Lober Named Philly Pilot

Nugent Announces New Manager Today; Will Take Over on Once.

Philadelphia, Nov. 26.—(AP)—John (Lobo) Nugent, 60-year-old coach of the National League Phillies for the last eight years, today was named manager of the club, succeeding Doc Prothro.

Gerry Nugent, president of the club, said in announcing the change that Prothro, who had been the club's manager for the last three years, had other plans but that he was unable to do so because of other commitments.

"That the club didn't make any progress under Manager Prothro was not his fault," Nugent added. "He is a fine man and a leader, but no one could have forced the Phillies that came from the start, beginning with the loss of one of its stars, Ewell Blacksmith, who was drafted into the Army."

"I talked to Prothro last night over the telephone to Memphis, Tenn.," he told me he felt the change is as much in order as I could make."

Lober becomes the second oldest manager in the major leagues being exceeded in years only by Connie Mack of the Athletics.

Born in Wilmington, Del., he began his baseball career with Pittsburgh in 1904. He was a third baseman and played with the Chicago Cubs, Cincinnati, the Phillies and the New York Giants.

He left the Giants in 1918 to become coach of the Army team at West Point, a job he held until 1920 when he returned to the New York club as a second baseman.

Prothro managed Southern Association teams at his home town and Little Rock, Ark., before he became manager of the Philadelphia club. He said yesterday session and voiced the appreciation of all for the work he has done during the past eight years.

The committee from the Brotherhood in charge last night consisted of Otto Schlemmer, Oscar G. Anderson, Fred Schlemmer and Michael Haberster. They prepared an interesting program of games, stunts, songs and conjurations to round out the remainder of the evening.

Expert Employed For Legal Suits

Hartford, Nov. 26.—(AP)—T. Benjamin Brooks, internationally-known expert of New York and Old Greenwich, will be the state's principal expert in its \$125,000 gasoline tax suit against the Gulf Refining Company.

This case, the first of a series involving about \$1,000,000 in state-claimed gasoline taxes and penalties, will start in the state's supreme court on Friday when Frank J. Di Sean, assistant attorney general, will move to expunge the company's answer to its complaint.

Arguments on the motion will be the first clash of opposing lawyers before the court in the state's legal action against some 125 distributing companies alleged to owe the state about \$1,000,000 in taxes dating back to 1933.

Mr. Brooks, the state's witness in the Fairbairn Co. tax case of 1940, was engaged by Russia and Germany to build up their bulk storage systems for gasoline and oil. He also represented the Venezuelan government in a tax case against the Gulf company in that country.

### Hydrants Show Town's Growth

Expansion Within Fire District Also Indicated By Laying of New Pipes

The growth of Manchester, particularly in that section south of Middle Turnpike, is probably best shown by the number of new hydrants installed in the district during the past year and the amount of water pipe laid.

In the report of Chief Albert Foy of the South Manchester Fire District, made by Fred Parker, superintendent of the Manchester owned water works, it is stated that during the year there had been added to the district's water supply one hydrant, making the total number of hydrants in the district at that time 285, and that during the year there had been 1,200 feet of water main laid.

to keep the possible authority of  
 the bill out of its own precincts.  
 "Our diplomacy is such," said  
 the administration, "that our  
 price control emergency to  
 produce some basic change in  
 the structure of the American economy.  
 There will be those who believe  
 that this price control bill is  
 a symbol of both fear and cupid-  
 ity; since it will give selective  
 price means that it can be made  
 to operate discriminately, it is  
 open to the assault and influence  
 of both those who fear it and  
 those who hope to gain from it.  
 The bill is weak enough to be  
 taken in this cross-raid; it is  
 unlikely to reduce it to complete  
 impotence, so that it may emerge  
 of freedom lies in carrying out the  
 orders of their totalitarian over-

 greatest result is to make the  
 world realize that the United States  
 and mining free nations of the world

**Bolton's New Pastor**  
 Many country congregations  
 seeking a new pastor consider  
 themselves fortunate if they can  
 make their pupil the starting  
 point for some young talent. They  
 frequently provide the opportunity  
 which some newly ordained  
 minister, his vigor and originality  
 undiminished by too much experience  
 with the various factions of the  
 world, converts into a beginning  
 of what is considered a successful  
 career.

