about increasing United States production," he said.

**Of American airplanes** he said they were just as fine as any produced in this country or any other country.

**Last Week Best**

Beaverbrook said that last week was the biggest Britain ever had in tank production.

He said Britain's gun output was good and added that production of explosives was "entirely pleasing for the moment."

However, he continued, "we now are in the unhappy state of having more troops than weapons."

He remarked that he was going to ask the United States for permission to send an exhibit of our weapons to Washington.

Two cruisers, six destroyers and several merchant vessels were on the ways at the time. One cruiser, the U. S. S. Atlanta, was to have been launched August 9.

The navy took over operation of the plant last Saturday after the union and company were unable to come to an agreement. Last night the company offered to sell the whole business to the government.

The offer to sell the entire plant, with all its buildings, machinery, and ships under construction, was made by President L. H. Kornoroff in a letter to Navy Secretary Frank Knox.

In the letter, Kornoroff expressed a desire to comply with the order issued Saturday by President Roosevelt for the navy to operate the plant because of the strike of the Industrial Union of Marine and Shipbuilding Workers of America (IUMS), and added that to simplify matters the company would be willing to transfer its capital stock to the navy.

The strike was called by the

### Cabinet Spokesman Declares Tokyo Would Welcome a Meeting.

Tokyo, Aug. 26.—(AP)—Japan would welcome negotiations with the United States to ease tension in the Far East, "if we can come to a reasonable conclusion," Koh Ishii, Japanese Cabinet Information Bureau spokesman, said today.

Ishii, who made this statement in response to questions at a press conference, said, however, he had no information that any such negotiations were under way.

Asked about the purpose of recent talks between Japanese Ambassador Kichimasa Nomura and Secretary of State Hull in Washington, the spokesman merely replied: "I am not informed."

**Invasion Of Iran**

Commenting on the British-Russian invasion of Iran, Ishii said: "The peace-loving American nations must have been shocked by this unprovoked act."

The Japanese press characterized the British-Russian action as aggression, and Nichi Nichi said: "The Anglo-Soviet invasion of Iran amounts to high-handed interference in Iran's domestic affairs."

**"Showed Lack of Faith"**

Domini said a well-qualified observer declared British and Russian aid had exposed a complete lack of international faith.

Count Ladislaw von Mikolaj-Golden, press attaché of the German Embassy, said Prime Minister Churchill's Sunday reference to Japan were part of a British strategy to split the Axis camp.

He declared that one day after the "ill-fated" British and minority peoples he sent his troops into Iran.

"We should take care," the German attaché said, "not to play into the hands of the British and thus be divided and ruled."

## Investigator for State Labor Department Reports on Conditions.

Hartford, Aug. 26.—(AP)—Charges by the State Labor Department that conditions in Connecticut tobacco fields were "intolerable and disgraceful" resulted today in appointment by the Connecticut Valley Shade Growers Association of a committee to set suitable working and living standards.

The personnel of the committee met yesterday at a meeting of state officials and tobacco men.

Ralph C. Labaree, Jr., chairman of the committee, said that the committee would report to the State Labor Department.

### Men Return to Positions After 19 Days' Strike; 10,000 Workers Report for Early Shift.

Miami, Fla., Aug. 26.—(AP)—Residents of Miami are sweltering in an August heat wave. The mercury has hit 90 higher on 15 days. The mean reading for the first 25 days of the month was 84.8 degrees—a degree higher than the mean record of August, 1897.

August rainfall so far totals 2.0 inches, against an August average of 6.1 inches.

## Kansas City Hit by Storm

### Traffic Paralyzed, Radio Towers Blown Down But Only Few Injured.

Kansas City, Aug. 26.—(AP)—A terrific windstorm, approaching hurricane force, struck Kansas City last night inflicting extensive property damage and paralyzing traffic.

Three huge radio towers were blown over, store fronts smashed, trees uprooted and cornices pitched into normally busy downtown streets.

The spire of the First Presbyterian church in Kansas City, Kan., was blown down on the roof while 20 Boy Scouts were meeting in the basement. Owen Tharp, the scoutmaster, kept the boys singing until the storm abated sufficiently to permit them to leave the building.

