

Shippers to Decide On Strike Accord

NEW YORK (AP)—Members of the 145-company New York Shipping Association meet today to act on the dock strike settlement terms proposed by a presidential mediation board.

Wm. Wayne Morse, D-Ore., chairman of the board, predicted Monday that the shipping industry will settle the longshoremen's strike in the next few days.

Morse said the main problem remaining is whether industry union representatives on the

Invaders Kin, Americans Set To Quit Cuba

HAVANA (AP)—Between 900 and 1,000 relatives of Cuban invasion prisoners and up to 200 Americans are expected to leave Cuba for the United States this week.

The Swiss Embassy announced Monday night that the way had been cleared for the relatives of the former prisoners to sail aboard the American freighter Shirley Lykes, probably within a week.

An embassy spokesman said up to 300 American citizens living in Cuba also are scheduled to leave on two plane flights, one each on Wednesday and Friday. They are U.S. citizens being repatriated and have no connection with the prisoners' relatives.

Talks Get Under Way On Nuclear Test Ban

WASHINGTON (AP)—Great Britain and the Soviet Union launch here today a major new effort to reach a nuclear test ban agreement.

The conference is regarded as the best chance in almost two years to break the long deadlock. U.S. officials, however, lack their expressions of hope with words.

They stressed that many issues both major and minor will have to be solved, particularly the U.S. and Soviet differences over inspections to guard against test cheating.

In Moscow, Soviet Foreign Minister Andrei Gromyko dashed a little cold water on optimism. He told correspondents that the Soviet Union can agree to only three on-site inspections a year. The United States contends this is not enough.

The nuclear talks begin this afternoon when four Americans, four Russians and two Britons sit down at a conference table in the State Department.

Representing the United States are William C. Foster, director of the U.S. Arms Control and Disarmament Agency, Charles C. Stella, deputy U.S. representative at the 18-nation Geneva disarmament talks, and two officials not yet identified.

The Soviet delegation will be headed by Nikolai T. Foderin, Soviet ambassador to the United Nations, and Semion K. Tsvetkov, chief Soviet representative at the Geneva conference.

Britain's chief representative will be Sir David Ormsby Gore, ambassador to Washington, who was England's chief delegate to the Geneva talks.

Adenauer, De Gaulle Sign Friendship Pact

PARIS (AP)—West German Chancellor Konrad Adenauer and French President Charles de Gaulle today signed a comprehensive treaty of friendship between Germany and France, laying its seal centuries ago.

The chancellor, 67, who regards French-German reconciliation as the crowning achievement of his wartime political career, signed for his country, while French President de Gaulle, 70, signed for France.

The pact, which is the most important since World War II, is signed in the name of the French Republic.

It states that the two nations will cooperate in the fields of defense, education and culture.

The treaty calls for regular periodic consultation between the chiefs of state or government, and ministers and officials of the two governments to coordinate policy in the domains of defense, education and culture.

State News Roundup

Bank Robbed, Suspect Held

HARTFORD (AP)—A holdupman threatened a bank teller with a bottle of acid today and fled with an undetermined amount of money.

Hartford police arrested a suspect about 45 minutes later.

It was the second holdup in four days at the Park Street Branch of the Mechanics Savings Bank.

Only last Friday, the bank was robbed by a man who carried away \$1,255. A suspect was arrested yesterday in Springfield, Mass., charged against former Army Capt. Charles Clark, 35.

Today the bandit walked up to the bank at 11:30 a.m. and demanded that the teller put money in a bag and hold it in a bag.

The man carried a glass jar, about three inches in diameter, containing white liquid.

Within 45 minutes of the robbery, the man was arrested and positively identified as the robber. He is Donald Cordier, 22, of 814 Wetherfield Ave.

Cordier was arrested, police said, crouching behind a wall behind the bank.

The route led the detective north into backyards of Babcock St., where they started a search of houses.

A woman at 178 Babcock St. said she had heard some noise in the cellar and starting from the cellar, the police officers began a thorough search of the house. Cordier was found in the attic.

In an interview he explained his reasons for the robbery.

"We think the major reason where he was identified by the bank teller, was to remove one of the main obstructions to his freedom of movement. Now the Court government can get things rolling. Whenever there is a stability or independence of the Communist in the United States, it is greatly diminished, or even eliminated."

President Hails End Of Strife in Congo

WASHINGTON (AP)—President Kennedy has hailed the end of the Katanga secession and the return of the Congo to a single government.

In an interview he explained his reasons for the Congo operation.

