Seawolf Attempts To Find 'Red' Sub Off Atlantic Coast (NOTE: Elton C. Fay, Associated Press military affairs reporter, was aboard the ocean submarine Seawolf on a cruise planned as early as a week ago. The submarine was en route along the East Coast. But a report that a Russian submarine might be lurking in the area sent the Seawolf on a hunt through the ocean depths. This was the first time a reporter ever had taken part in such a voyage. The Seawolf's story can be told because of a recent visit to the ship. What can be told is related here.)

Hot Dessert Denver, March 15 (AP)—Flames from a heavily-soaked dessert, severely burned Mary Elizabeth Kereval, 30, on the left yesterday during a television program. Miss Kereval conducts a program at Station KFTV under the name of Mary Kay.

High Wind, Wet Snow Tie Region (By THE ASSOCIATED PRESS) A wild northeast storm pelted New England with additional heavy snows today, tangling power lines, snarling traffic and generally belying the fact that spring was less than a week away by the calendar.

Scranton Fire Kills 2 Women; 5 Others Hurt (Scranton, Pa., March 15 (AP)—A general alarm fire on Saturday night in Scranton, Pa., killed two women and injured five others, including two children.

Sharp Skid... Disaster Averted (The sign points the way, but this Connecticut Co. bus didn't quite make it around a curve on Burrill Ave., East Hartford yesterday afternoon, and ended up perched precariously on the bank of the Rockaway River.

Highway Crash Kills 3 Nuns On Berlin Tpk. (Berlin, March 15 (AP)—Three nuns from St. Mary's convent, 220 Elizabeth St., Derby, were killed this morning in an accident on the Berlin Turnpike involving the transportation wagon, a second auto and two trucks.

Sen. Byrd Favors Public Works Plan (By JACK BELL) Proposed by the Treasury and approved by the Senate last night, the administration is holding up any decision on tax reduction until it can find out whether the employment situation improves this month and until it can determine whether anti-inflation steps already have taken are having the desired effect.

News Tidbits Culled from AP Wires (Americans don't have exclusive rights to scientific thinking, Dr. Hsi Shih, former Chinese ambassador to the United States, says during his visit to the United States.)

Nikita Warns West On Role in Europe (Moscow, March 15 (AP)—Warning that Russia will block any western attempt to tamper with eastern Europe, Nikita Khrushchev pressed his case today in a speech before the Soviet parliament.)

2 Red N-Tests Listed by AEC (Washington, March 15 (AP)—Two more Russian atomic tests have been reported by the Atomic Energy Commission.)

NATO to Get West Summit Talk Plan (Paris, March 15 (AP)—The United States, Britain and France will submit their thoughts on a summit conference to the North Atlantic Treaty Organization within a few days, Foreign Minister Christian Schuman said today.)

Flunked Math (Missile expert Dr. Wertheim von Braun, after testifying before a joint session of the House Education and the Senate Education and the House Science and Astronautics committees, admitted that he had flunked physics and mathematics.)

Welcome Your Red Cross Solicitor Tomorrow, Red Cross Sunday (The Weather Forecast of U. S. Weather Bureau: Decreasing clouds, little change in temperature tonight. Low near 50. Partly cloudy, windy Sunday. High near 60.)

Mystery Note Found In Mrs. Seddon's Bag (State Police are investigating a note found in the pocketbook of Mrs. Evelyn Olsen Seddon, 35, Mansfield, murder victim found in a parked car on Valley Falls Rd., Vernon, Thursday morning.)

Police Mum On Possible Death Link (Mrs. Olga Danton, friend of Mrs. Seddon's whom she visited Tuesday afternoon on Bolton Rd., said the victim had talked of suicide several times, a few years ago. Mrs. Danton said she never took the girl seriously. Police have definitely ruled out suicide.)

Ex-Archduke of Austria, 61, Dies in Willimantic (Willimantic, March 15 (AP)—The body of a man who renounced his title to become an American citizen, died today in Willimantic, Conn. He was 61 years old.)

RENOUNCED ROYAL TITLE Ex-Archduke of Austria, 61, Dies in Willimantic (Willimantic, March 15 (AP)—The body of a man who renounced his title to become an American citizen, died today in Willimantic, Conn. He was 61 years old.)

# Business Bodies

A new "orthopedic-type" mattress with a built-in bed board designed to aid those who suffer from back trouble is now being sold at a special price.

