## Castro for Trading Captives in Cuba for 'Political Prisoners'

Key West, Fla., May 22 (AP)—Fidel Castro is prepared to exchange prisoners of last month's invasion of Cuba for what he called "political prisoners" in the United States and Central America, Radio Havana reported.

Castro also reportedly threatened to call off the bulldozers-for-prisoners negotiations if the United States "persists in referring to it as an exchange."

"This is an indemnification and not an exchange," he reportedly told Prensa Latina, the Cuban news agency.

The Cuban broadcast said Castro indicated a willingness to trade political prisoners in Cuba for Pedro Albizu Campos, jailed Puerto Rican nationalist leader; Francisco (the Hook) Molina and other prisoners in Guatemala, Nicaragua, and Spain.

Albizu Campos, leader of the Puerto Rican nationalist movement, has been in jail in Puerto Rico for some time.

Molina is a pro-Castro Cuban awaiting sentence in New York City on a second degree murder conviction. The conviction stemmed from the shooting of a 9-year-old Venezuelan girl during a political rally between Cubans in a New York restaurant.

Molina has been mentioned frequently by Castro and Cuban broadcasters as a martyr and a victim of political persecution. Last week, Castro offered to exchange Capt. Manuel Amiel, leader of last month's invasion, for Molina.

Castro will not—at any time

## Church Group For Unity Talk With 3 Others

Buffalo, N.Y., May 22 (AP)—The United Presbyterian Church decided today to open talks for unification with the Episcopal Church, the Methodist and the United Church of Christ.

The historic action was approved with a booming voice vote at the Presbyterian's 173rd general assembly.

Outcome of the issue had been of keen concern throughout American Protestantism, and also among Roman Catholic leaders.

"We are looking toward a union as broad and deep as God may lead us to achieve," said the Rev. Dr. Eugene Carson Blake of Philadelphia, the Presbyterian's top administrative officer.

He had first enunciated the general proposal six months ago as an effort to bridge the barriers among

### Ellington Girl Suffers Burns

Ellington, May 22 (AP)—A 28-month-old girl was on the critical list today at Hartford Hospital with burns suffered when a candle ignited some paint thinner that spilled on her dress.

Cindy Anna Sandburg got paint on her dress in her Ellington home yesterday.

Police said her 8-year-old brother tried to remove the paint with a paint thinner. The boy, police said, lit a candle to get more light and the thinner ignited.

### Highway Week

Hartford, May 22 (AP)—The Connecticut Safety Commission today noted an increase in highway fatalities in the state and urged all motorists to accept a "personal responsibility" for the traffic accident problem.

A statement observing the start of National Highway Week, issued on Connecticut Highway Day, said 7 persons lost their lives in traffic accidents during the first four months of 1961. In a similar period a year ago, there were 65 highway fatalities.

"Traffic engineering can build safe highways," Commission Chairman Bernard J. Ackerman said, "but the safe use of these highways depends upon the motorists."

The commission called on motorists to observe National Highway Week by assuming personal responsibility for the state's accident problem.

### 77 to 88

Hartford, May 22 (AP)—The State Motor Vehicle department's daily record of automobile accidents as of last midnight and the totals on the same date last year:

Injured	8,131	8,818 (Est.)

### Connector Target Date

Hartford, May 22 (AP)—Motorists will be able to drive on expressway all the way from Hartford to Springfield to Bradley Field starting June 15.

This is the target date for the opening of the Bradley Field connector from the Hartford-Springfield Expressway (Interstate 91).

The expressway from Hartford to Springfield was opened Nov. 4, 1960, but the nearest turnout to the field has been just south of Poquonock. Motorists have to proceed from there through Poquonock on Route 75 to the field.

Although road construction on the connector was completed late last year, finishing touches like turr establishment had to be delayed until warmer weather.

### Fell in South Windsor

Hartford, May 22 (AP)—An 11-year-old boy who apparently fell from his parents' pickup truck, as it passed through South Windsor Sunday night, was reunited with his family today.

## John H. Trumbull Dies; Noted 'Flying Governor'

Hartford, May 22 (AP)—Former Gov. John H. Trumbull, known as "The Flying Governor," is dead at the age of 88.

He died in Hartford Hospital yesterday of natural causes.

The son of poor immigrants, Trumbull made his mark first in business and then in politics. A Republican, he served three terms as Governor (1925-1931).