"We think the major reason where he was identified by the bank teller, was to remove one of the main obstructions to his freedom of movement. Now the Court government can get things rolling. Whenever there is a stability or independence of the Communist in the United States, it is greatly diminished, or even eliminated."

Ward Cheney Passes

PEABOCK POINT, L. I.—Ward Cheney, last of his name to serve as president of Cheney Brothers, famed Manchester, Conn., concern, died here today after an illness of several months.

U.S. Drops Charges On Gen. Walker

OXFORD, Miss. (AP)—The federal government has dropped charges against former Army Gen. Edwin A. Walker and his wife.

Walker, who commanded federal troops at Little Rock, Ark., during the 1957 desegregation crisis, was arrested in Oxford, Miss., on charges of sedition and conspiracy to impede and injure officers of the United States Army.

The 52-year-old Texan, who resigned his commission in a dispute over troop indoctrination policy, said at Dallas, Tex., he was glad to be vindicated.

"My hopes return to those of Cuban and mission of others who want to return to their homes after having escaped from the jails and boundaries of a police state," Walker said.

Although U.S. Atty. Gen. Robert F. Kennedy, in a copyright interview with U.S. News and World Report, said the charges were that Meredith would quit school, there is strong sentiment on campus that the Negro under the civil rights law to the

U.S. Meets With Reds And English

WASHINGTON (AP)—Great Britain and the Soviet Union launch here today a major new effort to reach a nuclear test ban agreement.

Life Goes On Normally As Mercury Reads -38

INTERNATIONAL FALLS, Minn. (AP)—A logger says the trees around International Falls are frozen so hard the woodpeckers can't tell them from iron pipes driven into the ground for markers.

That's typical of the stories swirling in the northern Minnesota city that as often as not finds itself at the bottom of the U.S. mercury chart.

The mercury dipped to 34 below zero Jan. 10, and it has taken positive every day since. Not just a little below zero, either. Most days recently it's been 30 below or more. It was 23 Monday.

Surprisingly, such weather does little to slow down the normal activity of the town of 1700 most of it centered around the cutting of pulpwood that is turned into paper by a big mill here.

Oscar Bergstrom, a pulpwood operator, says he has an agreement that his men don't have to work in the woods when it's colder than 20 below.

Why is it so much better than 30? Natives say it usually is a quiet day, with little wind to bite into exposed skin.

Another story going the rounds is that the popping of trees in the woods is barely louder than the popping of hot oil and coal deep in the earth's crust.

There are those who charge that the trees give off loud bangs as their fibers are popped open by freezing of moisture in intense cold.

State Man Parachutes Uphill

Dave Arnold, 23, of Windsor, Conn., rides parachute today by truck on top of Lake Sunapee, Newbury, N. H. A student at New England College, Henniker, N. H., Arnold is a former Navy sky diver. He found he could take off with parachute when truck heads into wind and even a slow pace. He helped to manipulate chute. A height of 50-60 feet is reached with 100-foot line. (AP Photofax).

Civil Rights Contrasted in Russia, U.S.

NEW YORK (AP)—Atty. Gen. Robert F. Kennedy said today civil rights guarantees in the Soviet Union's constitution "have gone the way of many a New Year's resolution."

The attorney general, in a speech prepared for the 10th anniversary commemoration of the founding of the Republic, contrasted governmental action on civil rights in the United States and in the Soviet Union.

In this country, he said, much more remains to be done for the American Negro. The American Negro has made tremendous progress for other minorities.

Education—Desegregation of 28 more Southern school districts last year after constitutional action by the Justice Department and local officials.

Transportation—Discrimination in interstate travel has disappeared, with virtually all bus routes desegregated in 1961 and desegregation of airports following in 1962.

Voicing—Thirty-two suits were filed by the Justice Department under the civil rights law to the

Bus Fare Hearing Set

HARTFORD (AP)—The Public Utilities Commission today set a hearing on a proposed rate increase on Connecticut Company buses.

The hearing is set for 10 a.m. at Hartford, New Haven, and Stamford.

The proposed increase, formally requested last week, has drawn criticism from city officials, and the hearing is expected to take several days.

At the Hartford Division, the city proposed eliminating the 30-cent fare for the 30-minute ride from Hartford to New Britain, leaving all fares 20 cents, with the 30-minute ride from Hartford to New Britain at 30 cents.

Assistant Secretary of State G. Memnon Williams expressed belief that the U.N. success also had brought dividends to the United States.

"The U.S. participation in the U.N. operation," he said, "has greatly increased the respect of Africans for us."

Dinner Slated For Goldwater To Boost Fund

WASHINGTON (AP)—Republican colleagues are arranging a dinner salute to Sen. Barry Goldwater which they hope will produce a \$500,000 to help bail out financially strapped party committees.