Introduced by Simmons under the name "Back Care," the mattress is made of a special type of fiber which is especially designed to support the body in a healthy position. This new type of mattress is being advertised in a special issue of the magazine "Back Care," which is being distributed free to all subscribers.

The new mattress has a bedboard support in the center and is three inches thicker than the average mattress. Matching box springs are also for sale.

John Hartman of New Britain has joined the local staff of the Connecticut State Employment Security Commission, 506 Main St., as a field contact interviewer.

Miss Hazel Anderson, manager of the Hartford office, is replacing Herbert Hartman who has been promoted to the University of Connecticut for graduate studies.

Hartman, who has been employed in the New Britain employment office since last August, is a graduate of the University. He is a Korean War veteran and served in the U.S. Air Force in 1951 and 1952.

The new interviewer will visit all employers in the local area and acquaint them with the employment office and the services it can provide.

William A. Moorhouse, assistant cashier of the First National Bank of Manchester, Joseph Fontana, branch manager, and John Morrow, branch manager, attended an installation conference of the Connecticut Bankers Assn. at the Waverly Inn in Cheever Wednesday.

The annual stockholders meeting of the New Haven Railroad will be held April 8 in New Haven. The meeting will be held at the headquarters of the Board of Directors, 100 State St. A report will be given on last year's operations.

Richard W. Moore of the W. G. Chrysler Co. was one of 47 attendees who graduated Thursday from the Retail Retail Institute, Inc., Institute held at the University of Massachusetts.

The graduation exercises marked the end of a comprehensive 30-day training course in the fundamentals of the building industry. The graduates will be active in the retail building industry.

More than 2,000,000 packages of seeds, complete with planting instructions, have been mailed to retail gardeners in the U.S. District of Columbia. The seeds, which include a wide variety of plants, are being mailed to retail gardeners in the U.S. District of Columbia.

The seeds, which include a wide variety of plants, are being mailed to retail gardeners in the U.S. District of Columbia.

# Ellington Hall Library Plans Events

The Hall Memorial Library will participate in the observance of National Library Week through March 21. All residents are especially invited to visit the library on these dates. Several special events will be held during the week.

Among the articles are: "The first step, clearly, was to draw trumpets. Should he win the first trump trick in his own hand with the king or queen, or should he lead a low trump to dummy's hand? The fate of the contract hung on his answer to this question."

South counted his trump cards, noting that he was missing only four, headed by Jack-in-the-box. South would be in position to finesse through him.

The important thing is to see whether you have a one-way or a two-way finesse against the jack of trumps. Then you go ahead with the method that will give you the greatest protection.

Daily Question: Partner had a hand with 13 diamonds. The next play was two diamonds. You held Spades: A 8; Hearts: 9-4; Diamonds: 7-3; Clubs: K-6-4. What do you say?

Answer: Pass. You could raise spades if the dummy had a low trump. But you can't quite afford to raise spades. (Copyright, 1958, General Features Corp.)

# Sheinwold on Bridge

What card should you use to win the first trump trick when you have the three top trumps? It may seem that one trump is good as another, but it would be wrong to jump to conclusions.

What opened the queen of diamonds and South won with the king. Declarer knew that he would have to give up his heart trick sooner or later, and he therefore concentrated on avoiding the loss of any other trick.

The first step, clearly, was to draw trump. Should he win the first trump trick in his own hand with the king or queen, or should he lead a low trump to dummy's hand? The fate of the contract hung on his answer to this question.

South counted his trump cards, noting that he was missing only four, headed by Jack-in-the-box. South would be in position to finesse through him.

propose no hasty judgments  
 and re-evaluation of their function  
 is very much in order. These times  
 present serious problems in education,  
 and we can afford no wrong  
 answers.

This is the Herald Tribune, meeting  
 to discuss the high school situation  
 in Manchester. We still have a four  
 year high school, but Board of  
 Education policy plans to abolish  
 it. Some people in Manchester, too,  
 think the four year institution has  
 value that should be retained, and  
 the 6-3-3 system weaknesses  
 that ought not to be welcomed.

Never Had One So Good  
 It is a grotesque kind of view to  
 take, of course, but isn't this re-  
 ception really shaping up as the  
 biggest bonanza in history?

Have we ever had a recession so  
 good?

The statistics say that more than  
 \$100 million more money in the bank  
 than ever before.

Times may be good, because the  
 cost of living keeps going up.