One of the walls was damaged as the spire fell.

The 84-foot broadcasting tower of radio station KMBG in suburban Johnson County, Kan., crashed on the home of Frank Angus.

**All Escape Injury**

Mrs. Angus, her son Donald, 10, and her daughter Dorothy, 13, fled to the basement at the start of the storm and escaped injury.

The only other detail disclosed was that an unspecified number of the crew was lost. It was the first of the former United States destroyers to be announced as lost.

The Bath was one of the 50 United States destroyers taken over by the British in 1940 in exchange for British rights on British territory in the western hemisphere. The destroyers were renamed for American and British cities bearing the same name.

The Bath was one of 11 ships of the class turned over to Britain. All were built in 1915, of 1,050 tons displacement and rated at 35 knots speed.

## British Units Control Vital Iran Districts In First Day's Drive

### Says Reich and Iran In Active Contact Following Invasion

Berlin, Aug. 26.—(AP)—Germany and Iran are in active contact with each other over the situation arising from the British-Soviet invasion of Iran, an authorized spokesman said today.

He declined to disclose the nature of their negotiations. Reports of German offers of support to the Iranians were called "mere trial balloons."

Since the beginning, the main objective of Churchill has been the invasion of the war, Korrespondent asserted. "To reach this goal he has not hesitated to violate the territorial sovereignty of other states—even stopping before the sovereign rights of his former ally, the commentary said.

Unquestionably, Dient said, the British-Soviet move was regarded as demanding "strongest German attention." Dient did not predict, however, what German reaction could be expected.

## Berlin Again Silent On Russian Conflict

### For Second Day Simply Reports Successful Progress Without Mention of Certain Areas.

Berlin, Aug. 26.—(AP)—Adolf Hitler's headquarters on the eastern front for the second day in succession devoted but one brief sentence to the war with Russia today, again simply reporting successful progress without mention of specific sectors.

"On the entire east front operations proceed according to plan and success," the daily communiqué said. "The Army in the east are making good progress everywhere."

The Luftwaffe was reported to have struck far beyond Dnepropetrovsk, yesterday, at Russian troops described as retreating east of the Dnieper river.

**Monitor Is Sunk**

The bombers were said to have taken a heavy toll of the troops and left smashed guns and trucks along the road. German fliers reported that a Russian monitor sank and the Dnieper river being bombed.

In the east of Kiev the German said they shot down nine Russian planes in dogfights and damaged many on the ground.

Important rail lines and truck columns were listed as the Luftwaffe's principal targets along the central and northern front.

Stukas also attacked Red forces at besieged Tallinn in Estonia.

The Germans said their own losses during yesterday's air operations along the eastern front were negligible.

## Nazi Bombers Sink Hopewell

### Former U. S. Destroyer Turned Over to Britain, Sent to Bottom.

London, Aug. 26.—(AP)—The former United States destroyer Hopewell, renamed the Bath and manned by a Norwegian crew in the service of Britain, has been sunk. The Royal Norwegian Navy announced today.

The only other detail disclosed was that an unspecified number of the crew was lost. It was the first of the former United States destroyers to be announced as lost.

The Bath was one of the 50 United States destroyers taken over by the British in 1940 in exchange for British rights on British territory in the western hemisphere. The destroyers were renamed for American and British cities bearing the same name.

Premier Ali Mansur reported to an extraordinary session of Parliament today that the government of Iran is continuing conversations with those powers "to clarify the reasons and object of these transgressions."

## Heart Attack In War Plane

Washington, Aug. 26.—(AP)—Representative Smith (D., Conn.), was stricken with a mild heart attack today in an Army bomber in which he had started for a third time on an inspection trip. The plane returned to Bolling Field and Smith was treated by Army military physicians.

Attending physician notified aides of the congressman that he was not serious, but that he had advised against any attempt by Smith to fly for the rest of the day.

Smith and Representative Durham (D., N.C.), members of a House military affairs subcommittee, were investigating army personnel and materiel were bound for the front.
