Last Week-End At Play Areas

Season to Be Concluded Over Holiday; To Store the Equipment

The Playgrounds will close their season this week end when all the apparatus and play equipment will be collected and stored for another year. Children are urged to pick up their handcraft equipment and any other material that they may have on the play areas.

Attendance on the playgrounds last week was 4,628 with 4,077 participating in the programs and 4,622 spectators. At Globe Hollow there were 1,220 swimming and 683 spectators. The swimming beaches will not close until Monday in order to give those who wish the opportunity to use them over the holiday week end.

Social Security Checks To Show Big Increase

Boosts of from 50 to 100 Per Cent Reported—About 10,800 to Benefit in This Area

These new 63 and over—only need a few months' employment for those reaching age 63 and retiring. A sliding scale requires longer employment for those reaching age 65 after 1953, but in no case will a person be required to have more than ten years of employment under social security. In order for benefits to be payable.

It is possible for newly-covered workers to become insured for survivors benefits in a little time as a year and a half under the provisions of the law.

The new definition of "employee" in the amended law accounts for the increase. Entitled to be covered by a social security check, according to Charles W. Wing, manager of the local office. Mr. Wing explained that, these automatic increases for September will be paid to about 10,800 beneficiaries during the first week of October. Increases will range from about 50 per cent to about 100 per cent. For example, the average primary benefit of approximately \$26 per month for a retired worker will be increased to about \$46. A social security check for a child of a worker who has been receiving \$110 altogether.

Increase of \$200 Monthly

Mr. Wing said that under the old terms of the social security law, about 10,800 beneficiaries in this area would have received approximately \$26,000 (total) for the month of September. Under the new increases, however, the total amount of benefits is estimated to be about \$458,000, an immediate increase of some \$432,000 to this area.

Under the new law the amount of earnings which a beneficiary may make in a month, and still receive the full benefit, is increased to \$50. This applies to beneficiaries under age 75, and for earnings after a job covered by social security.

After attaining age 75, a beneficiary may have any amount of earnings and still accept his insurance check.

Dependent Parents

The amount of the benefit paid to dependent parents who are widowed or whose child can be entitled to the benefit was raised from half the monthly benefit to three-fourths. The monthly benefit for a deceased worker was also raised from half to three-fourths of the worker's benefit.

The benefits will continue to be paid for in the same way as before, but the new law provides that employees as well as employed persons will report their annual earnings. A new way of collecting part of the tax was called for. Self-employed persons will report their annual earnings and pay their special social security tax (2 1/2%) to start with when they make their income tax returns at the end of each year.

Present tax rates will not pay for the increased benefits at first, but higher contributions will be necessary as more people retire or die. The law provides that employer and employee will pay 1 1/2% of payroll (total 3%), until the end of 1959. From 1960 to the end of 1969, 2 1/2% until the end of 1969, and 3 1/2% thereafter. Only the first \$3,000 of net earnings in a year will be taxed. This represents an increase from the \$2,000 wage base which has been in effect since 1937.

Self-employed persons, who are in effect both employer and employee, will pay 2 1/4 per cent through 1953, 3 per cent until the end of 1959, 3 1/4 per cent until the end of 1969, 4 1/4 per cent thereafter. On the first \$3,000 of net self-employed income per year.

The new law gives wage credits of \$10 per month toward old-age and survivors benefits for military service in World War II. These wages are to be used in computing all monthly benefits payable on the basis of veterans' wage records after 1949, whether the veteran died in service or after discharge, and regardless of whether pension or compensation is paid by the Veterans Administration.

Household Workers

Included in the social security program for the first time, and under special conditions, are household workers regularly employed in private homes. Household workers, including maids, cooks, laundresses, practical nurses, gardeners, chauffeurs, etc., will receive credit only for their cash wages, and will not be covered by the law at all unless they are employed 24 days or more and their earnings are at least \$50 in a calendar quarter.

Regular farm workers including household workers in farm homes will be covered by social security beginning in January. To be affected, the worker must be employed by one farm operator for a period of not less than ten calendar months and those months must fall within two calendar quarters. After full three months employment, the first quarter, the employer must work for the same operator for a second quarter not less than 60 days and cash wages at least \$50 for work in that quarter. This has occasional or seasonal farm workers and itinerant harvesters from coverage under the new social security law.

Call Extended To Rev. Brandt To Rev. Brandt

Congregation of Concordia Lutheran Church Agree on Action

Rev. Albert F. Schille, of St. Paul's Lutheran church, Westfield, presided at a well attended meeting last night in Concordia Lutheran church, called for the purpose to see whether or not the church would vote to extend a call to Rev. Erich O. Brandt of Webster, N. Y., to become its pastor.

