## State News Roundup

### Dempsey Keeps Himself Eligible

Hartford, July 11 (AP)—Lt. Gov. John N. Dempsey today said he would "keep himself eligible" for candidacy as governor of the state in the event Gov. Ribicoff goes on to national office or does not run for reelection.

The Deputy Chief Executive made this comment in response to a question from a reporter. He is sitting this week as acting governor in the absence of Gov. Ribicoff who is attending the national Democratic convention in Los Angeles.

Political observers have stated that there is a definite possibility Governor Ribicoff will be in line for a national post if Sen. John F. Kennedy becomes president.

If Gov. Ribicoff should resign before his term expires to accept such a post, Lt. Gov. Dempsey would under the state's Constitution become Governor until the regularly scheduled election in Nov., 1962.

"Of course my prime purpose at the present is to be the best lieutenant governor possible," the acting Governor said.

"Looking ahead, I still plan to keep myself eligible. I look forward, God willing to being a candidate for the position (of Governor)."

## 2 of Crew Captured After July 1 Incident

Moscow, July 11 (AP)—The Soviet Union announced tonight it has shot down another American plane, and charged the incident shows American aerial espionage continues despite President Eisenhower's disclaimers.

The Foreign Ministry announcement accounted for a 6-jet RB47 reconnaissance plane which has been missing in the Barents Sea area. The Soviet Union said it was shot down 10 days ago, and that two of the six crewmen aboard parachuted to safety.

The United States says the plane disappeared while on an electromagnetic mapping flight over waters north of Norway and the Soviet Union.

The Moscow Radio declared:

"The new violation of the Soviet frontier by an American military aircraft testifies to the fact that the U.S. government continues to follow the same path... now everyone can see the real value of the assurances of the U.S. government and of President Eisenhower personally about the order allegedly issued by the President, to stop espionage flights of the American Air Force over the territory of the USSR."

Eisenhower told Premier Nikita S. Khrushchev, at the Paris summit meeting, that he had ordered discontinuance of US flights over the Soviet Union.

The Moscow Radio charged that statement of the two survivors showed that the RB47 "belonged to the Air Force unit of the American Strategic Intelligence Service and was performing a special mission of a military intelligence character."

Soviet Foreign Minister Andrei A. Gromyko summoned U.S. charge d'affaires Edward Freers and handed him a note protesting violation of Soviet air space by the plane.

Similar notes were given to Britain and Norway which the plane was temporarily based in England and was expected to land at a Norwegian air field.

Soviet announcement said the survivors would be prosecuted "with full severity of Soviet law."

The two captured fliers were Lt. John R. McCone, 38, Tonganoxie, Kan., and Lt. Lt. Freeman B. Omstead, 24, Elmira, N.Y.

The note did not mention the fate of the other members of the crew of six.

(A Moscow radio broadcast monitored in London said a Soviet vessel found the plane's first pilot dead in a rubber dingy and took aboard the body. The broadcast was indistinct but the name sounded like Captain Palm. A search for the remaining crew members was reported fruitless.)

The latest Soviet note followed by two days a Moscow announcement that Francis Powers, pilot of the downed American U2 spy plane, would be tried for espionage. Powers' plane was downed deep inside Soviet Union May 1 white on a high-altitude photographic mission.

## Ike Bares Program To Aid Latin Nations

Newport, R. I., July 11 (AP)—President Eisenhower today outlined a U.S. goodwill aid program for Latin American nations, but said Cuba's Castro regime would be included only if it shows willingness to cooperate.

At a news conference at the summer White House, Eisenhower declined to go to any extent into the Cuban crisis. For example, he brushed aside a question about his reaction to a hint by Cuba's president that Cuba might demand the United States abandon its Guantanamo naval base.

The President declared he would wait for such a demand before having any comment.

Eisenhower's only comment on Soviet Premier Nikita Khrushchev's pledge last Saturday of help-out support to the Fidel Castro regime was that he regarded Khrushchev's remarks as very crude.

The Khrushchev pledge brought from Eisenhower over the week-end a warning that the United States would not tolerate the establishment of a regime in Cuba dominated by international communism.

Eisenhower met with newsmen today after he and Secretary of State Christian A. Herter had conferred for nearly two hours on the Cuban crisis and the new U.S. policy to bolster economic and social standards in Latin American nations.

Eisenhower announced that he has instructed Herter to confer with representatives of these nations. If additional money is needed from Congress to finance the aid program, he will ask for it, Eisenhower said.

In outlining the plan, the President took no specific note of the tense situation regarding Cuba.