No more 100-plate affair, the Goldwater testimonial is expected to attract sizable contributions from party financial agents who applied the "senator's first conservative views."

If it tends to implant the Goldwater image more firmly on the party, GOP liberals will not like it. But some of them commented privately there isn't much they can do to help.

Presumably the dinner, present scheduled for Feb. 21, will support the Goldwater testimonial. The dinner will be held at the Waldorf-Astoria Hotel in New York City.

Goldwater has been the prize attraction in Republican dinners since he was elected to the Senate in 1962.

Goldwater has retired from the post he has held for four years as chairman of the Republican National Campaign Committee.

He was succeeded by Sen. Thomas H. Morton of Kentucky, former party national chairman.

In agreeing to permit himself to be lauded publicly for the year he has spent in the Senate, Goldwater has been the prize attraction in Republican dinners since he was elected to the Senate in 1962.

News Tidbits from the AP Wires

Admiral Hyman Rickover, director of the Atomic Energy Commission nuclear reactor program, says at New York that a good leader should be paid more than a senator, or even an admiral.

President Kennedy tells Democratic senators today that he plans to send Congress special messages on an aid to education bill.

Upton Sinclair, Pulitzer Prize-winning novelist, says he is disappointed that the United States and Great Britain should form such common enemies.

Nearly half the states have failed to ratify the United States Constitution.

Nearly half the states have failed to ratify the United States Constitution.

Doctor Warns Profession Low In Public Eye

MIAMI BEACH, Fla. (AP)—A surgeon said today that the medical profession needs to improve its public image.

"We who once stood high in the esteem of mankind have, in the eyes of the public, become the laughing stock of the nation," he said.

Dr. Frank B. Stinchfield of New York City said in a speech prepared for the American Academy of Orthopedic Surgeons.

"Medicine is the best profession we have descended in. In the last year the medical profession stood and was counted on by the public as never before."

He said the public has a right to know the truth about the profession.

Dr. Stinchfield said the medical profession needs to improve its public image.

Income Tax II Figuring the Tax

EDITOR'S NOTE—There are several forms which citizens use to figure their income tax liability. This article, second in a series, explains the different tax brackets and how income is reported.

BY JAMES MARLOW

WASHINGTON (AP)—The two main forms for filing out your 1962 income tax returns are 1040 and 1041A. The latter, a punch-card form, is simpler.

Anyone can use 1040. People with \$10,000 or more income must use it. Only under \$10,000 people can use 1041A and only if they meet certain conditions.

On both forms you must figure your own tax if your income was \$1,600 or more.

You do this from the tax rate schedule on page 9 of the 1962 instruction sheet. See all the instructions about using the tax rate schedule.

On both forms under \$10,000 people can use 1041A if they meet the conditions.

You can use 1041A if you work for a company that has a qualified pension plan.

Sportsmanship of Highest Degree

When sportsmanship awards are being given to high schools on the basis of performance at athletic events I'd like to see a ball for Ellington High School. Last Friday night the Purple Knights' basketball team of Ellington led arch rival Rockville High on the hardwood court. Ellington, in its first career of playing the Rams, has yet to score a victory.

The largest crowd of the season jammed into the bleachers of Ellington High gym to watch the second meeting of the season between the two clubs. Rockville's Chris B. school, had won the first meeting between the two in the Wacky City 62-48. Ellington led practically all the way Friday night, by as much as eight points midway in the first period. The Rams sprang back to a 45-44 lead.

Each side had its share of outstanding student and adult spectators. The game with Ellington High was a good position to judge the school's basketball team. The rival players, coaches, referees and spectators exhibited the highest degree of sportsmanship throughout the tense and exciting struggle.

When a foul shooter, from either side, stepped to the line for a try, one could have heard a pin drop.

The winning basket was scored in the final seconds and the much anticipated game ended with a 60-56 victory for the home club. Ellington High was the victor in a game which was a real test of the school's sportsmanship.

Life Getting Tougher for Chamberlain in NBA

Rebound Pace, Point Average Off 1962 Pace

NEW YORK (AP)—Things are getting tougher for Walt (The Skull) Chamberlain of the San Francisco Warriors in the National Basketball Association. Chamberlain's rebounding and scoring averages are off from the 1962-63 season.

Chamberlain's rebounding average is 21.7 per game, down from 23.7 last season. His scoring average is 23.3 per game, down from 27.5 last season.

Bo's Leading Pitch a Screwball, That's Him, On and Off Field

NEW YORK (AP)—There are some who claim Bo Beltrami's best pitch is the one he makes off the field.

