Congress Held Sure Of Boosting Benefits

This provision for the first time breaks the 65 retirement age wall when social security was established in 1935.

But working women electing to go on the social security rolls at 62 would receive a rate of payment equal to 80 per cent of the benefits to which they would be entitled at age 65.

One who has elected earlier retirement, these women would get a reduced rate for the remainder of their lives. All three groups would be phased in gradually.

But if we the taxpayers, rather than the Eisenhower administration, should have spent more on education, it would have been a different matter. Heard Along Main Street And on Some of Manchester's Side Streets, Too

Just Another Post—'Heard Along' received a letter this week from an avid baseball fan who found a story in last week's column entitled 'Game of Inches' particularly interesting.

Invaded By Fog—Also Monday night a nearby drive-in movie, the pictures comprising an epic twin bill, consisted of 'Boys, n' Girls' and 'The Young Man with the Horn'.

That's Stompin', Man!—In the opinion of one local citizen it is about time one segment of the critics of rock music, instead of giving the score 8-5, 'Heard Along' had it 8-6. As you will see, this makes quite a difference.
