ploded at a Highland Park P.T.A. meeting a couple of years ago. On that eventful fall evening, the Chairlady gleefully announced that a petition was being circulated by certain members of t P.T.A. to install a sidewalk on the north side of Porter St. between Steep Hollow Lane and Ferguson Rd She unfolded that this proposed walk wasn't really neces sary, that she and the petitioners were advised that by petitioning for a walk in this area and by ! fringing mostly on Town proper-, little or no opposition would encountered. Furthermore, she said that it would serve "to get a foot in the door" for installing a walk on the remainder of Porter

There with many others I sa stunned. As I listened to the various vented feelings, I said to my self. "Is this a meeting for the promotion of cheapward politics where there is being blatantly pro posed pure chicanery?" Now who do you suppose was one of the principal speakers favoring this walk that evening? dadame DeFarge? Nay. Mr. Grundy? Nope. Mrs. Kalabash. wherever you are? No! Town D rector Lamenzo? Correct! ! Well, the rest is now history Despite the statistics of the Na tional Safety Council, the pro-tests of the taxpayers and the property owners, and despite other remedial suggestions for better year-round traffic safety on Porter St., the Board backed Di rector Lamenzo on her motion t install this sidewalk Incidentally this unnecessary, lonely, little-used walk pierced practically in its middle by telephone poles, financially stripped the Town of over \$8,000 ers of over \$1.20 a foot. Now, the second section of ar other walk is being installed and it's the same old story as before. Everyone on Porter St. and the Board of Directors know about the speeding traffic on Porter St

One early morning, while chasing a apeeder, a police cruiser skid ded from Porter St. and hit a tree at the corner of Adelaide and Porter. In another case, a child was hit while playing in his own yard by a car going out of control on Porter St. Almost everyday we read abou ears going up onto walks injuring people. The Board should see to it now, more than ever before, the the traffic control is absolute. Also let me ask-while they go to and from school, what will keep the little children from crossing to and fro between the walks on Por I have asked the Board repeat edly as to what kind, color, and shape the latest walk will be, bu as usual, I could not get an official answer.

But, regardless of what kind of walk it's going to be, please pray with me that it will never be a bloody one. Bincerely yours James E. Dougan Not a Fair Rule'

To the Editor. Last year I wrote to the Boar of Education concerning the payment for school bus rides for chi dren over 16 years of age. I re quested a hearing and had a petition signed by other taxpayer This request was ignored and t date I have not had an answer to my request I would like to know why the taxpayers can't be heard when we have a grievance. I am still against children over 16 years of age paying for school bus rides and I have learned from good authority that all the surrounding towns pay the cost of through high achool. Why can't our tax dollar do the same for Mantheater children?
In the first place it is not a fair rule. My daughter was 16 in June. another child was 16 in September both children are 16, my daughter pays the other child does not. Why does one 16 year old child pay and another 16 year does not pay? In four more years my children will be out of high school and this problem will no longer concern me, but I still think it is wrong not to care whether a child gets to school or not. My tax dollar when my children are out of school will help to educate some other child and I am willing to help pay to transport Manchester wants to buy Union Pond over North for \$9,000, have the people of Manchester given any thought to how much it will cost to clean Union Pond up Probably another \$100,006 If we need another park why can't \$9,000 be spent to clean up Center Springs Pond and make that suitable for swimming?

There we have a ready park and pond. Let the Hartford Electric Light sell Union Pond property to someone eise and let Manchester collect taxes on it. I doubt if any one would buy this pond. I think if we need it so badly that if we wait will get it for nothing. We have

The British say that Appert merely bottled food, and that it was an Englishman, Peter Durand, who took out the first patent for

tinplate canning in 1810. (It is this anniversary that is being celebrated this year.) Americans, who consume twice as much canned goods per head as the British, were Johnnies-comelately in the field. It was not until the Civil War that canned food came into vogue in the United States: Chicago did not start tinning meat until 1872.

Campbell Car Flips Going 300

Bonneville Salt Flats, Utah Sept. 16 (P)—British speed driver Donald Campbell was injured and his 4,250-horse-power auto, Bluebird II, was badly damaged in an accident at 300 miles per hour this

morning.
Campbell was rushed by ambulance to a hospital at Tooele,
Utah, about 100 miles to the east. There was no immediate word on his condition, but persons who saw him after the accident said he had a gash on the head and appeared in shock and unable to answer questions. He was not expected there until 9 a.m. (MST). An attendant at the hospital said he did not appear seriously hurt when he arrived at the hos-pital. He was taken to the emer-

gency room for examination. Mrs. Campbell refused to leave the ex-Officials said his \$412 million never run again. Ken McKay of Campbell's pub-lic relations staff said Campbell did not appear seriously hurt.

about 300 miles per hour and was making a return run when the car veered out of control. It apparently went into a spin, and flipped over three times. Both wheels on the left side were ripped off. There was no fire, although fuel spilled about the wreckage.