In a prepared statement, he did say, however, that Latin America is passing through a social and political transformation, and added that "dictatorships are falling by the wayside."

The President went on:

"Moderate groups, seeking orderly reform, are contesting with dictators of both right and left who favor violence and authoritarianism. Many of the dictators frequently endeavor to introduce dogmas which are inimicable to the traditions of the western hemisphere."

"The interests of the United States, no less than those of all the Americas, are directly involved in this struggle, a threat to the security of the hemisphere. It is imperative that institutions be developed and strengthened sufficiently to permit the people's

### UAC Talks Still Off

Hartford, July 11 (AP)—Governor Ribicoff's chief advisor in the current 34-day-old, 7-plant strike at United Aircraft Corp. declined today to comment on whether contract talks would be resumed soon.

State Labor Commissioner Renato E. Piccini said he would rather not talk now about the negotiations, which broke off suddenly last week. However, he said that he and federal mediator George Buehler were keeping in touch with both unions involved and management.

The two chief union negotiators, Irving Bluestone of the United Auto Workers and Fred H. Conroy of the International Association of Machinists, were not available for comment.

### Embassy Sentenced

Hartford, July 11 (AP)—Thomas P. Clifford Jr., 24, Enfield, who embezzled \$178,148 from the First National Bank of Thompsonville was today given a 5-year federal prison term by U.S. District Court Judge J. Joseph Smith.

After another prison had been designated, Judge Smith on the plea of Defense Atty. James C. Parakias agreed to recommend Danbury as the place for incarceration.

Parakias made a one-hour appeal to the court in Clifford's behalf contending that "an embezzler should be given a chance to make good."

### Bank to Merge

Essex, July 11 (AP)—The Essex National Bank announced today that its stockholders had approved a merger with the Hartford National Bank and Trust Co.

Hartford National will purchase the local bank's assets, and assume its liabilities, at a price of \$425 per share. The combined bank will have 1,000 outstanding shares of stock.

Effective July 15, the bank here will re-open as the Essex office of Hartford National.

## Kennedy Advances Nomination Drive

Los Angeles, July 11 (AP)—The Democratic National Convention opens today with Sen. John F. Kennedy of Massachusetts booked solidly as a sure shot for the party's presidential nomination.

Barring some unforeseen last-hour development, Kennedy seemed likely to walk away with the coveted prize in balloting beginning Wednesday. Whether he would take it on the first count still was somewhat problematical. But that he would take it there remained little doubt.

Creationists rivals kept their campaigns going. But Adlai E. Stevenson, a 2-time winner of jackpots in this political gamble, said he was willing to accept a cabinet post as a consolation prize.

There were some rather strong indications that the supporters of Stuart Symington (D-Mo) were denied this, of course, but the seeming futility of opposing the Kennedy juggernaut impressed itself deeply on some Symington backers.

Steve Langmade, Arizona national committeeman, told a reporter he understands consideration is being given to releasing the Symington camp to releasing the 104 convention votes supporters claim the Missouri senator has nailed down on the first ballot.

Any such action could be a fatal blow to the efforts of Sen. Lyndon B. Johnson of Texas to hold the line in the early counting and thus open the way for selection later of either himself or some other candidate.

Langmade is pledged to Kennedy on the first ballot and said he will stick through the second tally. If additional votes are needed, Langmade said, he is prepared to switch to Johnson on the third counting.

Convention backers said they are confident they will get more than half of the Symington votes if they are released.

Former President Harry S. Truman's double-reverse decision not to attend the convention after all cast a deep pall of gloom over the Symington camp. Symington dismissed the decision with the comment that "Mr. Truman always does what he thinks is best."

All of the presidential hopefuls came together last night in a typical Hollywood setting—a festooned Beverly Hills hotel banquet room in which breathing space was at a premium.

One by one they spoke their pieces.

Stevenson, greeted by a storm of applause, was lyrical. Tensely, Kennedy ripped off an old campaign speech at a furious gait. Nobody had done him wrong in the preliminaries of the convention which gets under way late today.

Johnson, in the star billing as the last act on the show, lectured the Democrats about the souring condition of a world in which Soviet Premier Nikita Khrushchev can threaten to launch rockets against this country if it interferes in Cuba's unending affairs.

All of this generated a lot of enthusiasm among loyal Democrats who had plunked down \$100 a plate for the fund raising dinner. But its effect on the outcome of the convention balloting was obviously not very great.

Despite brave statements by his rivals, Kennedy continued to fence them in. While they talked of delegate gains, he battered down barriers to an early nomination.

California and its 81-vote delegation was one of these.

With what his critics called characteristic indecision, Gov. Edmund G. (Pat) Brown announced he is backing Kennedy. Brown said the delegates could go their independent ways.

