## Reds to Move Stalin's Body

Moscow, Oct. 30 (AP)—Five thousand cheering delegates and officials at the Soviet Communist Party Congress voted today to remove the body of Joseph Stalin from its place beside Lenin in the big tomb on Red Square.

The congress action came in the wake of speeches by premier Khrushchev and others denouncing the longtime Soviet dictator as a murderer and instigator of mass repression against Communist and Army leaders. Khrushchev said as a result of Stalin's purge, the Soviet Army's efficiency was at a low ebb at the time of the German attack in 1941.

Yesterday the Mausoleum, which thousands visit each day, was suddenly closed, "for repairs," a police guard on duty there said. The closing, coupled with Khrushchev's speech, was a tipoff to the subsequent action.

The name of Stalin, put alongside Lenin's on the tomb when his embalmed body was placed there in 1953, will be removed. The monument now will bear the name of the former modern-day communist, Vladimir Il'yich Lenin.

There was no immediate announcement where the embalmed body of Stalin will be placed. The proposal for the removal was made in the Congress in the Kremlin by Ivan Spiridonov, first secretary of the party in the Leningrad region.

It was promptly endorsed by the Moscow delegation in whose territorial jurisdiction the tomb is situated.

The motion was also supported by a representative of the dele-

JOSEPH STALIN

## Nikita's Party Fight May Ease Cold War

By WILLIAM L. BYAN  
Berlin, Oct. 30 (AP)—A communist party resolution ordering the removal of Stalin's mummified remains from the gloomy tomb on Red square is nothing less than a revolution for the Soviet Union.

It is bound to have profound repercussions and eventually may mean the weakening of iron control over the Soviet People.

The resolution means that Nikita Khrushchev has won his war with his opponents inside the Soviet Party after six years of struggle. But the Soviet Party now will need time for housecleaning and readjustment. Therefore, dangerous crises like the one in Berlin may be averted for a while.

The explosion of the Monster K-bomb (K for Khrushchev) may therefore mark the high peak of the world crisis in its present phase. Now the U.S.S.R. and the Communist world are probably going to need a little time to digest their internal revolution.

Stalin, at last will be buried and out of sight, but it will be a long time before Russians recover from the shock of learning that the man who ruled them for three decades was the monster painted by Khrushchev and other Soviet Party Congress speakers. Hundreds of thousands of Russians

## State News Roundup

### Weekend Crashes Take Seven Lives

Seven persons lost their lives in traffic accidents in Connecticut over the weekend. Three persons died in a head-on collision on Rt. 44 in Barkhamsted Sunday. A teenage boy was seriously injured in the accident.

In Greenwich, a Springfield, Mass., man was crushed under a trailer-truck when it rolled up over the back of his car Sunday night.

A pedestrian was fatally injured when he was hit by a car on Derby avenue in Seymour last night. Saturday night a man and a boy were killed in separate accidents in Eastern Connecticut.

The victims of the triple fatality were George S. Diugos, 44, and his wife, Lorraine, 42, of Pittsfield, Mass., and Maurice H. Demers, 46, a Hartford fireman.

The Diugos son, George Jr., was taken to Litchfield County Hospital where he was said to be in fair condition.

State police said Demers hit a post on Rt. 44 and skidded 200 feet into the Diugos car.

The accident on the Connecticut Turnpike in Greenwich occurred while James S. Williamson, 40, of Springfield, was giving a push to another motorist who had engine trouble.

A truck driven by Roy T. Fleming, 39, of Hickory, N. C., ran up over Williamson's car from behind crushing him, police said.

In Seymour, 44-year-old Joseph Segay was struck by a car while walking in the street near his home, Derby avenue has no sidewalks in that area.

A Jewett City man, Woodrow Reed, 31, was killed in that town Saturday night when he lost control of his car and hit a truck on Route 12.

Thirteen-year-old Philip White of Voluntown lost his life about the same time in Brooklyn when a car in which he was a passenger went out of control and struck a tree.

The driver, Kenneth Lehto, 24, and another passenger, Roger Metzger, 17, were admitted to Day Kimball hospital in Putnam in serious condition.

### Weekend Fires Costly

A series of fires laid a heavy and costly hand on Connecticut during the weekend.

The most serious all but wrecked the largest building of the Holy Apostles Seminary in Cromwell, causing damage estimated at \$225,000.

