(Continued From Page One)

... which it was not announced. The new Premier, white-headed Bulgakov, was the Communist in direct charge of the Soviet-armed forces under Stalin during World War II. He is 66, Khrushchev is 60 and Malenkov 53.

Soviet diplomats saw in the choice of Bulgakov a further evidence of the growing antipathy of the Army in the Soviet government. Others speculated recently that Bulgakov would serve as a sort of chairman of the board rather than a personal leader. All of these present took note that the general had been in the Red Army since 1918 and that he had been treated by his superiors as a personal friend.

### Obituary

**Deaths**  
**Michael McLean, Jr.**, 47-year-old son of Michael and Stella McLean, died Sunday afternoon at his home in Hartford. He was a graduate of the University of Connecticut and was employed as a mechanical engineer at the American Electric Works Co. in Hartford.

**Harold F. Clark, 57**, died Sunday at his home in Hartford. He was a member of the Hartford Yacht Club and was employed as a mechanical engineer at the American Electric Works Co. in Hartford.

**Samuel W. Mason**, 77, died Sunday at his home in Hartford. He was a member of the Hartford Yacht Club and was employed as a mechanical engineer at the American Electric Works Co. in Hartford.

### Board Favors 20 Per Cent Hike in Town Water Rate

The Board of Water Commissioners, in four recent informal meetings, has worked out a tentative plan to increase water rates by 20 per cent, with an increase of 10 per cent to increase the sewer charge.

The increase would bring the water rate to 45 cents per 100 gallons and the sewer charge to 30 cents per 100 gallons. The Board also decided to effect the increase by raising the rate on water users who do not have meters.

**Improvements**  
The Board was able to lower the rate on water users who do have meters by 10 per cent. This was accomplished by the installation of automatic meters.

**General Manager Richard Martin** today described in some detail what has been done in the past few years and what he expects to do in the future. He pointed out that the water supply is being improved and that the sewer system is being expanded.

**Improvements**  
The Board is planning to install automatic meters for all water users. This will help to conserve water and reduce the cost of the water supply.

**As for sewerage**, the proposed improvement is to install a sewer line in the center of the town. This will help to collect and dispose of sewage properly.

**At the same time**, the Board is planning to install a water tower. This will help to maintain a constant pressure in the water supply.

**The Board is also planning** to install a water filter. This will help to remove any impurities from the water supply.

**The Board is also planning** to install a water meter. This will help to measure the amount of water used by each user.

**The Board is also planning** to install a water pump. This will help to pump water from the source to the town.

### Man Charged With Evasion

Alberta Porter, of West Windsor Rd., was arrested this morning by Patrolman Frederick Folter, charged with evading responsibility.

**Porter was arrested** while driving on the turnpike. She was charged with evading responsibility for a traffic violation.

**Porter was released** on a \$1000 bail. She is scheduled to appear in court on a later date.
