Copentry Town Meeting Vote Due on Extra \$10,150

A special town meeting at the Robert Johnson will seek approval of additional appropriations totaling \$10,150, and authority to sell a parcel of land at public auction.

An additional appropriation of \$7,000 is being asked for snow removal. As of Feb. 21, \$12,971.25 had been expended from the \$13,000 appropriation for this account.

First Selectman Charles E. Nyack pointed out that this year for the first time the repairs to the plows and sanders have been included in the snow removal account to give a better picture of the cost of this work.

Nyack also said that when plowing each truck covers the road four times with the second trip ground for widening before sanding is done.

The second item on the agenda will ask for an additional appropriation of \$2,200. Of this \$2,200 is for repairs and maintenance of the original appropriation of \$3,800 for this account.

The balance of the \$200 is to replace the like amount which was reimbursed by an insurance company and turned over to the town's General Fund.

The final item on the agenda requests action to petition the selectmen to sell at public auction for a sum less than \$2,000 approximately 12 acres of land on North River Rd. The board has had no offer in this amount for the property from which the town has already taken considerable gravel and fill, Nyack said.

Copentry Players will present Agatha Christie's "The Uncollected Clue" on March 20 and 31 at Copentry High School auditorium.

Mulcahy Emphasizes 'Defensive Driving'

MARTFORD (AP)—Leo J. Mulcahy, state police commissioner, looks the occasion of recent storms to remind motorists of some good driving practices.

He offered 28 suggestions to help them improve their "defensive driving." All experienced drivers know these rules but sometimes they forget to follow them and tragedy results.

These are the rules: Slow down at sudden. (Mulcahy said temperatures fall as the sun sets and sudden freeze-ups occur on the highway.)

Slow down before you enter a fog bank, not in it. (Fog banks are common this time of year and can be very serious trouble for a motorist.)

Remove snow from cool winds of defrosters. (Otherwise, damp air drawn into your car can cause blinding fog.)

Don't panic and hit brakes. (This will only cause your brakes to lock and your car to skid.)

Avoid stopping on gas pedal when rounding slippery curves. (Sliding skids can carry windshields on oncoming cars.)

Hitting skids can carry windshields on oncoming cars. (This can start an oncoming motorist, or momentarily blind him — and he might hit your car.)

Keep windows and rear view mirrors clear. (Deer windows and rear view mirrors clear, keep up with traffic.)

Don't stop too closely in traffic. (Not only is this dangerous, but it will also keep your car from shifting with dirt and mud.)

Watch out for puddles. (Hitting a puddle at high speed can cause you to lose control.)

Keep gasoline tanks filled at all times. (NOT only will this help you with sufficient fuel in case of a bad traffic jam, but it will help reduce water condensation in your tank.)

Keep a car window partly open. (This is as a precaution against windshield fogging and carbon monoxide poisoning.)

Keep off the highway when you stop to wipe your windshield. (Check equipment or for any other reason.)

A directional sign gives you no right of way. (The law says you must turn on headlights, not parking lights, one half hour after sunset.)

One brake light out makes a directional signal of the other when you pump brakes. (Stay in line during traffic slow-downs.)

Don't change lanes without signaling. (Don't make right turns from the left lane, and vice versa.)

Don't yield sign means you don't stop to wipe your windshield. (Don't let your car "hang" over stop signs, traffic lanes and pedestrian crosswalks.)

Paint Party Set By Art League

A mural will be painted by members of the East Hartford Art League at the informal painting party Thursday at 8 p.m. at the Art League's Memorial Clubhouse, Sunnyside, East Hartford.

Hardened Arteries Hardening of the arteries is a major cause of heart attacks in the United States and a recent study in New Orleans indicates it can have a good start in boys by the time they are 10.

PHONEY MONEY MAKERS MILAN, Italy (AP)—Police said a plugging of the artery channels — as white females. The difference decreases after age 40. No such clear-cut difference exists between the sexes among Negroes because Negro women do not seem to share the immunity of young middle-aged white women.

