This probably will be the only major proposal to be aired at the annual meetings of the IFC, International Monetary Fund and World Bank. The sessions will run from Monday through Friday and will attract financial leaders from more than 50 countries.

United States officials favor the IFC plan. The question has been considered by a group which includes Secretary of the Treasury Robert B. Anderson and Federal Reserve Chairman William McChesney Martin. It was understood the administration has not taken a formal position on the question, however, because officials first want to consult with key Congress want to consult with key Congress and in the second (filariasis) by members.

In arguing the advantages of the plan, one Treasury aide said:

Mrs. Pfau has indicated the Town Committee will name only those at that meeting. Mrs. Pfau contacted Kloter earlier in the month and said the committee would meet tomorrow to name a candidate. She suggested a special meeting could be arranged if the Board felt the need for a replacement was urgent.

In his reply, Kloter went on to say that majority members of the Board "want to be on record that if a suitable candidate, in their opinion, is not recommended, they will reserve the right to select a suitable candidate, in their opinion, is not recommended, they will reserve the right to select a suitable candidate, in their opinion, is not recommended, they will reserve the right to select a special meeting could be arranged at the commendation of th

The responsibility for filling a vacant post rests entirely with the Board of Education members. It is customary for the town committee of each political party to put forth candidates for vacant appointive posts in government. Although Democrats will name a candidate, or candidates, to night, the Board of Education, Kloter said, will not be able to consider approval before the first regular Board meeting in October. The Board is scheduled to meet in a special season next week to discuss school expansion needs.

The New York Herald Tribune said the President planned to be specific, while casting the U.N. in a leading role in contrast with Sowiet attempts to circumvent the world organization. The President, it said, will urge that the United Nations be given greater responsibility than ever in a wide range of affairs, in what

The planes will be able to spot military emplacements and the movements of armies from immense heights.

The schedule

That's the way Coach John Canata's The Yelly was the coming season for his Rockville High soccer squad. The Windy City booters open their 1980 campaign with a home match Friday afternoon with Ellington. The game will be the first ever to be played on the new field located adjacent to the school.

Leading the Ram booters this fall are senior Frank Colambara and junior Tim Fahy. Colambara will be playing in his familiar halfs back position but Fahy, who has been the team's goalle these last two years, has been moved up to center forward Canavari hopes that Fahy's presence up front will add further scoring punch to the Ram's offense.
