Statistics Show Excellent Health In U.S. for 1956

New York, N. Y. - Excellent health conditions prevailed among the American people in 1956, according to the statisticians of the Metropolitan Life Insurance Company. A continued favorable health record is expected in 1957.

ing the lives of babies and mothers takes on added significance from the fact that it occurred during a period of relatively high birth rates, the statisticians noted.

For 1956, the death rate in the United States is indicated as 9.3 per 1,000 population, or on a par with that for 1955. The year just ending is the ninth in succession to show a national death rate below 10 per 1,000 population.

A noteworthy feature of the mortality in 1956, the statisticians noted, is the exceptionally low death rate from tuberculosis—about 9 per 100,000 population.

Polio-related cases in the United States were little more than half the number recorded in 1955. By the end of 1956 there will have been about 35,500 cases of the disease reported, compared with 26,000 the year before and with nearly 38,000 in 1952.

Hal Boyle Rudolph's Father Holly Jolly

New York (AP)—Some day Johnny Marley would like to write a hit song about the 4th of July... or maybe even the 26th of February.

It is unlikely, however, his public will let him. For better or worse, Johnny has become as identified with Christmas songs as the old South.

That recording has now sold more than 5 million. Some 94 other recordings of Rudolph in 65 different arrangements have sold 20 million worldwide.

Policy of Tight Credit Slashes Home Buying

WASHINGTON, Dec. 13 (AP)—You want to buy a home? The tight money policy of the Federal Reserve Board is making it difficult to do so. The amount of money available for home buying is being cut sharply. The Federal Reserve Board has raised the discount rate to 6 1/2 per cent. This has caused a sharp rise in the interest rate on loans. The result is that many people who were planning to buy a home are now unable to do so.

Fed Crops Hunt Water

Des Moines—Tests show that fertilized crops search out water in the soil. In Iowa fertilized corn pulled water from seven feet of soil compared with unfertilized corn, which went down only two to three feet. And each gallon of water makes more crop. Fertilized corn in Missouri used 5,600 gallons to make each bushel, while unfertilized corn used 21,000 gallons.

Pigeon SAVED

Bowling Green, Ky. (AP)—Credit the city fire department with the extraordinary rescue of a pigeon. Homeowners had tied a 10-foot piece of string to the bird and combed the string to the fire department. A fireman spotted the pigeon hanging head down, rapping helplessly. From a telephone line and called the fire department. Fireman Wallace Westbrook dispatched to the scene in a ladder truck, set the pigeon free.

Student Held In Slaying of Football Star (Continued from Page One) gams angry over the prank and grabbed a 14 gauge shotgun he kept in the room and tossed it on the bed, the muzzle pointing at Batura.

Hilman said Batura started firing at the gun and when Snirrol refused, Batura started across the room saying "I'll do it." As he started across the room, Hilman said Snirrol stood up with the gun in his hand and then it happened. The weapon discharged at point blank range, the full charge hitting Batura in the temple, killing him.
