**Wheeler and Nye Nervous**  
 As Washington columnists have pointed out, there is probably a tactic of self-defense in the action of Senators Wheeler and Nye, the isolationist wing of the Senate in advance of the trial itself. The process by which a District of Columbia grand jury has returned indictments against the two men for conspiracy to undermine the morale of our armed forces.

It is not beyond the realm of possibility that some of the persons received encouragement and support from isolationist members of Congress. The speech of Wheeler and Nye, for instance, have made excellent material for distribution by any number of fifth columnists. Congressional members of Congress have been equally generous in their support of the facilities of his office as well as his franking privilege to enemy agents. Other members of Congress have been equally generous in their support of the facilities of his office as well as his franking privilege to enemy agents.

 There will be no large Versailles treaty for us if we lose. —War Production Board Chairman Donald M. Nelson.  
 It will be harder to increase production than it was six months ago. There are more physical difficulties to be overcome. Times are tougher. So are we. —War Production Board Chairman Donald M. Nelson.  
 There are not enough married men without dependents for the mobilization of say, between 10,000,000 and 15,000,000 in the United States. —Judge Charles J. McNamee, Ohio jurist.  
 Any single word which directs the thoughts of our people toward an understanding of how our liberties are actually being protected and what we are doing to protect them is a word which is worth a hundred times as much as a word which is not. —Frederick A. Van Fleet, former general of the General Society of the Sons of the American Revolution.  
 We expect headaches. We are used to them. But we have to face the facts on what loss of freedom is actually being sacrificed. —Judge Charles J. McNamee, Ohio jurist.  
 Another instance of constructive receipt of income may arise when a debtor or biller is paid by a check which is not cashed. —San Jose, Calif. —Sherrif Dale.  
 He has quit. Business is too slow. He is in a hole. He is in a hole. He is in a hole. —San Jose, Calif. —Sherrif Dale.

Heard Along Main Street

Perhaps the decrease in automobile driving has had some effect, but there has been a noticeable drop in coasting accidents this winter. The town has had one tragedy thus far due to sliding in the highways and perhaps would have had more if there were more cars on the streets.

Not so long ago if you mentioned Bob Schaller's name you would immediately think of automobiles. Bob managed Schaller's garage until the war and the government bought him a horse. He can do close to 30 miles an hour and has bought himself an auto as well as these days.

Have you heard about a local restaurant owner who had planned for months on a trip to Florida? It seems that he followed in the steps of the previous owner of the restaurant, when it came to playing the horses.

A couple of months ago an out of town man drove his car into an excavation on Main Street. At first he said he wasn't injured but later on it developed that he had hurt his back.

That story about the hill-billy defense worker who was making so much money at the aircraft plant that he bought two wrist watches—one for each wrist—has certainly grown.

Now the latest hill-billy who has been brought to your attention has been buying grand pianos. He bought one for himself, then he bought one for his wife. His two daughters liked the piano so much he bought one for each of them.

Removal of Rails Nearly Completed But one length of rail on both trolley tracks remains to be removed before the work is completed on Center street.

You might have called it "Manchester Day" in Hartford County or any Red Cross work as represented by Judge Raymond R. Bowers.

But we're told, the Red Cross doesn't think that this sort of thing or any Red Cross work should be handled through a charity office so it was insisted that all the details should be turned over to the Red Cross office to be handled.

For the past 20 years—ever since the Municipal building was erected—there have been no outside lights on the structure. Previously lights from the various offices were sufficient to light up the front and rear entrances.

Commuters riding the Rockville bus lines tell an amusing story of what happened early this week. On one of the early morning trips, that time when it's just getting daylight, a driver had crossed the Talbotville flats at the Parker street turned left.

We were in a small store on the east side this week. A sign that was tacked up behind one of the counters caught our eye. It read "Please Be Kind to Our Employees. They Are Harder to Get Than Customers."

The small neighborhood storekeepers are besieged with customers these days. Most of them are women looking for butter and other scarce commodities. The other people into them.