It is the opposite kind of good  
 fortune which has come to the  
 historic Bolton Congregational  
 Church. When Dr. Brownell  
 resigned, the pastor of the  
 church for many years, assumed his  
 Bolton pastorate Sunday he was  
 "giving" a career only in a limited  
 sense; it was the first regular  
 pastorate of a lifetime he once  
 intended to devote solely to the  
 ministry. But, in the interim, his  
 phase his career is just beginning.  
 In the larger sense, undertaking  
 his first pastorate at the age of  
 47, he comes to Bolton with  
 life's work. He has been in the  
 wider fields; the Bolton pastorate  
 to him is more of a peaceful haven  
 than a stepping stone to other  
 fields.

Perhaps it is the bright young  
 men who are best for talking of  
 the world as it ought to be. But  
 for sound, wise, measured esti-  
 mation of the good in the world as it  
 is, for tolerance of its shortcomings,  
 and for a well-earned belief in  
 its final destiny, the world is  
 better, what is more pleasant and  
 instructive than to sit down with  
 a man who, in the Indian Summer  
 of his own life, has been through  
 it all, and is capable of rendering  
 judgment in the calm afterglow of  
 varied experience? Such, judging  
 from his first sermon Sunday, will  
 be the good fortune of the Bolton  
 congregation for many Sundays to come.

**Man About Manhattan**  
 By George Tinker

New York, Nov. 26.—Congratu-  
 lations Dept. I see where Reed  
 Lawton has been giving the kids  
 a break, with his American Civic  
 Opera Co. by taking some of the  
 awe out of it. He goes around the  
 country presenting the well-known  
 opera, but the matinees are for  
 kids. They've been arranged  
 for action, with emphasis on  
 sword poisoning, and sword play.  
 Reed himself never appears in  
 the matinees, but he is there. Re-  
 cently a low-headed youngster of  
 six plopped down in the next seat  
 and whispered, "When do the  
 movies begin?"

"In about five minutes," said  
 Reed, "it'll go on like Mickey Mouse  
 or Dr. Jekyll and Mr. Hyde."  
 Reed explained that it wasn't a  
 movie; it was an opera. They were  
 going to put on "Rigoletto" with  
 lots of action, and singing.

But that's all. The kid pro-  
 tested. He was let down. "What's  
 it about?" he finally inquired.

"It's 'Rigoletto' by Giuseppe Verdi,"  
 he said. "Why didn't you say so?"

Just then the curtain went up  
 and pretty soon the kid was ab-  
 sorbed in the story of the opera  
 back and his beautiful daughter,  
 who was in "Rigoletto" with  
 the White House of a commu-  
 ter, and when in Washington he stays  
 at the White House.

Some time ago Sherwood, who  
 once came pretty close to becom-  
 ing a wealthy man, saw \$100,000  
 with his financial adviser. Shortly  
 after this in Washington he re-  
 ceived the Pulitzer award for  
 "There Shall Be No Night," which  
 President was there and he asked  
 Sherwood if a cash sum didn't go  
 with the award. "Yes," replied  
 Sherwood, "the more money is re-  
 served for their parents."

**Prostatic Disorders**  
 Prostatic disorders are common  
 in men past forty and should re-  
 ceive earlier attention than is  
 usually given them. As a general  
 rule, the patient delays treatment  
 until the symptoms cause consid-  
 erable discomfort.

The prostate gland is men sur-  
 rounded the neck of the bladder and  
 the urethra and is made up of three  
 lobes, being composed of both mus-  
 cular and glandular tissue. An en-  
 largement may cause an obstruc-  
 tion at the neck of the bladder  
 which interferes with the emptying  
 of liquid from this storage organ.

The symptoms are chiefly those  
 related to such interference and  
 vary in different cases—a general  
 feeling of fullness, a sense of  
 the prostate is enlarged. A  
 comparatively slight enlargement  
 may cause a urinary stream which  
 is weak and irregular. In some  
 cases the urinary stream is inter-  
 rupted when such enlargement  
 occurs. In some cases the urinary  
 stream is interrupted when such  
 enlargement occurs. In some  
 cases the urinary stream is inter-  
 rupted when such enlargement  
 occurs.

**Britain Passed In Tank Race**

**United States Production Furnishes Half Put into Battle**

Washington, Nov. 26.—The  
 United States, a defense official  
 asserted today, already has out-  
 produced Great Britain in the race  
 for the production of tanks.

Moreover, military sources said,  
 at least half of the tanks that roll  
 off American assembly lines are  
 being rushed to far-flung battle  
 lines under the lease-lend program,  
 for service against the Axis.

These reports were couched with  
 the disclosure that production sched-  
 ules envisioning 35,000 light and  
 medium tanks annually have been  
 suggested as part of a proposed  
 "victory program."

A big share of existing tank pro-  
 duction has gone to Britain, pro-  
 viding the Empire with a sizeable  
 strength in the current fighting,  
 but unskilled quantities also have  
 been shipped to Russia.