The want ad columns are full of  
 opportunities for jobs.

But if such factors make it look  
 like a good recession, our sense of  
 well-being really expands and  
 swells when we look at what the  
 economy are going to do for us  
 in addition.

The House at Washington, on  
 the other hand, is passing a bill  
 to give us all new rivers and  
 harbors. In normal times, this  
 would be labeled poor. Now it is  
 the best thing that has happened  
 to the nation since the war.

We are all going to get a big  
 whopping tax cut, big enough to  
 put some real extra money in  
 everybody's pocket.

We are all going to get new  
 roads which aren't going to cost  
 \$100 million.

Another tax cut is going to  
 knock \$100 off the price of any  
 new car we buy to travel on these  
 new roads.

There are going to be new and  
 bigger government contracts for  
 the whole country.

Whether we are going to get  
 the best of the familiar act  
 or not, the high school actually  
 accomplishes the educational aim  
 as the main reason for the inven-  
 tion of the junior high school  
 in the first place.

"For the last few weeks," said  
 the Herald Tribune editorial, "our  
 letters to the editor columns have  
 been expressing a good many views  
 about education in New York, par-  
 ticularly about junior high schools.  
 Many of these have been from  
 school teachers. Yesterday a teach-  
 er wrote in defense of junior high  
 schools, pointing out that children in  
 these schools are at a difficult age  
 that consequently they have been  
 'labeled' in these schools, to grow  
 without pressure from above or  
 below."

"This, of course, is the classic  
 defense of junior high schools and  
 the reason that underlies their crea-  
 tion. These schools were designed  
 to put children in their early teens  
 into schools exclusively for their  
 age group, where specially trained  
 teachers could give special atten-  
 tion to their problems, where there  
 would be a lack, in our opinion,  
 of the 'pressure from above and  
 below.'"

"On paper, it seems like a sound  
 and reasonable theory. The trouble  
 is that it apparently isn't working.  
 Not all the evidence in school  
 records in junior high, but a  
 disproportionate percentage does...  
 Trouble and tragedy seem more  
 likely to strike in junior high than  
 in either grade schools or high  
 schools."

"Is this really so surprising? Does  
 it really make sense to try to  
 deal with pupils at a problem  
 age by isolating them from other,  
 older pupils? Many of us can re-  
 member our own freshman year  
 at high school, where we occupied  
 the lower rung of a ladder and  
 were promptly made to feel our  
 relative unimportance by the mere  
 physical presence of three older  
 classes. Contrast this with the po-  
 sition of the incoming pupil of a  
 junior high. He has just been  
 graduated from grade school, pre-  
 sumably leaving his childhood, pre-  
 sumably he is now at the begin-  
 ning of his teens, and he finds him-  
 self at a school that consists of  
 pupils exactly like him, no more  
 mature, no more experienced, no more  
 responsible. All the special train-  
 ing of the grade school, all the  
 little avails in dealing with this  
 kind of situation. Perhaps that is  
 why in New York City the great  
 shortage of teachers lies in the  
 junior high classification.

"Our correspondents said in yester-  
 day's letter that the unique job  
 of the junior high school is to  
 equip the children to conduct  
 themselves well and intelligently  
 throughout their lives." That, of  
 course, is the job of all education;  
 that is what learning is for. But  
 isolating children from other age  
 groups, particularly from older age  
 groups who can exercise a re-  
 training influence by their ex-  
 ample and their achievement is a  
 poor way to teach them about life.  
 Somehow we have the impression  
 that the four-year high school,  
 which gives a pupil time to devel-  
 op a school loyalty and to ap-  
 preciate the maturity and even the  
 application of a high-school  
 senior, does the job better.

"Whether the time has come for  
 the abolition of junior high schools  
 in New York is a big question, and

## Connecticut Yankee

By A. H. O.

Governor Ribicoff having, for  
 one, taken a policy which which  
 we hope will be the special in-  
 stitute of Connecticut organized  
 labor that labor, on 75 days  
 showed its appreciation and  
 support by storming to Hartford in a  
 grand power bid.

But it was not the numbers, or  
 the hungry look of the "unemploy-  
 ed" appearing with their claims to  
 rescue by the state which com-  
 tributed this week, the key move  
 to the dwindling possibility that  
 the Republican party of Connecti-  
 cut might somehow be able to  
 stand within its preconceived po-  
 sitions on recession issues. Republi-  
 can instinct had been to question  
 the depth of the emergency. Republi-  
 can policy wish had been to  
 resist being stamped into actions  
 which would either concede Ribicoff  
 the victory or the key move.

