UN for Extension of Prisoner Trade

By ROBERT B. TUCKMAN
 Panmunjom, April 24—(AP)—The United Nations today sought an indefinite extension of the exchange of sick and wounded prisoners of the Korean war as 40 more Americans returned to freedom.

The 40 brought the total of Americans liberated in the past five days to 118—one short of the 120 promised, originally by the Reds.

However, in keeping with a promise made Thursday, the Communists said 17 more Americans would be included in the 100 Allied troops returned Saturday.

The Reds said four more British, four Turks and 75 South Koreans also would be exchanged.

The Allies told the Reds they were grateful and said the UN would send back more Communist prisoners than the 5,800 originally pledged.

300 for 2,490

The Reds returned 500 Allied prisoners, as scheduled, Tuesday. The UN will return 800 more Reds Saturday.

The historic exchange continued smoothly in bright sunshine.

In another tent at this neutral zone, liaison officers met for the second time this week. The Communists asked a one-day postponement of the resumption of full-scale armistice negotiations which had been slated for Saturday.

One thousand American soldiers cut off from their lines... 700 of them wounded... all so desperate that they spelled out a giant SOS with corpses of their fallen comrades... eventual death for 900.

This new story of horror in the early days of the Korean war—in November, 1950—was related today by Pvt. William J. Probst, 21, Pittsburgh. He had been returned by the Communists after 29 months in their prison camps.

The 1,000 were stranded after "horrible" times in which there were nearly 75 per cent casualties.

"We were desperate," he said, "and we were spelled out messages with bodies of our comrades. I was interviewed which didn't allow time for many details."

Help Never Came

Probst said one plane sighted the SOS in ropes and he understood the message, but was sent to pick up the wounded.

But help never came.

"Instead, a message came through to take off in groups of five. Most of us didn't want to leave the wounded anybody. I don't know who arranged to surrender."

Under the surrender agreement, "I would never be released, but they were not."

"I'd say no more than a dozen out of the 1,000," he said.

The Communists left some of the prisoners in the camps.

GIs in Trap Wrote SOS With Dead

By The Associated Press
 Hanoi, Indochina, April 24—(AP)—A group of American soldiers cut off from their lines... 700 of them wounded... all so desperate that they spelled out a giant SOS with corpses of their fallen comrades... eventual death for 900.

This new story of horror in the early days of the Korean war—in November, 1950—was related today by Pvt. William J. Probst, 21, Pittsburgh. He had been returned by the Communists after 29 months in their prison camps.

The 1,000 were stranded after "horrible" times in which there were nearly 75 per cent casualties.

"We were desperate," he said, "and we were spelled out messages with bodies of our comrades. I was interviewed which didn't allow time for many details."

Help Never Came

Probst said one plane sighted the SOS in ropes and he understood the message, but was sent to pick up the wounded.

But help never came.

"Instead, a message came through to take off in groups of five. Most of us didn't want to leave the wounded anybody. I don't know who arranged to surrender."

Under the surrender agreement, "I would never be released, but they were not."

"I'd say no more than a dozen out of the 1,000," he said.

The Communists left some of the prisoners in the camps.

Three Red Spearheads Menace Heart of Laos

By LARRY ALLEN
 Hanoi, Indochina, April 24—(AP)—Three Red spearheads continued to menace the heart of Laos today and the French estimated that Communist China has tripled her supplies to the Vietminh.

The Vietminh, a Communist force, has captured more territory in Laos than it has in any other part of Indochina.

The Vietminh, a Communist force, has captured more territory in Laos than it has in any other part of Indochina.

The Vietminh, a Communist force, has captured more territory in Laos than it has in any other part of Indochina.

U. S. Allocates More Arms Aid To Indo-China

Washington, April 24—(AP)—The U. S. has secretly allocated more military aid to Indo-China in a move to bolster French and native forces now trying to stop a new Communist offensive.

The French Air Force has been striking at routes leading to the China border, but the Vietminh seems to be getting plenty to push the war against Laos, a tiny club-shaped nation in the heart of Indochina.