The meeting voted unanimously to invite Mr. Brandt, as he made a most favorable impression on the congregation last Sunday when he occupied the pulpit.

Rev. Albert Schille is president of the Concordia Lutheran church in Webster, N. Y., and is a member of the Lutheran church in America. He has frequently occupied the pulpit at Concordia, and was close friend of Pastor Karl Richter, now of the South Manchester Fire Department, who was close friend of Rev. Erich Brandt, who was married and thirty-five years old, and was educated at Mount Airy Seminary, Philadelphia.

To Unify Town Fire Groups in Emergency

Single Command Under Former Chief Foy Is Agreed to by Heads of Local Departments

Those versed in Manchester traditions had notice today of the seriousness with which a potential atomic bombing of Manchester is viewed with the disclosure, at last night's meeting of the Manchester Civilian Defense Organization, that arrangements have been made to place Manchester's two fire departments under one single command when and if a bomb falls on Manchester.

Such emergency unification of the Manchester Fire Department and the South Manchester Fire Department was first suggested at a meeting of the Civilian Defense Organization two weeks ago.

The meeting of the general membership of the Manchester Civilian Defense Organization was held Sept. 25, by which time it is hoped that state and federal civilian defense codes may be ready for study by the local group.

In the meantime, the emergency directors of the various Civilian Defense divisions will hold separate meetings with Coordinator Schendel in nature, and it was discussed only tentatively.

Chief Schendel, in agreement with the local group, revealed that with Chief Foy had been discussed the matter of unifying the departments of the North and South Manchester respectively, and that an agreement had been reached for the acceptance by both of one single emergency command.

Chief Schendel, who is in charge of the South Manchester Fire Department, said that he had been invited to the meeting of the Civilian Defense Organization last night, and that he had been invited to the meeting of the Civilian Defense Organization last night, and that he had been invited to the meeting of the Civilian Defense Organization last night.

500,000 Have Wages Boosted

Jumps in Auto Industry Spread from Chrysler Over All Except Ford

Detroit, Aug. 29.—The auto industry's new upswing in wages shortly will have covered half a million workers.

As pay raises were extended today to another 42,000 workers, the added nickel and dime-an-hour pattern had reached the 500,000 mark.

The bulk of this, including the five cents cost-of-living jump for about 330,000 General Motors employees, takes effect Friday.

Latest to grant wage boosts were the Briggs Manufacturing Co. for 38,000 employees and Motor Products Corp., for 4,000.

Previously, raises had gone to Chrysler's 120,000 workers and Packard's 60,000.

Briggs Move Voluntary

Like Chrysler's raise at Briggs was a voluntary company move outside its contract with the CIO United Auto Workers union.

Except for Ford and its 115,000 employees, the industry now is estimated at \$1.75, an increase of ten cents.

Coincidentally, union sources reported a minor wage stoppage at Ford's Rouge plant yesterday.

Carl Stettin, president of Ford Local 600, said it was due to union refusal to give an immediate pay increase.

"There was no comment from the company."

Under the Ford-UAW contract no wage talks are called for until Jan. 1. Ford and the union, however, have been reported to have talked informally on pay rates recently.

Briggs, an important supplier for Chrysler, said its raise at Briggs was a voluntary company move outside its contract with the CIO United Auto Workers union.

Except for Ford and its 115,000 employees, the industry now is estimated at \$1.75, an increase of ten cents.

Coincidentally, union sources reported a minor wage stoppage at Ford's Rouge plant yesterday.

Many Contests Loom As Candidates File

Legislative and Board of Directors Posts Most Popular; Confusion in Education Board Term

Six Republicans and three Democrats want to be representatives and eight Democrats and 11 Republicans want to be directors. These two posts today seem to be the "popular" offices as Town Clerk Samuel J. Tardiff has filed the candidates lists for the party primaries to be held here September 12 in the four local voting districts. The Republicans can't name more than two for each district. The Democrats can name as many as five. The Republicans are generally regarded as not having much chance of winning. The Democrats are generally regarded as having a better chance of winning. The party primaries to be held here September 12 in the four local voting districts. The Republicans can't name more than two for each district. The Democrats can name as many as five. The Republicans are generally regarded as not having much chance of winning. The Democrats are generally regarded as having a better chance of winning.

Drill School To Open Here

Various Phases of Fire Fighting to Be Taught For Next 30 Weeks

Chief John Pachel of New Haven, special services representative of the State Board of Education, will open a ten week regional drill school for members of the Manchester Fire Department tonight at Fire Headquarters on the corner of Main and Hillard streets. Sessions will be held each Tuesday from 7 until 9 o'clock. Three schools will be held, each lasting ten weeks, so local firemen will be studying the phases of fire fighting for the next 30 weeks.