## Here 'n There

by  
 WALTER E. TEDFORD  
 COUNTY EDITOR

The Junior Chamber of Commerce in the Sohier, Suffield, Enfield made a good choice in declaring Thomas Lachance of Somersville their Young Farmer of the Year.

Born in Kent, Maine, Lachance moved to Somersville in 1925. He was the first to plant a goal that would make other men think un-  
 attainable. His first job was on the Paul Lavitt farm at the age of 17. He now owns that farm as well as nine adjoining ones for a total of nearly 500 acres.

Although he quit school in Maine at the end of his eighth grade year, during the days of the depression the farmer-businessman holds great days in learning.

He advises young boys and girls to look for a good education. "A lack of formal education, however, did not prevent him from coming one of the State's most suc-  
 cessful farmers."

After growing potatoes on 35 acres in Suffield, he bought a farm in that town in 1945, sold it in 1947 and returned to Somersville where he manages 1700 to 1800 acres. He has hard work and using a native mind, he built his farm into a suc-  
 cessful business. He now raises about 300 acres of potatoes and 20 acres of shade grown tobacco each year.

Lachance also has a serious word, this time for adults. "Build a good line of credit by paying all bills promptly, and discharge all your community and your credit. You can't overrate the importance of a good credit record."

As if a farmer didn't have enough to worry about these days, now the word is "Treat cows good, to see what effect it has on milk production."

"Milkup!" published by H. P. Hood and Sons, has a list of 100 ways to improve milk production. It is a good subject, although it sounds funny, is really a good subject, really is a good subject, really is a good subject.

Cows are known to fall off in milk production if they are not treated properly.

There is a bull named Elmer who has a good line of credit by paying all bills promptly, and discharge all your community and your credit. You can't overrate the importance of a good credit record.

As if a farmer didn't have enough to worry about these days, now the word is "Treat cows good, to see what effect it has on milk production."

"Milkup!" published by H. P. Hood and Sons, has a list of 100 ways to improve milk production. It is a good subject, although it sounds funny, is really a good subject, really is a good subject.

Cows are known to fall off in milk production if they are not treated properly.

## Four Aces Keep Card Play Lead

The Four Aces led the K of C track tournament by 18 points after 11 weeks of play.

Scores are: Four Aces, 2,236; Meador's, 2,229; Mortuary's, 2,189; Six District, 2,178; Deo's, 2,174; Chomson's, 2,168; Patten's, 2,134; Dupre's, 2,104; Galt, 2,083; Fogarty's, 2,049; Four Jokers, 2,041; Ramblers, 2,037; West Side, 2,016; Harroette's, 2,015.

Urnula is the Latin name for a female bear.

## Town May Compile Brochure On Industrial Sites Here

Uncle Sam's mailmen may soon be helping the Manchester Development Commission in its efforts to attract new industry here.

The latest recommendation submitted to the Commission by Economic Development Associates, a private consulting firm, says that a mailing program is the best way of getting the word out to potential investors. It also recommends that a follow-up letter be sent about two weeks later inviting additional inquiries and offers of cooperation.

Primary goal of the mailing campaign is to ask that Manchester be represented in the investor's files when they seek new locations in this section of the country for their plants.

Several warned against being overly enthusiastic, however. He said the Commission should not expect a deluge of return mail from those contacted. He said in many cases it might be months or even a year or two before interest is displayed.

The mailing program is another part of a long range program that must be developed by the Commission if it is to succeed in its job of attracting new industry to the town, he said.

## One View On Junior Highs

Continuing public controversy down in New York City, over the value of the junior high school system has led the Herald Tribune to editorial discussion of the subject, and some inclination to the verdict that perhaps the junior high schools should be abolished.

Some of the charges made against the junior high schools down in New York feature their alleged neglect of education, their failure to talk in favor of the familiar act or not, the high school actually accomplishes the educational aim usually given as the main reason for the invention of the junior high school in the first place.

"For the last few weeks," said the Herald Tribune editorial, "our letters to the editor columns have been expressing a good many views about education in New York, particularly about junior high schools. Many of these have been from school teachers. Yesterday a teacher wrote in defense of junior high schools, pointing out that children in these schools are at a difficult age that consequently they have been 'labeled' in these schools, to grow without pressure from above or below."

