The Herald six years ago was sitting atop Joe Bowl in the press box watching Eddie Ouda's performance in an automobile accident on a week ago today which proved to be fatal. He died early Monday morning and was buried yesterday.

St. Joe's basketball team is one of the best in the East during the past six years. Many can recall the morning in the Copple Plaza Hotel in New York City last March when the team was crowned champions. The manager of the Philadelphia Athletics, Fenway Park where we will witness the 1940 All Star baseball game and being drilled by the performance of Ted Williams who hit two home runs, one a bludgeoning home run, sitting in the dugout and talking with Bob Feller, Hal Newhouse, Ted Williams, Walter and Morty Chaper, Joe Cramer and Stan Madsen. The team was crowned champions of the National League during a football game in and doing so by cupping the ball on the field of the Philadelphia Athletics.

Chamber Hits Federal Waste

National Group Asks For Reorganization of the Personnel System

Washington, Oct. 13.—(AP)—The United States Chamber of Commerce today said that the Korean war "emphasizes an urgent need" for reorganization of the Federal personnel system, medical services and the veterans administration.

Although "scores of thousands" of new Federal workers have been hired since the beginning of the Korean conflict, the chamber said, "almost nothing has been done to prepare the wonderful civil service system for this emergency."

The organization's views were given in a report submitted to Congressional action on the government reorganization proposals announced yesterday by President Truman and headed by former President Herbert Hoover.

"Economic Moves Neglected"

The report also said that "about half" the \$20-odd Hoover commission recommendations have been put into effect but that "prominent large savings of tax money have gone unavailing because of the failure of the administration to carry out the recommendations."

The chamber also noted that the "failure of the administration to carry out the recommendations of the Hoover commission is a result of the report's failure to carry out the recommendations."