Because of military considera-  
 tions, no figures were given to sup-  
 port the claim that American tank  
 production has not passed Eng-  
 land's, but an official in the Office  
 of Production Management reported  
 today that the output here in  
 November will exceed that of  
 Britain in the same month.

The so-called "victory" program,  
 still in the formative stage, had  
 reportedly called for doubling the  
 present 161,000,000,000 defense ef-  
 fort, carrying both 75 and 37 mm.  
 medium and light tanks,  
 to 320,000,000,000.

The fast, heavy armed 30-ton  
 medium tank, would be built at  
 the rate of 2,000 a month under  
 the program, carrying both 75 and  
 37 mm. cannon, was largely at  
 Britain's instance.

Thus the ultimate production goal  
 of the tentative program would  
 be 32,000 tanks a year, as  
 compared with the present 16,000  
 tanks, which call for 1,000 medium  
 and 400 light tanks monthly. He-  
 cent reports indicated that daily  
 or light tanks already had  
 reached the 300-a-month mark.

It was stressed that combat ex-  
 periences and the changing needs  
 of the front lines are the chief  
 factors in the tank type most in demand.  
 Present emphasis is on medium  
 tanks, carrying both 75 and 37 mm.  
 cannon, was largely at Britain's  
 instance.

 Department, has been named to  
 the Committee on Prevention and  
 Control of Fraudulent Claims and  
 Illegal Claims, by W. O. Hake,  
 President of the Connecticut Com-  
 mission on Employment Security  
 Affairs, it was announced today.

Graham's appointment came in  
 recognition of the good record  
 of the Unemployment Compensation  
 Department in the past year, and  
 the fact that the department has  
 been successful in securing the  
 return of \$1,000,000 in overpaid  
 benefits.

The committee will investigate  
 and report on the causes of  
 fraud and illegal unemployment  
 claims.

**The Times-Star**  
 Connecticut Journalism, to a  
 man, will mourn the passing of  
 a newspaper which had an  
 ancestry reaching back to 1790.  
 It had many crises be-  
 fore, and had always emerged  
 because it had a soul true to  
 the best traditions of American  
 and Connecticut Journalism. If  
 adverse circumstances alone could  
 have killed it, the demise might  
 have happened long ago. But the  
 courage of devoted men, and their  
 loyalty to an historic institution,  
 and the vibrant honesty of their  
 Journalism won through again  
 and again.

Of all these qualities, Editor  
 James Lawrence McGovern has  
 for more than 50 years, been the  
 symbol and the living expression.  
 If these qualities had still been  
 honored in the ownership and  
 management of the Times-Star,  
 they might have won through again.  
 It is no state secret that, six  
 months ago, an ownership with a  
 new scheme of management took  
 over, relegated Editor McGovern  
 to the background and proceeded  
 to devote itself to the standards  
 of American and Connecticut  
 Journalism.

The Times-Star had become  
 more than a speculative  
 business property to interests  
 which had not the slightest loy-  
 alty to the traditions of the  
 paper or of Connecticut living.  
 This unpleasant situation, Editor  
 McGovern, and other traditional  
 regular members of the staff,  
 made the effort to hold the  
 old standards. But, in spite of  
 their continued loyalty to the in-  
 stitution, the changing of policy  
 and the exercise of taste was not  
 in their hands; their effort was  
 loyal, but vain. The element which  
 made people want to keep the  
 Times-Star alive has no longer  
 in command.

The paper of the past six  
 months has been no true part of  
 the record of Editor McGovern,  
 or of the other men who gave it  
 so much of their heart over the  
 years, as every state editor who  
 looked at it could tell.

The men who had given their  
 lives and their devotion, the men  
 who loved it as an institution,  
 which shunned them to the  
 significance of a callous owner-  
 ship while that ownership's rep-  
 resentatives proceeded to tear 150  
 years of storied tradition into  
 cheap shreds.

There is the true tragedy of the  
 Times-Star.

**Washington Daybook**  
 By Jack Stimson

Washington, Nov. 26.—On the  
 fifth floor of the old House Office  
 Building, just under the roof is one  
 of the busiest rooms in Capitol  
 Hill.

It is a glassed-in box that is  
 Congress' radio recording studio.  
 There has been written there dur-  
 ing the past five years one of the  
 really new chapters of politics and  
 government.