But he later denied that this constituted a release from their pledge to vote for him on the first ballot. The delegation put off until tomorrow any poll of sentiment, but most of its members

## Democrats Set To Vote Strong Rights Plank

Los Angeles, July 11 (AP)—A plank pledging a bold federal attack on racial discrimination, written over strong southern objections, appeared headed today for adoption in the Democratic party platform.

The platform goes before the Democratic National Convention tomorrow after preliminary action today by the full platform committee. Approval by both groups seemed certain.

But unanswered was what Dixie delegates might do about it. They could walk out of the convention in protest as some did in 1952 to express dissatisfaction with a civil rights stand taken then. Or they could stay and fight out the issue on the convention floor and take a probable defeat.

Their final decision, some of them said, was tied to the fate of the candidacy of Sen. Lyndon B. Johnson of Texas for the party's presidential nomination.

Southern backers of the Texas were reluctant to stir up too much trouble at this point lest such action embarrass him with northern delegates who support him for the

## Cuba Requests UN Action on Row with U.S.

United Nations, N. Y., July 11 (AP)—Cuba today requested a meeting of the U.N. Security Council to consider the worsening dispute between Cuba and the United States.

A spokesman for the Cuban delegation said a formal complaint has been handed to the current president of the 11-nation council, Ambassador Jose Correa de Eccaur.

No details were available immediately.

Cuban Foreign Minister Raul Roa arrived in New York Saturday and has been conferring with members of the Cuban delegation on the situation.

The United States delegation was notified of Cuba's action but had no comment pending study of the complaint.

Although details were not disclosed, it was taken for granted the Fidel Castro government charged the situation is a threat to international peace.

This is one of the conditions required by the U.N. charter for Security Council action.

A council meeting is expected to be called later this week.

## Named Floor Manager Ribicoff Sees 630 Votes For Kennedy as Starter

By WILLIAM BENDER  
Los Angeles, July 11 (AP)—Gov. Abraham Ribicoff, after a round of political conferences with chiefs of other states, today signed Sen. John F. Kennedy will get 630 votes on the first presidential nominee roll call of the Democratic national convention.

Ribicoff, appointed by Kennedy as his convention floor manager, predicted that Kennedy would show greater strength as the favorite son candidates begin to drop out.

The Connecticut Governor also stated that Kennedy has staying power for additional ballots and that the Kennedy-pledged delegates are firm.

Ribicoff reiterated his belief in an early Kennedy victory in an interview taped for showing on a national television program (Today, NBC).

He added that switchovers from favorite-son delegations before the official first-ballot tally is announced could push Kennedy over on that ballot. But he made it clear that the Kennedy camp is not predicting triumph on the first ballot.

Four of the favorite sons, Govs. Pat Brown of California, David Loveless of Iowa and George Decker of Kansas, were the special object of Ribicoff's attention.

Brown, Loveless and Decker came out yesterday with expressions of support for Kennedy.

Ribicoff was clearly pleased by these developments — together with the news of some defections in the South — as he went about mapping the Kennedy floor campaign he will lead once the balloting starts Wednesday.

The choice of the Connecticut Chief Executive for the key role as floor leader was greeted enthusiastically by the members of the Connecticut delegation.

National Committeewoman Beatrice Rosenthal of Waterford called his selection "a great tribute to his personal abilities and his political acumen."

## Cuba May Ask U.S. Quit Guantanamo

Havana, July 12 (AP)—The Castro government implied yesterday it may demand that the United States abandon its Guantanamo Naval Base in eastern Cuba.

President Oswaldo Dorticos told a labor demonstration attended by 100,000 that the Cuban territory is "not for rent or sale to foreigners."

He said the annual rental check paid last month by the United States for the base would be sent back to Washington.

Under a treaty signed in 1934 the United States has a perpetual lease on the 46-square-mile base at a rent of 2,000 gold dollars—the equivalent of \$3,366,250—a year.

The bespectacled, bearded president, growing daily in stature in Cuba's revolutionary hierarchy delivered the mammoth address at the rally after pneumonia kept Prime Minister Fidel Castro in bed.

But illness did not keep Castro off the stage entirely. Looking feverish, the 35-year-old prime minister put an army field jacket over his pajamas and made a 45-minute television speech last night from his bedroom.

Speaking in a hoarse voice, the revolutionary leader again attacked the United States as an aggressor nation and hailed the Soviet Union as the champion of underdeveloped countries.