"This, of course, is the classic defense of junior high schools and the reason that underlies their creation. These schools were designed to put children in their early teens into schools exclusively for their age group, where specially trained teachers could give special attention to their problems, where there would be a lack, in our opinion, of the 'pressure from above and below.'"

"On paper, it seems like a sound and reasonable theory. The trouble is that it apparently isn't working. Not all the evidence in school records in junior high, but a disproportionate percentage does... Trouble and tragedy seem more likely to strike in junior high than in either grade schools or high schools."

"Is this really so surprising? Does it really make sense to try to deal with pupils at a problem age by isolating them from other, older pupils? Many of us can remember our own freshman year at high school, where we occupied the lower rung of a ladder and were promptly made to feel our relative unimportance by the mere physical presence of three older classes. Contrast this with the position of the incoming pupil of a junior high. He has just been graduated from grade school, presumably leaving his childhood, presumably he is now at the beginning of his teens, and he finds himself at a school that consists of pupils exactly like him, no more mature, no more experienced, no more responsible. All the special training of the grade school, all the little avails in dealing with this kind of situation. Perhaps that is why in New York City the great shortage of teachers lies in the junior high classification.

## 2 Minor Accidents Friday Afternoon

There were two minor automobile accidents in town yesterday afternoon but no one was hurt, it is reported by everybody concerned. At 2 p.m. a freight truck driven by John D. Blinn, 30, of Wapping, was struck in the rear by a car operated by Mrs. Martha D. Tardif, 34, of 288 Hilliard St. The car struck the truck's rear bumper and damaged the truck's rear end.

About an hour later, cars driven by James R. Johnson, 42, of Waverhouse Point, and Ray E. Kearney, 41, of Johnston, collided at the Corner. Damage to the rear fender of the Johnson car and the front and Green Major. Convicted driver, Patrolman John Hughes said Kearney was warned for failure to give the proper right of way.

No, indeed, the jobs are not being neglected. It just happens that the way to help them is to put more money in everybody's pocket. Only, if everything that is promised by everybody comes through, everybody will need a suitcase.

We have never had a recession so good.

We know this looks hard-hearted in type. We know we should be expressing sympathy for those real cases of people who are really out of work.

But our emotional absorption in the case does not get ahead of us. It solves proves overworking-fat tax refunds, a pay boost, navigating the stock market, and other things that can be regarded as a part of entry, new roads, new cars—this for us, and in addition, jobs for the jobless, that they aren't neglected after all, and aren't just the excuse for this big general bonanza, but shares in it.

What this all meant was that, in Washington at least, Republicans did not dare let the recession take its toll. They were afraid to let the recession take its toll. They were afraid to let the recession take its toll. They were afraid to let the recession take its toll.

## 133 Pints of Blood Collected At Monthly Bloodmobile Visit

Despite yesterday's snowstorm, 143 persons showed up for the Bloodmobile visit at Center Church in Suffield.

On the occasion, 133 pints of blood were collected, and 10 appointments on the books at the beginning of the day.

Additional 30 walk-in donors who appeared without previous appointments. Ten persons who wished to donate were rejected for colds or other minor disabilities.

Three persons gave their 24th pint of blood, including Mrs. Lillian Walker, Mrs. Dorothy Belcher, Florian Redue, Walter Bychalski, Ann Norman, Southern, John Shorrock, Rosemary, Margaret E. Barry, Sylvia Simpson, William Strain, Mrs. Richard Symonds, Ernest Kostler, Mrs. Constance Sprague, Blon Quipper, Francis Vendetta, John York, Leslie Wilkinson, Mrs. Lillian Warner, Marvin Waldron, Mrs. Helen Johnson, and Mrs. Simone Loyal.

Walk-in donors included Paul Bora, Dorothy Belcher, Florian Redue, Walter Bychalski, Ann Norman, Southern, John Shorrock, Rosemary, Margaret E. Barry, Sylvia Simpson, William Strain, Mrs. Richard Symonds, Ernest Kostler, Mrs. Constance Sprague, Blon Quipper, Francis Vendetta, John York, Leslie Wilkinson, Mrs. Lillian Warner, Marvin Waldron, Mrs. Helen Johnson, and Mrs. Simone Loyal.