Literally hundreds of repre-  
 sentatives and senators who could  
 not say a word to their constitu-  
 ents unless those words or accom-  
 panying deeds were broadcast  
 enough to make the public print-  
 ers now pouring millions of words  
 a year onto aluminum discs that  
 are mailed back to the constitu-  
 ents at a stopping place in their  
 sundry.

It would be impossible to list  
 the world as it ought to be. But  
 for sound, wise, measured esti-  
 mation of the good in the world as it  
 is, for tolerance of its shortcomings,  
 and for a well-earned belief in  
 its final destiny, the world is  
 better, what is more pleasant and  
 instructive than to sit down with  
 a man who, in the Indian Summer  
 of his own life, has been through  
 it all, and is capable of rendering  
 judgment in the calm afterglow of  
 varied experience? Such, judging  
 from his first sermon Sunday, will  
 be the good fortune of the Bolton  
 congregation for many Sundays to come.

There is little doubt about the  
 significance of the two great  
 battles to Americans. If Moscow  
 is encircled, and if the British are  
 encircled, the Axis will be  
 able to take the offensive in some  
 quarter; the Axis has admittedly  
 gone out of the British offensive.  
 It may be that the great tank bat-  
 tle has been a draw, with both  
 sides losing so many that it will  
 be an infantry war from now on.  
 And it is that that one side or  
 the other still has taken in re-

 velop into a rout one way or the  
 other. If it is going to be, from  
 this time on, an industry cam-

**Extinct Paper Scene of Blaze**

Bridgport, Nov. 26.—Two  
 hours after the last edition of the  
 Bridgeport Times-Star, which  
 yesterday announced suspension  
 of publication after 151 years,  
 the American will win the  
 war which would have to carry  
 the burden of morale for the free  
 world. For that task, as well as  
 for the production of guns and  
 tanks, America must be prepared  
 to make every sacrifice.

**The Axis Chain Gang**  
 Whatever small chance the  
 Axis has of winning the war, it  
 is a chain gang of the Axis.  
 The second argument was an at-  
 tack upon Leon Henderson as a  
 man and ideologically equating  
 his long as the present bill is  
 to the basis for discussion, then  
 or Sweden was to be among the  
 world and restrict its proposed  
 power. One faction after another  
 will be hearing its strength

**Why the Bill is Vulnerable**

The first skirmish on the floor of the House on the subject of price control, once again, to demonstrate that the only effective type of control upon which there is any possibility of agreement is over-all control, as proposed by Bernard M. Baruch, and adopted by Canada.

The administration's bill for a selective system of price control into two snags in the first hours of House debate. One argument was to the effect that such a selective system was more of an effort to control certain businessmen than it was to create price controls. "Reclamation" was the name of the debate. And the second argument was an attack upon Leon Henderson as a man and ideologically equating his long as the present bill is to the basis for discussion, then or Sweden was to be among the world and restrict its proposed power. One faction after another will be hearing its strength

On Rising Food Costs

Washington, Nov. 25.—(AP)—The prices of wheat, corn and soybeans are beginning to decline. Uncle Sam is increasing numbers of wheat and corn, and the high cost of living. In two and a half months, between Sept. 1 and Nov. 15, the Office of Price Administration received 1,300 individual protests and demands that wheat be sold at a price of 40 cents a bushel. The total number of complaints during the period was 1,300. The price of wheat is now 40 cents a bushel, and the price of corn is 30 cents a bushel. The price of soybeans is 15 cents a bushel.

**Canada Loses Justice Head**

LaPointe Dies in Hospital at Age of 65

Montreal, Nov. 25.—(AP)—Ernest LaPointe, minister of justice of Canada, died in a hospital here today at the age of 65.

LaPointe, for more than 22 years an outstanding spokesman for French-speaking Canada in the House of Commons, died at 8:15 a. m. of an official announcement. He had been seriously ill for several days from a complication of ailments.

Almost Co-Prime Minister

In practice almost a co-prime minister with W. L. Mackenzie King, he often had acted as a Canadian spokesman in the House of Commons. He signed for Canada the first treaty she ever made with the United States, the agreement with the United States for protection of Pacific coast fisheries.

In September, 1938, he declared Canada could not remain neutral in the war and advocated conscription of Canada's manpower for military service at home, a measure he had opposed in the House of Commons.

Since 1909

The farm-robot Quebec boy turned from the practice of law and entered the Legislature in 1904 with slight knowledge of any language but French.

LaPointe first served as representative from Kamouraska and then as member of the House of Commons in 1919 when he succeeded Sir Wilfrid Laurier as the member from Quebec.

**California Road Fatalities Jump**

Sacramento, Calif., Nov. 25.—(AP)—A new California traffic fatality record of 3,183 deaths was reported by the Department of Motor Vehicles today for the first 11 months of 1941—greater than any full year yet recorded.