The fires were the first of the weekend in that town. The flames raged out of control for more than two hours Saturday night in the building on the seminary grounds known as St. Paul's.

# Superbomb Fired by Reds, May Be Over 50 Megatons

Prof. Arne Bjerrhammar of the Geodetic Institutut at Stockholm University, looks at recordings from today's reported Soviet superbomb explosion as registered in the Swedish capital. (AP Photofax)

## Man's Biggest Blast Seen Bringing Scorn

Defying world opinion, the Soviet Union today set off in the Arctic the mightiest man-made blast in history. European scientists said it was at least 50-megaton strength and might be larger, perhaps even in the 100-megaton range.

U.S. authorities withheld an estimate pending receipt of further information.

Swedish scientists said the bomb might be as much as 2 1/2 times as large as the big Soviet blast just a week ago that sent waves of fear around the earth and brought protests from all sides.

That one was placed in the 30-megaton range—the equivalent of 30 million tons of TNT. A Swedish defense spokesman noted that "if today's blast was 2 1/2 or more times stronger it would place it in the 100-megaton range."

There was no immediate reaction from President John Kennedy who learned of the Soviet bomb blast this morning at the ranch home of Sen. Robert S. Kerr, D-Okla., in Poteau, Okla.

The president learned of the explosion shortly before he left Poteau by helicopter for Fort Smith, Ark., to board his jet plane for Washington.

Only last Friday, 87 nations of the world at the United Nations had adopted a resolution appealing to the Soviet Union to call off the 50-megaton test. But Premier Khrushchev brushed aside all pleas as "hysterical clamor."

Khrushchev told the 22nd Soviet Communist Party Congress two weeks ago the nuclear testing resumed in September "probably would end with the explosion of the superbomb. He said it would be in the 50-megaton range, and added that the Soviet Union had a 100-megaton bomb but would not explode it.

From the week-old blast was moving across Eastern Canada and the northeastern United States. Danish meteorologists reported radioactive fallout from the new superbomb would move across Northern Siberia on westerly winds.

"This looks like Premier Nikita Khrushchev's reply on my appeal to stop the tests," Premier Tage Erlander of Sweden said bitterly in Stockholm. He sent Khrushchev a personal appeal last week.

The British foreign office issued a statement declaring the superbomb test showed "a wanton disregard for the welfare and safety of the human race." The British predicted there would be universal indignation.

"Eighty-seven nations appealed to the Soviet leaders to spare the world the explosion of the 50-megaton bomb, which endangers the peace of the whole of humanity," the statement added.

In Copenhagen, Premier Viggo Kampmann of Denmark expressed deep concern that the Soviet Union went ahead despite the opposition among peoples of the world. Denmark was one of the sponsors of

## Man's Biggest Blast Seen Bringing Scorn

Adlai Labels USSR Action Leap Backward

## Wind Pushing Bomb Fallout Southeastward

Washington, Oct. 30 (AP)—The U.S. weather Bureau said today wind patterns indicate that the fallout from the newest Soviet Superbomb is moving southeastward from its point of detonation.

The bureau said this could place the new radiation track somewhat east of the fallout cloud of a week ago, which proceeded due south initially and then turned east.

Dr. Lester Machta of the bureau emphasized that it was too early to determine the new fallout pattern with any hope of accuracy, or to predict the course it might take ultimately.

## Armed Forces Urged To Provide Shelters

Washington, Oct. 30 (AP)—The Defense Department, now custodian of the civil defense fallout shelter program, has decided the military should do something about providing protection for its own people.

Since the Department received the responsibility for the shelter program last summer, it has been busy telling civilians how to build their own shelters—and has done virtually nothing about increasing the handful of shelters the military had built before the national effort began.

In a new memorandum which came to light today, Deputy Secretary of Defense Roswell L. Gilpatrick told the service secretaries and his own manpower and installations officials that:

"Study should be initiated promptly to determine actions which are available to serve the dual purpose of protecting personnel and offering tangible evidence that the military establishment takes civil defense seriously."

Gilpatrick wrote that there is "growing public interest in any evidence, or lack of it, that the Department of Defense, the armed services and military installations are taking civil defense measures."

## Adlai Labels USSR Action Leap Backward

United Nations, N. Y., Oct. 30 (AP)—U.S. Ambassador Adlai E. Stevenson today accused the Soviet Union of pushing the world toward disaster by exploding its massive superbomb. The Soviet Union reported that the current tests were intended to prevent the United States from launching a nuclear war.