Beltrami, who ran into more trouble in his first season in major league baseball than Nipponese did at Waterloo, insists it is a screwball.

He says it without cracking a smile. Apparently he is going to get a chance to prove it one way or another during the 1968 season with the Los Angeles Angels.

Cats Remain in Top AP Poll For Hoop Fives

NEW YORK (AP)—Cincinnati's all-conquering Bearcats remained the undisputed leader among the nation's college basketball teams for the eighth straight week today.

The mighty Bearcats, bent on an unprecedented third straight national championship, made their season record last week with a Missouri Valley Conference victory over Bradley.

The Bearcats' success in Cincinnati has prompted the AP's sports panel to name Cincinnati as the nation's top college basketball team.

CHEVROLE...the Quality truck!

Start at the rear of this Fleetline pickup. Grab the tailgate and pull hard. No give. Two wedge latches hold it tight. No unfasten them and let down the tailgate. The rear suspension is light rubber shock absorbers wrapped in rubber so they won't squeak or rattle.

Now look at the lower side panels. Two walls. You might think the inside one isn't worth a look through. The floor will never rust. It's solid as a steel cylinder engine.

Now look at the top of this Fleetline pickup. Grab the tailgate and pull hard. No give. Two wedge latches hold it tight. No unfasten them and let down the tailgate.

Tickets Available For Ladies' Night

Frank Schoenberger, general chairman for the 19th annual Ladies Night of the Town Fire Department, said today that all reservations should be made for the dinner-dance by Feb. 2.

Tickets for the Feb. 8 event to be held at the Garden Grove starting at 6:30 p.m., are available at all firehouses.

The affair, which will honor the firemen, will feature a steak dinner, followed by dancing to the music of the Doolittle Bro. Orchestra.

Assisting in planning the Ladies Night are Cletio Zauligo, secretary, and Thomas McKinney, treasurer.

All committee members are asked to meet tomorrow night at 8 at the Co. 1 firehouse on Pine St.

Bank to Open in May

South Windsor's first bank will open in May, according to present plans.

Jean E. Shepard, bank president, said bids for construction of the building will be invited in February. It will be located at the corner of Governor's Highway and Rt. 8. Jeter and Cook, Hartford architects, designed the colonial structure of red brick with white trim. Its interior furnishings will be contemporary. The bank will occupy about 2,000 sq. ft. of the street level area, renting about 1,200 sq. ft. in two units. The basement will house a conference room, vault, employees' lounge and storage area. Under the rental units, a community room to seat 18 persons is planned. Roy R. Browning, executive vice president of the bank, said today its services will include checking accounts, loans, savings accounts, safe deposit boxes, and a drive-up window.

Group in New York Today

Seeking More Federal Aid

Town officials and business men met at the Municipal Building last night to discuss their trip today to seek further federal aid for Manchester.

The town has already had more than \$1 million set aside should it approve the renewal project currently being planned for the North End.

This morning 13 Manchester residents departed for a three-hour meeting with the Urban Renewal Administration of the Housing and Home Finance Agency.

Representing the town are General Manager Richard Martin; Everett Keith, chairman of the Manchester Redevelopment Agency; Martin Alvord, chairman of the town Planning Commission; Dr. Theodore Powell and Robert Stone, both town directors; Joseph Czerwinski, a member of the parking authority; and Edward Rybicki, executive director of the redevelopment agency.

Representing the merchants, who are supporting a second redevelopment project for the town's downtown area, are:

Frederick Neasft, president of the Chamber of Commerce; Bruce Watkins, Joseph Gorman, George Marlow, all town merchants; and Robert L. Brock, executive vice president of the Chamber of Commerce.

A third area of town, the Cheney Mills building complex, is also being investigated as a renewal prospect. If the MHPA cannot qualify

either of these areas for renewal without further studies, the town has indicated a willingness to have studies made.

The redevelopment agency has asked the town directors to appropriate \$2,000 for this purpose.

The town delegation will also ask federal authorities today if other forms of federal assistance are available to the town.

The impetus for today's trip came from Director Powell. He noted at a recent JERA meeting that the agency look into the possibility of projects for Main St. and the Cheney Mills area. He also suggested the trip to New York to convince federal officials there that the town was serious in the plans for further redevelopment projects.

The impetus for today's trip came from Director Powell. He noted at a recent JERA meeting that the agency look into the possibility of projects for Main St. and the Cheney Mills area. He also suggested the trip to New York to convince federal officials there that the town was serious in the plans for further redevelopment projects.
