

Latin Favor Frank Policy

Washington, April 1.—(Wide World)—The new United States policy toward Latin America... is not contributing in any way to the frequently needy or something stranded families of the men of our Navy.

Can Be Loyal... The new policy shows we are going to stand up against the Axis powers... We are being loyal to those little nations even though our government officials are bound to impress the Argentine people and make them more confident that we will supply arms and other defense materials only to those who actually are on our side in the war.

Tricky Mud Takes Life

Agonizing Slow Death By Drowning of Oysterman Revealed.

Leeds Point, N. J., April 1.—(Wide World)—If you're worrying about how to get to work when the old tires give out, consider the American farmer.

In the past 20 years, many an American farm family has traded every horsehoe on the place for rolling rubber.

And the "money end" of farming is getting the goods to market.

States High Priorities.

The farmer takes high priorities on his farm truck used exclusively for transporting goods to and from market areas. "Last A" for trucks, against the car which is a farmer's only means of transporting goods to market. "Last B" for cretreads and recap.

When it comes to getting the tires, however, the farmer is usually in a bad way. He is usually buying second-hand tires, and certain traveling salesman as well as auto companies, highway crews, and "work work" jobs for cars, again buying second-hand tires. Certain government officials and certain traveling salesman as well as auto companies, highway crews, and "work work" jobs for cars, again buying second-hand tires.

Despite Warning Federal Control Imminent.

Hartford, April 1.—(AP)—Rental conditions in industrial areas are growing more rampant despite the warning that Federal control is imminent, according to preliminary results from a questionnaire sent to Connecticut Fair Rent Committees by the State Defense Council.

Blacksout Tests To Take Longer

Hartford, April 1.—(AP)—Connecticut may soon undergo blackouts tests of three or four hours duration rather than the 20 minute to half-hour tests of the past month or so.

Defense Begins in the Kitchen

"Waste not—want not" is an old time saying that carries a great deal of truth. Who would have guessed a few short years ago that we would be salvaging tires, rubber of all kinds, steel rails, waste paper and junk? But getting right down to today that's just what we're doing.