MacArthur and Formosa
General Douglas MacArthur is a commander for the United States and is a commander for the United Nations, and on the issue of Formosa he is both responsible to us, as if he were responsible to neither.

On Friday, in the United Nations Security Council, he made a statement of United States policy with regard to Formosa. The statement was designed not only to answer Communist charges that we ourselves are being aggressive in Formosa, but also designed to reach a little further off the international book we have been over since President Truman ordered the defense of Formosa. The line in that book is in the hands of Communist China, which could yank us into a full Asiatic war, suppressing to Russia, and so forth, and Formosa at any time while our sole guarantee of its defense is still in force.

Our statement of our Formosa policy on Friday placed one more interpretation upon President Truman's original order regarding Formosa. This was that we designed for the purpose not of holding Formosa for Chiang Kai-shek, but for that of protecting our own military position in Korea.

Along with this new angle of explanation for our Formosa policy, there also came revelation of our willingness to have the event, a full political debate of Formosa, settled by international action, which might well award the island to Communist China.

Most importantly, there also came from us an immediate offer to have the problem of Formosa, a decision holding the Smith Act under which the 11 Communist leaders were convicted recently, to be considered only if we did the same thing with Earl Browder, throwing him into jail during the period of Russia's alliance with Germany, releasing him the moment Russia became our ally.

During the war we were hot on our pursuit of those whom we considered allied with the Nazi ideology. Today, some of these same people, although their ideas are as un-American as ever, enjoy judicial and Congressional immunity.

The other day, one of our most distinguished federal jurists, to have the problem of Formosa, a decision holding the Smith Act under which the 11 Communist leaders were convicted recently, to be considered only if we did the same thing with Earl Browder, throwing him into jail during the period of Russia's alliance with Germany, releasing him the moment Russia became our ally.

In all of these things, we are trying to get to the bottom of Formosa, and achieve an international, United Nations status for whatever policy is followed there. Parenthetically, it may be observed that such aid on the part of our State Department, along came General MacArthur with a message to the national convention of the Young Men's League of America in which, apparently, he reiterated some of his own views with regard to Formosa, views which would apparently make no bones about holding Formosa rather permanently for American security purposes.

In this General MacArthur was, as a military commander for the United States, attempting to make diplomatic policy as well. Perhaps his diplomatic policy is good; in that case he ought to be President, or Secretary of State. At any rate, Mr. Truman was within his rights in ordering him to withdraw his statement, which amounts to a repudiation of his views, even if it does not succeed in concealing them from the world or in depriving Communist propaganda of the use of them.

Parenthetically, it may be observed that such aid on the part of our State Department, along came General MacArthur with a message to the national convention of the Young Men's League of America in which, apparently, he reiterated some of his own views with regard to Formosa, views which would apparently make no bones about holding Formosa rather permanently for American security purposes.

In this General MacArthur was, as a military commander for the United States, attempting to make diplomatic policy as well. Perhaps his diplomatic policy is good; in that case he ought to be President, or Secretary of State. At any rate, Mr. Truman was within his rights in ordering him to withdraw his statement, which amounts to a repudiation of his views, even if it does not succeed in concealing them from the world or in depriving Communist propaganda of the use of them.

Justice Hot, Justice Cold
The two federal justices who have ordered Harry Bridges freed from prison during the remainder of his appeal of his conviction for perjury said, in an opinion written by Justice Hugo Black, that Harry Bridges free is less dangerous to us and to our security than a Harry Bridges "tingled out" by arbitrary judicial action.

Their decision, of course, is in direct conflict with the ruling of the federal judge who originally ordered Bridges' release on bail, and sent him to jail.

Thus, once again, we are blowing hot and cold in our judicial action. We are now being asked to accept of political opinions allied with the dominant ideology of some outside nation. Once again, the Supreme Court is asked to give the changeful representatives and interpreters of an abstract brand of justice, as following cold and hot returns, and reveal themselves torn between their intent to punish those whom they feel to be enemies to our way of life and their loyalty to our own democratic principles of justice.

We have blown hot and cold before, on this same Bridges. Now he has stood with us as he depended entirely upon the conduct of Russia, the country whose ideology we think he shares. We will not prosecute him while Russia was Hitler's ally. We were all political sinners toward him when Russia became our ally. We did the same thing with Earl Browder, throwing him into jail during the period of Russia's alliance with Germany, releasing him the moment Russia became our ally.

