in many notrump contracts each side races to set up and cash its long suit. If you see the opponents are going to win this race you must look for a short cut.

West leads the four of spaces, East puts up the king, and you win with the ace. Your normal plan is to lead a heart to the king and return the jack of clubs for a finesse. If the finesse succeeds, you have five clubs, two hearts and two spades — nine fast tricks.

What if the club finesse succeeds, you have five clubs, two hearts and two spades, one club and one diamond.

The only possible short cut is in diamonds. If you lead a small diamond from one hand or the other, and the next player has the ace of diamonds you may be able to win the race.

If the opponent plays low, you can steal the diamond trick and then switthi back to clubs. You will then make four sure clubs, one diamond, two hearts and two spades.

Views on Strike

To the Editor,

I have always held the belief that when a person is proud of an article they have written they will sign their name. Congratulations Mrs. William L. Mercer. But who is L. V. M.?

is L. V. M.?

If an honest poll were taken of non-strikers I think one would find their basic reason for returning to work was because money has become their "God," not fear of the H-bomb. Alone the H-bomb can do nothing, it must be propelled by men behind it, men who have a warped train of thought.

It has always been an easy task to pick the men from the boys. This strike has made people show their true colors. "United we are strong; divided we are week." It is the non-striker who is divided. The union is fighting for a just cause and when asking their fellow worker for a helping hand it is not being extended. When our country is called upon by foreign allies for help, although we are not all in agreement that the need is there, the assistance is given. These men are not narrow-minded, they have looked forward into our

they have looked forward into our future.

Ask yourself, Mrs. L. V. M., has your husband ever rejected any benefits obtained through the work of the union? Yes, you people denounce the strike and the union, but you're first in line for the handout.

With our high standard of living it is not an easy thing to recall labor conditions of 40 or 50 years ago. Most of us have not had to watch our youngsters leave the early grades to work long hours in a mill. There were no paid vacations or insurance benefits at that time. You can thank the unions for the revolution in working conditions. Like the old saying goes, "Out of sight, out of mind."

To the strikers — may I commend you on your stamina and goal. As your fellow worker strays and weakens along the way do not build up hour hatred for him; pity him for he is weak. As Tokyo Rose once tried to influence our servicemen the same is true for Tokyo Charlie who had taken over our TV and radio networks. We had turncoats then as we do now. You strikers are opening up new had turncoats then as we do now. You strikers are opening up new avenue for bargaining for the unions. I sincerely hope you suc-

Slips Out, Drowns Mountain Home, Ark., June (P)—A youngster paddling about in an innertube during his first swim of a vacation slipped out and drowned just minutes after his mother had taken his picture. Mrs. Raymond Quaries, Lovington, N.M., yesterday glanced away after snapping the picture of the happy 5-year-old, Travis Quaries. She looked back to discover he had slipped from the innertube into eight feet of water. A diver found the boy's body and hour later.

Mrs. Quaries, Travis and an older son had arrived only a short

time earlier for a vacation with anadian Senate For Soviet Trade

Ottawa, June 28 (P)-The Conadian Senate last night approved the new 2-for-1 trade agreement with the Soviet Union. Under the 3-year pact, the S viet Union agrees to buy \$25 million worth of Canadian products each year, including 200,000 tons of wheat, if Canada purchases at least \$12½ million worth of goods from Russia. If Canada buys less, Soviet purchases will be reduced in proportion. Liberal Sen. W. D. Euler of Ontario, a former minister of trade and commerce, questioned whether the full exchange would be pos-sible. He noted that Canada last year bought only \$2,291,000 worth

from the Soviet Union. Earliest Library Earliest known library Babylonia and consisted of a col-lection of clay tablets which were the books of Babylonian civiliza-tion, dated from as early as 2,000