The clash occurred in the General Assembly's main political committee, where Soviet Delegate Semyon K. Tsarapkin cited the critical Berlin situation as the reason for the current series of Soviet nuclear tests, including today's explosion of a bomb said to surpass 50 megatons.

"Any moment war can start," Tsarapkin declared.

Stevenson charged that the Soviet Union had shown cynical regard for the United Nations and its appeal to the Kremlin not to fire a 50-megaton bomb approved last Friday night by a vote of 57-11.

Tsarapkin quoted at length from Premier Khrushchev's statement explaining the Soviet government's reasons for going against world opinion to carry out the bomb tests. Then he added:

"In order to prevent a nuclear and rocket war, all measures must be taken. And one of these measures which can prevent you from launching a nuclear weapons war is to increase the defensive position of the Soviet Union. This is why we do it."

Stevenson said there was no justification for the explosion of the gigantic bomb except "for intimidation."

"If this is what Mr. Tsarapkin calls Soviet realism," the chief U.S. spokesman said, "we shall not be surprised."

## News Tidbits from the AP Wires

Advisory group recommends that Social Security Administration carry on long-range research in broad field of human resources and social welfare... Battle Creek, Mich., Negro announces that he and his family plan to move to Africa because "I'm sick of prejudice which is just as prevalent in the North as in the South."

The unit now moving out is Company D, 12th engineer battalion. It is going back to its home station at Mannheim, West Germany. The company was rushed to Berlin Aug. 20, with the first battle group, 18th infantry, on President

## U.S. May Agree to Show Cards To East Germans at Berlin Line

By JOHN M. HIGHTOWER  
Washington, Oct. 30 (AP)—The United States, seeking a peaceful end to the Berlin dispute, has decided to try to make a bargain with Russia that could involve U.S. agreement to show official identification documents to East German border police.

Llewellyn Thompson has been instructed to make a new approach to Soviet Foreign Minister Andrei A. Gromyko early this week.

Officials said the Kennedy administration has decided that the East German demand to see identification cards of U.S. officials when they enter East Berlin does not threaten Western interests enough to bring on a shooting conflict. The British have been showing identification cards for some time.

The possibility of a deal is being considered under which Soviet authorities going into West Berlin would have to submit credentials to West German police. There was also discussion of bargaining for an increased number of crossing points into East Berlin for the Western allies if the United States is to accept the showing of credentials to East German police.

Washington would like Moscow once again to take a Soviet official's direct Russian authority at the border. But Gromyko is understood to have turned that down cold already. Thompson had an initial meeting with him in Moscow Friday. The State Department called the session unsatisfactory but decided to try again.

If a deal is made, it obviously would involve modification of U.S.

## Russians Lift Autobahn Tie

Berlin Oct. 30 (AP)—U.S. Military units from West Berlin traveled to West Germany today on the Autobahn line without hindrance from the Russians, who stopped two American vehicles yesterday.

The U.S. command in Berlin described the movement as a redeployment. It said the departing units will be replaced shortly by a company of engineers, leaving the Berlin garrison at 6,500-man strength.

The movement actually got underway yesterday. The Army disclosed, even as the Russians halted two U.S. military assistance vehicles from entering the Autobahn from Berlin at the Babelsberg checkpoint. A third assistance vehicle later was allowed to proceed.

The unit now moving out is Company D, 12th engineer battalion. It is going back to its home station at Mannheim, West Germany. The company was rushed to Berlin Aug. 20, with the first battle group, 18th infantry, on President

(Continued on Page Thirteen)

## Navy to Haul Away Antarctica A-Waste

Honolulu, Oct. 30 (AP)—The Navy will conduct history's longest "garbage collection" to assure strict American adherence to a new international treaty involving ice-capped Antarctica, it was reported today.

Radioactive wastes from two nuclear power reactors to be built in the world's coldest continent will be picked up, perhaps twice a year, by ships from the United States. These nuclear ashes will be hauled to the United States for burial in special underground nuclear "cemetaries"—or disposed of in shielded containers at sea.

Roadtrips for collecting this component of the "garbage" of the atomic age will be about 24,000 miles, said Capt. Edward Conrad of the office of the Chief of Naval Operations, who stopped here en route to the Antarctic.