Additional donors who appeared to keep their appointments were Mrs. Constance Albert, Mrs. Julia Anderson, Earl Bessell, Mrs. Helen Bessell, John Boyle, William Brandy, Joseph Bross, Robert Bross, Margaret E. Barry, Sylvia Simpson, William Strain, Mrs. Richard Symonds, Ernest Kostler, Mrs. Constance Sprague, Blon Quipper, Francis Vendetta, John York, Leslie Wilkinson, Mrs. Lillian Warner, Marvin Waldron, Mrs. Helen Johnson, and Mrs. Simone Loyal.

## A Thought For Today

What are the horizons of your life? What are the horizons of your mind? How far can you see? Where do you live? In life's basement, or on life's shutters, to close out and escape day's passing hours and pain?

Do yourself a favor before the sun sets. Perks to better see mountain majesty, feeling the pain of the storm purify the sun's radiant hours.

Does love's will clear your vision for God's will?

Do you see the cross of sacrifice? Does it lift you above the storm? Does it give you the strength of faith? And his portion for heaven?

Metzgers travel at a speed between 10 and 15 miles per second.

## Report to More Than a Million Members

**THE BLUE CROSS RECORD FOR 1957**

**WERE USED DURING THE YEAR 1957**

Membership Dues Were: \$29,163,647.93

Members' Hospital Bills Directly Paid during the Year: 25,786,994.30

Reserves for Hospital Bills: 1,900,696.44

All administrative expenses: 1,475,967.19

**\$29,163,647.93**

**IN HOSPITAL CARE.** During the year 2 of every 5 Connecticut Blue Cross families used hospital care with more help than ever before from Blue Cross, bringing the total 21-year figure to more than 2 million hospital cases. Members received more than 25 1/2 million dollars in hospital benefits in 1957 alone... 2 1/2 million dollars more than in 1956. About 90% of the total went directly to the Plan's Member Hospitals, with the balance spent for the hospital care of members traveling outside of the state.

## How Your Membership Dues

WERE USED DURING THE YEAR 1957

Membership Dues Were: \$29,163,647.93

Members' Hospital Bills Directly Paid during the Year: 25,786,994.30

Reserves for Hospital Bills: 1,900,696.44

All administrative expenses: 1,475,967.19

**\$29,163,647.93**

**IN ENROLLMENT.** Nearly 1,200,000 Connecticut people, more than half the State's entire population, hold Blue Cross membership—making Blue Cross the largest voluntary organization in Connecticut history. More than 9,500 business firms now make Blue Cross membership available to employees and families. During 1957 alone, more than 2,400 of these firms converted their coverage to Blue Cross' higher benefit plans—either the Comprehensive Plan or the Extended Plan. In 1957 Blue Cross continued to serve the public through its non-group coverage for individuals. More than 400,000 Connecticut people now hold Blue Cross membership on a pay-from-home basis—including approximately 100,000 elderly people over age 65.

## IN BROADENED BENEFITS.

During 1957, the Board of Directors voted to continue the Extra Year Benefit of the Extended Plan, without any increase in membership dues. This Extra Benefit provides an additional 365 day benefit period with coverage up to \$7,500 for Extended Plan members under age 65 who are admitted to Member Hospitals, thus answering a community need for extra long term coverage.

Also during 1957, Blue Cross offered increased room and board coverage to all non-group members. More than 150,000 direct-pay members voluntarily added the extra coverage to their Blue Cross contract.

In addition, during 1957 the Board of Directors voted to increase benefits for members who require care in non-member hospitals out of state, without any increase in membership dues. On the average, this will mean increased benefits to more than 10,000 Connecticut people who require hospital care while out of state each year.

## A WORD ABOUT RESERVES

Reserves are the much needed "shock absorbers" in the Blue Cross program. With the rate of use of hospital care by members always unpredictable due to ever changing health requirements and with the costs of hospital care still on the increase, Reserves must be adequate to protect the interests of Blue Cross members at all times. When record-breaking percentages of the members' dollar being immediately paid out for current hospital bills, Blue Cross Reserves have been built up over the past 21 years through savings in Administrative Expense which, at about five cents on the dollar, is one of the most economical in the United States.

## NATO to Get West Summit Talk Plan

Russia insists that foreign ministers discuss the West summit talks in a neutral city. The Kremlin has refused to make detailed preparations which the West insists are necessary to insure success of a summit conference.

Pineau said no decision on an agenda had been worked out by the western Big Three.

