Congress Acts Fast On Funds

Washington, June 27—(AP)—The log-jam of Congress' money bills finally has broken on a multi-billion dollar scale. And the break is proceeding so fast that leaders were talking with some confidence today of being able to wind up the session—and the 81st Congress—for a good week from tomorrow.

The House scheduled the opening of debate today on its last pending appropriation bill—10 billion in new funds for foreign aid, military projects and other purposes next year.

And the Senate, which has been lagging far behind the House, was expected to act on a similar bill by the end of the week.

Washington, June 27—(AP)—The Senate today passed a bill to increase the number of members of the Supreme Court from nine to ten.

The bill was passed by a vote of 77 to 19. It would allow the president to appoint a new justice to the court.

Foreign Aid Bill Faces New Slash

Washington, June 28—(AP)—The House holds an unusual Saturday session today with anti-administration knives poised for another cut in President Truman's foreign aid program.

The special meeting was scheduled in an attempt to finish consideration of a 1952-53 appropriations bill to provide money for overseas aid and other programs.

Rep. Peter J. Flaherty, D-N.Y., introduced an effort to be made to allow at least \$200 million more from the \$4,275,948,750 Mutual Security program for the year beginning July 1.

The President's request for \$7,000,000,000, which he described as the absolute minimum for foreign military and economic assistance, already had been slashed 21 per cent.

The House tentatively added 28 million dollars to the \$10,283,133,700 appropriation bill, but a day-long session marked by sharp criticism of the cost of the military buildup and expressed concern for domestic programs.

Rep. Robert W. Taft, R-Ohio, introduced a bill to increase the \$10,283,133,700 appropriation to \$10,313,133,700, a \$30,000,000 increase.

The House also tentatively added 28 million dollars to the \$10,283,133,700 appropriation bill, but a day-long session marked by sharp criticism of the cost of the military buildup and expressed concern for domestic programs.
