Statements Set Forth Proposals Considered At Relief Conference.

Atlantic City, N. J., Nov. 20.—For the first time since its meeting began here two weeks ago, the United Nations Relief and Rehabilitation Conference today started issuing regular written statements setting forth proposals under consideration.

Before the idea of issuing statements to the public was adopted yesterday, a UNRRA spokesman who asked anonymously stated flatly that Russian Ambassador Andrei Gromyko had been defeated in a move not only to refrain from issuing statements but also to ban newspapermen from the sessions.

They held that civilian populations of the United Nations should get as much information as possible about the meetings went on to prevent "surprises" at the end.

Still disturbing the conference today was controversy as to how UNRRA will get supplies for distribution among nations liberated from Axis control.

Director General Herbert Lubowitz said that he is permitted to make decisions on the amount each nation should be allowed, but
