**Naval Hospital Personnel Remains at Base To Care for Wounded; Advance Units Enter Capital at 3 p. m.; All Equipment, Records and Stores Not Destroyed Removed.**

Washington, Jan. 2.—(AP)—Manila and the nearby naval base of Cavite fell to the Japanese today. Both places, the War and Navy Departments said, had been evacuated of military and naval supplies and equipment before advance units of the enemy arrived.

#### Resistance Not Lessened

"The loss of Manila, while serious, has not lessened the resistance of the Japanese attacks," the War Department said.

At Manila all military installations were removed or destroyed when the capital of the Philippines was declared an open city, and all troops, both Filipino and United States, were removed, the War Department said.

The Navy said all equipment, records and stores not destroyed by Japanese bombers had been removed from Cavite, but that the Naval hospital personnel remained to care for the wounded.

The advanced units of the Japanese entered Manila at 3 p. m. (1 a. m., e. s. t.) the War Department said.

#### \$25,000,000 in Property

The Navy had more than \$25,000,000 worth of property and supplies on hand in the Philippines in June this year, most of it centered around Cavite.

This total does not consider how much material had been sent there from June 30 to the opening of hostilities Dec. 7. Neither did it include the value of planes and ships and other fighting equipment.

American-Filipino troops were said to be occupying strong positions north of the city and were holding Manila Bay fortifications to prevent use of the harbor by the enemy.

#### Air Activity Less Intense

Japanese air activity was reported to be somewhat less intense than for several days.

Meanwhile heavy fighting continued on the ground in the past 24 hours with repeated enemy attacks from the north.

The Japanese first entering Manila were reported to be limited to a size necessary for police duties

## Spanish Fleet Beaten in Bay

**Destroyed in Dawn-to-Lunch Battle with American Cruisers.**

#### By The Associated Press

It was nearly 44 years ago that the American people were electrified by the news that the Spanish fleet had been destroyed in Manila Bay in a dawn-to-lunch battle with Dewey's cruisers.

Passing the then lightly armed Island of Corregidor, where big guns now guard the entrance, Commodore George Dewey attacked the Spanish fleet anchored in the bay on May 1, 1898, and destroyed it to the last ship.

The surrender of Manila followed on Aug. 13. Previously the Philippine capital had been occupied by the Spaniards in 1563, captured and sacked by the British
