Blood Counts Used to Track Trouble

By Edwin F. Jordan, M. D.

Several people have written to ask what the blood count is, what it means, and how to build it up or improve it. Actually there are two blood counts which are quite different and which do not mean the same thing. One is the red blood cell count, and the other is the white blood cell count.

Little Lost Souls in the Dark
John-I've been telling you every day for a week that we ought to have one of those Crosley Portable Radios that Brunner's advertised for just an emergency as this.

Sense and Nonsense

Best Things in Life
I'm plainly no fiction. Most any addition. To pleasure is furthered by riches. But name an action that is not a step towards something. Than scratching an itch when it itches.
-Samuel S. Hiddle

Senior-I've just been having a tussle with the dentist. He said that he was going to pull out my teeth. Senior-I ended in a draw.
A survey of more than 10,000 accidents involving trucks and commercial cars in nine industries shows that backing improperly is the most common cause of accidents, says Daily Keener, a vice president of Lumbermen Mutual Casualty Company.
Dope-Whenever my wife needs money she calls me handsome. Mope-Handsome? Dope-Yeah, hand some over!
He-My wife has a good poker face. Him-No kidding? He-Everything about her reminds me of a dove. Him-You mean she's pigeon-toed?
Since bottom and tops of pajamas are seldom as worn as a who? Why shouldn't we check on the fly? By taking a nationwide poll. And then, with the figures to prove it, he told them. "Engage in a business of your own. And those who wear only tops?" Men are the only people on earth who think they have more sense than they are in 2000 years.
Arriving home earlier than usual, he found his wife in the arms of his best friend. "Friend, I love your wife and she loves me. I'll play you a game of gin rummy for \$100. I promise never to see her again. How about gin rummy?"
Francis: All right, and how about a penny point to make the game interesting?
Let's Go! Plan more work than you can do. Then chew it.
It is the instinct of the average man to give shelter to the weak. This is why the average man drinks \$35 an ounce.
