# Business Bodies

Edgar H. Clarke, head of the Clarke Insurance Agency at 175 E. Center St., is the author of an article appearing in the January issue of "Rough Notes," an insurance trade journal.

Two brothers, Will and Merrill Clark of Hartford, have recently started on their first business venture in operating a service station on the corner of W. Middle Turnpike and Adams St. The company is called the Hebert Brothers Cities Service Station.

Frank P. Sheldon, C.I.U., Manchester representative of Phoenix Mutual Life, has been cited as the company's top agent in Connecticut for 1957. His sales surpassed that of any other company representative in the state.

The Manchester branch of the John Hancock Mutual Life Insurance Co. of Boston has placed records in operating a service station in the amount of insurance sold last year. The local office was in competition with 220 other offices. Eleven members of the agency qualified for the \$500,000 to \$1,000,000 Club. They are James Mansour, Raymond Lavallee, Enrico Ruffini, George Reale, Ralph Hise Jr., William Wain, Michael Deposto, Joseph Lodiato, Edward Jaroze, John Dillon and Daniel Gallagher.

Special recognition will be given to Michael J. Maloney Jr., district manager and the representative at Quebec in March.

Miss Bernice Juel of the Weldon Beauty Studio is scheduled to attend the annual meeting of the State Beauty Shop Wage Board on Wednesday at the Labor Department building at 42 Farmington Ave. in Hartford.

The article, entitled "Here is a Town Plan that Assures Good Service," deals with a plan now being used by the American Association of Insurance Agents in providing coverage for the city.

Clark was president of the Connecticut Association of Insurance Agents in 1953 and also served as chairman of the Connecticut Manufacturers Insurance Advisory Committee.

Charles W. Robinson of 100 Campbell St. is a member of the production manager of the Bloomfield area operations of the Kaman Aircraft Corp. He will direct the production of the company's plans in Bloomfield and Suffield.

Francis P. Vendetta of 440 Englewood Dr. has been promoted to the position of assistant superintendent of the Hartford Fire Insurance Co. Group's home office agency accounts department.

Vendetta joined the company 10 years ago and has been associated with the accounting department since 1953. He is continuing his study of accounting at the University of Hartford.

According to National Assn. of Manufacturers' statisticians, 47.1 per cent of current defense spending is accounted for by the Air Force, 27.4 per cent by the Navy and 25.5 per cent by the Army. The remaining 4 per cent goes to miscellaneous projects.

"Taxpayer's Dollar" anticipates that the 1959 federal budget will come to \$72 billion, with defense spending estimated at \$30 billion of that. Other forecasts for the budget are as high as \$74 billion.

The calendar year 1957 ended with sales of Series E and H Savings Bonds and redemptions decreasing. The U.S. Treasury reports that the defense spending of these bonds was \$286 million, topping by \$20 million the sales for the month the previous year. In both December and September, sales ran ahead of the comparable months a year ago.

At the Florida conference, Cheney, who is district group supervisor and his companions will be recognized for their achievements and are to participate in a series of forums reviewing new developments in the business and plans for the ensuing year.

# Hebron Church Youths Start Business, Plan Stock Sale

Boys of the Order of Sir Galahad, Hebron Episcopal Church, have thought up something new as a project for this year. Their plan is to start a business, called the Hebron Brotherhood Corp., which will be a stock company. They are selling shares of stock to friends at 25 cents per share. Next spring, the company will be dissolved and they will buy back the shares. They expect to make a profit from their project, which they will use to buy material with which to make birdfeeders.

Speaking of birds, they have had hard time with all this stock. This correspondent has chopped up spare offerings, dumping into the chopping bowl about everything birds might appreciate, including spinach and grapefruit skins. They ate the spinach last of all and turned up their noses at the grapefruit. If you don't like this particular kind of foolishness, make it a rule to avoid this kind of thing. It is worth an opening bid, a comfortable bid at your next town.

Non-manufacturing employment in Connecticut rose to an all time high last December, the State Labor Department reports. The number of jobs was 318,750, an increase of 10,000 from November. The gain was sufficient to offset a loss of 3,490 in factory jobs last December, the Labor Department said.

Losses of more than 21,000 jobs in metal manufacturing during 1957 accounted largely for the decline in the number of manufacturing jobs, the department said. The average work week increased from 42.2 hours in December 1956 to 40 hours at the end of the year, the report said.

# Sheinwood on Bridge

NO PLACE FOR INNOCENT BYSTANDERS

When the doubles start to fly black and fast, innocent bystanders must make sure that they stay innocent. This is just as true in world championship matches, like the one that started yesterday in Como, Italy, as it is in a local game in your home.

