28 Japanese Ships Victims in Attack; Officials Jubilant

American Warships Dominate Waters 600 Miles from Philippines; For Three Days; 18 Damaged Including Nipponese Battleship.

U. S. Pacific Fleet Headquarters, Pearl Harbor, April 8.—(AP)—Navy officials were jubilant today over official reports that American warships dominated waters 600 miles from the Philippines for three days while hundreds of planes based on aircraft carriers scored destruction in the Carolines more than 1,000 miles west of Truk.

Only 25 Planes Lost
Not one warship was damaged and only 25 planes were lost as the price for sinking 28 enemy ships, damaging 18, including a battleship, definitely destroying 100 Nipponese planes, probably 150 more, and inflicting heavy damage on Palau, Yap, Ulithi and Woleai. American personnel losses totaled 10.

Palau Overwhelmed
Palau, long fortified Japanese Naval base 500 miles east of the Philippines and 400 miles from Pearl Harbor, was overwhelmed and strongly, forewarned by search planes before the American armada could reach attack positions March 29.

88 Interceptors Shot Down
At least 88 and probably 122 Nipponese interceptors went down in flames trying to stem the attack. From 39 to 59 more were wrecked around or in the water.

A communiqué of Admiral Chester W. Nimitz announced that results said that 23 enemy ships were sunk at Palau, including the destroyer, an unidentified combat ship, 10 cargo vessels, five oilers and a patrol vessel. The 23 enemy vessels, in addition to the battleship which was destroyed, a large repair ship, three oilers and 12 cargo vessels.

In the Palau, including the destroyer, a large repair ship, three oilers and 12 cargo vessels. In the Palau, including the destroyer, a large repair ship, three oilers and 12 cargo vessels.