# Major Snowstorm Heading Eastward

By THE ASSOCIATED PRESS  
 Another major snowstorm—the second in four days—battled the Connecticut today and headed for the northeastern states.  
 The storm dumped heavy snow in a wide band stretching from the eastern Rockies into western New York and Pennsylvania.  
 It followed the same path as the weekend storm which plastered eight states with up to two feet of snow and sheets of ice.  
 Hundreds of schools closed in Iowa which received nine inches of new snow with two or three more expected. Roads were closed or limited to one-way traffic in many places.  
 Two deaths in Iowa were attributed to the new storm.  
 Specter, Iowa, had nine inches of new snow raising the ground cover there to 19 inches.  
 Schools also were closed in Omaha and other areas of eastern Nebraska.

## News Tidbits

**State Comptroller Raymond S. Thatcher** pointing to expected over-spending of \$19.2 million by state agencies in 1962, called for a general fund deficit of \$21.8 million.

**Dr. J. Edgar Hoover**, director of Federal Bureau of Investigation, said that 41 high school basketball tournaments were postponed.

**In South Dakota**, about 100 persons and the Augustana College basketball team remained in Vermillion after a game with South Dakota State because of poor visibility caused by blowing snow. It was the second time in three days the team was marooned by a snowstorm, having been forced to remain in here for 16 hours Sunday while returning to Sioux Falls from a game in Sioux City, Iowa.

**Outside the snow area**, showers drenched southern parts of the Mississippi Valley, snow flurries flicked northern Maine and the southern Flatland region and rain and showers again hit southern California.

## Five Children Asphyxiated As Stratford Home Burns

The alarm was turned in shortly before 4 p. m. Firemen said home was burning furiously when they arrived.

It was the second disastrous fire in this area in about two months. Five brothers and sisters perished last December in a fire in their Stratford home. That blaze was attributed to an exploding space heater.

**THREE DIE IN FIRE**  
**POINT LOOKOUT, N. Y. (AP)**—A man and two of his children died today in a fire in a two-story house in Point Lookout, N. Y. The fire destroyed their home in this Atlantic oceanfront community. The wife and mother, who works as a waitress, was not home at the time of the fire.

Firemen listed those dead as John Hagerstrom, 46; his son, Neil, 6, and daughter, Christen, 10.

Two sons, Edward, 11, and John, 12, were badly burned and taken to a hospital.

The fire in the one-story frame house at 92 Hewitt Ave. was discovered at 1:20 a. m. The cause was not immediately determined.

## Rockville-Vernon Tax Reform Law Urged For Region

Area civic leaders here urged today a sweeping proposal for regional tax reform to be referred to the next session of the General Assembly for enactment.

The recommendation was made last night to directors of the Rockville-Vernon Chamber of Commerce and by Seymour E. Lavitt, chairman of the chamber's industrial unit.

He urged adoption of the proposal as the alternative to continued bitter, local fighting over alteration of industry.

Reaction among the approximately 15 listeners ranged from coolness to cautious support. "I'm not sure we should be so 'drastic' in our recommendations," said one.

The chamber directors will presumably decide in their next meeting whether to press for a bill to support a plan to set up an industrial tax authority in the chamber area covering Ellington, Tolland and Vernon.

The industrial unit chairman, outlined the tax force proposal last night. He said the tax force would be a tax authority to be established to take over the tax force for the region.

He said the tax force would be a tax authority to be established to take over the tax force for the region.

## Rockville-Vernon Also Sees National Stake In Election For Democrats

John Alop of Avon told Vernon Republicans and guests last night the fall elections in Connecticut will end in Republican victory, a blow to the reputation of the Democratic national administration.

The reputation of the national administration is at stake, he said. The result will have national significance.

Also, the first of a number of contests for the GOP governor dropped about 50 years last night at Legion Hall.

He said Democrats are set for a tough year in Connecticut. The presence on the local scene of state and national chairman John M. Bailey and the Senate candidate of former Governor Hubert H. Humphrey are evidence of that, he said.

Also predicted Democrats "are going to throw the book at us (with) all kinds of money—Kendry money, union money."