The Foreign Minister said Duval would express interest in a French proposal for a West-European defense community. It would include Tunisia, Morocco and Libya and would provide for joint exploitation of Sahara oil which Algerian rebels are trying to deny to France.

"The French plan has been virtually rejected by a panoplist of sources in Tunisia, and Morocco, nations which support the rebels, Washington and London have declined to commit itself so far."

**LONDON 'PRESIDENTS'**

Status of three American presidents sits in London, England. They are those of George Washington, Abraham Lincoln and Franklin D. Roosevelt.

### Mystery Note Found In Mrs. Seddon's Bag

(Continued from Page One)

suspicion when he noticed the car parked in the same spot at 10 p.m. early the night before when he was returning home from work.

The autopsy showed Mrs. Seddon was shot at a close range. Her burns were found on her neck. A bullet had lodged the back of her head and entered behind her right eye. Another bullet went through the neck from the left to right.

LT. Taylor theorized the woman might have been shot by an assailant standing next to the left front door of the car, or perhaps, crouching in the back seat.

Mrs. Seddon's activities after she left the Herald last night Tuesday remain a mystery. She reported to the area four by five patrolman who was later found on her person. Why the car was parked in the vicinity of the Darton home, the police and other officials are trying to unravel.

Another new development was reported to the Herald last night by a Manchester man who asked that he not be identified. His facts were passed on to State Police by a Herald reporter.

The man said he read last night's murder story in the Herald and recalled an incident which occurred Wednesday afternoon. He said he passed by the area four by five patrolman who was later found on her person. Why the car was parked in the vicinity of the Darton home, the police and other officials are trying to unravel.

### 300 Escape As Spillway Gives Way

(Continued from Page One)

The 30-foot wide spillway was washed away and the water flooded an area about a quarter of a mile square. A 100-foot section of a gravel road also was washed out. In many places the water rose to a depth of five feet. The houses were washed away and Chief Davis said the water was dropping steadily in the area.

The flood victims were housed in the National Guard armory and in school. Guardsmen rushed into the area, helping in the evacuation and in the directing of traffic. The dam, about 10 feet high and constructed of concrete, is a quarter-mile stretch of paved concrete. It is situated on the edge of a 400-acre lake which was built by the state to control the water level of the Connecticut River. The spillway was built by the state to control the water level of the Connecticut River. The spillway was built by the state to control the water level of the Connecticut River.

### Directors To Get Plan To Improve Meetings

A 2-point plan designed to improve the efficiency of Board of Directors meetings may be laid before the Board Tuesday night. The plan, which reflects the Board's wish to wind up its sessions at a reasonable hour without incurring a time limit on public discussion, provides that: 1. The Board will meet on Tuesday night at 7:30 p.m., deciding then whether to continue or to adjourn to another night. 2. More detailed preparation and earlier distribution to the press and Board members by the general manager of his notes explaining and backgrounding items to be discussed.

Director Eugene Kelly, chairman of a subcommittee charged with the study of the Board's meetings, said today he hoped to present the plan to the Board at its Tuesday meeting.

The matter is not on the agenda, but it could be brought up during the meeting, he said. Kelly said he would not expect the Board to act on the plan until after the Tuesday meeting.

The two other members of the subcommittee are Raymond C. Jacobs and Paul Martz. Jacobs is chairman of the "Public Relations" subcommittee and Martz is chairman of the "Finance" subcommittee.

### High Wind, Wet Snow Tie Region

(Continued from Page One)

White cloudiness covered much of the nation, but only a trace of precipitation outside the snow area was in California where it already had rained for more than 12 hours. Nearly an inch of rain drenched Piedras Blancas, Calif., midway between Los Angeles and San Francisco, during the night.

The shower activity extended into parts of Nevada and Southern Oregon, but only light amounts were reported in those areas. There was also a few light snow flurries in the Rockies and Western Basin.

A 2-week continuance was granted.

An Army helicopter made three flights Friday carrying food and fuel to farm families snowed out of the area. The helicopter was piloted by Capt. Fred W. Smith, 28th Army Aviation Battalion, 28th Army Aviation Battalion, 28th Army Aviation Battalion.

### Sen. Byrd Favors Public Works Plan

(Continued from Page One)

Sen. Byrd today introduced a bill to provide a \$1,700,000,000 reduction for highway construction. The bill would provide a \$1,700,000,000 reduction for highway construction. The bill would provide a \$1,700,000,000 reduction for highway construction.