The Vietminh, a Communist force, has captured more territory in Laos than it has in any other part of Indochina.

The Vietminh, a Communist force, has captured more territory in Laos than it has in any other part of Indochina.

Churchill Gets Rank Of Knight

London, April 24—(AP)—Queen Elizabeth II today conferred a knighthood on Prime Minister Winston Churchill and invested him with the insignia of the Order of the Garter. The royal honors do not affect his standing in the House of Commons.

The young Gen. formally touched the 78-year-old Prime Minister on the shoulder with a golden sword as he knelt before her at Windsor castle tonight.

From that moment on Churchill became the Right Honorable Sir Winston Churchill, Knight of the Garter, Order of Merit, Companion of Honor, and Member of Parliament.

Founded in 1348

The Order of the Garter, founded by King Edward III in 1348, is the highest order of British chivalry.

Headed by Queen Elizabeth II, the order includes her husband, the Duke of Edinburgh, her uncle, the Duke of Windsor and the Duke of Gloucester, and 28 other members of royalty and nobility.

Normally, investiture with the order of the Garter carries with it a peerage.

The fact Churchill has only recently been taken into the House of Commons means he wishes to remain a member of the House of Commons.

If he were raised to the peerage he would have to give up his seat in the House of Commons. He has refused to do so.

Churchill declined the order of the Garter in 1943. He was offered it again after World War II. In its 600-year history, the order has been conferred on only four other commoners and all four had accepted.

But Churchill's Conservative Party had just taken a beating in the recent general election. The quotation was attributed to a Conservative spokesman.

"How can I accept the Order of the Garter from a government which has just taken a beating?" he is reported to have said.

Ziel's refusal to accept the honor because in those days it was the policy to give no such commendation of the Prime Minister's activities.

He added that he had never done anything in his opinion, which was against the best interests of the United States.

He said he would accept the Order of the Garter if the President of the United States should do so.

(Continued on Page Two)

Prof. Ziesel Suspended By U. of C.

Storrs, April 24—(AP)—The University of Connecticut has suspended a faculty member who refused Wednesday to testify before a House Un-American Activities Investigating committee in Washington whetted by the Communist party in 1947 and 1948.

Professor Paul R. Ziesel, who had been a member of the Communist party in 1947 and 1948, was suspended for refusing to testify before a House Un-American Activities Investigating committee in Washington whetted by the Communist party in 1947 and 1948.

NATO Asks Agreement Over Army

Paris, April 24—(AP)—Spurred on by the United States, the North Atlantic Treaty Organization formally requested five of its members to agree to a quick agreement with West Germany to create the proposed European Army.

NATO's request for early ratification of a treaty which would create a 300,000-man force, plus 14 member nations in a secret agreement which it was first agreed during the second day of a three-day meeting here.

The ministers also passed a 600 million dollar budget for armaments, jet fuel pipelines, communications and other military installations through 1956.

Dispute on Plan

An earlier copy-out of the final meeting said the program was approved without any dispute among the 30-member nations of the 14 member nations in a secret agreement which it was first agreed during the second day of a three-day meeting here.

Local Missionary Is Back Home After 4 1/2 Years in Dark Africa

Arthur Anderson on One Year's Leave From His Lutheran Post Among Giants of Masai Tribe

By EMILY SMITH

Four and a half years in Dark Africa, in Masailand, Tanganyika Territory located in East Africa, where for months he saw up other white men, where there are many wild animals and snakes, where the climate is very hot, and where living conditions are very primitive has been the experience of Arthur H. Anderson, a former Herald newboy who was born and brought up here in Manchester.

Mr. Anderson returned to the United States last week and after his long absence and in making his headquarters at the home of his sister, Mrs. Thomas Walker of Cambridge street, while on furlough for one year, although much of the time he has been away telling about his experiences in one of the most unexplored parts of the world.

Medical Missionary

A member of the Emmanuel Lutheran Church, Mr. Anderson has been working as a medical missionary of the Augustana Lutheran Board of Foreign Missions with headquarters in Minneapolis, Minn. The Augustana Lutheran Church is a member of the National Lutheran Council, which includes Lutheran churches of nearly all denominations in the United States.

