Cardinals Blast Hank Borowy for Two Runs in 4th

Redbirds Forge Ahead 2-0; Brazle Holding Bombers in Check as Mates Pull Off Two Sensational Plays; Biggest Crowd Yet.

Yankee Stadium, New York, Oct. 7.—(AP)—The St. Louis Cardinals landed on Hank Borowy for a pair of runs in the fourth inning today to take a 2 to 0 lead over the New York Yankees going into the fifth frame of their world series game, before the third straight throng of more than 60,000 to see this year's classic.

Before the third straight throng of more than 60,000, the St. Louis Cardinals and New York Yankees met in the third game of the world series today and both pitchers had to work their way out of tight spots to battle through a scoreless first inning.

Two of the most spectacular outfield plays of the series featured the second frame. Keller raced over to the left field boxes, leaned far among the customers, his back to the plate, to take Marlon's foul with one hand. And in the Yankee half, Danny Litwiler had to sprint 50 yards to make a shoestring catch of Joe Gordon's liner.

First Inning—On the second pitch Klein flied to Stainback in center. With the count one and one, Walker doubled down the left field foul line.

Musial walked on five pitches. W. Cooper bounced into a double play, Crosetti to Gordon to Etten.

No runs, one hit, no errors, one left.

Yankees—Stainback singled to left. On the first pitch, Crosetti sacrificed, Brazle to Klein.

Johnson grounded to Marlon who threw to Kurovski in time to nab Stainback sliding into third and Johnson was safe at first on the fielder's choice.

Keller fanned on four pitches. No runs, one hit, no errors, one left.

Second Inning—Cardinals—With the count two strikes and one ball, Kurovski popped foul to Dickey in back of the plate.

Sanders struck out on three pitches. Litwiler bounced a single off Borowy's left leg.

Marion, who had hit a homer into the left field stands on his first appearance at the plate yesterday.

Senate Adds To Benefits Monthly Allotments of \$80 to Wives With One Child Approved.

Washington, Oct. 7.—(AP)—The Senate's point-blank refusal to halt the draft of pre-war fathers was the signal today for immediate action on sharp increases in cash allowances for service men's dependents.

The Senate took the initiative in seeking to ease the financial burden of soldiers' families by approving monthly allotments of \$80 to wives with one child and \$20 for each additional child.

Similarly higher allowances are contained in a House bill, which the Military Affairs committee expected to report out today.

The law now provides for \$50 to a wife, \$12 to the first child and \$10 for each additional child.

In view of the apparent willingness of most members of Congress to be generous with soldiers and sailors—especially heads of established families—there was little to indicate that the House would consider the new Senate figure too high.

Wheeler Proposal Rejected—The Senate measure was passed after rejection, 48 to 26, of a final proposal by Senator Wheeler to prohibit further father drafting. In its final form the bill sent to the House would:

1. Deny Federal employment to able-bodied, draft-age non-fathers whose indispensability can not be certified to Congress within 30 days after the bill's enactment.

2. Require evidence of the indispensability of workers in war plants to be submitted to draft boards for all occupational deferments of non-fathers of draft age.

Yank Carrier, Given Cheers After Return

Norwegians, Surprised By Lightning Blow at Nazi Shipping, Cheer And Wave at Planes.

By John E. Lee Representing the Combined United States Press Distributed by The Associated Press

With the British Home Fleet, Oct. 6.—(Delayed)—Surprised Norwegians cheered and waved when dive-bombers and torpedo planes escorted by fighters from a United States Navy carrier struck their lightning blow at enemy merchant shipping off northern Norway.

The attack was carried out by carriers of an air group early Monday and spread destruction and confusion among the targets. (The attack was announced by the British Admiralty Tuesday.)

So great was the element of surprise that the Germans were unable to get a single defensive fighter plane in the air while the attack was in progress. The only opposition was from anti-aircraft guns which brought down three bombers and wounded the pilot of one American fighter. The bombers crashed or made forced landings, but the fighter managed to return to its carrier.