There was growing speculation here that Cuba may be preparing a formal accusation of aggression against the United States before either the Organization of the Americas States (OAS) or the United Nations. Foreign minister Raul Roa made a sudden trip to the United States over the weekend for consultations with Cuban diplomats at the U.N.

Observers speculated that the

## Hurricane Roars Into Caribbean Sea

San Juan, Puerto Rico, July 11 (AP)—The season's first hurricane, small but violent, roared into the Caribbean sea today and appeared to be growing in intensity.

Hurricane Abby, with winds of 75 m.p.h. whirling around its center eye, was expected to pass about 175 miles south of Cabo Rojo on the southwestern tip of Puerto Rico tonight.

There was little danger to Puerto Rico but as a precautionary measure a hurricane watch was in effect for the Dominican Republic and Haiti further westward. Gale warnings flew along the south coast of Puerto Rico.

Small craft between the island of St. Kitts and the Dominican Republic were advised to remain in port.

From its present location, Abby could take two traditional hurricane paths. One sea westward through the Caribbean and possibly the Gulf of Mexico. The other would take it northward, to the east of Florida and the Bahamas.

It was so far away today that the Miami Weather Bureau forecasters would make no future predictions.

## Chimp Grabs Tot, Changes Diapers

Tacoma, July 11 (AP)—A female chimpanzee, trained to change a baby's diapers, seized a 6-month-old girl from her stroller yesterday and refused for 20 minutes to surrender the infant.

Little Marcia Lynn Ebert was returned unharmed to her mother, Mrs. Frederick Ebert, after the chimp had completed a diaper change under surveillance of a state patrolman and store officials.

The incident occurred in a Tacoma department store which keeps the chimp for publicity purposes and let it circulate among the customers on a leash.

The animal, whose name is April, is 4½ years old.

## 12 Defendants Plead Innocent In Stock Fraud

Hartford, July 11 (AP)—Twelve defendants in the alleged \$2 million Atlas Gypsum stock swindle case broken here May 13 pleaded innocent to 22 counts in federal court here today.

Their cases were continued for trial on Sept. 20 under the same bond, ranging from \$2,500 to \$10,000 in the various cases.

Seven more without attorneys nor the funds to hire counsel had their cases continued until later in the day when Judge J. Joseph Smith said he would appoint counsel for them.

Three others failed to appear but sent medical certificates claiming inability to appear because of heart ailments. In these

### VOTES SHIFT TO KENNEDY

Los Angeles, July 11 (AP)—The delegate shifting got going in earnest today in the last hours before the opening of the Democratic National Convention with Sen. John F. Kennedy, already in a commanding lead, the early gainer. In mid-morning Kennedy had 636 of the 761 votes needed for the presidential nomination. Sen. Henry M. Jackson of Washington engineered the first minor shift. He came out for Kennedy and a quick recount in the delegation showed a gain of five for the Massachusetts Senator.

# THERE'S WORK AT UNITED AIRCRAFT!

- Prolonged negotiations to settle the strike in seven of United Aircraft's plants have collapsed.
- We see little hope for a settlement in the weeks ahead.
- We have vital contracts to meet. We fully expect to fulfill them.
- More than 17,000 of our production force . . . about 60 per cent . . . either never struck or have already returned to their jobs. They are producing a high and excellent quantity of work.
- Work awaits a good share of the 40 per cent who have remained away hoping for an early settlement.
- We are launching a vigorous campaign to fill every job opening in our plants. We strongly urge every employee who is not now at work to report immediately for assignment.

## VACATION POLICY FOR HOURLY-RATED EMPLOYEES

United Aircraft's plan to shut down for vacations was subject to being affected by conditions beyond the company's control. The strike of employees, which began on June 8 and still continues, in spite of every effort on the company's part to end it, has made it necessary that the planned shutdown for vacations be cancelled at the struck plants.

Instead of a vacation shutdown, vacations for 1960 for all hourly-rated employees will be scheduled on or before July 15, 1960, for all such employees who are on the active payroll of the company as of that date.

All employees at work will be contacted by their foreman or supervisor prior to July 15, 1960, for the purpose of arranging vacation periods for individual employees who are eligible for, and who desire to take, a vacation. Insofar as possible, vacations will be scheduled according to the desires of the employees. In these instances vacations will have to be adapted as necessary.

However, it will be the responsibility of supervision to insure continuous operation of each department and to meet individual production requirements.

### Coventry Voters Approve \$2,850 For Welfare, Elections

A total of \$2,850 in appropriations was voted in seven minutes at the special town meeting Friday night.

Of the total, \$2,000 was for the Board of Welfare and \$850 for the Election Expense Account for re-voting voting lists.