The local man left here in July, 1948, arriving in Tanganyika on Sept. 1 of that year. After some preliminary medical work and language preparation he officially started work among the Masai tribe of South Masailand on Jan. 7, 1949, when Dr. Richard Reusch, under whom he works, brought him to his new post, and introduced him and then left him on his own two days later.

Dr. Reusch, who has spent considerable time in Africa, knows 21 languages and is well acquainted with the ways of the natives. Anderson himself knows a half a dozen native languages, including Swahili, which is the standard language of all the African tribes.

The Masai tribe, with whom Mr. Anderson has been working, has about 400,000 members, and their territory covers an area larger than the British Isles, about 500,000 miles from north to south, and about 350 miles from east to west. The language of the tribe is probably one of the "hardest" in the world to learn, as there is no written grammar as yet.

Big and Brave

Physicians they are among the best human specimens, averaging about six feet, seven inches in height. The Masai are practically fearless and are known to be the only tribe to conquer the Zulus who are now in South Africa.

The tribe, a nomadic one, is one of the richest in Tanganyika in cattle, upon which they depend for a living. When there is sufficient rainfall they do not want for anything but room where grass and water are available to graze their herds of huts as needed. They cover vast tracts of grazing land, but each herd has its own place, as designated by the chiefs.

Mr. Anderson himself lives mostly on tinned food, but the natives depend upon their cattle for their main foods, meat and milk. The meat they broil or barbecue, and it is really good, he said. Sometimes they dry it by hanging it in the sun and then are able to keep it for periods of two or three months.

Although there are many goats they prefer the milk and meat of the cattle, and only resort to the goats in the case of dire need. The

Local Missionary Is Back Home After 4 1/2 Years in Dark Africa

Arthur Anderson on One Year's Leave From His Lutheran Post Among Giants of Masai Tribe

By EMILY SMITH

Four and a half years in Dark Africa, in Masailand, Tanganyika Territory located in East Africa, where for months he saw up other white men, where there are many wild animals and snakes, where the climate is very hot, and where living conditions are very primitive has been the experience of Arthur H. Anderson, a former Herald newboy who was born and brought up here in Manchester.

Mr. Anderson returned to the United States last week and after his long absence and in making his headquarters at the home of his sister, Mrs. Thomas Walker of Cambridge street, while on furlough for one year, although much of the time he has been away telling about his experiences in one of the most unexplored parts of the world.

Medical Missionary

A member of the Emmanuel Lutheran Church, Mr. Anderson has been working as a medical missionary of the Augustana Lutheran Board of Foreign Missions with headquarters in Minneapolis, Minn. The Augustana Lutheran Church is a member of the National Lutheran Council, which includes Lutheran churches of nearly all denominations in the United States.

The local man left here in July, 1948, arriving in Tanganyika on Sept. 1 of that year. After some preliminary medical work and language preparation he officially started work among the Masai tribe of South Masailand on Jan. 7, 1949, when Dr. Richard Reusch, under whom he works, brought him to his new post, and introduced him and then left him on his own two days later.

Dr. Reusch, who has spent considerable time in Africa, knows 21 languages and is well acquainted with the ways of the natives. Anderson himself knows a half a dozen native languages, including Swahili, which is the standard language of all the African tribes.

The Masai tribe, with whom Mr. Anderson has been working, has about 400,000 members, and their territory covers an area larger than the British Isles, about 500,000 miles from north to south, and about 350 miles from east to west. The language of the tribe is probably one of the "hardest" in the world to learn, as there is no written grammar as yet.

Big and Brave

Physicians they are among the best human specimens, averaging about six feet, seven inches in height. The Masai are practically fearless and are known to be the only tribe to conquer the Zulus who are now in South Africa.

The tribe, a nomadic one, is one of the richest in Tanganyika in cattle, upon which they depend for a living. When there is sufficient rainfall they do not want for anything but room where grass and water are available to graze their herds of huts as needed. They cover vast tracts of grazing land, but each herd has its own place, as designated by the chiefs.