It was the daring figure he cut as a pioneer aviator, however, that most endeared him to the public.

In 1924—at the age of 51—he took up flying. He obtained a pilot's license. Three years later, as Governor, he took the stick of his open cockpit biplane to fly speaking engagements around the state.

He campaigned vigorously for the promotion of aviation. Even after he bowed out of politics, he remained a member of the Connecticut Aeronautics Commission. He resigned last January citing his age and failing eyesight.

Born in Ashford, March 4, 1874, to parents who had come from Ireland only two years before, Trumbull was one of seven children. His parents owned a small farm and the boys in the family helped with the work.

Trumbull started earning his living at an early age.

He was fascinated by the electrical business. At 24, he started his own electrical contracting business. In 1898, he joined with his brother, Henry, and another man to found the Trumbull Electric Co. in Plainville which produced appliances.

The company prospered under Trumbull's prudent management

## Dempsey, GOP See Accord on Highway Fund

Hartford, May 22 (AP)—Gov. John N. Dempsey and Democratic lawmakers today agreed to support a Republican-backed highway fund.

The agreement was reached after a long session of the House Transportation Committee today.

The expressway from Hartford to Springfield was opened Nov. 4, 1960, but the nearest turnout to the field has been just south of Poquonock. Motorists have to proceed from there through Poquonock on Route 75 to the field.

## Valued over \$3 Billion Court Tells Du Pont To Sell Its GM Stock

Washington, May 22 (AP)—The Supreme Court today ruled that E. I. du Pont de Nemours & Co. must give up its huge stock holdings in General Motors Corp.

The court ruled on a Justice Department appeal from a decision by U.S. District Judge Walter J. La Buy in Chicago. La Buy found du Pont's surrender of its voting power in GM would be sufficient to meet the antitrust laws.

The Justice Department appeal insisted Du Pont should be required to dispose outright of its 63 million shares of stock in GM. The shares are valued at more than \$3 billion.

Justice Brennan delivered the court's majority opinion. Justice Frankfurter wrote a dissenting opinion which Justices Whitaker and Stewart joined.

Justices Clark and Harlan took no part in the case. The vote was 4-3.

Justice Brennan's opinion said that the court's majority thought "the public is entitled to the surer, cleaner remedy of divestiture."

Brennan added:

"The same result would follow even if we were in doubt. For it is well settled that once the government has successfully borne the considerable burden of establishing a violation of law, all doubts as to the remedy are to be resolved in its (the government's) favor."

Brennan said the court majority felt that "this already protracted litigation should be concluded as soon as possible."

"We dissent," he said, "we direct the Circuit Court (in Chicago) on receipt of our mandate to enter an order requiring du Pont to file within 60 days a proposed judgment providing for complete divestiture of its General Motors stock, to commence within 90 days, and to be completed within not to exceed 10 years, of the effective date of the District Court's judgment."

Frankfurter said in his 44-page dissent opinion that Judge La Buy "has fashioned a closely knit network of provisions to prevent preferential dealings between General Motors and du Pont."

He noted that La Buy was certain divestiture of the GM stock by du Pont would work great and unjustifiable loss on wholly innocent investors.

The prices of both du Pont and General Motors dropped sharply on the New York Stock Exchange on the news. Du Pont, which had

## Private Wants vs. Public Needs PTA President Assails U.S. Love of Comfort

By G. K. HODENFIELD  
Education Writer

Kansas City, May 22 (AP)—"Many Americans are so bemused by the creature comforts that they seem to have forgotten the spirit of personal sacrifice that made this nation great," the National PTA president said today.

Mrs. James C. Parker, Grand Rapids, Mich., added, "There is nothing wrong with the creature comforts as such, it is the unbridled place they hold in relation to the things that are really important."

"And it is time, past time, for this country to recognize those things that are really important," Mrs. Parker, finishing a 3-year term as president of the National Congress of Parents and Teachers, said in an interview.

"The great concern in this country with the creature comforts is perfectly evident in many cases where school bond issues are voted down. Many of the voters could afford the higher taxes to build schools, but they refuse to pay this most necessary of all their bills."

In a prepared speech marking the formal opening of the 65th annual convention of the National Congress today, Mrs. Parker posed these questions for Americans:

"Are we a people whose only devotion is to comfort, convenience and the consumption of luxuries?"

"Have we put possessing a no-shift automobile ahead of abolishing the 2-shift school?"