(Continued on Page Nine)

## Budget Estimate Raised, Deficit at \$6.9 Billion

By STERLING F. GREEN  
Washington, Oct. 30 (AP)—President Kennedy has increased his budget estimate for this fiscal year to \$89 billion and expects \$9.9 billion in red ink spending. The new estimates raise the virtual certainty that his next budget will cross the \$90 billion mark.

Nevertheless, Kennedy's autumn budget review again assured taxpayers that the fiscal 1963 budget, to be sent to Congress in January, will be balanced—"barring extraordinary and unforeseen defense requirements." Fiscal 1962 is the current government year, which ends next June 30.

The third and latest Kennedy revision of the 1962 budget, originally drafted last January by outgoing President Dwight D. Eisenhower, was issued yesterday. Eisenhower had forecast a shaky \$75.5 billion surplus. The new report restated the Kennedy administration's contention that Eisenhower was over-optimistic and should have predicted a \$700 million deficit.

The review was packed with explanations and arguments defending the turn of fiscal events against Republican charges—of extravagant and inflationary non-essential spending.

"In this economic setting, with the economy now gathering steam but still short of full employment, a budget deficit of the size currently estimated for fiscal 1962 is not inflationary."

While tax collections are being held down by the recent business recession to an estimated \$82.1 billion, the review said, the military build-up for Berlin, the speed-up of space exploration projects and other cost increases have pushed

## 6 Dead, 6 Lost In Snowfall

Denver, Oct. 30 (AP)—Six persons were dead and six others were missing today in the wake of a storm that brought wind, rain, snow and ice to the Rocky Mountain states.

Up to two feet of snow blanketed parts of Wyoming and Colorado, halting traffic and stranding scores of hunters and motorists.

Winds in gusts up to 55 miles an hour ripped across a south-west Wyoming, sculpturing snowdrifts eight feet high. East of Rock Springs, Wyo., on busy U.S. Highway 30, 53 big trucks were stalled or jackknifed across the icy road.

Four of the deaths—three in Wyoming, one in Colorado—resulted from traffic accidents on treacherous roads.

A Conifer, Colo., man died of a heart attack while digging out his snow-covered automobile. In Montana, a man sought for a slaying in Missouri was found asphyxiated in the cab of a pickup truck. He had built a fire in a pallet to keep warm.

## Bulletins Culled from AP Wires

KEN HITS SINGLE PARTY  
San Antonio, Tex., Oct. 30 (AP)—Former President Dwight D. Eisenhower opened a day of campaigning for a Republican candidate for Congress today with a plea for two-party government in largely Democratic Texas.

"Any party that is in power too long," Eisenhower said at a news conference, "can become indifferent to the need for integrity and efficiency in government."

KATANGA FIGHTS INVADER  
Elizabethville, Katanga, Oct. 30 (AP)—Katanga forces hit back with bombs and bullets today as Congolese troops advancing on Katanga, departmental town near Kasai's border with South Kasai, made possible sources returning from Katanga tonight said fighting raged throughout regime's forces in the region were estimated at a battalion—about 500 men. Facing them were a company of Katanga gendarmes.

JFK HEADS FOR DO  
Fort Smith, Ark., Oct. 30 (AP)—President Kennedy left for Washington by jet plane at 8:59 a.m. CST today after an overnight visit at the home of Sen. Robert Kerr in Eastern Oklahoma. Kennedy flew by helicopter from the Oklahoma senator's ranch about six miles south of Poteau, Okla., arriving at the Fort Smith Airport at 9:31 a.m. His estimated arrival time in Washington was 12:30 p.m. EST.

CONSERVATIVES WIN  
Athens, Greece, Oct. 30 (AP)—Greek conservatives led by Constantine Karamanlis won another four-year term today in a firm endorsement of the government's pro-western foreign policy and economic stability at home. The premier's rightist National Radical Union (ENK) surged toward a decisive victory with the gains coming mostly as the expense of the Communist-line Pan-democratic Agrarian Front (FAME).

### "THE WAY I HEARD IT"

by John Gruber

I was sorry to discover that not too many of you turned up at the State Theater for the ballet program the other evening. It really was an excellent film presentation by the Bolshoi Ballet, one of the standard works in this field.

Russian ballet has dominated this form of entertainment for many years, and first started the world when Diaghilev organized his troupe in Paris before World War I. Before and probably never again, were so many great masters associated with a theatrical enterprise.

Just imagine, Puccini and Bakst were scenic artists for the troupe. Composers included Ravel, Stravinsky, and de Falla, amongst others. Brich Latsynski got his start as a conductor with this troupe. And the roster of dancers was tremendous, headed by the legendary Nijinsky.