Mr. Anderson himself lives mostly on tinned food, but the natives depend upon their cattle for their main foods, meat and milk. The meat they broil or barbecue, and it is really good, he said. Sometimes they dry it by hanging it in the sun and then are able to keep it for periods of two or three months.

Although there are many goats they prefer the milk and meat of the cattle, and only resort to the goats in the case of dire need. The

which we propose to safeguard our own democracy.
 But we doubt that any dictatorship in history has ever carried the police state atmosphere as far as this.
 Perhaps it could happen, some time, that some gossipy wife of a government employee might pass on information which might eventually find its way to some enemy, to do the enemy some good. Somehow, we tend to doubt that any enemy is depending upon gossipy wives for their information, but we will concede the possibility.
 But even if this should happen, we would say that that would do less damage to this country than the damage that is being done right now by the fact that every individual who considers taking a job in Washington must, before he weighs his own personal decision to accept or reject, think first of the job to be done, or of his own ambitions or talents for it, but of whether or not his wife would be considered, by some of the members of the administration, as a possible source of information. Having thought of this, what individual would risk the tentative acceptance of a job in Washington, when it might prove to be the acceptable, with which he and his wife would have to live for the rest of their lives together, that he had lost the employment opportunity because of his wife's conversational habits, real or alleged?

All this could make good comedy, leading to all the imponderable jokes about a woman's tongue. But it happens, given the mentality of a McLeod, and given the Eisenhower administration's attitude toward the Communist peace offensive, it is not so much a joke.
 It is one more proclamation, by high policy, that Americans must not trust Americans, one more dictum that the only way to save America is to turn ourselves into a police state.
 It is contrary to everything in the spirit of leadership of President Eisenhower, yet it is happening inside his administration, in apparent violation of the standards of Senator Joseph McCarthy. It is happening because it is very easy to say that, it would be hard to have gossipy wives, but it is not so much to see and say that it is so much easier and much more dangerous to the government file on the tongues of wives, but that is the truth.
 The only real security any nation ever possesses is in the hands of its citizens, and that is the only security that is naturally out of the patriotism and good, grateful instincts of its own citizens. Any attempt to control additional security, by the promulgation of regulations and the use of police state tactics, merely operates to reduce the amount of national security in the nation. Our whole national security is based upon a security which is naturally out of the hearts and minds of our citizens, and the growing mockery and exposure of the mistakes of other nations who have relied upon a security artificially created. But now, in too many ways, we are making their mistakes our practice. It is time to begin to remember that this is America.

On Filibusters
 When is a filibuster not a filibuster?
 When you are conducting it yourself.
 That seems to be the position of the die-hard band of Senators at Washington who keep finding new speeches to make on the issue of off-shore oil deposits. Many of them are liberals who, in sessions past, have denounced the institution of the filibuster as it has been used by Southern Senators to block civil rights legislation. Now that they are doing the same thing themselves, in response to certain convictions of their own, they resent the idea that they are filibustering. Yet they are.
 There is more consistency, to tell the truth, in the attitude of those Southern Senators who have used the filibuster in the past, and who, now that the same weapon is being used against the passage of the oil bill most of them want to see passed, are refusing to get excited about it, and advising Senator Taft away from early attempts to break up the filibuster. One reason for their consistency may be that they know that, if they attack the filibuster, they may expose themselves to punishment the next time they attempt to break the filibuster. They may expose themselves to punishment the next time they attempt to break the filibuster.
 But we suspect there is more than that involved in their attitude. We suspect they are sincerely believe in the filibuster as a parliamentary weapon, and that their belief comes from a long experience in being a minority in the national legislature. There are times when minorities have nothing to offer the majority as a weapon. And yet, in democracy, no minority which considers its own fundamental interests threatened should ever be totally defenseless.
 For one reason or another, at any rate, the traditional filibusters of the South are not anxious to destroy their own institution in this instance in which