"Do we pinch pennies on slum clearance, public services, and delinquency control in order to spend them on milder cigarettes, softer mattresses and easier driving cars?"

"Have we put private wants above public needs?"

"Have we abandoned the goals that gave our nation vigor and purpose in its youth?"

Mrs. Parker told the convention

## Car Nearly Rams Pope John's Auto

Vatican City, May 22 (AP)—Because a Vatican automobile almost struck Pope John XXIII, the Vatican has ordered all traffic halted in the Vatican gardens while the Pontiff takes his daily walk there.

The incident that prompted the new-spring-occurred last Thursday. A small Italian automobile of the Vatican Radio Station skirted a corner, almost struck the Pope's parked automobile, from which the Pontiff was just alighting, and kept going.

Vatican sources said the driver was not aware of what had happened.

## 1,000 Negroes Safe All Night in Church

Montgomery, Ala., May 22 (AP)—Nearly 2,000 pupils were evacuated from two city schools today after anonymous telephone calls warned that bombs were set to go off at both places at 11:30 a.m.

Montgomery School Supt. Walter McGee said police and firemen were searching for explosives at Goodwyn Junior High School and Cloverdale School.

Montgomery, Ala., May 22 (AP)—Eight hundred National Guardsmen and 500 federal marshals held this "cradle of the confederacy" in a tight grip today to prevent further racial violence.

Atty. Gen. Robert F. Kennedy said in Washington that he planned to send another 200 marshals to the Alabama capital because he said Alabama is a large state and the Justice Department wants to be sure enough marshals are there.

Order was restored early today but only after steel-helmeted Guardsmen dispersed an angry mob of white persons who had laid siege to a Negro church where an integration meeting was being held.

Guardsmen secured many of the Negroes to their homes in the pre-dawn hours after order was restored. The others slipped out of the church quietly and drove away.

Police arrested 16 white persons in connection with the violence. No charges were filed, however, and all were released.

Sporadic outbreaks of trouble, including a house burning attempt, had continued for hours after troops with fixed bayonets took command.

An estimated 1,000 Negro worshippers returned home quietly in the pre-dawn hours after spending most of the night in a church auditorium in protective custody. A mob had tried to get at them, but by 5 a.m. (CST) the church area was deserted except for 25 National Guardsmen left on guard duty.

"We don't anticipate any further trouble here," said a National Guard officer.

Among the churchgoers were 18 of the Freedom Riders who arrived in Montgomery Saturday touched off repeated attacks by club-swinging white men and women. The so-called Freedom Riders were testing Alabama's bus segregation laws.

A Negro leader from Atlanta, the Rev. Martin Luther King Jr., said a closed meeting had been scheduled to try to determine whether the "Freedom Riders" will attempt to leave the city by bus.

Meanwhile, the number of National Guard troops called to duty reached approximately 800.

Only Negroes remained in the bus-riding group after the lone white man among them was savagely beaten and sent to a hospital and two white girls, also mauled by the surging mob Saturday.

## Laos Leaders Still Boycott Geneva Talks

Geneva, May 22 (AP)—Cambodia's attempt to bring the three leaders of Laos warring factions to Geneva in the hope of restoring peace to the troubled Asian kingdom collapsed today.

Prince Norodom Sihanouk, chief of state of Cambodia, said Premier Prince Souvanna Phouma of the pro-Western Government and neutralist ex-premier Prince Souvanna Phouma both rejected his invitation to Geneva.

The architect of this 14-nation conference in Geneva made no mention of a reply from the third leader, Prince Souphanouvong of the pro-Communist Pathet Lao rebels.

The Laotians are not helping us and are not helping themselves," Sihanouk told reporters outside the conference room. "I have no more plans."

Inside the conference room, the

FBI HUNTS HUMAN BOMB  
Washington, May 22 (AP)—The FBI today named a chronic armed robber, described as possibly mentally unbalanced and possibly armed with a live hand grenade, on its list of "10 most wanted" men. The fugitive is Anthony Vincent Fede, 46, a native of Worcester, Mass., and one-time Cleveland, Ohio, barber. The FBI said Fede, who has spent most of his life in the Cleveland area, had a half dozen arrests as a teen-age burglar in that area with repeated paroles. He is now sought for the kidnap-robbery of a Cleveland tavern owner last Sept. 23.

