Join to Boost Brazil's Production of Rubber

Amazon Valley Best Hope of United Nations in Long War; Cost Secondary Now

Editor's Note: The Amazon valley of South America holds the "natural rubber" chief hope of an expanded supply of natural rubber to the United States. With her own needs being met by the Amazon, chief of the Associated Press bureau in Rio de Janeiro, reports that five weeks in the jungle and on the Brazilian coast, traveling by plane, ship, dugout canoe, horse, and mule, he has seen the first of three stories, he tells how Brazil and the United States are combining their resources and money to get out the rubber.

By Henry W. Bagley
Manaus, Brazil, Jan. 21.—The United States and Brazil are entering into a vast program to get possible source of natural rubber out of the Amazon valley. The United States is to provide the technical know-how and money to get out the rubber.

Both countries are to have a large share in the effort, for the production of synthetic rubber in quantity is getting under way in the United States. The rubber will be used to make tires, hoses, and other products. The United States is to provide the technical know-how and money to get out the rubber.

Statistics for 1942 showed that the Amazon valley produced 250,000 tons of rubber. This is a small amount compared to the total world production of 1,000,000 tons. The United States is to provide the technical know-how and money to get out the rubber.

News of Our Boy Scouts
 Troop 126
 Jim Vetrano, Scribe
 The weekly meeting of Troop 126 was opened at 6:30 with the Scouts repeating the Scout Oath and saluting the flag.

We welcomed this week our former scoutmaster, Eric Arthur Anderson. He pointed out that Scout training has done him greatly and is very useful in the Army. He also told us a little about the Old Guard. One of our old scouts, who took a very interesting part in the meeting, was Mr. L. M. Lewis.

The meeting began at 7:15 with the Scout Law and Oath. Dues were collected and attendance taken. Mr. Edgerly then gave the boys a short talk on advancement and recruiting.

The troop then broke up into patrol corners. This was followed by a class instruction period of 15 minutes. The boys started the boys' council and the following patrol corners: J. Oakes and four streets. The meeting was held at the home of Mr. J. Oakes and all boys are asked to be on the alert.

The meeting was closed at 9:00 with the Scout Law and the Scoutmaster's Benediction.

Planting Victory Gardens Urged
 Washington, Jan. 21.—(P)—With a goal far surpassing that of a world war, a new army of soldiers is being mobilized to plant the victory gardens of this war. The national food supply.

In 1917-18, some 5,285,000 war gardens yielded an estimated 528,285,000 pounds of vegetables.

For 1943, the Agriculture department has set a goal of at least 18,000,000 victory gardens with 12,000,000 on city, town and suburban plots, and 6,000,000 on farms.

Discounting reports of a seed shortage, Secretary Wickard urged every home, city and suburban family with a sufficient plot of open, sunny and fertile ground to plant a victory garden. He recommended that special attention be given to green and leafy vegetables, yellow vegetables and tomatoes.

 Washington, Jan. 21.—(P)—With a goal far surpassing that of a world war, a new army of soldiers is being mobilized to plant the victory gardens of this war. The national food supply.

In 1917-18, some 5,285,000 war gardens yielded an estimated 528,285,000 pounds of vegetables.

For 1943, the Agriculture department has set a goal of at least 18,000,000 victory gardens with 12,000,000 on city, town and suburban plots, and 6,000,000 on farms.

Discounting reports of a seed shortage, Secretary Wickard urged every home, city and suburban family with a sufficient plot of open, sunny and fertile ground to plant a victory garden. He recommended that special attention be given to green and leafy vegetables, yellow vegetables and tomatoes.

News of Our Boy Scouts
 Troop 126
 Jim Vetrano, Scribe
 The weekly meeting of Troop 126 was opened at 6:30 with the Scouts repeating the Scout Oath and saluting the flag.

We welcomed this week our former scoutmaster, Eric Arthur Anderson. He pointed out that Scout training has done him greatly and is very useful in the Army. He also told us a little about the Old Guard. One of our old scouts, who took a very interesting part in the meeting, was Mr. L. M. Lewis.

The meeting began at 7:15 with the Scout Law and Oath. Dues were collected and attendance taken. Mr. Edgerly then gave the boys a short talk on advancement and recruiting.

The troop then broke up into patrol corners. This was followed by a class instruction period of 15 minutes. The boys started the boys' council and the following patrol corners: J. Oakes and four streets. The meeting was held at the home of Mr. J. Oakes and all boys are asked to be on the alert.

The meeting was closed at 9:00 with the Scout Law and the Scoutmaster's Benediction.
