Jap Planes Attack Corregidor Island; Britain Admits Loss of Four Warships

Axis Soldiers Captured by British in Libya
This long line of Axis soldiers represents prisoners taken by the British, the London War Office says, during operations in Libya. They are being brought back from the forward areas in the desert by a single trouper of a British tank unit as the fighting continues. British announced recapture of the seaport of Bardia, far to the east of the main Axis forces as the British pressed westward.

REDEMPTION MANILA. Manila, over which the American flag has now risen, was once the prize of war. It has been a prize of war before, but it has always proved a poor prize. It has proved a poor prize because it has been a prize of war.

sources of a great modern enterprise could produce. But, best of all is the homage this modern edition pays to the spirit and courage of the men who, 125 years ago, thought to serve a cause and principles in which they believed, but never dreamed of such institutional magnificence. For in the future, as in the past, the real measure of a newspaper's right to exist is not its commercial splendor or importance, but its possession of those ideas no dollar can buy.

Comment From The River Road

By Malcolm Mollan

(Mr. Mollan, former editor of The Herald, has consented to write a weekly letter in which he shares with his former readers the philosophical benefits of his own peaceful retirement to the banks of the Niantic River. Look for his contribution each Saturday.)

I am writing this as the dreary full of year 1941, like a frantic drunkard protesting, with delirium tremens, a murderer's family, writes in the horror of its final hours: "What for the price of good fruit that I seek?" said the Devil.

This would seem to be the indicated way in which to open an essay on the closing of the old year and the opening of a new year. The Devil, however, was not to be so easily deterred.

It has been a year of exceptional good crops. Nature in a gentle and indulgent mood. One would not really mean it. We're glad to see that the weather is being so kind to us.

And they say that the soul that has been put into the world is a good thing. We've had our share of that.

Unfortunally, they are not we are a thousand times more pre-occupied with what we ourselves and our families have been doing.

What a year of change and excitement. It has been a year of change and excitement. It has been a year of change and excitement.

What a year of change and excitement. It has been a year of change and excitement. It has been a year of change and excitement.

Lincoln Corn Wins Award

Conscientious Developed Variety Given Bronze Medal in Selection.

New Haven, Jan. 3.—With the choice of Lincoln, a bronze medal winner in the 1941 All-American corn contest, a new honor has been bestowed upon this variety.

Lincoln is one of several hybrids of a series of almost 300 that have been developed by the American Corn Belt Experiment Station.

Connecticut Yankee

By A. H. O.

All self-respecting citizens should open a new year with a crusade for 1942 is a clarion call to the entire state to march to the aid of the Republic.

What a fine business! Here we are, grown people, sitting down with ourselves once a year just because the calendar is going to change.

Then, within a very few hours, we are admitting first to ourselves, and then to the world, that we are a little bit behind.

Not that we are a little bit behind. We are a little bit behind. We are a little bit behind.

Not that we are a little bit behind. We are a little bit behind. We are a little bit behind.

Not that we are a little bit behind. We are a little bit behind. We are a little bit behind.

Not that we are a little bit behind. We are a little bit behind. We are a little bit behind.

Not that we are a little bit behind. We are a little bit behind. We are a little bit behind.

Not that we are a little bit behind. We are a little bit behind. We are a little bit behind.

Sense and Nonsense

Limiting speed to forty miles an hour to conserve gas was given credit for the "death" of the "week" on Massachusetts highways in recent motoring history. A policeman stopped a Negro driver and demanded to know why he ran a red light. "Didn't you see that red light?" the officer asked. "I see it." "Well, why didn't you stop?" the officer asked. "I saw the white light on the green so I thought the red was for us niggers," the dandy replied. He was accused. Every holiday proves that the highway engineers did not know their business when they designed roads. Anybody can see now that the roads should be wider, not longer. Our highway patrolmen are regarding us a great service and we are proud of them. Man—Have you a garage? Friend—I don't know. My wife has just gone to get the car out! One out of every 20 trucks operating on the United States highways is owned by the federal, state, or local government. Party Profits The 1940 presidential birthday party operation netted a total of \$14,625.47. Of this amount, \$179,592.18 stayed with the various committees raising the funds, and \$44,632.71 went to the Warm Springs Foundation fund. Where Some Of The Gas Goes Taxicabs in the United States carry more than 700,000,000 passengers a year. New Lodger (sarcastically)—Is that all the scenery there is in this room? Landlady (sincerely)—Yes, sir. I can show you more scenery. New Lodger—Well, I'll take two more rooms. I've got to wash in the morning. Teacher pointed out that a surname often indicated the trade of ancestors of those who bore the name. He gave as examples, Smith, Taylor, Baker and others. He questioned one of the boys. "Webb?" "Spiders, sir!"