South was struck with an all-time "knock out" to get the afternoon bid, but he got the afternoon bid, but he got the afternoon bid, but he got the afternoon bid.

What sort of silly player was this, an idiot, a weak game was he playing in?

For the bridge South was playing in. When the hand was played at the other table of the 1957 world championship, the American North player passed as dealer. An Italian pair held the East-West cards and got up to game in no-trump, going down one trick. A trump would have made the difference between a harmless little hand and a disaster.

# Bolton Delectable Mountain Eyed As Site for Aircraft Signal

The top of Delectable Mountain in this town is being eyed by the Federal Civil Aeronautics Board as the site of an instrument for their Tachan and Omni Range Radar Guided Missile System.

Tests are currently being made from the east side of Bolton Center Rd. owned by Mrs. Elizabeth Sumner and Miss Jennette Sumner.

The plan calls for construction of a small building to house the necessary equipment and an access road to the site. The installation would eliminate the need for a high level high speed flight of airplanes. A local installation would be part of a nationwide system for guidance of guided missiles.

The plan calls for construction of a small building to house the necessary equipment and an access road to the site. The installation would eliminate the need for a high level high speed flight of airplanes. A local installation would be part of a nationwide system for guidance of guided missiles.

# UAW Walkout Threatens for Dodge Factory

Washington—It is estimated that 50,000 new cars were constructed in the first 10 years after World War II. During that same period new automobiles manufactured, if marked bumper to bumper, would stretch 200,000 miles.

The Tennessee Valley Authority operates 14 dams on the Tennessee River and its tributaries.

## Here in There

Walter Van Alder of Coventry, already famed as an artist, has turned his hand to another field of creativity—writing. He has written a novel which he hopes will be published before long. The talented man, who lives next door to your truly on Elm St., has also completed a poem which he says has been in the back of his mind for 10 years. After reading it and re-reading it again, I asked the author if he would mind having his poem published in this corner. He graciously agreed.

## Atty. Bailey Moderator For Bond Referendum

The first man to know official notice of the bond referendum was Atty. Thomas A. Bailey. Bailey's appointment as chief moderator for the bond referendum was announced by Registrar Don Ed Hemmingsway. Results of voting in four districts will be reported to him by the first district as well as chief. The voters will decide whether they will vote for the election of a Washington School addition and alterations, \$300,000; a plant for the Library addition and alterations, \$200,000; a filter plant for the Porter and Howard reservoirs, \$150,000; and a new new Hollow voting machine for the election held in places by Highway Department on Monday.

Rockville-Vernon
Stolen Car Found Wrecked
At E. Main St. Dyeing Plant

Rockville Police are searching for a person or persons who allegedly abandoned a stolen car when it ran off E. Main St. and became wedged between a fence and the side of American Dyeing Corp. last night.

The car, owned by Loring J. Vernon, was reported missing by him at 2 a.m. today when he returned to the Bar Court, Windsor Ave. to pick it up.

At 11 a.m. police had received a report from a passerby that the car was apparently abandoned on E. Main St. opposite Prospect St. where it had left the road, a car crusher had passed the area just 10 minutes before.

Police officers there were asked marks on the opposite side of the road, leading them to believe that a car traveling north on E. Main St. had abandoned the stolen vehicle which was apparently traveling east. Scratches were found on the side of the car, and a report of the damage could be obtained from police.

Police officers led the initial investigation, which was continued by Det. Sgt. George Trapp.

Couch Ejected
Earlier in the evening, according to Rockville Police, Gloucester High School Coach Fred Grogan, was ordered out of the Army barracks when he refused to protest a referee's decision in a basketball game.

Local Youth Arrested
Gloucester Police report the arrest of a young man, 17, for possession of a stolen car.

Warren Not Candidate
For House Seat Again
State Rep. Warren said he will definitely not be a candidate for his present position again, whether or not he runs for the State Senate.

Davis Plans to Quit
COP Chairmanship
Republican Town Committee Chairman William B. Davis announced last night that he will not be a candidate for reelection as chair of the committee.

Davis made his announcement at a committee meeting with a host of his own party and his administration.

The chairman who has served for the past eight years told the committee that he would like to see full credit for the many good and able citizens of some of the opposition party.

Davis said he felt "a fresh mind would be beneficial to the organization and that he had held the chairmanship long enough."

The former Selectman, who is a special agent for a Hartford insurance firm, said he would like to see a new chairman elected for the first district.

Under party rules, a new chairman would be elected in April. Davis indicated that he would like to see a new chairman elected for the first district.