Stravinsky started as an arranger for the orchestra, but was shortly graduated to composing. His first ballet was a sensation, "The Firebird," with choreography by Fokine. Subsequently he wrote several other ballets, including the still controversial "Rites of Spring," practically all of which receive regular productions today.

I note that "Firebird" is among the other offerings to be seen at the State and is billed for Nov. 21. This time the ballet company will be the Sadler's Wells troupe, headed by Margot Fonteyn, who is known now as the "Royal Ballet" and patronage from the British government, but I got used to thinking of it as the Sadler's Wells

### Rockville-Vernon Little League Plans Expansion

Proposals to expand farm teams to increase the number of regular teams and to establish a women's auxiliary are scheduled for discussion at the annual meeting of the Rockville Little League Inc. which will be held at 7:30 at the Lottis Park Memorial Building.

Officers for the coming year will be elected at the meeting. The expansion of farm teams would result in a division of the farm teams into city and rural groups. During the summer, all farm teams were divided into city and rural groups.

At that time most people's idea of a ball was widely disseminated. It was called "September Morn" and the stage word for this one was "The Ball Game" with coaching by Bakst. Wow, what a jolt!

It won't be that sort of jolt when you see it at the State, for nowadays we are accustomed to the "Royal Ballet" and its "Firebird" still remains something that is initiated, not surpassed. It was the original wrench with tradition

### Bartlett Case Testimony In; Attorneys to Submit Briefs

The plea of former Police Sergeant Lester F. Bartlett for reinstatement to the Rockville police department is before Judge James P. Doherty today for decision.

At the hearing, testimony was given by several witnesses, including the judge who will review the evidence and make a decision on the case.

The hearing was held at the Rockville Police Station, and was attended by several members of the community.

### Sheinwold on Bridge

South dealer holds a valuable hand in a game of bridge.

The hand was dealt at a game in progress at the Rockville Club. The dealer was Mr. Sheinwold, and he held a hand that was considered very valuable.

The game was in progress, and the dealer was in a difficult position. However, he managed to play the hand successfully, and his opponents were forced to concede.

### Hospital Notes

Visiting hours are 9 to 5 p.m. for all rooms, except maternity, where they are 9 to 11 a.m. and 2 to 5 p.m. and private rooms, where they are 9 to 11 a.m. and 2 to 5 p.m.

Patients Today: 196

Admitted Yesterday: 186

Deaths: 12

Discharged: 174

### Something to Remember Us By

A gift of black nylon velvet from the Cheney Mills in Manchester was presented by Mrs. Olive Ray, president of the Cheney Mills Auxiliary.

The gift was presented to the Cheney Mills Auxiliary, and was a very thoughtful gesture.

The Cheney Mills Auxiliary is a very active organization, and they are always looking for ways to help the community.

### Police Arrests

David F. Cerbin, 33, of Fitzgerald Blvd., Coventry, was charged with driving a motor vehicle without proper use of markers.

The police officers were on patrol in the area, and they noticed the vehicle. They stopped the vehicle, and they found that the markers were not working properly.

The driver was arrested, and he will appear in court at a later date.

# Jurgensen Guides Eagles into Lead

Field Goal in Last 1:23 by Green Snaps Giants' Winning Streak  
New York (AP)—Johnny Jurgensen, who collected 31 points and an experience while Norm Van Brocklin was directing the Philadelphia Eagles, stepped in to guide the defending National Football League champions to the top of the Eastern Conference. The 27-year-old former Duke University star threw a 33-yard touchdown pass to the team's first receiver, Tom Moore, in the second quarter. Jurgensen, who had been the team's backup quarterback, took over after Van Brocklin was injured in the second quarter. He led the team to a 21-17 victory over the Pittsburgh Steelers. Jurgensen's performance was a key factor in the Eagles' success, as they moved into first place in the Eastern Conference. The team's defense was also strong, with several key plays that helped them secure the win. Jurgensen's leadership and accuracy were crucial in the final moments of the game, as he kicked a field goal to seal the victory.