During the war we were hot on our pursuit of those whom we considered allied with the Nazi ideology. Today, some of these same people, although their ideas are as un-American as ever, enjoy judicial and Congressional immunity.

The other day, one of our most distinguished federal jurists, to have the problem of Formosa, a decision holding the Smith Act under which the 11 Communist leaders were convicted recently, to be considered only if we did the same thing with Earl Browder, throwing him into jail during the period of Russia's alliance with Germany, releasing him the moment Russia became our ally.

In all of these things, we are trying to get to the bottom of Formosa, and achieve an international, United Nations status for whatever policy is followed there. Parenthetically, it may be observed that such aid on the part of our State Department, along came General MacArthur with a message to the national convention of the Young Men's League of America in which, apparently, he reiterated some of his own views with regard to Formosa, views which would apparently make no bones about holding Formosa rather permanently for American security purposes.

Connecticut Yankee
By A. H. O.
We regret to report that although we have not yet received the Connecticut election three different ways in our many successive columns, there remains one more sure fire determinant.

This guarantee of the outcome of the election lies in the result of the election in the rest of the country. Each party headquarters has its own theory of what the result will be. If we can get the total vote of 190,000, say, the mathematical determinants in Democratic headquarters, "we're in."

"If we can keep the total vote down to 100,000, say, the mathematical determinants in Republican headquarters, "we're in."

We hasten to say that there might derive from this a conclusion, which one will hear from many Democrats, that the only Republican strategy in the campaign is to hold down the vote. And we point out that, although in theory this would indeed seem sound Republican strategy, and that, although Republicans can see that it would be a fine thing to have happen, they will nevertheless be bringing all their efforts to stir up the state and get out a heavy vote.

That is one of the few insignificant honest things about politics — that even a party which knows it may benefit from a small vote works its head off to get out a heavy vote.

The basis for this mathematical view of the election is superficially convincing.

In the past 30 years, with two exceptions, the history of Connecticut elections has been that of a Democratic Governor in Presidential years, election of a Republican Governor in "off years." Cross, in 1931, and Baldwin, in 1944, have been the only exceptions to the rule.

Those who indulge themselves in the theory that the total size of the vote determines the outcome assume that a slim majority of all the state's voters is Democratic, and that when most of the voters come to the polls, the Democrats stand a chance of winning by narrow margin. They also assume that when voters stay away from the polls because of some lack of interest, more Democrats than Republicans stay away, which results in a Republican victory.

The statistics show that, in 1932, 1936, 1940, and 1944, the total vote was 122, 123, 124, and 125, respectively. In 1928, the total vote was 128, as compared with 1944 cases for the same period in 1948. Cases were reported from 24 counties except Litchfield. New London and Windham. During the past week, gonorrhea cases rose from 14 to 25, syphilis from 16 to 17, mumps from 14 to 16, and measles cases from 10 to 19. At the same time, chicken pox incidence fell from 2 to 4, scarlet fever from 4 to 5, 10-day pneumonia from 2 to 4, and cases of scarlet fever from 1 to 2. There were 10 cases of diphtheria, typhoid fever or meningococcal meningitis within Connecticut during the past week. It was the twentieth week without a diphtheria case, the ninth without a typhoid fever and the fifth without a case of meningitis.

A case of dirty battery terminals frequently cause automotive ignition troubles.

New Packards Are Described
1951 Model Range from A "New Low Range to a New Low High"
Detroit, Aug. 29.—Prices of the completely new 1951 Packard cars, just made public, range from a "new low" to a "new low high," according to Karl M. Greiner, vice president and general sales manager.

Coupled with the new range of prices, Greiner said, the new line of Packards is "a new low high" in terms of styling and public opinion.

As "new low" models, they are from \$124 to nearly \$600 under previous comparable cars.

Greiner added that prices on the new "low high" models are from \$124 to nearly \$600 under previous comparable cars.

Ultra-modern, Packard's exclusive automatic drive, is standard equipment on the 1951 Packard "400" and available as optional equipment at \$185 (including Federal excise tax) extra cost on all other new models.

These cars embody a refreshingly new concept of motor car design through which Packard once again—at with the famous Clipper—becomes the styling pioneer for the entire automotive industry.

Last year, Greiner pointed out, Packard accounted for 20 per cent of sales within its price range.

"Our new prices mean that Packard now is aiming higher than ever before with the finest line of cars to bear the name," Packard's "new low" line is offered in the 1951 "200" three-door coupe at \$2,195.