Insurance Firms Bids Withdrawn
 Hartford, April 24.—Two bids which would have chartered two new Connecticut insurance companies with the small capitalization of only \$250,000 each were withdrawn today.
 The proposals were strongly opposed by State Insurance Commissioner W. Ellery Allyn who told the legislature's insurance committee that any new casualty or bonding company should have at least a \$1,000,000 capitalization. One bill, in which GOP House Leader Simon S. Cohen was interested, would have established the Connecticut-Bonding and Casualty Company. It had previously been reported out by the incorporations committee but at the insistence of some lawmakers was sent to the insurance committee for consideration.
 The measure was introduced under the name of Rep. Robert L. Keeney, Jr., Somers Republican, who asked it be withdrawn.
 The second bill proposed to create the Capital Insurance Company for writing fire, marine and inland marine insurance. Senator Stephen J. Sweeney, Naugatuck Republican under whose name the bill was introduced, asked that it be withdrawn. Committee members said he did not place his name on the bill as the sponsor and was not interested in seeing it approved.
 Several committee members feared that the charters, if granted, might be transferred later on to other interests who might be from out-of-state and want to use a Connecticut name.
 Explorers often have reported land in Arctic seas which could not be found later and scientists now believe the "lands" are the huge ice islands which drift with the Arctic currents.

HANDSOME DOES
 Our Shell heating oil delivery equipment spells it out—handsome is as handsome does! Our delivery men are experienced and courteous. They're trained to respect your property: keeping off lawns, not leaving oil stains in your driveway. A metered receipt is left at your home after every delivery; you know the exact amount delivered. In other words—our service ends your worries.

Threat on China Seen Ending War
 (Continued From Page One)
 MacArthur agreed with Byrd, who had written asking his comments, that there were ammunition shortages in Korea. MacArthur said the late Gen. Walton Walker's Eighth Army was once down to "five rounds per gun."
 But he said it was a lack of "the will to victory" that was "the overriding deficiency" and he realized that the Korean fighting effort started in June, 1950.
 "No such optimism existed, either at the front or elsewhere, during those early months when our beleaguered and heavily outnumbered forces were being driven to the sea, clinging desperately to the last beachhead remaining," he said.
 "The only predictions from Washington at that time warned of impending military disaster."
 Even so, MacArthur continued, his now-famous sweep around the North Korean forces to a landing at Inchon cut the enemy's supply line and "transformed the situation from pessimism to optimism."
 MacArthur's 1,200 word letter lashed out at former Secretary of the Army Frank Pace, who told Senators April 9 that MacArthur thought in 1950 the war would be over by that December.
 MacArthur said his Inchon landing was "only grudgingly approved" by the Joint Chiefs of Staff.
 He said the routing of the Korean Communist forces was "a huge success in a politically advantageous sense."
 "Success in war involves political as well as military considerations," he commented.
 He said his requests to both and blockade Red China and use Chinese Nationalist troops "were actually approved by the Joint Chiefs of Staff on Jan. 12, 1951."
 "But somewhere between the offices of the Secretary of Defense, the Secretary of State and the Chairman of the Joint Chiefs of Staff were pigeon-holed," he said.
 At the time, Gen. George C. Marshall was Secretary of Defense, Dean Acheson was Secretary of State.
 "The Communist masses probably are as eager for peace as our own people," MacArthur said, and "I do not see the danger of a military actually confronting it in the Far East in 1950."
 MacArthur said his Inchon landing was "only grudgingly approved" by the Joint Chiefs of Staff.

 At the time, Gen. George C. Marshall was Secretary of Defense, Dean Acheson was Secretary of State.

BURNS PROVE FATAL
 Canton, April 24.—A house fire which took the lives of a seven-year-old boy and a 51-year-old man has claimed a third victim. Gerard Wagner, Sr., father of the dead boy, succumbed to burns he received while trying to rescue his son.
 Fire destroyed their home April 13.
 The Communist masses probably are as eager for peace as our own people, MacArthur said, and "I do not see the danger of a military actually confronting it in the Far East in 1950."