Later, two German planes which tried to follow the Naval force accompanying a carrier were shot down by fighters before they could complete their mission.

Representing Important Blow—The attack represents an important blow by a United States Navy Task group now attached to the British home fleet. Today, as the ships returned to the home fleet anchorage, Vice Admiral Sir Bruce Fraser signaled:

"The—(giving the name of the carrier)—did very well. I would be glad if the ships she passes gave her a cheer when she enters the harbor."

The British ships complied with resounding cheers as the carrier steamed proudly into its anchorage.

The operations were the first in which planes from an American carrier attacked targets in German-occupied western Europe and were directed against enemy merchant shipping in the vicinity of Bodoe. A large number of carrier planes participated in the attack, which was highly successful. Many hits were made, with 12 of them scored on eight merchantmen of from 3,900 to 10,000 tons each.

Other hits were observed on a landing barge, a 300-ton ship and a 200-ton ore vessel. Three American planes were shot down by ack-ack.

Several hours after the attack was completed, the carrier's fighters shot down two "shadow" planes—a Junkers-88 and a Heinkel-112—which attempted to

Allied Money Raises Doubt

Clark Questions Legality Of Use With No Repayment Promise.

By Jack Bell Washington, Oct. 7.—(AP)—Issuance of Allied military money in North Africa, Sicily and Italy was challenged today by Senator Clark (D., Mo.), as an "additional appropriation for the Army without any action by Congress."

Clark, questioning the legality of using currency that bears no promise of repayment, told his committee that the best construction that can be put on it "is that it is an additional appropriation for the Army without any action by Congress."

Used To Buy Supply—He said it appeared the Army was using the cash to buy supplies and that natives were accepting it readily.

Sensor Lodge (R., Mass.), one of five members who made an inspection tour of war zones, sounded a warning note about the currency in a Senate speech earlier in the week. He said he hoped it bore no promise of future payment that could not be fulfilled by the United States. This provoked sharp questioning of Treasury Secretary Morgenthau when he outlined a proposal for the establishment of an international bank for post-war stabilization of the world's currencies.

Morgenthau reportedly told senators that discussions were progressing on the establishment of an "international bank with \$10,000,000,000 capital, of which the United States would furnish \$3,500,000,000 and Great Britain \$1,000,000,000. Other countries would subscribe proportionate amounts.

Described As "Shin Plasters"—Senators appeared much more interested, however, in the issuance of what one of them described as "shin plasters" by the Allied governments to pay for supplies purchased in liberated countries. American troops also were said to

Strong Naval Force Hits Japs on Wake

Ships Move in Close Enough to Pour Accurate Fire on Foe; Carrier in Attackers.

Pearl Harbor, Oct. 7.—(AP)—A strong force of United States warships, including at least one aircraft carrier, opened a heavy attack with guns and planes Tuesday on the Japanese at tiny Wake Island, more than 2,000 miles west of Hawaii. The fact that the ships had moved in close enough to pour their always deadly accurate fire on the enemy commanded at dawn Oct. 5 and the Japanese defenses there were overwhelmed.

Only Reports Attack—How long the attack lasted, or if it had ceased, was not stated in a two-sentence communique issued yesterday by Admiral Chester W. Nimitz, commander-in-chief of the Pacific fleet. The communique confined itself to the report that the attack by Naval units under command of Rear Admiral Alfred E. Montgomery was "highly successful."

Such details likewise were unavailable in first reports of the Aug. 30 raid by carrier-based planes on Makindu island, and the 200-ship carrier and land-based planes Sept. 17 and 18 on enemy holdings in the Gilberts, coming after the necessary radio silence to protect the similarly large task forces involved they

Nazi Report New Russian Drive Begun

Admit Breach of Line on North-Central Front Between Velikie-Luki And Smolensk Today.

London, Oct. 7.—(AP)—The Red Army surged forward in a new offensive, the Germans said today, breaching the Nazi line on the north-central front between Velikie Luki and Smolensk.