This model, Greiner said, "re-

Grangers Join Surgical Plan
Non-Profit Service Enrolls 7,000; Goes Into Effect on Sept. 1
New Haven, Aug. 29.—Benefits in the Connecticut Medical Service surgical plan will go into effect on September 1 for 7,000 Grangers in Connecticut who joined the non-profit plan during the recent Granges A total of 3,364 members of 108 Granges throughout the state have applied for surgical care benefits covering themselves and about 4,000 family dependents.

"Enrollment in CMS as with Blue Cross is ordinarily limited to employed groups of 5 or more," CMS General Manager Robert Barcal explained "but in order to give all Grangers the same surgical coverage enjoyed by those working in business and industry, we have considered as one large group. This is the first time such an experiment has been tried with CMS, and we are very pleased with the results."

Commenting on the enrollment of 7,000 Grangers, the enrollment manager, Ira F. Wilcox, State Grange Master, said, "By adding surgical coverage to their Blue Cross membership, thousands of farm families can now face the future without worry over the high cost of health care." Mr. Wilcox expressed his appreciation to local Grange officers who took part in organizing and directing the state-wide enrollment.

Abstracted of Fresh Death
Martford, Aug. 29.—(AP)—A Bridgeport truck driver has been involved by Deputy Coroner Francis J. Fahy, of blame in a freak accident which cost the life of Eugene L. Thompson, 47, of Meriden.

Thompson was instantly killed last July 28 on Route 2, when he was struck by a trailer-truck driven by Wilson A. Sobczak of Bridgeport. The truck dragged Thompson a body 80 feet. He then dropped to the pavement and was run over by his driverless vehicle, which had rolled down the highway.

Deputy Coroner Francis J. Fahy, in a finding issued yesterday, said he found no evidence of any criminal negligence on the part of the truck driver.

Ellington
Mr. and Mrs. Fred Limberger of Broad Brook, Ellington, are the parents of a daughter born at the Hartford Springs hospital, Saturday, August 26, 1950. Mrs. Wagner and family were guests of Mr. and Mrs. Francis E. Dowd, son of Mr. and Mrs. Frank Dowd of Pinney street who served four years in World War II. He has been called into service.

Mrs. Joseph Thompson and her granddaughter Carol Thompson, accompanied by Mrs. Frederick Hemminger and two children have been spending several days at Atlantic.

Edwin G. Finance of Sand Hill avenue has opened a gas station on his property with his father Eugene Finance in charge. He also is conducting a poultry business on what was known as the Rishon poultry plant.

Carl Edward F. Charter, son of Postmaster Edward F. Charter who is instructor at Roger Air Force Base, Ill., recently wrote a friend that he is still there and is as far as he knows he will be there for the next few years as they need more instructors who have the states it is far difficult to get into in front of a class and teach them something that he is still at a desk and learns it for when he attended Rockville night school he felt that he was a man but now he gives all his teachers great credit for teaching him what they did which enables him to hold his present position. He hopes to go to an advanced radio school and then become an instructor there but he states he has to wait until his second batch is over before he can attend another school.

Dorver Found Dead
Torrington, Aug. 29.—(AP)—Dr. Joseph G. Bionkowski, 42, was found dead yesterday in his home here. A colleague, Dr. J. B. Goldberg, had gone to the physician's home to investigate at the request of Mrs. Bionkowski, who had become alarmed when her husband did not answer the telephone when she called from their summer home at Highland lake. Medical Examiner H. B. Hanchette said he had become alarmed when he heard six months had died of a heart attack. Dr. Bionkowski, a native of Torrington, had practiced medicine here since 1926. He was chief of obstetrics on the staff of the Charlotte Hungerford hospital here.

Whooping Cough Cases Decrease
Hartford, Aug. 29.—Whooping cough cases dropped from 39 to 29 during the past seven days, but still remained the Connecticut's most prevalent disease, according to the state department of health.

The summary of reports compiled each week by the department showed that this was the fifth consecutive week that whooping cough has been preventable.

All other common preventable diseases increased during the period of just ended. Polio cases rose from 12 to 23, to bring the total cases so far this year to 128, as compared with 194 cases for the same period in 1948. Cases were reported from 24 counties except Litchfield. New London and Windham.

During the past week, gonorrhea cases rose from 14 to 25, syphilis from 16 to 17, mumps from 14 to 16, and measles cases from 10 to 19.

At the same time, chicken pox incidence fell from 2 to 4, scarlet fever from 4 to 5, 10-day pneumonia from 2 to 4, and cases of scarlet fever from 1 to 2.

There were 10 cases of diphtheria, typhoid fever or meningococcal meningitis within Connecticut during the past week. It was the twentieth week without a diphtheria case, the ninth without a typhoid fever and the fifth without a case of meningitis.

A case of dirty battery terminals frequently cause automotive ignition troubles.