JOHNSON HEADS HOME  
En Route by Air with Vice President Johnson, May 22 (AP)—Vice President Lyndon B. Johnson flew homeward today, closing his tour of reassurance to America's Communist-menaced South Asian Allies. Before he left from Athens, Greece, after an overnight stay, Johnson said he had been "strengthened and encouraged" on the 6-nation journey that took him from Formosa to Pakistan.

## Marines, Paratroops Balk Korean Military Split On Division of Power

Seoul, May 22 (AP)—A split was reported in South Korea's new military government today over the division of power among the military services.

A competent source said Marines and Paratroopers who took over Seoul last Tuesday and were the shock troops of the coup refused an order Saturday to withdraw from the capitol building and return to their camps outside Seoul.

The Marines and Paratroopers reportedly demanded more places on the 30-member Revolutionary Council, which except for a Marine brigadier general and colonel consists entirely of army officers.

There is also a Marine colonel in the cabinet of 15 officers that was sworn in yesterday.

U.S. Gen. Curtis Magruder, under whose U.N. command all South Korean forces are placed, reportedly demanded Saturday that all the 3,600 troops used in the coup return to their original units.

The order to move out was issued by Lt. Gen. Chang Do-Young, the junta chief who also is premier, defense minister, and army chief of staff.

Although the Marines and Paratroopers furnished the troops for the coup, the composition of the Revolutionary Council and the cabinet reflected the relative strength of South Korea's armed forces. Unofficial estimates put the army at 500,000 men, including 3,000 Paratroopers, the Marines and Air Force at 15,000 each, and the Navy 10,000.

Despite the reported rift, the new military regime pressed ahead vigorously.

Foreign Minister Kim Hong-il, a retired lieutenant general, said Gen. Chang sent a letter to President Kennedy May 17, the day after the uprising against the government of deposed Premier John M. Chang broke out.

Kim said the contents of the letter would not be disclosed until

## Birch Founder Mum on Funds

Washington, May 22 (AP)—The founder and president of the John Birch Society has denied his organization refuses to make an accounting of its funds, desires an authoritarian U.S. government or is semi-secret.

Robert Welch, retired Belmont, Mass., candy manufacturer, said last night the aims of the militantly conservative organization were well known and that auditors now are preparing a complete report on its finances.

In a rare session with the press, Welch was asked about accusations his group was authoritarian and monolithic and whether he wanted this type of government in the United States.

"No," he replied, "I have said the best form of government is a republic and the worst is a democracy... our purpose is to inform our fellow citizens so they do the right things politically."

He told a television news panel (NBC-Meet the Press) that the accounting of society finances would be made to the organization's governing council, not to individual members.

And Welch refused to say how

# "THE WAY I HEARD IT"

by John Gruber

Ever since the concert by the Manchester Civic Orchestra, people have been approaching me with questions about conducting, instruments, choice of program, and all sorts of other things. Apparently there is a good deal of confusion on these matters, and a number of people have asked me to run a series of articles about orchestral instruments in this column.

It seems like a logical idea, when you consider the questions I have received. Apparently there were many people present who had never attended a symphony concert before they didn't know, and while they enjoyed the evening they would have been more at home had they known more about what to expect. So here goes.

To begin with the term "symphony orchestra" is quite vague. Some may mean Mozart and Haydn symphonies with 25-30 musicians. Some modern composers call for over 100 players. We have about 65 in the Manchester Civic Orchestra and it is too large for the symphony which we perform.

Some people noticed that a number of musicians left the stage after the "Star Spangled Banner,"

which will show you that the orchestra was growing considerably during his lifetime.

Today a large orchestra will include a fairly large band as well. In fact there will be over 30 musicians playing wind and percussion instruments alone. Military bands in the armed services generally have slightly less than 30 instrumentalists, so you can see a modern symphonic orchestra can make a lot of sound.

Anybody who gives the least thought to it can realize that one trumpet can readily play louder than two violas, so if we have over 30 instruments in the band, the total sound is tremendous. The total number is close to 100, and that is the usual size today.

In the Manchester Civic we have about 40 strings, and our wind and percussion should number about 20, in consequence, it actually numbers slightly more, but the proportion is nearly correct. 2 strings to 1 of the others.

With this group we can play practically anything written before the middle of the 19th century. We can play later works too, but in some cases they won't sound right.

This should give you an overall picture of the orchestra, and I will discuss it in more detail in future articles.