Moscow dispatches reported only fierce but inconclusive battles for strategic positions in White Russia as mud and rain apparently bogged down the remainder of the front.

Launch Major Attack—The German daily communique said the Soviets had launched a major attack in the Velikie Luki sector, but the Nazi news agency DNB added that the drive, obviously aimed at separating the German armies of the north and south, had succeeded in breaching their line.

The agency said the drive was begun yesterday with the rail and highway center of Nevel, 35 miles southwest of Velikie Luki, as its first objective.

Massed battalions of infantry and tanks attacking under an umbrella of fighter formations, were thrown into the assault, DNB said, and despite heavy losses the Russians plunged forward in considerable depth along the lake and forest-studded northern battlefield.

New, itself controls railroad running north to Leningrad south.

Synthetic Precious Stones Achievement of Industry

New York, Oct. 7.—(AP)—One of nature's most closely held formulas—the making of precious stones—has been cracked by the American industry.

Today man-made, flawless sapphires and rubies are going into precision instruments on fighting machines; tomorrow they may be in tiaras priced within anybody's budget.

Goal Sought for Centuries—Less than two years of research and experiment achieved for the Lindt Air Products company, a division of Union Carbide and Carbon Corporation, a goal sought by man for centuries.

Eward Dietz, service engineer for Lindt, said today that with the properties of the real and synthetic stones identical, "it is sometimes hard for an experienced person to tell the difference, even with the aid of a 20-power microscope."

"Nature usually makes flaws in the stones," he added. "Of course you find flawless natural stones, but these synthetic ones show less fracture and fewer cracks."

The safest way to tell the difference after the war will be the size. The big stones will probably be synthetic. They have already made them as large as 300 or 400 carats.

The principal use for the sapphires and rubies now is as material for wear-resistant bearings. They are also used as gage material. After the war "synthetic corundum"—the scientific term—may appear in spray nozzles, soft wire dies, burnishing tools, phonograph needles and optical supplies.

May Set New Jewelry Styles—Dietz said the stones are colored clear, blue or ruby red to make it easier for instrument makers to identify them. After the war it may set some new jewelry styles.

The recipe for making super-perma, given by the magazine Product Engineering, sounds simple: "For synthetic sapphire and ruby, aluminum oxide is purified and pigmented added for color. The aluminum oxide is fused into an oxygen-hydrogen flame and the fused material is deposited on a fireclay pedestal in the form of a carrot-shaped mass known as a 'boule'."

From that point, presumably the crystal would be treated as a real stone in the cutting.

Nazis Shift Armored Division for Attack; Hit in Termoli Area

Fascists Pace Rome Streets In Big Groups

Opponents Believe Return Has Doomed Them More Than Abdication of Mussolini.

Bern, Switzerland, Oct. 7.—(AP)—A Rome dispatch to the Tribune de Geneve said today that under cover of German guns Fascists again have emerged on the streets of the Italian capital but declared they still dared to appear in public only in groups.

The Fascist march, which passed through German censorship, added the comment that opponents of the party believe "the Fascists' return had doomed them even more than did the events of July 25"—Benito Mussolini's abdication.

The Fascists, toward whom the Nazi occupation forces were said to have an attitude of "tolerant well wishing," were retaliating for the popular destruction of party insignias and emblems on the streets and buildings of Rome, the correspondent declared.

Savoy Emblems Removed—He added that the emblems of the House of Savoy have been removed and destroyed wherever possible, and that over the Palazzo Venezia flies an Italian flag with the center emblem of the House of Savoy cut out.

Fascist headquarters have been established in the Piazza Colonna and Braschi palace where Mussolini for a time was held prisoner. Both are protected by machine-guns and tanks equipped with cannons.

The Fascists have taken up the idea that Rome is an open city, the Swiss dispatch said, but questioned whether the capital could be considered such under present conditions. It appears, the writer said, that the Fascists are unwilling or unable to establish a Fascist republican government and that Rome was declared an open city because "it costs them nothing."

