Patience, Patients, Is a Virtue

Manchester Memorial Hospital has been honored by the old lady of nursery rhyme fame who had so many children she didn't know what to do.

The hospital, which is currently conducting a building fund drive, has so many patients it isn't able to care for all adequately.

According to hospital records, public dependence on the diagnostic services of the x-ray department has almost doubled since 1953.

Because of this increasing demand for its services, the department is forced to find additional space where it can.
