### Second Front Coming Soon, Wavell Says

(Continued From Page One)

—said that she had performed great services for Russia by her annual visits to Germany and her delivery of supplies to the front in the face of great difficulties. She also mentioned the Russian hope of quick aid, which would be given by a second front in the West, which she said would be the opening of a second front in the near future. She said that the time is not far distant when the Allies will drive the Axis against the common enemy. It will be an important factor for the victory.

She also mentioned the German offensive reaction to this second front. She said that the German offensive reaction to this second front was a great one. #### Germans Hold 300 American Citizens In Occupied Area

(Continued From Page One)

er Miss Fern Lombard of New York and Tours, France, was among those taken into custody. Debutant recently had been in Cannes, in the unoccupied zone, but it was stated there was reason to believe he might have gone to Paris recently.

The roundup was only one of a number of problems involving Americans in France.

The United States Embassy in Vichy has asked Pierre Laval's government to explain why citizens of the United States had been barred from air travel in unoccupied France along with other Allied nationals, it was reported today.

Motion Picture Film Stopped

It was understood that the embassy also wanted to know why American motion picture films had been stopped in transit at the frontier under the pretext of the demercurized film. It was said that the American film distributors had been notified to stop their films Oct. 1.

The announcement of the restrictions on air travel, which threaten to increase friction, already existing between Washington and Vichy, was made by the French Ambassador in Paris after consultations with German officials in Paris after consultations with German officials in Paris after consultations with German officials in Paris.

### WILL BE OPEN

Sundays, Mondays and Tuesdays During October

PARTIES AND WEDDINGS CATERED FOR BY APPOINTMENT

Get in on the drive that starts today. Get the unused metal out of your cellar, your attic, your garage, your place of business. Without this scrap the Nation's steel mills must shut down, for all new steel is 50% scrap, and the mills have not enough for even 30 days.

In spite of the terrible lack of scrap, here is why you may still find full junk yards and scrap depots — and why they must be kept that way!

- All scrap must be sorted, stripped, and broken up by scrap dealers before it can be used. Their yards are full because they are busy—preparing your scrap for the mills as fast as they possibly can!
- Auto graveyards strip autos, keep the usable parts and junk the rest—turning out 450,000 tons of scrap in a typical month. Each must scrap within 60 days as many cars as he buys—that is the law!
- Scrap collections sometimes have to stay around because the dealers can't handle them all immediately. Even if they could, the mills could not store it all. The local salvage depot is a stockpile—where your scrap is available for instant use as soon as it's needed. And it will be needed!

Remember if these places become empty, the mills shut down — and we lose the war!

So get out your scrap and help your neighbors with theirs. It's the greatest single contribution you can make right now to win the war!