### Scranton Fire Kills 2 Women; 5 Others Hurt

(Continued from Page One)

Mr. Seddon's activities after he left the Herald last night Tuesday remain a mystery. She reported to the area four by five patrolman who was later found on her person. Why the car was parked in the vicinity of the Darton home, the police and other officials are trying to unravel.

### Highway Crash Kills 3 Nuns

(Continued from Page One)

Three nuns were killed and several others injured in a head-on collision on a highway near Hartford, Conn., Friday.

### Court Cases

(Continued from Page One)

Several court cases were reported today, including a trial for a man accused of a crime.

### Fence Halts Skidding Bus Near River

(Continued from Page One)

A bus was stopped by a fence near a river, preventing it from skidding into the water.

Volunteers Seek Funds Tomorrow For Red Cross

Tomorrow is Red Cross Sunday. Volunteers will be canvassing the town soliciting funds for the drive. The Manchester chapter's quota for the month-long campaign is \$2,500.

Mayor Harold A. Turkington, in a statement proclaiming Red Cross Sunday, said "Only those who have gone through the anguish and suffering caused by widespread disasters can really appreciate the work of the Red Cross. It is very important that these services be continued."

Drive Chairman Edward J. Tompkins said "Funds are used to help the Red Cross on the job. I like to think of Red Cross as an insurance policy on a bank book. Funds are deposited by members and held on deposit for an emergency."

They Fight Cystic Fibrosis
Mayor Harold A. Turkington, honorary chairman for the Cystic Fibrosis drive here, shows one of the members to others taking part in the campaign.

Manchester Evening Herald

Manchester - A City of Village Charm MANCHESTER, CONN., MONDAY, MARCH 17, 1958

Vanguard Circles Baby Moon

Cambridge, Mass., March 17 (AP)—Smithsonian Astrophysical Observatory officials reporting America's Vanguard satellite "definitely in orbit," today said it appeared the little moon apparently is circling the Earth in a period of 133 minutes.

Cape Canaveral, Fla., March 17 (AP)—The Navy's Vanguard rocket hurled the second U.S. satellite into orbit around the Earth today.

With his back to the wall after two highly-publicized failures, the Navy launched the Vanguard today on one of the most perfect flights ever seen at the nation's missile test center.

Belching fire and smoke, the slender gray-green rocket left its launching pad at 7:16 a.m. Two hours and 23 minutes later, President Eisenhower told the world the trouble-shooting Vanguard had succeeded in the space mission for which it was created.

His announcement came as the Vanguard's tiny "moon" was circling the Earth with its delectable Martin Co. built rocket. It spent 11 1/2 hours in the passenger drive to oblivion in the near future as expected, the U.S. will have the only satellite in space.

The Army launched Explorer with the Jupiter-C missile here Jan. 31. In sharp contrast to previous Vanguard launches, the preparation of the rocket went off with perfect precision.

There was only one hitch and it was due to trouble in the Vanguard tracking station, not because of any malfunction in the rocket itself. The firing originally was scheduled for 7:16 a.m. but was delayed 16 minutes off this pinpoint accuracy when it blasted into the sky.

So smoothly did the rocket make its way into space, the president made a "Wapping" statement from the White House. The Vanguard had done its job beautifully.

Municipal Judge John Rude of the Garden in their sport activities. The Supreme Court today agreed to review a decision requiring dissolution of the International Brotherhood of Nurses and the International Brotherhood of Teamsters.

The decision by U.S. District Judge Sylvester J. Ryan of New York, N.Y., also required promoters James D. Norris and Arthur M. Wirtz to sell their stock in Madison Square Garden. Ryan found the promoters guilty of a racketeering monopoly in the promotion of championship fights.

The club's Garden and the promoters appealed directly to the Supreme Court from Ryan's decision. They questioned whether there was any liability under the Sherman Antitrust Act. They also contended that if there was liability, it was "unconstitutionally punitive and in excess of that necessary to prevent future violations of law."

The public has a substantial interest in the various activities of Madison Square Garden, which has been a leading source of entertainment and amusement in the city since 1890.

The interest of course, cannot be confined to the district court. It is a substantial interest in the history of Madison Square Garden, which has been a leading source of entertainment and amusement in the city since 1890.

Two prisoners at Dayton, Ohio, jump jail after the Montgomery County Jail but are quickly subdued while officers armed with riot guns surround the building.