Since the German occupation the Rome police have been wearing red and yellow armbands, inscribed "The Open City of Rome." Similar signs are on police cars.

Nazis Forbidden to Enter—At the Quirinale, a large sign in German warns Nazi soldiers they

Seven Held In Spy Ring

Charged With Conspiring to Transmit Data To German Reich.

Newark, N. J., Oct. 7.—(AP)—Federal investigation of a pre-war Nazi spy ring and a German-American organization was resumed today. Assistant United States Attorney Thorn Lord said, with the arrest of seven naturalized citizens of German birth, two of them soldiers.

The seven were charged in a sealed indictment opened here yesterday with conspiring to transmit to the German Reich, in violation of the espionage act, "documents, writings, code books, sketches, photographs, blue prints, maps... to the injury of the United States."

Broken Up in 1941—Lord said the indictment closed investigation of the German-American Vocational League and of a Nazi spy ring broken up by the Federal Bureau of Investigation in the summer of 1941.

Among those named as defendants were three men who were included Tuesday in a separate indictment which charged them and 24 other persons with illegally conspiring to act as agents of the German government.

They were Joseph Benedict Liebelin, 29-year-old American soldier arrested at Camp Ripley, Minn.; Carl Kranz, 43, of Rochester, N. Y.; and Fritz Schaefer, 43, former national leader of the Vocational League.

Also named in the indictment were Hans Philip Koenig, 40, who was arrested at Fort Dix, N. J., where he was stationed in the Army; Gustav Wilhelm Kaercher, 47, of Westwood, N. J., a former German Army lieutenant; Felix Gustav Adolph Jahnke, 41, New York; and Eric Heinrich Wedemeyer, 41, of Floral Park, N. Y.

The additional charges, he said, are needed to siphon off a part of the \$136,000,000,000 in purchasing power which in 1944 will be bid.

(Continued on Page Five)

Air Success Behind Ship Output Cut

Negation of Italian Fleet Also Appears Factor Behind Navy Cut in Destroyer Escorts.

Washington, Oct. 7.—(AP)—Success of U. S. airplanes in the war on U-boats and negation of the Italian fleet appeared today to be the prime factors behind the Navy decision to cut down its planned production of destroyer-escorts (DE). The curtailment will amount to about 20 per cent of the long-range "DE" program, and will be accompanied by a prompt increase in the building of landing craft used in invasion tactics.

Additional cuts in destroyer-escorts may be forthcoming later, along with curtailments in construction schedules for the less formidable corvettes.

The bulk of the cancellations will be on the Pacific coast, presumably in recognition of the

Army Losses In 4 Weeks Total 8,307

Only 511 Now Listed As Killed in Action Since Landings at Salerno Beaches Began.

Washington, Oct. 7.—(AP)—Secretary Stimson reported today that Army casualties during the four weeks since bitterly-contested landings began at Salerno, Italy, total 8,307, of whom only 511 now are listed as killed in action.

The war secretary told his press conference that 5,428 American soldiers have been wounded in the campaign on the Italian mainland, and 2,358 are missing.

"I understand," Stimson said, "that this is somewhat greater than the total casualties suffered by the British components of the 5th Army."

At the time of the initial landings in the Bay of Salerno, the secretary said, the 5th Army under Lieut. Gen. Mark W. Clark was composed almost equally of American and British troops, but subsequent reinforcements have been largely American.

Outstanding Event of Week—The 5th Army's capture of Naples was the outstanding event of the war during the last week, Stimson said, and engineers now are working dry and night to clear the harbor with greater prospects of

(Continued on Page Two)

Vinson's Plea Seen in Vain

Additional Taxes 'Minimum Requirement' to Head Off Inflation.

Washington, Oct. 7.—(AP)—A warning that inflation threatens the nation, voiced by Economic Stabilization Director Fred M. Vinson, failed today to kindle congressional enthusiasm for the administration's \$10,500,000,000 new tax program.