CLINTON EDITOR HONORED
 Clinton, April 24.—Allen W. Jones, 87, editor of the weekly Clinton Recorder for 58 years was honored at a banquet last night by the Chamber of Commerce.
 The day, sponsored by the Chamber of Commerce, was in honor of Jones for his fairness in handling news of the area during that period.
 Explorers often have reported land in Arctic seas which could not be found later and scientists now believe the "lands" are the huge ice islands which drift with the Arctic currents.

Peace Offensive in Laos
 Prime Minister Churchill openly expresses his concern with the move in the state of Laos in Indo-China, and that concern must be held everywhere as the supposed Communist peace offensive is weighed.
 "For what goes on in Laos is a Communist war offensive. It represents an opening of a new front. There is little reason for denying that this opening of a new front represents Communist policy quite as high in its origins as the peace offensive itself.
 "What kind of peace offensive is it which includes an expansion of an existing war? There have been some encouraging deeds, as well as words, in this peace offensive. But how can this particular deed which is a deed of war, be reconciled with the general diplomatic picture?
 "One possible analysis is that the Communists are using progress toward peace in Korea as the exact purpose of our diplomacy has feared—that of amplifying war elsewhere. By this analysis, the Communists do not really intend much peace, anywhere.
 "Another possible analysis is that the Communists are making this move in order to strengthen their bargaining position, when the time comes to consider a settlement of the troubling in Indo-China along with that of Korea and other Far Eastern problems. They are hitting with one hand in order to increase the bargaining strength of the other—much as we, throughout true negotiations in Korea, have kept hitting with our air arm as hard as we could.
 "By this second analysis, peace on a wide scale is still possible and what is happening in Laos is a Communist war offensive. It represents an opening of a new front. There is little reason for denying that this opening of a new front represents Communist policy quite as high in its origins as the peace offensive itself.
 "What kind of peace offensive is it which includes an expansion of an existing war? There have been some encouraging deeds, as well as words, in this peace offensive. But how can this particular deed which is a deed of war, be reconciled with the general diplomatic picture?
 "One possible analysis is that the Communists are using progress toward peace in Korea as the exact purpose of our diplomacy has feared—that of amplifying war elsewhere. By this analysis, the Communists do not really intend much peace, anywhere.
 "Another possible analysis is that the Communists are making this move in order to strengthen their bargaining position, when the time comes to consider a settlement of the troubling in Indo-China along with that of Korea and other Far Eastern problems. They are hitting with one hand in order to increase the bargaining strength of the other—much as we, throughout true negotiations in Korea, have kept hitting with our air arm as hard as we could.
 "By this second analysis, peace on a wide scale is still possible and what is happening in Laos is a Communist war offensive. It represents an opening of a new front. There is little reason for denying that this opening of a new front represents Communist policy quite as high in its origins as the peace offensive itself.
 "What kind of peace offensive is it which includes an expansion of an existing war? There have been some encouraging deeds, as well as words, in this peace offensive. But how can this particular deed which is a deed of war, be reconciled with the general diplomatic picture?
 "One possible analysis is that the Communists are using progress toward peace in Korea as the exact purpose of our diplomacy has feared—that of amplifying war elsewhere. By this analysis, the Communists do not really intend much peace, anywhere.

Taft Plans To Modify Bill on Oil

Washington, April 24.—(AP)—Taft said today he is exploring the possibility of finding some modification of the long-debated submerged lands bill on which both sides would agree.

The Senate Republican leader added to reporters, however, that nothing in the way of an agreement is in sight.

Despite on the measure enacted in 1947 day, it would establish the state title to all submerged lands within historic boundaries.

One possibility of compromise, Taft said, might be a clarification of the bill's definition of "public lands" in the continental shelf.

There are probably two or three bills in the Senate, Taft said, but he would not say which one he would support.

He held the Senate Republican leader to be the measure enacted in 1947 day, it would establish the state title to all submerged lands within historic boundaries.

One possibility of compromise, Taft said, might be a clarification of the bill's definition of "public lands" in the continental shelf.

