Reading the open forum letter of Warren Kelth, I was at a loss to find it on page 26, Herald, Wednesday, April 4, of a large issue of the Manchester Herald. A letter as well voiced as this and of interest to so many people in town should in my estimation be given a more prominent place in your newspaper. Mr. Keith gave a very fine and clear personal opinion of what he

In going one step further with another public utility, the Connecticut Power Co., who furnishes us light and power, I would like to air my thoughts. My bill runs from \$125.00 to \$250.00 per month. Well, after six months of trying to get the figuring of Demand, Kilowatts. Fuel Charge (they charge for the coal they use to generate the electricity) and the complicated forms that they use to compute your final bill, I finally was able to get it through my (quote what the Heraid called me) Ponderous Vacuum.

The engineer came over and after wasting the entire morning with me figuring what it would cost me if I had my shop in Thompsonville, Hartford, or Rockville, he finally had to admit that the Manchester area was paying 17 per cent higher than the surrounding towns. Understand these were not my figures but the figures we arrived at after two hours of figuring. So I have every reason to believe that the Public Utilities Commission should be overhauled or enlightened a little. No one is so right that they cannot make a mistake. I have made many but I am not too proud or ignorant not to admit them and try to correct them. If we had a few more open form letters without personalities with good thought to the betterment of the town.

Editor's Note: From our poor knowledge of electric rates, we are afraid Mr. Campbell has achieved one more mistake.

Nowhere in this article of mine do I say that I agree with Mr. Keith, all I said was the the Herald could have given it more prominent space. I have no water bills to pay at the North End, I took care of that years ago by moving out to where I have an artesian well. The telephone service is fine by me. They let me call up from New York or Boston and charge it to my bill. I do a lot of business over the phone and save a lot of steps. Mr. Keith had his own personal thoughts on a few subjects and I give him credit for writing and expressing his views in the Open Forum. More letters and the Town would save money. Or in other words they would not spend the taxpayers money so

Now to the Editor's Note. At the bottom of the article, With your poor knowledge of electric rates, your knowledge could be broadened and if you had picked up the telephone and called the Conn. Power Co., for a little information. We are afraid Mr. Campbell has achieved another mistake. If you had read the article carefully you would have seen that it was not my figures but the figures of the Conn. Power Co. In my business competition makes up a little keeper and more envertelle maybe your tion makes us a little keener and more energetic maybe you could profit with a little in your own line. With the threat of using only 300 words at the top of the Open Forum and taking a chance of another Editor's Note at the bottom of the article I am placing this in a paid advertisement.

With best wishes. Earl J. Campbell

Most Americans refuse to plan for a long time but we must make up our minds to doing with- Aetna Casualty out things and a certain amount Aetna Life of heartache for years to come. Conn. Gen. . However, unless we have most than a rearmament program the Travelers Public Utilities However, unless we have more Hartford Steam Biler 31' American people would come to question it, for they simply could not stand years and years of tension unless they are cognizant of Hartford Elec. Lt. 48 the fundamental values they are Hartford Gas Com. .

ing to protect.

The second program which the Manufacturing Companies speaker outlined included three ateps. The first of these is to support nationalistic movements Assoc. Spring . wherever they may be found, letting the people of these countries Collins understand our desire to protect EmHart 48
their political independence and freedom.

Form Regional Units
The next stop, Dr. McReynolds
helisyes, is to encourage the form

believes, is to encourage the for-mation of regional units of these North & Judd ...... 271 nationalistic groups. Most of them Russell Mfg. realize the impossibility of main-taining their independence alone Torrington ..... in this world of two giants, and Terry Steam support these regional groups for the purely nationalistic state is a thing of the past. Specifically mentioned Mediterranean, be construed as actual markets, Pacific and Southeast Asiatic but are approximate markets.

by the United States.
The third and final step, the speaker continued, would be that within the framework of the United Nations we must insist upon The Hall Memorial Library has strengthening that body into a recently been presented with the world government. If we do accom-following books in memory of Jane plish the first two, building up L Wood: Kon-tiki, Hyerdahl Wildnationalistic and regional groups,
we would be building up for a bigger and better war between regions.
Hence, the third step, that of world
Dearstyne; Gallery of American government developed within the United Nations, must follow, and it is the belief that idea is in back of some of the plans now before the U.N. For example, the Ellington Women's Club a copy of Baruch plan for control of atomic energy is a loss of sovereign rights for the United States.

Laughing Stock of World

Dr. McReynolds thinks that in Woman's Club.

the Point 4 program we have a great aid for this program, but up until now we have been the laughing stock of the world because we have failed to implement the prohave failed to implement the program. We must make assistance ton, is the chairman. available for other people and avail-able so that no matter where the call for aid may come from any call for aid may come from any anti-Communist state, we can come in with economic assistance. The results of this economic assistance must reach the people. We cannot afford to give assistance where it will leave a government stronger and we must see that his aid is not used to keep in power a small ruling clique which does not have the welfare of the people at heart.

Tolland County meeting held at Stafford Springs American Legion Home, Monday beginning at 10:30 a. m. The regular business was taken care of at that session and dinner was served by the American Legion boys which was fried chicken with all the fixings that about 60 members enjoyed. The afternoon program consisted of parliamentary rules and was given by a skit of seven officers. A group of

heart.

Since the war underprivileged peoples have learned that the life of drudgery which they lived previously is not necessary and they are demanding equality with the rest of the world. We can and should attach strings demanding governmental reform before giving aid. We have a tremendous power for good if we have a program.

ted States and its people must live democracy at home and tell it abroad. The Voice of America is not always as good as it should be, but the humaneness of the American people, the spiritual values which they know are there but which they do not often express, these are the things which we should advertise to our friends abroad. If we would develop this spiritual dedication to world service and understanding we would impress our friends.

