### Rotary Group At Conference

Local Club Is Represented at Parley in the Bay State

Four representatives of the local Rotary Club attended the annual Spring Conference of the Rotary Clubs of the 1946 District, held this year in Pittsfield, Mass., last week. The local Rotarians, who attended the Friday session, were Dr. Bernard J. Sheridan, president of the Manchester Club and a member of the Resolutions committee of the Conference, Karl A. Keller, vice president, Herbert W. Swanson, secretary, and Mark Holmes, president-nominee for the coming year.

Another business session followed at 2:30 p.m. and a meeting at 4:15 for newly elected officers and members of the 54 clubs making up the district. The conference closed with the Governor's Banquet at 7 p.m., where an inspiring talk, "Three Keys to Happiness," was given by Mr. Guernsey. Highlights of the entertainment side of the conference were the serenade by the Pittsfield High school band at 12 o'clock noon, Friday, and the singing of the Melodians a quartet from the New Haven Rotary Club, and the club from the Stratford Springs and Pottersville Rotary Clubs.

Leo E. Golden, president of the Hartford Rotary Club, was elected governor of the 16th district for the ensuing Rotary year.

The conference opened Thursday evening with a social dinner party to which visiting Rotarians from other districts were invited. The business of the conference got underway at 10 o'clock Friday with the various committees were presented. Nominations were also received for district governor for the coming year. At 12:15 a luncheon was held in the ballroom of the Hotel Wendell, Stratford, where all the activities planned and addressed by S. Kenrick Guernsey of Jacksonville, Florida, the representative of the Governor's International Association.

### Freezing Unit Put in Place

Huge Refrigerator Is Installed at the Manchester Bakery

The Manchester Bakery, of 211 Kerry street, has just installed a gigantic new refrigerator designed especially for the preservation of whipped cream. So many of the unit, that it was necessary to remove the side of the bakery wall to install it.

The management of the Manchester Bakery soon recognized the expense in obtaining the new refrigerator, but felt that the extra service of the unit will pay for itself. The box has a capacity for 1000 lbs. of cream and is equipped with a constant flow of air and water running through it. It is electrically operated and shall be taken of this so that there will be a supply of ice water on hand for customers during the hot summer months.

The refrigerator can be seen at the sidewalk of the Manchester Bakery on Kerry street. An extra man is being employed to take orders and to serve customers during the hot summer months.

Although the Manchester Bakery is perhaps the oldest one in town, it is going ahead constantly with new products, leading the field with tins before they were ordinarily made their appearance. One of their latest creations is offered last Sunday—awfully short.

The bakery was amazed at the demand on that particular day. The new product was a great hit after the afternoon. As a result of this, Manchester Bakery intends to double its output of this item this week-end, and also intends to offer it for sale every day this week.

### Anderson Put On Probation

Former Darien Police Lieutenant Likened to "Modern Sampson"

New Haven, April 30—(AP)—Likening the defendant to "a modern Sampson" who had prostituted himself to the blandishments of circus women, Judge Carroll C. Hurd in Federal court yesterday suspended sentence on Amos R. Anderson, former Darien police lieutenant, who had pleaded no contest to a charge of violation of the Mann act.

The one-time scourge of Post road speeders was placed on probation for three years, and two other counts in the three-count indictment were ruled by U. S. Attorney Adrian W. Maher.

Charged With Accepting Bribes  
The count on which Anderson had pleaded no contest, charged him with accepting \$250 from Marie Evelyn Plesion and Margaret Vent for alleged "protection" for a booth of prostitution. The government charged the house was operated on the Rings End road, Darien, in 1944.

In the same count Anderson was charged with aiding in the transportation of one Ann Root in interstate commerce for the purpose of prostitution, debauchery and other immoral purposes.

The maid of honor's gown was of pink champagne tulle, carried a bouquet of pink roses and anemones. The bride's traveling costume was a gray and black with black accessories and a white orchid corsage.

The bride's mother wore an ash of roses dinner gown with black accessories and a waist corsage of mixed roses. The groom's mother wore a mauve dress with brown accessories and a corsage of white roses and stephanotis.

### Need 'Perfect Day' for Test

July's capricious weather could even cancel A-Bomb tests. Kawaijaki, Marabai, Islands, April 30—July's capricious weather makes the scheduling of atomic bomb tests a multi-million dollar gamble. It could even cancel out all the months of preparation by the joint Army-Navy task force, observers acknowledge. For weather observers are finding that the best time to test in the first 20 days of the month, when all conditions would be favorable for observation, photography and scientific study of the explosion.

On the basis of past meteorological records, they figure there is only one chance in 20 that ideal weather will prevail for 24 hours during the first 20 days of July. There are only three chances in 20 that the weather, while not perfect, will meet test requirements. These promises to be only seven days in this period, these must be regarded as operators for atomic tests. Not fully familiar with this area, meteorologists from the Pacific area to feed information into the central weather bureau at Delmar, Delaware. The weather analysis unit for the tests, expects to be able to supply a 36 to 48-hour planning forecast and a 12 to 18-hour operational forecast.

Two conditions must prevail to obtain the "perfect day" for dropping the bomb and receiving satisfactory results in scientific observations. First, winds up to 60,000 feet must be blowing in the eastern direction, and second, there must be good visibility, with only one thin layer of cumulus clouds.

In the first 20 days of July, 1945, meteorologists recorded only one day in which both these conditions prevailed. On three other days, visibility was good, but wind direction was wrong. Eastern winds up to 60,000 feet are desired to give the air force opportunity to keep track of and observe the atomic explosion. Most of the time, easterly winds prevail up to 30,000 feet, but strong, fast, anti-trade winds are present. If such a condition prevails when the bomb is dropped, there is a likelihood the cloud will break up, one part drifting eastward and the other westward, both carrying possible injury to inhabitants.

Plan to Screen Teachers. A question regarding education, brought a reply from Dyke that an imperial order of the Japanese Diet approved a program. Some landowners registered their holdings in their tenants' names, but 500 cases reported involved only 100 cho (40 acres), he said.

Chinese Truce Seen Nearer. Communist Gen. Chou En-lai and Government Gen. Hsu Yung Chang temporarily are suspended pending the arrival of Hsu and Chou, expected by Thursday.

Communists Await Predicted Attacks. Chungking, April 30.—The negotiations for a truce in Manchuria are proceeding at a considerable delay, says a Chinese Communist source. The government sources here said Generalissimo Chiang Kai-shek rejected the latest truce plan because it would have left Communist in possession of nearly nine-tenths of Manchuria. The Manchurian truce plan was pushed forth northward by the Manchurian capital of Changchun. Key provision of the cease-fire plan was that both sides would withdraw from areas they would be pending peaceful settlement.

### Japanese Food Probe Delayed

(Continued from Page One) ed that discussion of the food problem be advanced to the top of the committee's agenda because of "the logical importance of the subject." Neither he nor China's representative disapproved a Russian proposal that a committee study the matter, although Atchison was not certain if the committee would be held during the first of the central Pacific's summer storms, and the meteorological experts are worried.

Part of World Problem. "I feel that the food problem in Japan is part of the world problem and cannot be considered by itself," said the council. He emphasized that "I am not suggesting starvation or reduced rations as a penalty for the Japanese."

Alchison provided figures from Allied headquarters showing rural Japanese were eating 2,000 calories daily and urban residents 1,600 to 1,700—compared with the standard of 3,500 calories for the average American. He said that the Japanese government is working to increase food production.
