**Hold Annual At Emanuel**

**Pastor Olson Gives Excellent Review of Church Work in 1949**

Rev. Carl E. Olson, minister of Emanuel Lutheran church, presided at a well-attended annual meeting of the church yesterday afternoon, and presented an excellent review of the life and work of the congregation during 1949, reporting a nine per cent increase in attendance at the Sunday morning worship hour. The church now has 147 communicants, 432 men and 535 women. A total of 77 new members were welcomed into membership during the past year, including a class of sixteen children who were confirmed. The Sunday school is made up of thirty-five officers and teachers, and the present enrollment is 204.

Other high spots of Pastor Olson's report was the fact that the sum of \$7,536.08 is now available for the new parish house. A gift from the estate of Mrs. Hilda Nelson Saunders to the church has been placed in the parish building fund. During the year has been \$29,770 has been added to the Memorial Organ fund. A new Missionary fund was started in 1949 for Arthur Anderson, one of Emanuel's members now serving in the mission field in Africa, to be used in his work there.

Mr. Olson also stated that there has been a 75 per cent increase in average weekly pledges since 1947, and that the church contributed \$7000 to benevolence in 1949, which represents one third of the total expenditures of the church.

Another item of interest was reported by Pastor Olson, to the effect that Emanuel Lutheran church has assisted in receiving sixteen displaced persons from Europe into the community and membership in the church.

A special meeting of the congregational has been called by the Board of Administration, for the purpose of the church's action on the report of the Parish Building Committee, which Allan Olson is chairman. The meeting will take place Tuesday evening, January 31, at 7:30 o'clock.

In spite of inclement weather yesterday, Walter Manhoney reported that over a dozen interested persons drove to the site of the proposed new Broad street elementary school to view the area and see just what the school layout situation will be.

**Convert or Renew Term Insurance Issued in 1942 Is Regulation**

Veterans to whom National Service Life Insurance term policies were issued in 1942 and who still hold those policies will be required to renew them or to convert to permanent term of insurance during this year if the insurance protection is to be retained.

Director Walter Ford of the Veterans' Service Center explained today that the term policies were originally issued to cover a five-year period, and later the term was extended for three years.

However, the total period of eight years for policies issued in 1942 will expire this year, and renewal will be necessary if the term insurance is to remain in force.

Manhoney said that the insurance will increase because of the rise in the cost of living.

**Convert or Renew Term Insurance Issued in 1942 Is Regulation**

Veterans to whom National Service Life Insurance term policies were issued in 1942 and who still hold those policies will be required to renew them or to convert to permanent term of insurance during this year if the insurance protection is to be retained.

Director Walter Ford of the Veterans' Service Center explained today that the term policies were originally issued to cover a five-year period, and later the term was extended for three years.

However, the total period of eight years for policies issued in 1942 will expire this year, and renewal will be necessary if the term insurance is to remain in force.

Manhoney said that the insurance will increase because of the rise in the cost of living.

**Walkout on Walkout**  
 The Russians would like to see it thought that their latest round of walkouts from the United Nations is a fervent protestation based on principle. They would like to have it thought that they find it intolerable to do business in the presence of Chinese Nationalists, who are obviously no longer in control of their own country.  
 That is not the view of one of the satellite statesmen who has been doing to a Russian rubber stamp no longer. Dr. Aleksander Rutanski, resigning as ambassador to Poland's United Nations delegation, said that "I cannot associate myself with walkouts calculated to paralyze and disrupt the United Nations."  
 There is no reason why the Russians should doubt that, in time, the Chinese Communists will be recognized in the United Nations seats now held by the Chinese Nationalists. That is a battle already won. If the Russians persist in acting as if it were not, they are only making themselves look foolish because they are zealous for the Chinese Communists, but because, as Dr. Rutanski alleges, they are merely interested in making any pretext in order to create storm inside the United Nations.  
 Dr. Rutanski, personally, has rebuffed against the Communist motions by which his country automatically follows Russia in such a game.  
 His resignation will neither reform Russian tactics in the United Nations nor cause any upheaval back home in Poland. As he himself noted in his description of Poland's loss of independence, even the Polish army is now headed by a Russian, Marshal Rokossovsky.  
 But, tragic as this is, the long range test of Russia in Poland is not whether Russia controls the guns that are in Poland, but whether it controls the minds and hearts of the Polish people. There are not many Poles who have the open opportunity given through Dr. Rutanski. But his act is one more symbol of the failure of a compass. After the war, the Russians could indeed have been a democracy, and they could have done it easily. They could have done it by practicing friendship and equality and restraint. But these are qualities the Russians seem unable to develop in their relations with other peoples.

**No Guns, No Dollars?**  
 One of the perennial dangers of a democracy is that there are always situations in which small minds have just as much power of decision as big ones.  
 A good many small minds in the House of Representatives on Thursday expressed their anger over the Truman administration's refusal to send American troops and troops to Formosa by defeating, temporarily at least, the Truman administration's program for economic aid to the Republic of Korea.  
 This is a decision tantamount to saying that if the government refuses to wage war, the House will not allow it to wage peace. Neither. If we are not willing to shoot some Chinese Communists, we shall not be allowed to feed Koreans. Either we agree to use guns to stop Communism, or we shall not be allowed to use any other weapon against Communism.  
 This is not just the way all the House revolt would state it. The point of view of some was that, if we are not going to use guns to stop Communism, we shall not be allowed to use any other weapon against Communism. There is no

**Wechsler Hits Charge Made**  
**Says 'Economy Means Orderly Management Of Affairs of State'**  
 Hartford, Jan. 23.—(AP)—Senate Majority Leader Alfred F. Wechsler (D., Hartford) today told State Attorney General William L. Hadden that "economy means the orderly arrangement and management of the internal affairs of a state."  
 Wechsler was answering Hadden's charge made in a speech before the House yesterday that "there hasn't been any effort to bring about the saving of a 40-cent penny" by the administration of Governor Bowles.  
 "There is no economy of economy," Hadden said. "We've been treated to a huge giveaway program for the first time in the state's history."  
 Wechsler said today that "apparently Mr. Hadden is upset because Bowles' administration has provided the state with a budgetary program beneficial to the people of Connecticut."  
 "Mr. Hadden is accustomed," Wechsler said, "to the idea of a 'give-away' program which provides a huge giveaway program for the first time in the state's history."  
 He said that the state's economy is being managed in a way that is beneficial to the people of Connecticut.