The appropriations to the Board of Welfare brings its total account to \$8,000 for the fiscal year ending Aug. 31.

The increase in appropriations to this board has been attributed to a load increase as well as the fact that the last legislative request to pay welfare hospital bills.

Concerning the Election Expense Account an amendment was passed to reduce the original request of \$1,275 to \$850. The registrars had originally estimated their survey of the town by streets at the higher figure.

Registrars in the First District have completed their work and found expenses to be less than anticipated.

Officials in this district reported 155 streets and trails in the area and there are about 45 streets in the Second District.

It was pointed out at the special town meeting that the budget for 1960-61 for the Election Expense Account would be increased considerably because of printing cost. The program of voter listing by streets is a yearly requirement by law.

**Anderson Nelson Reports Of Fire Activity**

Chief George Nelson's monthly report given at the Volunteer Fire Department meeting Friday listed one house fire, one fire alarm and three calls for the emergency truck.

He announced that the Chief of the Norwalk Fire Department had written to thank the Anderson group for its Mutual Aid support during that city's rash of fires.

In discussion following the chief's report, firemen referred to the number of people who are not members of the department, who have been obstructing firemen and their equipment in getting to the scene of an alarm. They would appreciate it if residents would not race equipment to the scene, but would proceed, instead, at a moderate rate of speed.

Mr. Nelson was promoted to Captain and William Oren, Captain Armstrong, conducted drills each Wednesday at 6:45 p.m. and on Sunday mornings from 10 a.m. to 11 a.m. for those qualifying for badges and as a reward for those who presented membership.

### 300 Push Search For Kidnaped Boy

Sydney, July 11 (AP)—Three hundred police with dogs, two navy helicopters and volunteer searchers are combing part of a forest north of Sydney for 8-year-old Graeme Thorne and his kidnapers.

Graeme's cap, plastic raincoat, arithmetic book and lunch packet—including an apple—were found this morning near a road running through the forest.

The discoveries caused police to intensify a search of the area that was accurate over the weekend after Graeme's school case was found there Friday night. Police Commissioner Colin J. Delaney said it appeared the kidnapers had been in the area in the past 24 hours and might still be there.

The only word since the boy disappeared was a phone call late Thursday. A man speaking with a foreign accent demanded 25,000 pounds (\$50,000) for the return of the child, saying otherwise he would "feed him to the sharks."

The police had no instructions for paying the money, however.

The police today said they were baffled and "just about where we were last Thursday," New South Wales Premier Robert J. Heffron said he had given police permission to fly an American FBI agent in to help out, but police said they did not contemplate that yet.

The distraught parents, staying close to the phone since the original phone call, said all they want is their son back.

Rockville-Vernon Mayor Likes District Plan To Pay Police

A proposal of the Vernon Fire District Commissioners to support rural police protection with district taxes, resolved favorable comment from Rockville's Mayor Leo S. Fishery Jr. today.

The mayor said the plan was a step in the right direction. "I've said he was glad to see that some responsible persons in the district are ready to assume the financial cost of district services to which city residents now contribute," he said.

The District commissioners, headed by Donald Lovett, will ask district voters July 18 to approve a \$16 mill tax increase so that the town can reimburse the town \$41,900 for rural police services. The appropriation would provide 24-hour police service. School police would be paid by the town.

An alternate plan proposed by the Vernon Taxpayers' Bureau would have the town give the city and the district an equal amount, \$41,900, for police services in each area. Fishery said he favored the commissioner's plan.

The District meeting scheduled for tomorrow at 8 p.m. will be adjourned until July 18 because the budget was not prepared until last week. The meeting will be held at the town hall.

Town Meeting Wednesday. Voters will be asked to approve a uniform fiscal year for the town.

Rolling Car Injures Plymates

Patrolmen James Hughes and Richard Thurston (partly hidden under truck) reach for Robert M. Lettice, 41, who was pinned under the car of Wayne W. Muscell, 34, of 19 Deley Circle, Rockville, after it rolled down Riverside Dr. last evening and into some woods where several children were playing.

The car was hit by a wrecker so the boy could be freed. Milette and Debra Lettice, 7, of 29 Cook St., were taken to Manchester Memorial Hospital for treatment of injuries received. Milette suffered multiple bruises and was admitted for observation. The Fitzgerald girl received a fractured right collar bone, bruises, and two scalp cuts that required stitches.

She was discharged after treatment. Muscell and his family had just alighted from the car, which was parked on a slight downgrade, when it began to roll. Muscell tried to catch the car, but it rolled too fast and overtook him. He later told police he had put the car in gear and the emergency brake on. Police are still investigating. (Burkamp Photo).