# Raiders Win No. 4 in Pony Play, 22-0

Striking while the iron was hot, Manchester's Raiders scored two opening period touchdowns and added another in the second quarter as it whitewashed Plainville, 22-0. The Raiders, who are the fourth-ranked team in the Pony League game at Memorial Field, were led by quarterback Dan Sullivan, who threw for 100 yards and two touchdowns. The team's defense was also solid, with several key plays that helped them secure the win. The game was a dominant performance for the Raiders, as they controlled the game from start to finish. Sullivan's performance was particularly noteworthy, as he showed great accuracy and leadership on the field. The Raiders' defense was also a key factor in their success, as they kept Plainville's offense from getting any significant yardage. The win moves the Raiders up in the standings, and they are now looking to continue their winning streak.

# Rules Makers Out to Check Head Injuries

Birmingham, Ala. (AP)—Concerned by an increase in injuries on the playing field, college football rules committees are exploring the possibility that the plastic helmet used by players is the cause. The committees are looking at ways to make the helmets safer, and are considering changes to the rules of the game. The increase in injuries has been a major concern for the sport, and the committees are taking steps to address the issue. They are looking at ways to make the helmets more resistant to impact, and are also considering changes to the rules that might reduce the risk of injury. The committees are also looking at ways to improve the way that injuries are treated, and are considering changes to the way that players are protected on the field. The goal is to make the game safer for all participants, and to ensure that players are able to enjoy the sport without the risk of serious injury.

# No Bowl Bids This Season Bulls Use '12' Players In Turning Back UConn

There won't be any bowl bids for the University of Connecticut football team this season. The team's record of 12 wins and 12 losses is not good enough to qualify for a bowl game. The team's performance has been disappointing, and the coaching staff is looking at ways to improve the team's performance. The team's offense has struggled, and the defense has also had some problems. The coaching staff is looking at ways to improve the team's performance, and is looking at ways to make the team more competitive. The team is looking at ways to improve its offense, and is also looking at ways to improve its defense. The team is also looking at ways to improve its special teams, and is looking at ways to improve its overall performance. The team is looking at ways to improve its performance, and is looking at ways to make the team more competitive.

# Close Scores in Midget Football Devils and Fighters Triumph, Safety Margin for Bluecoats

Capturing two hard fought Midget Football League victories before an estimated 300 fans at Mt. Nebo Field yesterday were the Blue Devils and Fire Fighters. The Devils defeated the Crusaders, 8-6, on the strength of a second period field goal. The Fighters defeated the Crusaders, 12-6, on the strength of a second period field goal. The Bluecoats defeated the Crusaders, 12-6, on the strength of a second period field goal. The game was a close contest, and the teams played hard throughout. The Blue Devils and Fire Fighters were the favorites, but the Crusaders put up a strong fight. The Bluecoats were also a strong team, and they were able to secure the win. The game was a good one, and it was a good example of the level of play in the Midget Football League. The teams played hard, and the fans enjoyed the game. The game was a good one, and it was a good example of the level of play in the Midget Football League.

# Acid Test Saturday For Football Powers

New York (AP)—Call it the moment of truth, or whatever, but Michigan State, the nation's No. 1 college football team, and second-ranked Mississippi will be put to the acid test this Saturday. The game is being played at the University of Mississippi, and it is expected to be a high-scoring affair. Michigan State is the favorite, but Mississippi is a strong team, and they are looking to make a statement. The game is being played at the University of Mississippi, and it is expected to be a high-scoring affair. # Center of Learning Small Schools Triumph As Big Sticks Defeated

Connecticut colleges had another 80-80 weekend on the gridiron. The big boys, Yale and the University of Connecticut, were among the four losers. In the win column were Trinity, Southern Connecticut, Coast Guard and Bridgeport. The game was a close contest, and the teams played hard throughout. The big boys were the favorites, but the smaller schools put up a strong fight. The game was a good one, and it was a good example of the level of play in college football. The teams played hard, and the fans enjoyed the game. The game was a good one, and it was a good example of the level of play in college football.

# Like Lambs Led to Slaughter-- Worst Defeat in Modern Times Parade of Scores Sinks Indians, 56-4

By FRANK CLINE  
Wonder if the bloke or blokes who insisted on dropping East Hartford and picking the Indians for a game at the school of the Hornets in the Capital District Conference schedule are satisfied? The Indians' defeat was a shocking one, and it was a good example of the level of play in the Capital District Conference. The Indians were the favorites, but the Hornets put up a strong fight. The game was a good one, and it was a good example of the level of play in the Capital District Conference. The teams played hard, and the fans enjoyed the game. The game was a good one, and it was a good example of the level of play in the Capital District Conference.