The number of injured in the 11-month period was estimated at 62,195 or approximately 10,000 more than for the same period in 1940.

Department officials blamed the concentration of national defense activities and the inadequate of the present highway patrol personnel.

The 1941 Legislature increased the speed limit from 45 to 55 miles an hour.

**No Big Damage By Lisbon Quake**

Lisbon, Portugal, Nov. 25.—(AP)—Available reports today still indicated only slight damage was caused by yesterday's earthquake, the most violent recorded here since 1755.

The Madeira and Azores islands also were shaken, but the earthquake apparently was in the Atlantic where its full force was spent harmlessly on the rocks of the islands and no casualties and only slight damage were caused.

The 1913, pay homage each year to persons outstanding in the nation's literature or history.

The state above, says in 1910, honored Gottfried Keller (1819-1890), a celebrated Swiss novelist and poet who has been called one of the best modern short story writers.

Keller was born in Zurich of parents who, like the parents of so many famous men, were poor. He read widely while a youth and chose painting for his profession. He lived widely, wrote lyrics, and turned to literature.

From 1850 to 1853 Keller spent ten years in Berlin, but odd enough, he marked a turning point in his career. He wrote four-volume biographical novel, and the first volume of his collection of short stories.

His second successful period extended from 1876, when he returned from his office as secretary of the canton in Zurich, to his return in 1880.

**Probe of Klan Starts Today**

Grand Jury Recalled in To Special Session at Pittsburgh

Pittsburgh, Nov. 25.—(AP)—First witnesses were summoned today to what District Attorney Andrew T. Park described as an investigation of the Ku Klux Klan by a grand jury recalled in a special session to probe organizations and clubs.

The grand jury, which includes Judge Henry Ellbogen, William Shafer, a Pittsburgh newspaperman attending a re-charge last month, and investigators of the district attorney's office.

Meanwhile, Frank P. Myers, treasurer of the Pittsburgh chapter of the Klan, was held on a contempt of court charge by Judge Myers on the charge of contempt of court. The jury had already begun an investigation of the Klan's activities, claiming 60,000 members.

The judge said Myers, at a jury session lasting until last midnight, was an unsatisfactory witness and "would probably be held in contempt of court." The court ordered him held "until such time as he purges himself of his contempt."

The court said it would welcome the district attorney's information concerning the Klan or the Mantle club. The district attorney said he was trying to revive his claims in many sections of the nation in an effort to raise \$2,000,000.

In charging the jury, Ellbogen said he had information that "various persons and organizations, for their own personal profit, are exploiting and have made a vicious and illegal racket out of the organization of old associations and secret societies."

**Swiss Series Honors Heroes of Literature**

SWITZERLAND'S "Pro Juventute" stamps, semi-postals first issued in 1913, pay homage each year to persons outstanding in the nation's literature or history.

The state above, says in 1910, honored Gottfried Keller (1819-1890), a celebrated Swiss novelist and poet who has been called one of the best modern short story writers.

Keller was born in Zurich of parents who, like the parents of so many famous men, were poor. He read widely while a youth and chose painting for his profession. He lived widely, wrote lyrics, and turned to literature.

From 1850 to 1853 Keller spent ten years in Berlin, but odd enough, he marked a turning point in his career. He wrote four-volume biographical novel, and the first volume of his collection of short stories.

His second successful period extended from 1876, when he returned from his office as secretary of the canton in Zurich, to his return in 1880.

**Special Feature For Church Fair**

A special feature each year at the Cathedral Market (Cathedral church fair) is the evening entertainment at eight o'clock. Coming this Tuesday, it is the first of the Christmas bazaars in town.

The committee in charge of the program is proud to present a one-act play, "The Boy on the Meadow" by John T. Sweeney.

The setting is an orchard, and the characters are the Superior Court, played by Joan Todd; Dorothy Douglas, played by Joan Todd; Dorothy Douglas, played by Joan Todd; Dorothy Douglas, played by Joan Todd.

**To Oppose Views Of Sen. Danaher**

Hartford, Nov. 25.—(AP)—With a meeting of the Republican central committee called for December 10 to hear Senator John A. Danaher's report on foreign policy, the Danaher group in the legislature is being organized to oppose his views.

There was a strong possibility that Danaher would be reported in high party quarters that former Gov. Raymond E. Baldwin may obtain a proxy and attend the meeting to air his views on the foreign situation.

Wendell L. Willkie and those opposed to the stand taken by Mr. Danaher in Congress.