Powerful Atom Shot Used in Troops Drill

Las Vegas, Nev., April 25.—(AP)—One of the spring series most brilliant and powerful atomic bombs exploded before dawn today as 16 Congressmen and 2,650 troops from all over the nation looked on.

Shortly after the blast, touched off from a 300-foot tower at 4:30 a. m. (p.s.), troops climbed from their trenches 4,000 yards from Ground Zero and advanced in a tactical maneuver.

The shot, at the Atomic Energy Commission's Yucca Flat test site 75 miles northwest, was a thing of beauty as seen from here. As it flared a skyful of fiery clouds, invisible in the darkness an instant before, were momentarily printed with gold.

Observers at the control tower, where the Congressmen were stationed, 10 miles from Ground Zero, said the shock wave at their vantage point was the strongest of the series. It broke light bulbs and window panes in outbuildings. The flash was seen as far away as San Francisco—600 miles distant.

Drove Plane Crashes
A Navy AD-2 Skyraider drone plane, flown into the charging atomic cloud, crashed. Such craft carry instruments to obtain scientific data, which is relayed to the ground by radio.

Fifty-two aircraft, including six B-47 Stratofortresses and six B-50s, were in the air on various missions.

U. S. Informers Were in Camp, Returnee Says
Tokyo, April 25.—(AP)—An American soldier freed Tuesday after almost two years in Communist prison camps today said some U. S. prisoners turned informants and "passed along" to the Communists information on what other prisoners were talking about or planning.

"I guess some of them believed the Communist line. Some of them did it for the cigarettes... They were in a camp called Haidig, said Sgt. Orville R. Mullins of Covington, Ky.

He gave no names and did not say how many prisoners had turned informants.

"You had to watch your step, Trumpf said, but some were talked to and pick your friends," he added.

Mullins gave no names of the other prisoners he met in the camps across North Korea in interviews earlier this week.

And today, resting in an Army hospital here, he said he had seen 12 other prisoners who had turned informants.

He said he had seen 12 other prisoners who had turned informants.

Soviet Welcomes Ike Bid for Peace Talks

Washington, April 25.—(AP)—The White House said today that Russia's new peace statement may be "a first step toward something concrete" in settling Cold War problems.

"If so," an official White House statement said, "the free world will continue to wait for the definite steps that must be made if the Soviet leaders are sincerely interested in a cooperative solution to world problems."

By EDDY GILMORE
Moscow, April 25.—(AP)—The official newspaper of the Communist party declared today that Russia is ready to enter into "business like" discussions with the West to end great world controversies, but made it clear the Soviet Union is not retreating where along the line of foreign policy.

Reds Release Extra American Captives

Panmunjom, April 25.—(AP)—Another 100 Allied prisoners—including a bonus number of Americans, British and Turks—were freed today as the Communists kept their promise to continue the exchange of sick and wounded captives beyond the original limit.

The Reds said they would free 13 more Americans and 71 disabled South Koreans tomorrow as usual, but they also promised to free 100 more Americans and 75 South Koreans as a bonus. The total to be freed today, bringing the total to 600, the Reds said they would exchange in six days.

But of the total 136 were Americans—16 more than promised. 32 were British, 12 more than promised, 15 were Turks, equal to the number of non-Korean prisoners the Reds said they would exchange and 17 others included men from Colombia, Australia, Canada, South Africa, Greece, the Philippines and The Netherlands and 60 were South Koreans.

Both sides have said they would continue the exchange beyond the 600 originally pledged by the Reds and the 500 promised by the UN command.

Neither side has said how many more will be freed, but some observers have speculated the exchange could go on indefinitely.

The UN Command proposed today that sick and wounded be exchanged continuously while hostilities continue. The Reds have not replied.

Ike Urged to Boost Aid for Far East

Washington, April 25.—(AP)—A team of 55 American businessmen has advised the Eisenhower administration to slash economic assistance to western Europe and increase it to the Communist-ruled Far East. The business leaders also have urged that the State department over all foreign aid programs and that the existing Mutual Security Agency be abolished.

The businessmen were given to Mutual Security Administrator Harold Stassen as part of a 4,000 word report based on a one-the-spot survey of foreign aid operations in 24 countries.