A recast of Woodrow Wilson's Fourteen Points and the Atlantic Charter, taking the best from both, could be stated as fundamental American philosophy. In the ot always as good as it should be. tal American philosophy. In the safety.

For his concluding remarks Dr. Four Get Awards As Safe Drivers

ning in the Robbins room of Cen- and interest on bonds \$2,937.50. John Mason,
Mrs. H. B. Learned directed atand 16, for the benefit of the Hartord Art school. Mrs. Learned has tickets to sell to those interested. Program Chairman Ellen Buckey announced that a flower arranging clinic would be held at the next meeting in May and members were asked to bring either a high or low container, a flower holder scissors or a knife and fairly long

stemmed flowers.

Mrs. Henry Rockwell, the president, turned the business meeting over to Mrs. W. W. Eella who in troduced Roderick Crockett of th West Hartford Garden Center. M Crockett gave the members great deal of information on annuals, calling them the ABC's o gardening. He stated that people are sometimes skeptical as to their ability to grow flowers to conform with the pictures in the catalogue However, he said they are ofter better, as the pictures lack texture as well as fragrance. Many times as many as a dozen varieties may come from one seed packet. He also stated that a garden all one color is easier to achieve with annuals. Actually there are thousands of species found grow ing in all parts of the world however he gave the members the twenty-five best and most com mon of annuals. Strangely enough the comman name of the Zinnia which is "Youth and Old Age" has been forgotten and most people refer to it by its botanical name. In conclusion, Mr. Crockett tolthe members how to start their annuals early from seed in flats, or cold frames, or later in the season in the garden, pointing out tha plants get ten per cent of their from the air and sun: thereafte they need a balanced ration

# GOOD NEWS everywhere you look in the NEW PLYMOUTH Attached 2-car garage, C. H. W. children: one great grandchild and five nieces and five nephews.

NEW "SAFETY-PLOW RIDE"-stability and safety never possible before! Even when you unexpectedly encounter violent bumps, dips, waves, or holes in the road, you enjoy a smooth and steady motion. You have complete control of the car at all times. "Safety-Flow Ride" comes from new Oriflow shock absorbers working with other engineering features.

NEW ELECTRIC WINDSHIELD WIPERS, unlike vacuum wipers, clean at a fast, constant speed, even when the engine is under a heavy load. They're standard equipment and with them you're replaceable, so you don't need a whole new grille not required to buy a vacuum booster. You enjoy better vision all around, with narrower front fenders are bolted on; they cost less to repair or corner posts and a 15% larger rear window.

NEW BUMPERS, GRILLE, HOOD, The lowsweeping new hood permits a better view of the road close to the car. Individual grille units are if only one part is damaged. Also, all four replace than fenders which are parts of the bony. 
the automatic choke in operation!

NEW INSTRUMENT PANEL AND HAND BRAKE. The new vertical-grain dash harmonizes with a variety of rich interior faprics and trim. The new "T-handle" hand brake pulls easily sets positively, and releases at a turn of the handle. The ignition key does three things at once: turns on the ignition, starts the engine, and puts

NEW ENGINE FEATURES. A new radiator pressure cap increases cooling capacity when you need it most and also helps keep the water or anti-freeze from boiling away. A new by-pass cooling system, standard on all models, gives fast warm-up and yet irculates the coolant so that the engine is fully protected under all starting and driving conditions.

AND MORE GOOD NEWS-AT YOUR PLYMOUTH DEALER'S This doesn't even begin to tell you the Plymouth Value Story. Your Plymouth dealer wants to tell you more, and he'd like to demonstrate the sensational new "Safety-Flow Ride." So why not stop in, or phone him, today or tomorrow?

Gas Mask Saves Wedding Belle

Santa Ana, Calif - P - Barbara

Moore, a lady Leatherneck at nearby El Toro Marine base, never dreamed she'd need a gas mask to get married. But one of the gadgets averted a postponement of her marriage to overseas-bound Pfc. Robert Daniels. The couple were to be wed two days before Daniels shoved off Just before the ceremony, bride-to-be discovered her racks locked and sealed with her trousseau inside while a fumigating crew was filling the breding with gas. In resourceful Marine Includes Hair Shaping tradition, Miss Moore borrowed a workman's gas mask, waded in and recovered her trousseau. The wedding was only slightly

Iraq's Syphilis

tial reports of a syphilis control project in rural Iraq indicate that 40 per cent of the rural popula tion is infected. A world health organization team is beginning treatment with penicillin in efforts to reduce the number of cases. WHO headquarters here said the syphilis survey was made by a mobile team of scientists and tecl miciana. Syphilis and bejel— which is a congenital or heredi-tary form of syphilis—have been widespread in the Tigris-Mesopo-tamia area for centuries. A WHO field report said the amount of syphilis in the towns where, but that the rate is "much higher" among rural people.

Sees War Risk

Washington, April 12-(P)-President Truman is determined that United Nations bombers stay away from Manchuria and China, at this stage of the Korean fighting, lest attacks on Red bases touch off a general war. In his radio address last night explaining why he fired Gen. Douglas MacArthur, Mr. Truman made clear the "bomb line" must remain at the Yalu River boundary between North Korea and Manchuria-unless the Communists themselves compe The President himself put the

question MacArthur long has been Korea Peace "Why don't we bomb Man-Move by U.N. churia and China itself? Why don't we assist the Chinese Nationalist troops to land on the Unit Slowed

mainland of China?" "If we were to do these things, he answered, "we would be running a very grave risk of starting Rep. Joseph W. Martin (Mass.) (left) and Sen. Kenneth Wherry general war. . . . If we were to (Neb.), Republican floor leaders, go over resolutions calling for Congress to invite General MacArthur to address a joint session.