Vinson pleaded apparently in vain for the program before the House Ways and Means committee, declaring that the additional taxes were "a minimum requirement" to head off inflation and bring in needed wartime revenue.

Opposition Unabated—However, the bi-partisan opposition to so large a tax increase continued unabated and leading members of the Ways and Means group indicated that "a bill would be drawn for a sharply reduced figure, probably nearer \$5,000,000,000."

Vinson testified yesterday that the "threat of inflation was a 'grave' menacing the value of government bonds and savings. Our insurance policies and our homes."

To Appear Again Today—The additional taxes, he said, are needed to siphon off a part of the \$136,000,000,000 in purchasing power which in 1944 will be bid.

Battle for Rome Begins With Powerful German Onslaught Along Adriatic; Destroyers Bring Naval Artillery To Aid of Montgomery; Pound Railway And Military Targets.

Allied Headquarters, Algiers, Oct. 7.—(AP)—The Battle for Rome has begun with the Germans launching powerful infantry and armored attacks in the Termoli area along the Adriatic where the Eighth Army of Gen. Sir Bernard L. Montgomery stands 130 miles east and slightly north of the capital city.

Official announcements today said the Germans had shifted an entire armored division from the west side of the peninsula and thrown it into an onslaught against Montgomery's forces.

Reinforced for Showdown—General Montgomery's troops also have been reinforced for the showdown fight, and have beaten off the attacking German Eighth Army's communications.

Two British destroyers brought Naval artillery to the aid of Montgomery, driving boldly into the narrow Adriatic and pounding railway and enemy military targets to the northwest of Termoli, countering and dislocating the German attack just as Naval forces were poised to assist in the offensive against Naples.

The northwest African Air Force also were intensely active over General Montgomery's front for the first time in weeks.

Both R.A.F. and American fighter planes swept the skies from Termoli as far as Pescara on the Adriatic, and inland as far as Alfedena, halfway to Rome on the Termoli-Rome highway.

While fresh German tank units hastened to oppose the Eighth Army's flanking threat, the Germans rushed the task of fortifying the Volturno river 20 miles north of Naples and the town of Cassel Mark. W. Clark's Fifth Army which reported dogged progress

(Continued on Page Six)

Flashes!

Fourth Term Endorsed Buffalo, N. Y., Oct. 7.—(AP)—The CIO United Automobile Workers conditionally endorsed a fourth term for President Roosevelt and the re-election of Vice-President Wallace today after a minority report of the convention's constitution committee recommending unqualified support of the nation's chief executive was withdrawn.

A majority report was adopted at the U.A.W.'s eighth convention which conditioned the endorsement on "the basis of an aggressive effort" by President Roosevelt and his administration to achieve a "sound and progressive" program.

Germans Looting Rome—London, Oct. 7.—(AP)—The London Daily Herald, quoting a Madrid dispatch, said yesterday that the Germans were looting Rome on a wholesale scale, carrying off paintings, manuscripts and art treasures to their headquarters. The Spanish dispatch said also that Pope Pius XII had sent secret documents to his papal nuncios to be opened if the Germans imprisoned him.

Spj Given 30 Years—Rio de Janeiro, Oct. 7.—(AP)—Niels Christensen, German leader of a spy ring which sent radio information from Brazil direct to Germany, was sentenced to 30 years imprisonment today by the National Security Tribunal. Christensen was convicted of acting against the national security. He had been linked with a broadcast station which transmitted ship departures and routings, including that of the Queen Mary, which barely averted disaster a year ago.

French Situation Worse—Madrid, Oct. 7.—(AP)—A French domestic situation growing rapidly worse, with bread blacker than ever, less meat than before, no mail at all, soaring prices and increasing attacks by "strange marauders in the mountains" was pictured today by Paris correspondents. Border reports said that increased French underground activity had forced the Vichy government to rush reinforcements to Saint-Flour in a previous expedition sent against French guerrillas who defeated with heavy casualties.