The report, still classified as secret, concludes that American aid has accomplished its purpose of bettering economic conditions in Europe. A substantial cutback is recommended for nearly all European countries except West Berlin and divided Austria.

Congress appropriated \$1,282,000,000 for "defense support" assistance to western European nations in the fiscal year ending June 30. This money is used to buy military, food, fuel and other supplies to help defensible governments increase their military budgets.

The stepped-up economic aid to the Far East presumably would go to the Philippines and three Indo-China states now battling against Communist-led rebel armies.

These were the only Far East areas visited by the business executives. In Europe, they toured Denmark, France, West Germany, Greece, The Netherlands, Belgium, Italy, Turkey and Great Britain. Informal officials said it appeared unlikely the Eisenhower administration would heed the advice to slash aid to Europe.

The State department plans to merge the Mutual Security Agency and the Technical Cooperation Administration (Point Four) to consolidate foreign aid supervision.

Third Division Turns Reds in Trench Attack

Seoul, April 25.—(AP)—U. S. Infantrymen, using bayonets, rifle butts and hand grenades, cut down about one-third of a 300 to 350-man Communist force that smashed against Allied lines in central Korea today.

Fifty Chinese attackers who jumped into the American trenches were wiped out. In all, nearly 200 Reds were killed or wounded in three hours of bloody fighting, the Eighth Army said.

But the rest of the Red attack force scurried for cover under withering fire from the Third U. S. Infantry Division.

The Reds hit an American outpost and nearby main line position just east of Jackson Heights about midnight.

The besieged American troops weathered a hail of 4,000 rounds of Red artillery and mortar fire during the battle.

The Chinese tried twice to reinforce but a curtain of Allied anti-aircraft fire blocked each attempt.

The Foreign, Defense and Finance ministers wound up their three-day meeting at which they approved a costly military equipment program and pledged to remain on guard despite Soviet peace hints by arranging to meet again in October.

The new peace program will boost NATO's air strength to a total of 3,600 planes by the end of 1954.

The other force came from the (Continued on Page Two)

News Tidbits

Bank Robber Gives Up
Washington, April 25.—(AP)—A police and plain clothesman take shelter behind one of the men who attempted to hold up the Southwest Bank in St. Louis, April 24, while out on the sidewalk in front of the bank. This photo was taken by Jack January of the Post Dispatch.

Chalked Words Of Bank Theft Plans Ignored
St. Louis, April 25.—(AP)—The death of one hand and the escape of another today handicapped investigation of what amounted to St. Louis' largest bank robbery.

St. Louis police said they were looking for a man who was seen entering the 18th day today.

On the merits of the submerged bank hold-up, the Federal Reserve Board is working as possible to prevent the building of dams by the Federal Reserve Board.

These views were given to Mutual Security Administrator Harold Stassen as part of a 4,000 word report based on a one-the-spot survey of foreign aid operations in 24 countries.

NATO Nations to Boost Plane, Ground Strength

Paris, April 25.—(AP)—The 14 NATO nations today agreed to boost their air and ground forces to meet the Communist threat in Europe.

They said that the Communist attack on Laos in French Indochina was only the latest example of policies responsible for aggressive warfare in several parts of the world.

Joseph Bech, Luxembourg foreign minister, said he and the other five ministers who have signed the European Army treaty will meet here May 12 to begin their study of the proposed six nation political authority.

The windup of the conference coincided with the publication in Paris this morning of an extensive Russian Communist in the United States.

Although ministers were engaged from the meeting denied that the Prava editorial had any influence on their discussions here, it was obvious that they (Continued on Page Eight)

Yoshida Liberals Win Senate Vote

Tokyo, April 25.—(AP)—Prime Minister Shigeru Yoshida's Liberal party rolled up an impressive triumph in Friday's Senate election, possibly strengthening his position in his fight to keep his job.

The Liberals had named 38 of 92 seats in the upper house. The rate had collapsed 23 more. The new Senate had 11 seats the (Continued on Page Three)
