

About Town

At Lt. Earl W. Smith of Manchester, Conn., has been selected to attend the Officers' Communication Course at Fort Belknap, Okla. Lt. Smith, son of Mr. and Mrs. George Smith of Manchester, reported at Fort Belknap from Camp Hood, Texas.

A place behind the wheel of an Army vehicle is the job ahead for auxiliary Dorothy Hurling, 173 High street, Manchester, Conn., who graduated this week from the WAAC Training School at Duxbury, Mass. The training school was one of the 42 members of the "War Transport School" in many methods of driving. Graduates of the school will be placed in the place of soldiers who are driving at Army posts throughout the country.

Bolton Session Next Saturday

Special Meeting to Lay Tax Rate to Be Held; Other Business.

The March special meeting of the Town of Bolton will be held at 2 o'clock next Saturday afternoon, March 27, in the dining room of the Bolton Hotel. This is the usual town meeting that sets the tax rate on the appropriations made at the October annual meeting. The annual meeting does not adjourn until 10 o'clock, the Selectmen selecting a date in March when the weather is good. To see if the town will appropriate \$76 for a town sewer or roll, to levy a tax on the last grand list, to meet expenses and provide for the appropriations of the last annual town meeting; to see if the voters of the town will authorize the Board of Selectmen to enter into any agreement for the purchase of the Bolton Electric Co. because at Pioneer or in the fare, the town is working on white fabrics and it is important that they keep their hands clean at all times.

To Go Overseas

Second Lieutenant Ella Parsons, U. S. Army Nurse Corps, has been detached from duty at the Camp Hospital, Camp Edwards, Mass., and has been ordered to report at an East Coast Embarkation port for overseas duty. Lieutenant Parsons was formerly a member of the nursing staff of Memorial Hospital where she held a supervisory position. She transferred to the Bolton Hospital in 1941. Her husband, Mr. Thomas Parsons, is a member of the Bolton Overseas Unit and until recently has been stationed at Camp Edwards Base Hospital.

Local Women Sorely Needed

This is not a time when employers with war contracts can afford to be too choosy about employees because of the shortage of help. Nevertheless, if you are an employment manager and had a woman tell you that although she was interested in working she would not accept a job that would require her to work in a factory, you might be inclined to think she was a bit barmy. Yet this case is actually on file. The person in question sought work in most war plants in this area without much success but she failed in her quest by not applying at Pioneer or at the Bolton Electric Co. because at Pioneer or in the fare, the town is working on white fabrics and it is important that they keep their hands clean at all times.

Plants in Town Ask All To Register for Vital War Jobs.

It is hoped that hundreds of Manchester women not now working, will realize the importance of this situation and signify their cooperation by signing up.

your BUILDING PROBLEMS Come in and talk them over!

NEARLY every farmer today has two important building problems. The first is to get the small buildings and equipment to carry out 1943 production; the second is planning for the improvements that will be needed in the future. We believe we can help you with both these problems.

While some materials are almost impossible to obtain, this isn't true of all items. Even though we may not have the exact materials you need, we can probably figure out some way in which you can get the small buildings, repair and maintenance, or new lumber-built farm equipment as needed for your production, or feed, troughs and other items.

Your second job is planning ready for the reconstruction of your main building in the future. Careful planning now can save many headaches and expenses in the future.

In planning tomorrow's buildings, you need a professional service. Farm Building Service very helpful. These designs cover a wide variety of farm buildings and are developed after careful field study, every one from a 10' x 10' to a 40' x 40'.

We'd like to suggest that you decide the size and style of your buildings before you start to build.

Goal Is Now in Sight In Red Cross Campaign

Dr. \$8,000 Remains To Be Collected: Fund Receives Three Substantial Checks.

Manchester moved to within \$8,000 of its goal for the Red Cross War fund quota yesterday when substantial checks were received from three local concerns. The Red A.M. contributed \$1,000, while the Independent Club sent in its check for \$500 and the Ellis Coat Company another \$250 to this amount. The grand total, as of today, had reached \$27,679.51.

Goal Is in Sight

The receipt of these three checks gave the workers an added impetus yesterday to keep on pushing until the quota was reached. Slowly but surely the workers felt that they were losing ground in the attack on the goal. But now that the goal is in sight there is every reason to believe that the quota will be attained by March 31.

Dr. Diskan Writes

From far off in the South Pacific comes word from Captain A. E. Diskan, medical officer who formerly practiced his profession here and it contains the highest praise possible for the work the Red Cross is doing in the isolated parts of the world. Dr. Diskan writes to Dr. Eugene Davis, chapter head:

"You may use my word as testimony of what the Red Cross is doing in the South Pacific. The Red Cross workers assigned to the hospital and the island are doing a job of good just one instance. A young chap here, who was injured in a ship, received care that his father was dying. Through the Red Cross, arrangements were made for him to go home and see his dad before he died. Things like that help out here. You can tell the people here that this Red Cross is doing a job."

This letter evidently was from the actual fighting front where the
