New Directories Distributed Here and in Rockville This Week.

directories are being delivered this week to telephone subscribers in Manchester and Rockville, it was announced by P. J. Ranney, local manager of The Southern New ingland Telephone Company. Mr. Ranney asks telephone users to consult the new directory to avoid the annoyance and delay of calling wrong numbers. Any sub-scriber whose new directory has not been delivered by Monday, he said, will receive one promptly upon calling the telephone busi-Mr. Ranney siso asked telephone users in this area to limit the number and length of their conversations insofar as reasonably possible. He emphasized that at times of air raid alarms or other emergencies, the public should refrain from using the telephone except for calls of extreme urg-ency. Only in this way, he said,

4 WAYS TO CUT DRIVING BY 25% . . . told in pictures

1. YOU CAN HELP CONNECTICUT save rubber ... help America win this war ... if you drive your car 25% les! Why don't you ladies form a group in your neighborhood so that each of you takes a turn in driving to the grocery store, or downtown to shop, or for any one of your many usual errands? If you are going to a party or the movies, drive just one car - and save. Do things together in every way you can - it will help plenty!

2. DEFENSE WORKERS - ALL WORK -ERS, you can help save rubber by going to work together every day. You, too, can take turns. Perhaps one of you can drive one week, another the next, and so on. You'll not only be helping your country save rubher, but you'll be saving money yourself ... on tires, gasoline, and wear on your car. Don't say, "Gee, that's a good idea," and then fall into your regular habits. Plan to do it today - noud

Cornell

3. TAKE THE TRAIN, OR BUS, if you are going to visit friends in another city Use our transportation systems whenever you can - if it's not too much of an inconvenience. It won't cost you any more money - probably less, and you will be doing Connecticut and your country a hig service. For remember, we need all the rubber we can get to help produce more planes, ranks, and ships!

4. WALK SHORT DISTANCES instead of driving your car as usual. It takes only 15 to 18 minutes to walk a mile. What's more, walking is good for you, will make you stronger and healthier. And now, more than ever before in our history, we Ameri cans must be strong and healthy to accomplish the tremendous job we have before us. Have the children walk to and from school; walk to work yourself and SAVE RUBBER!

IF YOU SAVE YOUR TIRES NOW, you will have your car for those healthful, relaxing trips to the beach next summer, for fishing trips this spring, for family relaxation and fun. Connecticut must produce at top speed for America's gigantic new victory program. Relaxation is essential to each and every one of us. If you are really strict about using your family car, you may still be able to enjoy its use when less forehanded people have worn away their tires on unessential trips. Remember! Part of America's rubber supply is in your care! Guard it well! Help America win this war!