### Crash Program Urged On Illiteracy, Hunger

Dr. Frank Laubach appealed for support of a crash program to save 1 billion people in the world from hunger, illiteracy and Communism.

The Christian Answer to the Communist Threat will be the topic of a public address by Dr. Laubach tonight at 8 at Manchester High School's Bailey Auditorium.

The 78-year-old missionary, in an impassioned plea, asked young people to dedicate their lives to the cause of eliminating illiteracy and hunger.

He said he has served for more than 30 years in China, where he has seen only five agricultural experts to 4,000 million people in India at present, in a terrible famine and facing famine.

Appeals to all Dr. Laubach expressed the opinion that man's search in the universe has "no moral meaning" compared to improving conditions on earth.

Emphasizing that America must practice the religion it professes, he explained that the Laubach Literacy Fund in appealing to churches of all faiths and to schools and colleges to organize "communities of compassion" in which 100 people give one dollar a week to sponsor literacy projects and to train native literacy teachers.

He reported that his book, "Stranded English" has been translated into 10 languages and is being used in television to reach the 10 million illiterates in America as well.

The Youth Council service was led by Don Egan, chief justice of the State Supreme Court. The Scripture was read by Miss Sue MacIntyre, who was led by Miss Elizabeth Neubert.

The mission, who developed literacy charts and teams of workers to teach illiterate adults to read and write by the "Each One Teach One" method, said he was glad that America is running scared and that American people are really scared with a "time is running out" feeling.

"Literacy is the key to world peace and plenty," Dr. Laubach emphasized. He reported that 70 million people in the world are illiterate and that America is the only country that has a literacy program.

Dr. Laubach reiterated, "Democracy is difficult in a literate country. Democracy is impossible in an illiterate country," he declared.

Rocke Peace Corps The speaker said he was "glad President Kennedy had started the Peace Corps" and hopes "we get it going in a hurry."

He urged young people to "back him up" with letters and congratulatory notes.

Dr. Laubach also suggested that young people write letters to President Kennedy supporting the proposal of the Laubach Fund to enroll members of the armed forces in the literacy campaign.

"There are a million men in our armed forces stationed outside the United States, at least half of them in undeveloped countries. These boys have free time, and are in many places bored to death," the speaker asserted.

He proposed that servicemen be trained in the "Each One Teach One" system to teach illiterate wherever they find them. "Thousands of them would jump at the chance to be helpful, and they could be a mighty force in winning friends and influencing people," Dr. Laubach said.

The Laubach Literacy Fund is offering to train members of the armed forces in addition to training 250,000 missionaries and 48,000 foreign students now in America. He said tourists going abroad are also being trained, especially in teaching English.

America is to blame for the fact that half the people of the world go to bed hungry at night, Dr. Laubach said, because we have been "hoarding" philanthropy.

He explained that we have invested \$500 million in the United States, but we have not invested \$500 million in the rest of the world.

### Hospital Visited By Nurses Club

Mrs. Alice Stone, nurse at RHAM High, took 24 freshmen and sophomore members of the Future Nurses Club on a recent tour of Hartford Hospital.

The club visited the intensive care unit, the pediatric ward, the medical and surgical wards, the student classroom, swimming pool (which of course drew many admiring glances and questions) and the student nurse dorms.

During an informal question and answer session, the club members learned about the different areas of nursing that can be entered after basic training. They also learned there is a great deal of studying and classroom required.

Mrs. Stone felt the visit helped clarify what the nursing field really is, and what must be done to enter it. The Hartford Hospital has a new nursing school which will start for Junior and Senior High School girls.

RHAM Student Council has purchased an attractive display cabinet which has been installed in the hall at the entrance to the school. The cabinet at present contains a very interesting display of articles which will be changed from June 16 to the senior class banquet date of the coming year.

Mr. Charles D. Fenwick, principal of RHAM, has been elected vice president of the Connecticut State Association of Principals for the coming year.

Mrs. Alice Stone, RHAM nurse, reports that 100 students had the complete dental treatment of cleaning and fluoride application this year. The purchase of a dental cabinet for the school is a great step toward better dental care for the school is now complete.

Letters have been received by the Regional Board from the Marlborough and Andover Boards of Education approving the change in hours at RHAM School next year.

The board has voted that the school will close at 2:15 p.m. in the future. The Little League will use the school grounds for parking.