The Republican Party can be turned into a Republican victory, he said.

Also forecast President Kennedy campaigning in Connecticut for the Democratic candidates and party leaders "who did so much for the state."

He said the GOP recognizes the key issues in Connecticut, such as:

## Budget Requests Are Due Today

Budget requests for the 1962-1963 fiscal year were submitted to the general manager's office today, the final day for department heads to turn in their requests for the new budget.

Most of the departmental budgets reflect salary and wage increases based on normal increments. Some are increased because of the purchase of new equipment.

## No Head Patting

P.J. Islanders, proud of their frayed, upstanding hair, consider it poor taste to touch another person's head. It means almost certain death to do so at one time.

**13 UNIONS ABSOLVED**  
 Washington (AP)—The National Labor Relations Board today absolved two unions of illegal picketing, thereby reversing decisions made a year ago when Eisenhower administration appointees dominated the board.

## How to invest in freedom on the installment plan

You can't buy freedom. For cash or installments or any other way. It's not for sale.

You can make a sound investment in freedom, though, by investing in U.S. Savings Bonds. Just \$4.33 a week on payroll savings where you work will buy a \$25.00 Bond each month.

As your savings grow, built up by 8 1/2% annual interest, you get closer to financial freedom—a desirable state for each of us if America is to be financially strong.

At the same time, your dollars go to work for another kind of freedom... the kind you'll find fully described in a document conceived nearly two centuries ago at Independence Hall.

Start buying Bonds where you work now. When you do, you'll be joining 8 million Americans who have signed up for a regular share of freedom each month.

Bulletin Guides Roofing Projects

Roofing materials, their cost, and how to install them are discussed in a new Farmers' Bulletin issued by the U.S. Department of Agriculture.

"Roofing Farm Buildings" is written for farmers and home builders and home owners also will find the information useful. The new bulletin was prepared by USDA's Agricultural Research Service, says Marvin Hett, extension agricultural engineer at the University of Connecticut. It describes and pictures wood, zinc, asbestos cement, bituminous, metal, and canvas roofing materials and tells how to estimate the amounts needed for different roof types. Instructions also are given for installing gutters, eaves, downspouts, and snow guards.

Tables list the weight and approximate cost per square (100 square feet) of each material, the area covered per roll by roll materials, and the minimum roof slopes on which the various kinds of "in" should be laid.

The bulletin recommends an initial investment in good-quality, long-lasting roofing for permanent buildings because maintenance, repair, and replacement costs for low-quality roofing may prove more expensive in the long run. Dwellings and other important buildings, and those grouped together, should be roofed with fire-resistant materials, if possible.

Single free copies of this bulletin are available from the Publications Room, College of Agriculture, University of Connecticut, Storrs.

Barrels Checked Fast STAMFORD, Conn. — A new optical system designed and built by a Stamford engineering firm is so accurate it can tell in one minute the straightness of a 30-foot iron pipe barrel to within .0001 inch. This means that if any section of the barrel is out of line by as little as one tenth the thickness of a human hair, the checker will indicate the error.

Scientists Teller CAMBRIDGE, Mass. — The latest Englishmen are professional men and the latest professional men are Fellows of the Royal Academy. Prof. Dudley Allen Seargent, of Harvard has found, in his opinion, members of the National Academy of Sciences are taller than the general population.

Pontiac Grand Prix Coupe

Many Models Offered In Pontiac for 1962

The new Pontiacs are in great demand this year for the American public is aware of the workmanship that goes into the Pontiac line. Paul Dodge Pontiac, Inc., 373 Main St., is proud to show the many beautiful Pontiacs for 1962.

The one trouble the average person has in making up his mind just which one of the many beautiful models to choose. For instance, there are seven models in the Catalina line, two in the Star Chief, four in the Bonneville and the sports model, Grand Prix. The Grand Prix is the most beautiful priced model with the addition of a convertible coupe.

Luxury comes alive in the '62 Bonneville, this new Pontiac has the luxurious lines of a real road car, yet the turning radius has been reduced nearly three feet—looks long-handled light.

The Grand Prix is the permanent.
